The accounts are made up annually to June 30, and those for 1913-14 were submitted in April, 1915. No dividend has yet been paid on either class of shares, but debenture interest has been duly met. For the year 1910-11, which was practically a time of experimental working, general receipts exceeded working charges (exclusive of debenture interest, paid by the government under its guarantee) by £3,066, against which was set a deficiency of £1,487 brought forward, leaving £1,578, which was carried forward; for 1911-12 there was a credit to net revenue account (not including interest on the debentures, which was paid by the government under its guarantee) of £13,686, of which £13,534 was written off (being net loss on the working of the first and second sections prior to July 1, 1908, less profit on the working of the third section prior to May 1, 1910), leaving £152 to be carried forward; in respect of 1912-13 (excluding debenture interest, which was paid by the government) there was a loss of £11,295, thus converting the credit balance brought down into a debit of £11,142; and in respect of 1913-14 (excluding debenture interest, which was paid by the government) there was a profit of £1,649, reducing the debit balance brought down to £9,493. Traffic on the company's line was seriously hampered for a considerable portion of the year 1911-12 owing to heavy snow storms, which occasioned several washouts; the report for that year stated—"The negotiations with the Chilian Government having for their object an arrangement by which the government would assist the company to put the line into a condition to enable it to be worked efficiently and economically all the year round, have not yet been completed, but are being continued, and the board still hope that a satisfactory arrangement may be reached"; in November, 1915, it was officially stated that the negotiations with the government were then still proceeding. Voting power, one vote for every share of either class. Director's qualification, 25 shares of either class. Transfer form, common; fee, 2s. 6d. Colombia Railways and Navigation Company, Limited.—*Directors:* J. M. R. Francis, C. F. Kennedy, A. S. Marks, J. H. Simon and H. W. E. Storey. *Secretary:* F. Thomas. *Office:* 62, London Wall, E.C.—The Cartagena (Colombia) Railway Company, Limited, was registered March 24, 1906, to take over and work concessions granted by the government of Colombia for the construction of a railway, 105 kilometres in length, from Cartagena to Calamar, on the Magdalena River. The concessions are for a period of 100 years from 1894, with the right to the government to purchase the railway at a valuation at the expiration of 50 years or 75 years from 1894, and if not so purchased to receive 15 per cent. of the net profits during the last 25 years of the concession; if not previously acquired the railway reverts to the government at the end of the concession without payment. The company also acquired the pier, docks, wharf and terminal facilities of the port of Cartagena, constructed under a concession granted by the Colombian government, and conferring the right to work the same during a period of 99 years from 1891 with stipulations similar to those of the railway concession as to acquisition by the government. Moreover, the company received 5,000 acres of freehold land on the railway; and the right to select and take as freehold 250,000 acres of any unappropriated land in the republic. The Colombia Navigation Company, Limited, was registered June 10, 1909, and acquired the undertakings of companies carrying on a steamboat business on the River Magdalena, Colombia, together with wharfage at Barranquilla, Calamar, Bodegas de Bogota and Carocoli (the whole of the capital, except seven shares, of the Colombian Navigation Company was allotted to the Cartagena (Colombia) Railway Company). In 1912, the railway company's revenue having suffered severely from the drought in Colombia, in consequence of which the navigation of the River Magdalena was almost suspended, default took place in payment of interest, and as the result of prolonged negotiations a scheme was brought forward in June, 1913, under which the Cartagena (Colombia) Railway Company and the Colombia Navigation Company have been amalgamated, although, owing to litigation, the scheme did not go through until late in the year. The amalgamation was effected by the transfer to the Railway company of the Navigation company's properties. The capital is now as under; under the reorganisation scheme power has been taken to create 6 per cent. prior lien bonds for £250,000, but none of these have yet been placed :—

£750,000 Shares of £1, fully paid.

£426,000 Navigation first mortgage 6 per cent. debentures of £20 and £100 each. They are secured by a specific mortgage on steamboats and other vessels, with freehold and leasehold properties, and are also a floating charge on all the assets of the company in priority to the Railway debentures. Interest is payable January 1 and July 1, and the debentures are to be redeemed through a redemption fund of £6,399 per annum, to come into operation in 1918. Interest is being regularly met.

£750,000 Railway 5 per cent. first mortgage debentures of £100 each, secured by a specific charge (subject to the prior lien bonds when issued) on certain concessions and other property, with a floating charge on the other assets pledged to the prior lien and Navigation debentures. Interest is payable March 31 and September 30, and the principal is repayable at par March 31, 1990. Interest on these debentures is to be dependent on profits, and is to rank as to 2 per cent. per annum immediately after the Navigation debenture interest, and as to the remaining 3 per cent. per annum after provision has been made for a renewal and repair fund of £5,000 per annum, and for the reduced Navigation redemption fund of £6,399 when it comes into operation in 1918. Interest is to be paid in cash as far as the profits will allow, and the balance by the issue of deferred interest warrants, and such deferred interest warrants were issued for arrears of interest up to March 31, 1913, while each of the coupons due September 30, 1913, and March 31 and September 30, 1914, was paid as to £1 in cash and £1 10s. in deferred interest warrants, but the whole of the coupons due March 31 and September 30, 1915, was paid in deferred interest warrants.

£108,750 Deferred interest warrants, to be redeemed out of profits, by tender, by purchase below par, or by drawings at par, after debenture interest has been paid in full, and sums of

£5,000 per annum have been provided respectively for the insurance fund and the repair and renewal fund, and, after June 30, 1918, £6,399 per annum for the Navigation debenture redemption fund.

The accounts are to be made up annually to June 30, and submitted in November. Interest is being duly paid on the Navigation debentures, but only in part on the Railway debentures, as stated above. In the year to June 30, 1915, the gross earnings amounted to £243,722, as compared with £302,572 for the preceding twelve months, and in the three months to September 30, 1915, to £65,035, as against £71,500. Voting power, one vote for every share. Director's qualification, for other than directors appointed or approved by the Railway or Navigation debenture holders (who do not require to hold any qualification), 500 shares or £500 of Railway or Navigation debentures. Colombian Central Railway Company, Limited.—*Directors:* H. Lovegrove (Chairman) and P. C. Matts. *Secretary:* E. A. Green. *Office:* 9, Bishopsgate, E.C.—The company was registered December 15, 1905, to acquire a concession granted by the Colombian government for the construction of a railway 105 kilometres in length. The concession is for ninety-nine years (dating from 1898), with power to the government at the end of the first fifty years to buy the railway at a valuation, and if this right is not exercised the government has power to purchase the line at the expiration of a further twenty-five years at half the value, while, if not previously acquired, the line is to revert to the government at the end of the ninety-nine years, without compensation. The concession carries with it a subvention of £1,998 per kilometre, payable in bonds, which are redeemable in gold at the customs houses of the republic. The authorised capital is £300,000 in shares of £10, all of which has been issued to the vendors as fully paid. There has been registered a mortgage deed for £750,000 debenture stock, bearing 6 per cent. interest, of which £105,000 has been allotted, and £20,000 has also been issued to the Colombian Northern Railway Company, against that company's guarantee of interest as below, and £29,665 as security against the amount due to the contractor. Interest on the debenture stock is payable March 1 and September 1, and the principal is repayable at 110 per cent. at any time after March 1, 1959, on six months' notice, while any stock not previously redeemed is to be repaid on December 31, 1996, at 110 per cent.

The accounts are made up annually to June 30, and submitted in December. The Colombian Northern Railway Company, Limited, guaranteed the payment of interest on the first £105,000 of debenture stock issued, during the period of five years from September 1, 1906. About 15 kilometres of railway have been constructed, and were opened for traffic on June 5, 1907; the construction of the remainder of the line is being held over pending negotiations with the Colombian government for an alteration in the concession and an amended contract. In the year 1911-12 there was a profit on working the line, exclusive of debenture interest, of £1,492. Debenture interest was paid to September 1, 1911, when the Colombian Northern guarantee expired, but that due March 1, 1912, and since has not been paid, and to June 30, 1912, £16,902 was owing to the Colombian Northern in respect of advances under the guarantee as above, and £23,452 was owing to the contractor. The secretary was appointed receiver in February, 1913. No report has recently been received, but this notice has been officially revised. Voting power, one vote for each share. Director's qualification, none required. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in sums of £5 and multiples. Telegraphic address, Mandatum, London. Telephone number, 1371 London Wall.

Colombian National Railway Company, Limited.—*Directors:* R. H. McCarthy, C.M.G. (Chairman), S. Restrepo and R. Villamizar (the last two appointed by the government). *Secretary:* A. Delgado. *Office:* 195, Dashwood House, New Broad Street, E.C.—The company was registered June 19, 1899, to acquire a concession granted by the government of the Colombian Republic for the exclusive right to construct and work a railway, about 86 miles in length, to connect Bogota with the port of Girardot on the Magdalena River. The government undertook to give a subsidy equal to £3,200 per mile (since largely surrendered), together with a land grant of 123,000 acres of public lands, to be selected by the company in blocks of 2,500 acres or more. During the first forty years of the concession there is no option of government purchase; at any time during the succeeding twenty-five years the government may purchase the railway at a price to be agreed upon or fixed by arbitration, and if the government does not exercise this right of purchase the company is to continue in possession for a further period of twenty-five years, but during the latter twenty-four years the government may purchase at one-half the full value of the undertaking, such value to be fixed by arbitration. The company is given—certain monopolies; the free use of any lands belonging to the nation required for the railway; exemption during the life of the concession from all import duties on all materials required for the construction and working of the line and its accessories; exemption from national, departmental or municipal duties which exist or may exist in respect of any property possessed by the company for the service of the railway; and the right to construct certain branch lines. In 1913 offers were made by the Colombian government to the holders of the four classes of debentures to exchange them for 6 per cent. bonds of the government, and these offers were accepted by the bondholders as stated below under each issue of debentures. The railway bonds given up are kept alive by the government, and their lien on the railway remains in force. The capital is as under:—

£900,000 Shares of £1, fully paid. Of this amount the government received £300,000.

£200,000 Six per cent. first mortgage registered debentures, issued in October, 1899, at par, secured by a first charge on the whole of the company's undertaking and lands, with interest payable January 1 and July 1, and the principal repayable in whole or in part (now) at any time at 110 per cent., while in the event of the company going into voluntary liquidation the debentures are not to be repaid at a lower figure than 110 per cent. The debentures are in amounts being multiples of £10, and interest on them is now guaranteed by the Colombian government, being payable at the company's office. It is provided that the company shall, before June 30 and December 31 in each year, pay into

such bank as may be nominated by the trustees, to their account, the sum required to provide the half-year's interest due July 1 and January 1 respectively following, any default by the company in meeting these engagements to be immediately made up by the government. The above is the total authorised.

Interest is being regularly paid by the Colombian government. Of the total of £200,000 of these debentures £191,760 is now held by the government, the holders of these having accepted the offer made in April, 1913, to exchange for government bonds, as stated above.

£400,000 Second mortgage debentures to bearer of £100 each, of which £100,000 were issued to the concessionnaire, and the remaining £300,000 were issued to the contractors in respect of construction work; the interest dates are May 30 (for seven months) and October 30 (for five months), and the debentures are redeemable on October 30, 1929, at 110 per cent., with the right to the company of earlier redemption (subject to the first debentures having been paid off) by drawings at 110, or by purchase at under 110, while in the event of voluntary liquidation they are to be redeemed at not less than that price; out of the net profits of the company £14,000 per annum is to be set aside for a sinking fund, which will provide for the redemption of all the first and second debentures within a period of thirty years. The above is the total authorised, and payments on the debentures are made at the company's office.

Interest due October, 1909, and since is in arrear. Of the total of £400,000 of these debentures £393,900 is now held by the government, the holders of these having accepted the offer made in January, 1913, to exchange for government bonds, as stated above.

£430,000 Six per cent. third mortgage debentures (now called customs guaranteed bonds) of £20 and £100 each, issued to the contractors in 1907, in respect of construction work, but their position was partially altered by a new contract entered into in January, 1908, with the government, the bonds being now styled 6 per cent. customs guaranteed bonds, and in May, 1908, Messrs. Steer, Lawford and Co., 11, Throgmorton Avenue, E.C., were authorised by the owners of the bonds to offer for sale £350,000 of the issue at 81 per cent. They are secured on the same properties as, but subject to, the first and second debentures, have interest payable March 30 and September 30, and the principal is repayable March 1, 1949, from a sinking fund of not more than £10,000 per annum (as far as the net earnings of the company will permit), which may be applied at any time on one month's notice, to purchases of the debentures in the market below par, or to annual drawings at or above par, while in the event of liquidation the debentures are not to be redeemed at a lower figure than par. Interest on the bonds is paid at the Anglo-South American Bank, Limited, Old Broad Street, E.C., and is secured by the guarantee of the Colombian government, contained in two contracts dated March 11, 1907, and January 10, 1908—under the first contract the government undertook to deposit with bankers in London the sum of £12,900 at least sixty days before each half-yearly date of payment, and by the contract of January 10, 1908, the government charged 3 per cent. of the national customs revenue of the republic as security for the interest to become due upon the customs guaranteed bonds until they are paid off or redeemed, any deficiency to be met from the general revenue. In exchange for the guarantee of interest by the government on the third debentures the contractors surrendered certain subsidy bonds, and also provided £165,000 of shares to bring up the government holding to one-third of the share capital. Under the arrangement of 1910, by which the government guarantee was given, no alteration was made in the general rights of the debentures. The above is the total authorised.

Interest is being paid by the Colombian government, usually on the due date. Of the total of £430,000 of these debentures £311,120 is now held by the government, the holders of these having accepted the offer made in February, 1913, to exchange for government bonds, as stated above.

£450,000 Customs guaranteed 6 per cent. debentures (1908) of £20 and £100 each (called fourth debentures). These debentures were sold by the company in 1908, while in October, 1908, the London City and Midland Bank, Limited, Threadneedle Street, E.C., was authorised to receive applications on behalf of Messrs. Dunn, Fischer and Co., 41, Threadneedle Street, E.C., for £250,000 of the debentures at 80 per cent., the coupons of which are payable January 1 and July 1 by the London City and Midland Bank, and the remaining £200,000 of the debentures, completing the total authorised of £450,000 of the debentures was sold in Paris, where interest is payable. For the repayment of the debentures a sum of £4,500 is to be provided annually by the Colombian government as a sinking fund, not later than November 1 in each year, commencing in 1920, such sinking fund to be applied to drawings or to purchases in the open market or otherwise. The Colombian government guarantees the interest, principal and sinking fund, and has hypothecated for the purpose 4 per cent. of the customs revenue of the country, any deficiency of such 4 per cent. to be made good out of the general revenue of the country. The government has undertaken to deposit a sufficient sum for the half-yearly coupons at least sixty days before such coupons become due. The amount of the debentures is limited to £450,000. A part of the proceeds of this issue was applied to capitalise the accumulation of arrears of interest on the second debentures, and to reimburse the government and others for sums paid in respect of previous interest.

Interest is being regularly paid. Of the total of £450,000 of these debentures £318,600 is now held by the government, the holders of these having accepted the offer made in February, 1913, to exchange for government bonds, as stated above.

£549,238 Advances by the government of Colombia.

The line is 86 miles in length; the company took over 25 miles of completed line, about 15 miles were finished towards the end of 1903, and 12 miles in February, 1905, and the line was opened

throughout in September, 1909. The original contractor died in 1900, and the contract was subsequently taken over by the Railway Concessions and Contract Company, Limited, but this arrangement was cancelled in 1908, and the construction of the line has since been completed by the company under the control of the government. The accounts are made up annually to December 31, and those for 1913 were submitted in December, 1914. For 1912 the gross receipts were £99,900, and the total revenue £100,034, against which were set working and administration expenses, £19,276 for repairs and maintenance of line and buildings, &c., and £6,684 for repairs and maintenance of equipment, leaving a profit on working of £49,748, while after allowing for interest on all four classes of the debentures, and on advances, a deficiency of £218,189 brought forward was increased to £280,841. For 1913 the gross receipts were £127,311, and the total revenue £127,595, and, after charging working and administration expenses, and allowing for interest on all four classes of debentures and on advances, there was a deficiency of £46,338, increasing the debit balance brought down to £327,179. In the year 1914 the gross earnings were £123,194, as against £127,311 in 1913, and in the ten months to October 31, 1915, £104,242, against £103,111. Voting power, one vote per share. Director's qualification, £250 of shares. Transfer form, common; fee, 2s. 6d. per deed. Share warrants to bearer are issued for any number of shares on payment of the stamp duty and a fee of 2s. 6d. per application, and such warrants may be re-exchanged for registered shares on payment of a fee of 2s. 6d. per application. The first and second debentures and the customs bonds are quoted in the official list. Latest price of shares, 9½d.

Cordoba Central Railway Company, Limited.—*Directors:* Lord Farrer (Chairman), G. W. Hoghton (Managing Director), F. Holt, P. Norman and R. Popkiss. *Secretary:* N. Stuart. *Office:* 3, St. Helen's Place, E.C.—The company was registered August 11, 1887, to acquire a concession granted by the provincial government of Cordoba in the Argentine Republic. In 1889 the company acquired by purchase from the Argentine government a railway formerly known as the Central Northern section, and this road and the original line were worked down to 1912 practically as separate undertakings. In 1899 the undertaking of the North West Argentine Railway Company, Limited, was acquired, while in 1903 the company obtained a concession for the construction of a narrow-gauge line connecting the Cordoba Central Railway, through the Cordoba and Rosario Railway, with the city and port of Buenos Ayres, and this concession was transferred to a separate, although allied, company, the Cordoba Central Buenos Ayres Extension Railway, Limited. During the latter part of 1912 a scheme was brought forward and approved by the proprietors, and has been carried into effect, for the acquisition by the Cordoba Central Railway Company of the Cordoba and Rosario Railway Company, and the Cordoba Central Buenos Ayres Extension Railway; fresh classes of capital were created into which the old capital issues of the Cordoba Central, the Cordoba and Rosario and the Cordoba Central Buenos Ayres Extension were exchanged, the conversion taking effect as from January 1, 1913, from which date also the Cordoba Central Company entered into an agreement with the Argentine Railway Company, under which the latter was to manage and control the Cordoba Central system, and to give to that system certain guaranteed minimum amounts of traffic. In the autumn of 1914 the Argentine Railway Company found itself, owing to the financial crisis consequent upon the European War, unable to meet its liabilities under the working agreement, in cash, and as a result of negotiations the working agreement was cancelled as from December 2, 1914, and, in settlement of all claims on either side, the Argentine Railway Company handed over to the Cordoba Central Railway Company 5,000 fully-paid shares of 500 francs each of the Compagnie Française des Chemins de Fer de la Province de Santa Fé, equivalent in nominal amount to £100,000.

The company is subject to clauses 8 and 9 of the Argentine National Railway Law (No. 5,315) passed on September 30, 1907 (commonly called the Mitre Law), which provide that the company shall be free from duties on imported materials, and from national, provincial and municipal taxation, until January 1, 1947, in consideration of the payment of 3 per cent. of the net receipts (to be used for the construction and improvement of access roads and road bridges to the stations, such net receipts being determined by deducting 60 per cent. from the gross receipts as working expenses). The government has the right to vary the tariffs when for three consecutive years the gross receipts exceed 17 per cent. on the recognised capital and the working expenses do not exceed 60 per cent.; should the working expenses exceed 60 per cent., a proportionate increase of the limit of 17 per cent. is allowed before the government can intervene.

The total length of the line owned by the company is 1,186 miles. The company has no monetary guarantee and all the lines belong to the company in perpetuity. In the latter part of 1913 the company acquired a controlling interest in an Argentine electric light and power undertaking, and this interest was subsequently transferred to the Tucuman Tramways, Light and Power Company, Limited, in which the Cordoba Central Railway Company holds £155,000 of 5 per cent. debenture stock, £97,000 of 6 per cent. cumulative preferred shares, £156,000 of 6 per cent. participating second preferred shares, and the whole of the deferred capital of £100,000. The capital is as under:—

£8,000,000 Four per cent. first debenture stock, ranking as a first floating charge on the entire undertaking, present and future. Interest is payable April 1 and October 1, and the stock is redeemable upon six months' notice at any time at 105 per cent., which is also to be the price of redemption in the event of the voluntary liquidation of the company for the purposes of reconstruction or amalgamation. The total authorised is at present £8,000,000, but there is power to the company to create further stock ranking pari passu with the £8,000,000 for an amount at the rate of £3,000 per mile of

additional line acquired by the company, or of new line for the time being constructed or in course of construction or about to be constructed (including the extra track taken at £3,000 per mile where existing lines are doubled, or at the rate of £1,000 per mile of line where a third rail is laid, or the gauge altered to broad gauge or standard gauge) in excess of the mileage belonging to the company in operation on January 1, 1913, with power also to create in respect of further expenditure on capital account further 4 per cent. first debenture stock to the extent of £100 in respect of every £100 of first preference income stock created in excess of £2,500,000, at a like rate in respect of every £100 of second preference income stock created in excess of £2,500,000, and at a like rate in respect of every £100 of ordinary income stock created in excess of £5,000,000.

£5,000,000 Four-and-a-half per cent. second debenture stock, including £700,000 issued in March, 1913, at 81 per cent., and £1,250,000 issued in March, 1914, also at 81 per cent., the stock being charged, subject to the above-mentioned first debenture stock, on the entire undertaking of the company, present and future. Interest is payable January 1 and July 1, and the stock is redeemable on six months' notice at any time at 105 per cent., which is also to be the price of redemption in the event of the voluntary liquidation of the company for the purposes of reconstruction or amalgamation. The present total authorised is £5,000,000, but power has been reserved to the company to create further similar debenture stock ranking pari passu with the existing stock for an amount at the rate of £3,000 per mile of additional line acquired by the company, or of new line for the time being in course of construction or about to be constructed (including the extra track taken at £3,000 per mile where existing lines are doubled, or at the rate of £1,000 per mile of line where a third rail is laid or the gauge altered to broad gauge or standard gauge) in excess of the mileage belonging to the company in operation on January 1, 1913, with power also to create in respect of further expenditure on capital account additional 4½ per cent. second debenture stock to the extent of £100 in respect of every £100 of first preference income stock created in excess of £2,500,000, at a like rate in respect of every £100 of second preference income stock created in excess of £2,500,000, and at a like rate in respect of every £100 of ordinary income stock created in excess of £5,000,000.

£248,600 Three-year 6 per cent. notes, part of £300,000 offered in December, 1914, at 97 per cent., forming part of £500,000 created. The notes are of £25, £100 and £500 each, have coupons payable June 15 and December 15, and are repayable at par on December 15, 1917.

£1,440,000 First preference income stock, ranking for 5 per cent. cumulative dividends and with priority as regards capital over the second preference and ordinary income stocks, while power is reserved to the company to redeem, or to require the holders thereof respectively to transfer the first preference income stock held by them upon six months' notice, at the price of 110 per cent. The total authorised is £2,500,000. The dividend on this stock is usually paid half-yearly in May and November, but there was no distribution in 1915.

£961,895 Second preference income stock, ranking after the foregoing for 5 per cent. dividends out of the profits of each separate year, and with priority as regards capital over the ordinary income stock, while power is reserved to the company to redeem, or to require the holders thereof respectively to transfer the second preference income stock held by them upon six months' notice, at the price of 103 per cent. Scrip for a further £700,000 of this stock has been issued under the amalgamation scheme, exchangeable on or after July 1, 1916, for stock of this issue, entitled to interest as from that date. The total authorised is £2,500,000. The dividend on this stock is usually paid half-yearly in May and November, but there was no distribution in 1915.

£3,961,196 Ordinary income stock, entitled to receive the balance of profits of the company available for dividend after payment of all prior charges. Power is reserved to the company to redeem, or to require the holders thereof respectively to transfer the ordinary income stock held by them, upon six months' notice, at the price of par. The total authorised is £5,000,000, and in addition to the amount of £3,961,196, mentioned above, scrip for £107,424 has been issued under the amalgamation scheme, exchangeable on or after July 1, 1917, for ordinary income stock, and entitled to interest as from that date.

£107 Shares of £1 each, seven of which are held by the directors, and the remaining 100 are vested in trustees upon trust to exercise the voting rights thereby conferred in respect of extraordinary or special resolutions of the company in such manner as a majority of three-fourths of the holders of the first preference income stock, the second preference income stock and the ordinary income stock shall by resolution in general meeting determine, provided that when the company shall redeem, or require the holders of the said income stocks to transfer the whole or any one or more of the said stocks, the said new ordinary shares, or a rateable proportion thereof, shall be released by the said trustees from the trust.

The accounts are now made up annually to June 30, and submitted about October. With the assistance of £53,984 paid over by the Argentine Railway Company, being the sum provisionally agreed as due under that company's guarantee of additional traffic, there was an available balance for the half year to June 30, 1913, of £351,677, out of which interest on the debenture and preference stocks was paid, and 2½ per cent. per annum on the ordinary, and after making sundry other small deductions the balance of £11,496 was transferred to renewals reserve account. In respect of 1913-14 the Argentine Railway Company provided under its guarantee additional traffic of the net value of £18,369, leaving £106,630 to be provided by that Company in cash, which it was unable to do; excluding this £106,630 the Cordoba Central had a sufficient balance to meet (and paid) the full dividends on the first and second preference stocks for the year. As stated above, the working agreement with the Argentine Railway

Company was cancelled as from December 2, 1914, and of the £100,000 of shares of the Santa Fé Railway received from the former, £40,000 was transferred to renewals reserve account, and £60,000 was carried over to the credit of the holders of the ordinary income stock "to be held until such time as the same can be disposed of." A dividend at the rate of 5 per cent. per annum is guaranteed in perpetuity by portions of three baronies in county Cork. Of the 5 per cent., 2 per cent. is guaranteed by the Treasury, subject, however, to the line being worked. Sums advanced under the guarantee are to be repaid out of net earnings in excess of the guarantee, and any deficit on working would fall on the baronies. The accounts are now made up annually to December 31, and submitted in February. "Net earnings are over 3 per cent., and would be much more, but heavy items are charged to revenue, which should be capital." The guaranteed dividends are paid in March and September. Debit to capital at December 31, 1914, £37,054, partly provided by temporary loans. The line is 65¾ miles in length, and 28 more miles are worked under agreements.

A scheme is to be brought forward for the consolidation of all the preference stocks into one consolidated guaranteed 4 per cent. cumulative preference stock, which will not involve any increase in the amount of dividends paid at present.

For the first and second halves of 1904 the ordinary stock received 2 and 3 per cent. per annum respectively; for 1905, 2½ and 3; for 1906, 2¾ and 3½; for 1907 and 1908, 2¾ and 3½; for 1909, 2¾ and 3¾; for 1910, 3 and 4; and for 1911 and 1912, 3¾ and 4. The dividend on the baronial stock is guaranteed for 35 years from July 1, 1881, by the baronies of Bere, Bantry, and part of the barony of the west division of West Carbery. Counsel's opinion has been given that on the expiration of the baronial guarantee, on April 30, 1916, net receipts, after meeting debenture interest, will have to be applied as follows :—(1) In payment of a dividend on the A or baronial guarantee stock; (2) in paying back to the baronies the amount contributed by them; (3) in paying a dividend on the B or ordinary stock, while the relative position of the A and B stocks will remain the same as long as there is any money due to the baronies, and as soon as the baronies are paid off the A and B stocks will rank pari passu for dividend. The line is 11¼ miles in length, and is worked by the Cork, Bandon and South Coast Railway Company; the gross receipts until they amount to £5,000 per annum are to be applied by the Bandon Company in paying in the first instance interest on the debenture capital, and the balance remaining after such payment in or towards defraying the working expenses of the Bantry Extension, while when the total revenue amounts to £5,000 per annum, and does not amount to £5,500, the Bandon Company is entitled to 90 per cent. of the total revenue remaining after paying debenture interest, the percentage being reduced as the revenue increases until it is 52 per cent. of a revenue of £7,500 and upwards. The accounts are made up to June 30 and December 31, and submitted in August and February. Debenture interest and the dividend on the baronial guarantee stock are met, but there is nothing for the ordinary capital. The dividends on the guarantee stock are paid April 1 and October 1. The gross earnings in 1910 were £5,965 (when £843 was contributed towards the baronial guarantee dividend); in 1911, £5,963 (when £843 was contributed towards the baronial guarantee dividend); in 1912, £5,905 (when £831 was contributed towards the baronial guarantee dividend); in 1913, £6,159 (when £1,322 was contributed towards the baronial guarantee dividend); in 1914, £5,903 (when £830 was contributed towards the baronial guarantee dividend); and in the first half of 1915, £2,982 (against £2,553 in 1914). Amount advanced by the baronies to December 31, 1914, £58,027. Voting power, one vote for every £10 of ordinary or guarantee stock up to £100, one vote for every £50 beyond up to £1,000, and one for every £100 beyond. Transfer form, common; fee, 2s. 6d.; stocks are transferable in multiples of £10.

By an act of 1896 holders of ordinary shares have the option at any time of dividing their holdings into deferred shares and preferred shares of £10, half of each class; dividends are declared on the ordinary capital as if undivided, and on the amount accruing to the divided portion the preferred shares rank first in respect of each half-year for a dividend of 4 per cent. per annum, the deferred taking the balance; the ordinary capital is now represented by £53,600 undivided shares of £20, £32,370 preferred shares of £10, and £32,370 deferred shares of £10. Costa Rica Railway Company, Limited.—*Directors:* Lord St. Davids (Chairman), H. Allen (Vice-Chairman), R. Miller and F. Witting. *Secretary:* A. J. Shepherd. *Office:* Dashwood House, E.C.—The company was registered April 22, 1886, to take over the existing lines in Costa Rica, and construct additional lines. The existing lines were the property of the government, and were being worked by Mr. M. C. Keith under lease. In 1885-6 Mr. Keith effected an arrangement between the Costa Rica government and the bondholders of the external debt of the republic, and the railway company was the outcome of this agreement. The government transferred its railways for a period of 99 years from the completion of the new lines, free of any rent or charge, and conveyed to the company 800,000 acres of land, in consideration of the allotment to the government of one-third, and to the government bondholders of about one-third, of the company's share capital. The government was entitled to a moiety of the net proceeds of the lands, but the right of sale, leasing and management was given to the company for 20 years; on the expiration of this period (April 21, 1904) the residue of the lands not sold or utilised reverted to the government. All rolling stock and other things necessary for the construction and working of the line can be introduced free of customs duties, and the tariff on goods is made payable in Costa Rica gold. The execution of the new works was undertaken by Mr. Keith, and in consideration thereof, and the transfer of the concession, &c., he was to receive all the first and second debentures, and about one-third of the share capital.

As from July 1, 1905, the working of the company's undertaking, until the termination of the concession, less two months, has been transferred to the Northern Railway Company of Costa Rica, incorporated under the laws of New Jersey, U.S., on the terms that the railway shall be maintained in good working order, and the right to construct branches transferred to the Northern Company, which paid to the Costa Rica Railway Company £131,100 for the year to June 30, 1906, a similar sum for 1906-7, £135,600 for 1907-8, a similar sum for 1908-9, £140,100 for 1909-10, £144,600 for 1910-11, £149,100 for 1911-12 and 1912-13, and is to pay £149,100 per annum for 1913-14 and thereafter; these sums being subject to increase in the event of the prior mortgage debentures being increased beyond £380,000 up to £400,000. Cúcuta Railway Company.—This company was formed in 1865 under Colombian laws, for the purpose of constructing a highroad through the valley of Cúcuta to Puerto Villamizar, a port on the river Zulia, and subsequently powers were obtained to construct a railway in the place of the road. The company has a concession from the Colombian government for a period of 99 years, dating now from 1876. During recent years the amortisation of the bonds has only been provided in part, the last drawing having been of £2,500 in June, 1915, leaving the amount outstanding at £14,100. Delhi, Umballa, Kalka Railway Company, Limited.—*Directors:* A. Izat, C.I.E. (Chairman), L. L. Cohen, Col. T. Gracey, C.S.I., and Sir F. R. Upcott, K.C.V.O., C.S.I. *Secretary:* E. A. Neville. *Office:* 237, Gresham House, Old Broad Street, E.C.—The company was registered January 25, 1889, to construct a railway (162 miles in length) under a contract with the Secretary of State in Council of India. Under the contract the Indian government undertakes the working of the line—which by a further contract has been transferred by the government to the East Indian Railway Company—for (now) 48 per cent. of the gross receipts. The government also provides all the land required for the line, and has power to take over the undertaking at the expiration (now) of 35 years from December 31, 1891, or at intervals of 10 years thereafter, on giving the company twelve months' previous notice, and paying a sum equivalent to twenty-five times 50 per cent. of the average yearly gross earnings of the line during the preceding five years (any advances from the Secretary of State to supplement earnings to be excluded in making the calculation). In settlement of a dispute as to certain through traffic, which this company considered it was entitled to, the Indian government has undertaken to supplement the net earnings of the company by such an annual subsidy as may be necessary to ensure to the proprietors a dividend of 3½ per cent. per annum on the ordinary capital of £800,000; after payment of the debenture and preference stock interest, surplus profits in excess of 3½ per cent. are to be divided equally between the government and the company, until any advances made by the government are repaid with simple interest at 3½ per cent., after which all the surplus profits belong to the company (no advances have been made by the government on this account). In 1908 an arrangement was made with the Secretary of State in Council of India for the construction of the Kaithal extension, 30 miles in length, all the conditions for which are similar to those for the original railway; this extension was opened in December, 1910, and the Secretary of State has sanctioned a further extension of about 40 miles, to be known as the Jhind Paniput exten-

sion, all the conditions being similar to those of the original line. The capital cost of the portion of this extension which lies in the Jhind state will, however, be provided by that state.

The authorised capital is now £1,000,000, £800,000 being in ordinary stock (formerly shares), and £200,000 in 4 per cent. cumulative preference stock (formerly shares), having a priority as regards capital, together with all arrears of dividends, the latter having been created late in 1908 for the purposes of the extension authorised in that year. All of the ordinary capital has been subscribed and paid up, and in November, 1908, all the preference shares (now stock) were allotted at par (less a commission of 8s. per share). There is power to issue £300,000 of debenture capital, and £200,000 was issued at 102 per cent. in March, 1890, and £100,000 in January, 1891, at 106, in 4 per cent. stock, with interest payable April 1 and October 1, and the principal repayable at 102 per cent. on December 31, 1916.

The accounts are now made up annually to September 30, and submitted in February. For the year to June 30, 1901, the dividend was 4¼ per cent.; for 1901-2, 4½; for 1902-3 and 1903-4, 5 each year; for 1904-5, 6; for 1905-6, 6½; for 1906-7, 1907-8, 1908-9, 1909-10 and 1910-11, 7, with a bonus of 1 per cent. in respect of the last-named year; for 1911-12, 8, with a bonus of 1½ per cent.; for the half-year to December, 1912, 5 per cent. (actual), including a bonus of 1 per cent.; for the nine months to September, 1913, 7½ per cent. (actual), including a bonus of 1½ per cent.; and for the year 1913-14, 10, including a bonus of 2 per cent. Reserve fund, £104,908; sinking fund to meet cost of the renewal of debentures, £33,750; carried forward, £12,930. On account of 1914-15 5 per cent., including a bonus of 1 per cent., was paid in July. Dividends are paid free of Indian, but subject to English income tax. Transfer form, common; fee, 2s. 6d. per deed; the ordinary, preference and debenture stocks are transferable in multiples of £1, with a minimum of £10. Telephone number, 9788 Central. The company is quoted in the official list. Latest prices—ordinary stock, 175; preference stock, 86; debenture stock, 98¾.

Demerara Railway Company.—*Directors:* R. A. Robertson (Chairman), E. B. Read (Deputy-Chairman), H. M. Sells and C. B. Hamilton, C.M.G. (Government Director). *Secretary:* H. G. McMurdie. *Offices:* 110, Cannon Street, E.C.—The company was incorporated in 1846. By a contract dated January 31, 1896, with the Crown Agents for the Colonies, confirmed by a special ordinance of the colony of British Guiana, dated July 22, 1896, the company undertook the construction of two extensions. The estimated cost of these extensions was originally £312,500, and the colonial government has agreed to pay such a sum as will be sufficient, with the earnings of these extensions, to make a total return equivalent to 4 per cent. per annum on the above capital sum; the guarantee is to run for fifty years, dating from July 15, 1900. In the event of the extensions at any time being worked at an excess of expenditure over receipts for three successive half-years, the government "shall" take over the extensions, upon payment of the capital issued therefor. The contract for the construction of the line names certain other contingencies under which the line might be relinquished to the government on payment of the contract sum, and as it was found early in 1900 that the extensions could not be completed for £312,500, the directors decided to stop work and claim that amount from the government. The matter, however, was disputed by the government, and in April, 1900, it was decided, while reserving all the rights of the company under the original contract, to resume construction, and the funds were provided by the issue of debenture stock. On July 31, 1913, a contract was signed between the government of British Guiana and the company for the construction of an extension of the West Coast railway from the then terminus at Greenwich Park to Parika, a distance of about 3½ miles, the same being confirmed by special ordinance of the colony of British Guiana dated November 15, 1913, in connection with which the government has established steamship services. The mileage of the extension is about one-sixth that of the West Coast railway as increased, and the contract provides for the payment by the company to the government from the time of the completion of the extension of one-sixth of the net revenue of the West Coast railway as extended, subject, however, to the clearing off of one-sixth of any loss which may have occurred in any previous half-year after the opening of the extension, while only in the event of the company failing to maintain and work the extension will the £16,000 provided by the government for the construction of the extension become a debt due by the company, and not then if the steamship services, above referred to, are not maintained. In the event of the acquisition of the original West Coast Railway by the government, the extension to Parika shall become the property of the government without any consideration. The original line (opened in 1846) is 21½ miles in length, and the new lines, consisting of the Berbice and West Coast railways, are of a total length of 57½ miles; 54 miles of the latter have been in operation throughout since July 15, 1900, and the remaining 3½ miles (Parika extension) since July 2, 1914. The capital is as under:—

£165,000 Ordinary stock.

£115,000 Seven per cent. perpetual preference stock, cumulative. Arrears of dividend on this stock to December, 1906, amounting to 28 per cent., were funded as stated below.

£312,500 Four per cent. extension preference stock, issued in April, 1897, to provide funds for the construction of extensions as stated above. The stock is a first charge on the government subsidy above mentioned and the net revenue of the new railways (subject to the debenture stock). The dividend is cumulative, and was paid out of capital during construction.

£32,200 Preferred ordinary stock, issued in June, 1908, in respect of arrears of dividend on the 7 per cent. preference stock, amounting at December 31, 1906, to 28 per cent. The stock ranks for 3½ per cent. dividends on the earnings of each separate year ending December 31, after payment of all dividends on the preference stock, with the right of conversion at any time, on one month's notice, into ordinary stock.

£70,000 Four per cent. perpetual debenture stock, issued in July, 1901, at par, with interest payable April 30 and October 31. The stock is secured by a first charge on the entire net revenue of the company, including the government subsidy for the extensions. In the event of the colonial government acquiring the extensions the sum of £312,500 is to be paid to the

company, and in that event the holders of the debenture stock are to have the option of being paid off by the company at par out of that sum, or of continuing their holdings secured on the original line alone.

The accounts are made up to June 30 and December 31, and submitted about October and April. For the six half-years to December 31, 1903, only the dividend on the extension shares was paid; for the half-year to June, 1904, 2 per cent. per annum was paid on the preference stock; to December, 1904, 6; to June and December, 1905, 4; to June, 1906, 5; and for the three half-years to December, 1907, the full rate of 7, leaving arrears amounting to 28 per cent., which were funded into preferred ordinary stock, referred to above. For the first half of 1908 the preference stock got the full rate, but nothing was paid on the preferred ordinary; in respect of the second half of 1908 the preferred ordinary stock received its full rate of 3½ per cent. for the whole year 1908, and the ordinary stock 4 per cent. per annum for the second half of the year; for 1909 and 1910 the ordinary stock got 2 per cent. per annum for the first half of the year and 4 for the second half; for 1911, 2 and 3; for 1912 and for both halves of 1913 and 1914, and the first half of 1915, the preference and preferred ordinary dividends were paid, but nothing on the ordinary. Renewal and contingency funds, £16,637; carried forward, £1,491. Voting power, one vote for every £17 10s. of stock (other than debenture stock) up to £87 10s., and one for every £87 10s. beyond up to £875; maximum, fourteen votes. Director's qualification, £350 of any class of capital other than debenture stock. Transfer form, common; fee, 2s. 6d. per deed; stock is transferable in any amount not under £1. Telegraphic address, Valonia, Cannon, London. Telephone number, 2584 City. The company is quoted in the official list. Latest prices—extension preference stock, 77½; debenture stock, 72.

Shepard and J. F. Vaile. *London Agents:* John K. Gilliat and Co., 7, Crosby Square, E.C. *Head Office:* Denver, Colorado, U.S.—The accounts are made up annually to June 30. In 1914-15 the net surplus, after providing for fixed charges and setting aside $273,044 to sinking and renewal funds, and $211,045 for additions and betterments, was $934,640, and at the close of the year the credit balance stood at $8,970,650; the above surplus of $934,640 was exclusive of interest accrued in the year 1914-15, but unpaid, on $25,000,000 of Western Pacific Railway second mortgage bonds in the treasury, besides which the Denver Company was, at June 30, 1915, interested in the Western Pacific Railway to the extent of $62,500,000 of shares, $75,000 first mortgage bonds, and $17,923,369 notes (all the securities owned of the Western Pacific Railway, with the exception of the first mortgage bonds and $3,670,454 of notes, are pledged). The Western Pacific Company defaulted in interest due on the first mortgage bonds on March 1, 1915, and receivers were appointed. In the two months to August 31, 1915, the net earnings were $310,510 in excess of fixed charges, as against a deficiency of $36,470 in 1914. By an act obtained in 1889 certain portions of the line, as originally intended, were relinquished, and power was obtained in 1897 from parliament to issue further debenture stock for the purpose of doubling the line, and to write off revenue debits to capital. By act of parliament obtained in 1903 arrears of interest on loans were capitalised into 3 per cent. debenture stock, and by another act obtained in 1914 arrears of interest on the 4 and 5 per cent. debentures were likewise capitalised into 3 per cent.

Interest on the £166,000 debenture stock is in perpetuity a first charge on the gross receipts of the lines worked by the Great Western Company, any sums paid by the Great Western (in excess of the 40 per cent. of the receipts) to be repaid out of future earnings.

Dorada Extension Railway, Limited.—*Directors:* N. G. Burch (Chairman), R. Cooper, T. L. C. Pilditch (Managing Director and Secretary), P. C. Quilter and G. R. T. Upton. *Office:* Finsbury Pavement House, E.C.—The company was registered April 11, 1905, in reconstruction of the

Dorada Railway Company, Limited, registered April 16, 1888, and with a view to extending the line. The old company acquired a concession from the Colombian government for a railway 22 miles in length, the government giving a subsidy of $7,000 per kilometre on the original line, and $10,000 per kilometre on extensions to Dorada, and in 1905 the new company obtained a new concession for a further extension to Girardot (the section to Ambalema, 51 miles, only is at present being worked, having been opened for traffic in September, 1907). The government has the option of purchasing the railway in 1961 at a valuation, while, should this option not be exercised within a period of twenty-five years from 1961, the government is to have the right of purchase during the ensuing twenty-four years at one-half of the valuation, and at the expiration of the latter period the lines revert to the government without payment. Including 50 miles of extensions, opened in September, 1907, there are now in operation 71 miles.

In order to secure a preponderating interest in a kindred company the shareholders in February, 1913, authorised an issue of £150,000 second mortgage bonds to bearer, of £100 each, and a contract has been entered into with certain parties to purchase the bonds as funds are required, at the price of 92½ per cent., and bonds for £90,200 have so far been placed; coupons on the second mortgage bonds are payable June 1 and December 1, and the principal is repayable at par June 1, 1918.

The authorised capital, including loans, is £300,000, and £100,000 has been issued in 4 per cent. guaranteed stock, which is entitled to the benefit of a guarantee of £4,000 a year out of the revenues of the general undertaking of the Dublin and South Eastern Railway Company; debit to capital at December 31, 1914, £159,485, provided by loans. The New Ross and Waterford extension is 13½ miles in length, and is worked as a separate undertaking. City of Dublin Junction Railways.—By acts of parliament of 1884, 1887, 1894 and 1897, the Dublin and South Eastern Railway Company is authorised to issue in respect of the above railways £450,000 capital, including loans. The entire ordinary and preference capital of £300,000 has been issued in stock, £75,000 (£50,000 4 per cent. preference, and £25,000 ordinary) being dependent on the earnings of the Junction railways, while on the remaining £225,000 4 per cent. interest is absolutely guaranteed in perpetuity—£4,000 per annum by the Dublin and South Eastern Railway Company, £3,000 by the City of Dublin Steam Packet Company, and £2,000 by the Great Northern (of Ireland) Railway Company; these guarantees rank immediately after the debenture charges of the respective companies. There is also 4 per cent. debenture stock for £124,230, dependent on the earnings of the line, while a further £6,000 of stock has been issued as cover for a temporary loan. The guaranteed dividend is calculated to June 30 and December 31. The line is 1¼ mile in length, and was opened May 1, 1891; it is managed by a committee of directors of the three guaranteeing companies, and worked by the Dublin and South Eastern Company for 40 per cent. of the receipts, the accounts being kept quite separate. Duluth, South Shore and Atlantic Railway Company.—*Directors:* A. B. Eldredge (President), W. W. Walker (Vice-President and General Manager), J. O. Bloss, W. A. Bog, G. H. Church, W. F. Fitch, R. Y. Hebden, I. G. Ogden, W. H. Peck, J. W. Sterling and W. F. Stevenson. *Office:* Marquette, Michigan, U.S.—In 1888 the control of the company was acquired in the interests of the Canadian Pacific Railway Company, and in 1890 a permanent traffic arrangement was entered into with the Canadian Pacific, involving a guarantee by the Canadian Pacific of the interest on the 4 per cent. first consolidated mortgage bonds, the amount of which is limited to $20,000,000 on the 580 miles existing when the mortgage was created, but may be increased for new lines at the rate of $20,000 per mile. The line owned is 603 miles in length. So far $15,107,000 of these bonds has been issued (all held by the Canadian Pacific Company, and against which Canadian Pacific debenture stock has been issued), the balance being retained against an equivalent amount of pre-existing bonds; interest is payable in New York or London February 1 and August 1, and the principal falls due August 1, 1990. The share capital is $12,000,000 common and $10,000,000 6 per cent. non-cumulative preferred, all the shares being of $100; the Canadian Pacific holds $6,100,000 of the ordinary, and $5,100,000 of the preferred, besides $3,000,000 (all) income certificates, and bonds as above. and in 1914-15, $557,083 short, the debit to profit and loss standing on June 30, 1915, at $6,052,325. Owing to its being necessary to defray out of revenue some considerable expenditures, interest due to the Canadian Pacific on the bonds it holds in the Duluth Company has fallen largely into arrear, the total of such arrears amounting at June 30, 1915, to $8,637,915.

A majority holding of the share capital is owned by the Canadian Northern Railway Company. Registers of the stock are kept in London and Toronto, and transfers can be made from one register to the other; transfers on the London register are effected on common forms, and in sums of £1 and multiples, the fees for transfers on the London register, or for transfers from one register to the other being 2s. 6d. In 1890 and 1894 power was obtained to abandon the construction of portions of the line as originally intended, and the authorised capital was simultaneously reduced, being now, inclusive of loans, £348,600. Of this amount £117,000 has been issued in ordinary shares of £10 and stock, £131,000 in 4 per cent. preference stock, and £91,405 in debenture stock (£67,905 bearing 3¾ per cent., and the balance 4¼), and there are rent charges of about £742 per annum. East Indian Railway Company.—*Directors:* Sir F. R. Upcott, K.C.V.O., C.S.I. (Chairman), Lt.-Col. R. Gardiner (Deputy-Chairman), Sir D. M. Barbour, K.C.S.I., K.C.M.G., Sir H. P. Burt, K.C.I.E. (Government Director), F. M. Halliday, Lord Kilbracken and A. B. Miller. *Secretary:* C. W. Young. *Office:* 28-30, Nicholas Lane, E.C.—As from January 1, 1880, the company's property was transferred to the Secretary of State for India under arrangements which left to such proprietors as so elected continued interest in the working for a term of years; these arrangements were modified in 1899 as stated in the notice of the deferred annuities below, this being the only security affected. By the act of 1895 the company has unexercised borrowing powers on debentures or debenture stock for not exceeding £1,950,000. The capital statement is as follows:—

A annuities, being titles to £1 per annum, payable April 1 and October 1, and altogether ceasing February 14, 1953. Amount per annum, £224,265. Of the total amount of the annuity, holders of £117,231 13s. 2d. have assented to a proposal (the option being still open on payment of an equivalent sum to that deducted from the annuities payable to those who have already assented to the proposal) for the formation of a sinking fund to secure to them on the termination of the annuity the repayment of the capital sum represented by such annuities. This sinking fund came into operation October 1, 1892, and reduced each £1 of annuity to 17s. 6d.; the 2s. 6d. deduction, it is estimated, will suffice on the termination of the annuity to pay off the holders at the rate of £22 4s. 5d. for every £1 of annuity. Annuitants assenting to this proposal are known as class C; those who have not assented are in exactly the same position as before. Amount of C sinking fund at March 31, 1915, £487,450.

B annuities, being titles to £1 per annum, payable April 1 and October 1, less 1s. 4d. per £, which is invested and placed in trust on the assumption that at the end of 73 years from 1880 it will, on division, pay off the annuitants at the rate of £22 4s. 5d. per £1 of annuity. In any case the annuity then ceases. Amount per annum, £624,900 13s. 4d. Sinking fund at March 31, 1915, £2,708,920.

Deferred annuities, being titles to £4 per annum (per £100 of deferred annuity capital), payable (now) on February 1 and August 1, with rights to participation in the surplus profits of the line, such surplus profits being also distributed on February 1 and August 1. Under the agreement of 1879 this participation was fixed at one-fifth for a term of not less than 20 years and not more than 50 years (from January 1, 1880), such arrangement to be terminable at the end of 20, 25, 30, 35, 40 or 45 years on either side giving two years' notice. In 1899 a fresh contract was signed (dating from January 1, 1900) by which the arrangement cannot be terminated before the lapse of 20 years from January 1, 1900, and the company is to receive out of the surplus profits of any half-year one-fifth of the first 25 lakhs of rupees, and one-fifteenth of any excess of surplus profits above 25 lakhs. When the arrangement is terminated, either before or at the expiration of the 50 years fixed as the maximum term, this deferred annuity capital is to be exchanged for A annuities, ceasing February 14, 1953, at the rate of £4 10s. A annuities for each £100 deferred annuity capital. Amount, £6,550,000 deferred annuity capital. Holders of £4,905,328 10s. capital have exercised the option of coming into a proposal for the formation of a sinking fund to secure to them on the termination of the annuity in 1953 the repayment of the capital sum represented by such annuities. This sinking fund came into operation January 1, 1893, and takes 11s. 3d. per cent. per annum from the dividend accruing to the stock, which deduction is made half-yearly, and will, it is estimated, suffice on the termination of the annuity to pay off the holders at the rate of £100 for every £100 of stock. Those now exercising this option have to pay a sum equivalent to that deducted from the annuities payable to those who have already assented to the proposal. Annuitants assenting to this proposal are known as class D. Amount of D sinking fund at June 30, 1915, £932,281.

The stock is guaranteed both as to principal and interest by the Secretary of State.

Except as regards the rate of interest and the date of redemption, which is August 4, 1937,

and that transfers are free of stamp duty, this stock is identical in all respects with the above-mentioned 3 per cent. new debenture stock.

£3,500,000 Four-and-a-half per cent. debenture stock, issued through the Bank of England in May, 1915, at 99 per cent., both interest and principal being guaranteed by the Secretary of State. The stock ranks pari passu with the above 3 and 3½ per cents.

105,967,166 Rupees advanced by the Secretary of State at March 31, 1915.

The railway is 2,445 miles in length, and is now conducted by the holders of deferred annuities, while the total length of line operated by the company is 2,770 miles. The line is leased in perpetuity to the London, Brighton and South Coast, the South Eastern, the London, Chatham and Dover, the Metropolitan, the Metropolitan District, and the Great Eastern Railway companies, the lease dating from October 1, 1884. The amount of the annuity was £139,162 5s. 3d.; being at the rate of £6 3s. 4·79d. per £100 on the consolidated stock of the company (£2,255,480). Of the total amount of the annuity £64,225 16s. 3d. was class A, and £74,936 9s. was class B. Holders who elected to take class B receive the same as those who went into class A, less a further reduction of 10s. 4d., this sum being retained as a contribution to a sinking fund, which, it is presumed, will, by the expiry of the annuity, amount to £150 7s. 8½d. per £100 stock, that having been the basis of the sale to the Secretary of State for India (this works out at about £24 7s. 6d. per £1 of annuity). Thereby the B annuity is reduced to £5 11s. 1·423d. The stock is limited to $7,000,000 (or £1,438,356, all issued), representing a bonded indebtedness of $20,000 per mile of railway, but the company may issue further stock or guaranteed securities in respect of additional lines of railway to be hereafter constructed by the company in the Province of Alberta for such sum, not exceeding $20,000 per mile, as may be authorised by the legislative assembly of the Province of Alberta, under the provisions of the act 1911-1912, chapter 16, provided that, before such securities can be issued, the guarantee by the Province of the payment of the principal and interest thereof must first have been authorised by the legislative assembly of the Province of Alberta, and such guarantee must have been given pursuant to such authority, and that supplementary mortgages or deeds covering the said additional lines must be taken to the trustee as directed by the said act. The authorised capital is $1,000,000 in shares of $100, of which $250,000 has been subscribed and paid up. All payments are made by Lloyds Bank, Limited, 71, Lombard Street, E.C. (warrants for interest being sent by post at the holder's risk), where the register of the stock is kept, and transfers are effected on common forms, in multiples of £1, on payment of a fee of 2s. 6d. per deed, which is also the charge for registration of death. The debenture stock is quoted in the official list; latest price, 81.

Egyptian Delta Light Railways, Limited.—*Directors:* Sir W. E. Garstin, G.C.M.G. (Chairman), Major W. I. Le Breton (Managing Director), W. Home, C.I.E., R. Miller and M. Sharpe—all in London; Scander Pasha Fahmy—in Egypt. *Secretary:* F. J. Horne. *Office:* 211, Gresham House, E.C.—The company was registered March 4, 1897, to acquire a concession granted by the Khedive of Egypt for the construction of narrow-gauge railways of a total length of 400 kilometres, since extended to 500 kilometres (312 miles), and in 1903 the company obtained concessions for extensions of 125 miles of the original line. The Egyptian government guarantees annual net receipts of £36 per kilometre (£58 per mile), 60 per cent. of gross receipts to be deducted for expenses in Egypt for maintenance, &c., and the guarantee commenced on each 25 kilometres as opened, while it is agreed, by fresh arrangements made in 1902 3, that, after providing for the working and upkeep of the line, the service of the debentures, and the amortisation of the shares, 5 per cent. of the balance of surplus profits is to be set aside to the reserve fund to provide against extraordinary and unforeseen expenses (this fund being limited to one-tenth of the share and debenture capital), and there is then to be deducted a sum sufficient for the distribution of 5 per cent. to the shareholders, the surplus remaining to be appropriated—as to 40 per cent. to the government, and 60 per cent. to the company. In April, 1900, an agreement was come to for the purchase of the undertaking and assets of La Compagnie des Chemins de Fer Economiques de l'Est Egyptien as from September 30, 1900, but effective control was not assumed until December 1, 1900. La Compagnie de l'Est Egyptien owned a concession from the Egyptian government of a very similar character to that granted to the Egyptian Delta Company, comprising the right to construct light railways of a total length of 976 kilometres (610 miles).

Under the original concessions the railways were to revert to the government without payment in 1972, and the government retained the option of earlier purchase, but by the new agreement entered into in 1913 the government agreed to the cancellation of the reversion of the concessions in 1972, thereby making them indeterminate except by purchase so long as the company carries out its obligations, and the government further agreed to the postponement of the right of purchase from the year 1927 to the year 1938, and the substitution of new terms of purchase, which will ensure the repayment in full of the whole of the share and debenture capital should such right of purchase be exercised. In 1904 the company acquired the undertaking of the Metropolitan and Cairo-Helouan Railway Company, but this line was transferred to the government in 1914 under the agreement entered into in 1913. By the agreement of 1913 entered into with the Egyptian government the company is relieved of sinking fund contributions necessary up to then, amounting to £16,743 per annum, but on the other hand the company is required under the agreement to increase considerably the expenditure on the maintenance of the property, which for a time will, it is estimated, practically absorb the savings on sinking funds. In consideration of their agreeing to the sale of the Cairo-Helouan property, and the other modifications of the concession, holders of the 4 per cent. debentures

had their rate of interest raised from 4 to 5 per cent. inclusive of the payment due October 1, 1914. The capital is as under:—

£110,000 Deferred shares of £10, fully paid, being the authorised amount. For dividend rights see preference shares.

£1,040,780 Preference shares of £10, fully called, the total authorised of the preference capital being £1,250,000. The preference shares have a priority over the deferred as to capital, and rank before the deferred for cumulative dividends of 5½ per cent. per annum, the surplus then remaining to be divided—one-half amongst the preference shares, and one-half amongst the deferred. There were formerly provisions for a sinking fund for these shares, but these were extinguished under the agreement with the Egyptian government entered into in 1913.

£563,300 Five (formerly 4) per cent. debentures to bearer of £100 each (being the total authorised), £170,000 having been issued at par in April, 1897, £100,000 (through Messrs. Arbuthnot, Latham and Co., 33, Great St. Helen's, E.C.) in June, 1900, at 98 per cent., £50,000 in March, 1904, at 95½, £10,000 in April, 1904, at par, £23,000 in April, 1904, at 95, £107,000 in May, 1904, at 96, £20,000 in 1907 at 97½, £75,000 in 1908 at 92 net, £8,300 in 1910 at 96 net, £46,400 in July, 1914, at from 97 to 98½, and £67,300 in March, 1915, at 95 to 95½. Coupons are payable April 1 and October 1 by the Bank of England. There was formerly a sinking fund for these debentures, which was applied to purchases in the market, but under the agreement entered into with the Egyptian government in 1913 this arrangement was cancelled, and the debentures are now irredeemable except in a winding-up of the company. The debentures rank as a first charge on all the company's properties now or hereafter acquired, subject only to the debentures referred to below, secured on the properties of the Est Company.

£250,000 Three-and-a-half per cent. debentures to bearer of £20 each, issued by La Compagnie de l'Est Egyptien. Coupons are payable January 1 and July 1, and the debentures are redeemable by 1969 at par by annual drawings in January, commencing in 1901. All payments are made in London, Paris, Amsterdam, Brussels, Geneva, Cairo and Alexandria. The debentures rank as a first charge on the properties purchased from the Est Company. Amount outstanding, £231,860.

The accounts are now made up annually to March 31, and submitted in August. For 1904-5 4 per cent. was paid on the preference shares; for the half-year to March, 1906, 2½ per cent. (not per annum); for 1906-7 and 1907-8, 5½ each year, but nothing on the deferred; for 1908-9, 4 per cent. on the preference; for 1909-10, 2 per cent. on the preference; for 1910-11, 3½ per cent. on the preference; for 1911-12, 4¾ per cent. on the preference; for 1912-13 and 1913-14, 5 per cent. on the preference; and for 1914-15, 2½ per cent. on the preference. General reserve fund, £4,859; carried forward, £32,295. On an issue of the preference shares being made in 1899, coupons representing 4s. 5d. per share of arrear dividends on the pre-existing preference shares were issued, to be redeemed out of future earnings after payment of the preferential dividend for each year, but before any arrears of dividends accumulating subsequent to March, 1899; in connection with an issue of preference shares in April, 1900, further coupons were issued for arrears of dividend on the preference shares up to May 16, 1900, these representing on the original issue 3s. 4d. per share, and on the issue of March, 1899, 1s. 9d. per share; on the issue of preference shares to the shareholders of La Compagnie de l'Est further coupons for arrears of dividend were issued to holders of the original and second issue of preference shares representing 1s. 1d. per share, and on the third issue 5d. per share; in 1905 coupons for arrears of dividend to September 30, 1904, were issued, representing 14s. per share on 63,324 shares, 1s. 4d. on 11,113 shares, and 1s. on 11,103 shares; in 1906, coupons for arrears of dividend to March 31, 1906, were issued, representing 3s. 6d. per share on 85,540 shares and 7d. on 18,538 shares; in December, 1909, coupons for arrears of dividend to March 31, 1909, were issued, representing 3s. per share; in October, 1910, coupons for arrears of dividend to March, 1910, were issued, representing 7s. per share; in October, 1911, coupons for arrears of dividend to March, 1911, were issued, representing 4s. per share; in October, 1912, coupons for arrears of dividend to March, 1912, were issued, representing 1s. 6d. per share; in October, 1913, coupons for arrears of dividend to March, 1913, were issued, representing 1s. per share; but the coupons for arrears of dividend to March, 1914 and 1915, have not yet (November 11, 1915) been issued. From April 1 to October 10, 1915, the gross earnings were £81,440, as against £100,317 in the same period of 1914.

Voting power, one vote for every share of either class. Director's qualification, 25 shares of either class. Transfer form, common; fee, 2s. 6d. Holders of registered shares may obtain share warrants to bearer for one or five shares on payment of stamp duty of 1½ per cent. and a fee of 1s. per warrant, and share warrants to bearer may be re-exchanged into registered shares on payment of a fee of 2s. 6d. for the first bearer warrant, and 1s. for each warrant after. The preference shares, and 5 per cent. debentures are quoted in the official list. Latest prices—preference, 6¼; debentures, 95.

Emu Bay and Mount Bischoff Railway Company, Limited.—*Directors:* R. M. Cunningham (Chairman), C. H. Hale, A. Studholme, M. B. Snell and H. Wyatt. *Secretary:* J. F. Halford. *Office:* Blomfield House, E.C.—The company was registered June 29, 1887, to take over a railway, 48½ miles in length, constructed by the Van Diemen's Land Company. The authorised capital is £60,000 in shares of £5, all of which has been subscribed and paid up, and there is 4½ per cent. irredeemable debenture stock to the amount of £130,900 (part of £150,000), with interest payable January 1 and July 1; in the event of liquidation the stock is to be repaid at par.

The accounts are made up annually to December 31, and submitted in January. As from October 1, 1897, the line has been leased to the Emu Bay Railway Company, Limited, formed in Tasmania for that purpose, and also for extending the line from Waratah to Zeehan, which extension was completed in December, 1900. The lease is for 99 years, during which period the line is to be maintained and worked by the Tasmanian Company, which was to pay an annual rental of £10,000. For each of the six years to 1913 a dividend of 5 per cent. was paid on the share capital; and for 1914 2½ per cent. was paid as an interim distribution, a debit balance of £3,334 being then carried forward, as the Emu Bay Railway Company did not meet the rent of £5,000 payable to the

Mount Bischoff Company for the half-year to December 31, 1914, this £5,000 being placed to suspense. Reserve fund, £7,764. Interest on the Mount Bischoff Company's debenture stock has been met in cash to June 30, 1915. In January, 1915, the shareholders of the Mount Bischoff Company agreed to a temporary revision of the terms of lease to the Emu Bay Railway Company, as the directors of that company cannot see their way, until the mineral traffic (interrupted by the war) revives, to pay the rent due to the Mount Bischoff Company and the interest due to its own debenture holders in full. The scheme agreed to provides that until the June 30 or December 31, whichever occurs next after the expiration of two years from the signing of a treaty of peace in Europe, the net profits of the lessee company represented by cash available on December 31, 1914, and every subsequent June 30 and December 31 are to be applied (1) in payment of £4,000 each half-year to the Mount Bischoff Company, being four-fifths of the fixed rental; (2) in payment of £3,440 to the debenture holders of the Emu Bay Railway Company, being four-fifths of the interest due; (3) towards payment of the interest on the funding debentures (referred to below) and redemption of so much of such funding debentures as represents arrears of payments of £4,000 under clause 1; (4) towards payment of interest on the funding coupons to be issued to the debenture holders of the Emu Bay Railway Company and redemption of so many of such funding coupons as represent arrears of payments of £3,440 under clause 2, any balance to be divided between the Mount Bischoff Company and the debenture holders of the Emu Bay Railway Company in the proportion that £4,000 bears to £3,440 in payment of their full half-year's rent, while any ultimate balance is to be applied in the proportions above mentioned in redeeming the funding debentures and funding coupons which are to be issued to the Mount Bischoff Company and the Emu Bay Railway Company debenture holders respectively for any rent and any interest not paid in cash in any half-year. The new funding debentures to be issued as above by the lessee company are to rank pari passu as regards security with the debentures of the lessee company now outstanding, although they and the funding coupons are to rank after the old debentures for interest. The funding debentures and funding coupons are to carry 5 per cent. interest, and to be repaid (unless redeemed earlier) on the June 30 or December 31 next after the expiration of five years from the signing of a treaty of peace.

Voting power, one vote for each share. Director's qualification, 20 shares. Transfer form, common; fee, 2s. 6d. per deed. Telephone number, 12150 Central. The company is quoted in the official list.

Emu Bay Railway Company, Limited.—*London Director:* W. D. Reid. *London Secretary:* E. Habben. *London Office:* Palmerston House, E.C. *Head Office:* Melbourne.—The company was registered under the Companies Acts of Tasmania in 1897, for the purpose of constructing and working railways between the port of Burnie, Tasmania, and the mineral fields of Western Tasmania. As from October 1, 1897, the company has taken over on lease the railway of the Emu Bay and Mount Bischoff Railway Company, Limited, for 99 years; including that undertaking, the Tasmanian Company's main line is about 104 miles in length.

In 1907 5s. per share was written off the issued ordinary capital, and the authorised capital is now £535,000, £100,000 being in 8 per cent. preference shares of £1 (4 per cent. cumulative, and with a priority as to capital until 8 per cent. has been paid on the said shares for five years), £195,000 in ordinary shares of 15s., and £240,000 in ordinary shares of £1, and all the preference and 15s. ordinary shares have been issued and paid up. In July, 1899, there were issued, through the Bank of Australasia, 4, Threadneedle Street, E.C., at par, £200,000 5 per cent. first mortgage debentures to bearer, of £100 each; amount outstanding, £172,000 (£7,000 of these debentures formerly held by the company were transferred to the trustees for the debenture holders in payment for the sinking fund instalment due January 1, 1913; the sinking fund instalment due January 1, 1914, was not provided). Coupons on the debentures are payable January 1 and July 1 in London or Melbourne by the issuing bank, and the principal is repayable at par on January 1, 1924. By an agreement entered into in December, 1903, the sinking fund was postponed until January 1, 1911, and from that date onwards a cumulative sinking fund of £7,000 per annum was to be provided out of profits, applicable to purchases in the market at less than 110 per cent., or by drawings at that figure, while the company retained the option of redeeming the debentures at any time on six months' notice, at 110 per cent.

At a meeting of the debenture holders, held in London in February, 1915, resolutions were passed, the object of which was, broadly speaking, to give the power to suspend the payment of debenture interest in cash (as well as the rent due to the Emu Bay and Mount Bischoff Railway Company) until a period after the declaration of peace in Europe. Prior to 1915 the first charge on net earnings was the rent of £10,000 per annum payable to the Emu Bay and Mount Bischoff Railway Company, Limited; the next charge was £8,600 per annum for interest on the Emu Bay Railway Company's debentures of £172,000, and as the directors of the company could not see their way, until mineral traffic revives, to pay either of these annual charges in full, it was agreed that, until two years from the signing of a treaty of peace in Europe, the net profits of the company represented by cash available on June 30 and December 31 of each year should be applied so far as such cash would extend (1) in payment of £4,000 each half-year to the Emu Bay and Mount Bischoff Railway Company, that is, four-fifths of the rent; (2) in payment of £3,440 per half-year to the debenture holders of the Emu Bay Railway Company, that is, four-fifths of their interest; (3) towards payment of the interest on the funding debentures (referred to below), and redemption of so much of such funding debentures as represents arrears of payments of £4,000 under clause 1; (4) towards payment of interest on the funding coupons to be issued to the debenture holders of the Emu Bay Railway Company, and redemption of so many of such funding coupons as represent arrears of payments of £3,440 under clause 2, any balance to be divided between the Mount Bischoff Company and the debenture holders of the Emu Bay Railway Company in the proportion that £4,000 bears to £3,440 in payment of their full half-year's rent, while any ultimate balance is to be applied in the proportion above mentioned in redeeming the funding debentures and funding coupons which are to be issued to the Mount Bischoff Company and the Emu Bay Railway Company debenture holders respectively for any rent and any interest not paid in cash in any half-year. The new funding debentures to be issued as above by the lessee company are to rank pari passu as regards security with the debentures of the lessee company now outstanding, although they and the funding coupons

are to rank after the old debentures for interest. The old debenture sinking fund is to be suspended until five years after the declaration of peace. In accordance with this scheme, coupons due on the debentures on January 1, 1915, were exchanged in April, 1915, for funding coupons of £2 10s. each, and coupons due July 1, 1915, were paid on the due date at the rate of 4 per cent. per annum in cash, and 10s. in funding coupons. The total of rent debentures and interest coupons issued to July 1, 1915, was £6,000; both the funding debentures and the funding coupons carry interest at 5 per cent. per annum, and, if not paid earlier, are repayable on the December 31 or June 30 first arriving five years after the declaration of peace.

To the end of 1912 there were arrears of dividend on the preference shares, amounting to £29,331 16s. 11d., and in May, 1913, the preference shareholders agreed that about one-half of these arrears should be written off, and that the remaining arrears, where they did not amount to more than £10, should be paid in cash, and that funded certificates should be issued for the residue, with fractions of a £ in cash. The funded certificates (which rank next after the debentures) amount to £14,103, are in various amounts, rank for dividend at the rate of 6 per cent. per annum as from July 1, 1913, payable half-yearly on January 1 and July 1, and are repayable on June 30, 1923, with power to the company to pay a portion, or the whole, at any earlier date on giving three months' notice, while commencing with the year ending June 30, 1915, the sum of not less than £500 is to be set aside each year, and to be applied in purchasing certificates at or below par, or to redemption by drawings at par. In order to provide for the dividends as above, £7,400 was transferred from the reserve fund. As these funded certificates rank after the above-mentioned 5 per cent. first mortgage debentures, interest due on the funded certificates on January 1 and July 1, 1915, has not been paid, and no interest can be paid until the debenture holders are receiving their full interest and sinking fund.

The accounts are made up annually to December 31, and submitted in Melbourne in March. The line was completed in December, 1900. For the eight years to January, 1911, debenture interest was subject to a special arrangement, and late in 1914 another scheme was brought forward, as detailed above, under which payment of debenture interest and the rent due to the Emu Bay and Mount Bischoff Railway Company is being met partly in cash and partly in deferred securities. For 1907 1s. 11d. per share in respect of arrears was paid on the preference shares numbered 250,001 to 300,000 (known as A), and 1s. 7d. per share in respect of arrears on the preference shares numbered 300,001 to 350,000 (known as B); for 1908 and 1909 only debenture interest and rent charges were met; and for 1910, 1911 and 1912, 11d. per share was paid each year in respect of arrears on the preference shares known as A, and 10d. per share on the preference shares known as B. In 1913 all arrears of dividend on the preference shares were settled as stated above, and in respect of that year 4 per cent. was paid on the preference shares; and for 1914 no dividend was paid on either class of shares, there having been a loss, after charging debenture interest, of £4,576, which was transferred from the reserve fund, reducing that fund to £2,923. In 1909 there was a profit on working of £16,844; in 1910, of £18,832; in 1911, of £18,540; in 1912, of £14,128; in 1913, of £9,583; in 1914, a loss of £6,260; and in 1915 (to August) the gross receipts were £25,253, as against £36,238 in the same period of 1914. A register of ordinary and preference shares is kept in London, and shares may be transferred from Melbourne to London, and vice versâ. Transfer form in London, common; fee, 2s. 6d. Telephone number, 6425 London Wall. The debentures are quoted in the official list.

Entre Rios Railways Company, Limited.—*Directors:* F. Holt (Chairman), B. H. Binder, J. P. Clarke, Lord Farrer and A. H. A. Knox-Little. *Secretary:* W. H. Williams. *Office:* ~~2 St. Helen's Place~~ River Plate House, E.C.—The company was registered November 19, 1891, to take over a railway constructed by the provincial government of Entre Rios, and formerly granted as special security to holders of Entre Rios Central Railway 6 per cent. bonds for £1,530,800 and Entre Rios Central Railway Extensions 6 per cent. bonds for £1,745,600. In 1891 the province defaulted in payments on these loans, and negotiations were then entered into, the result of which was the formation of this company, whose shares (now stock) were issued in exchange for the above bonds. No government guarantee was given to the company, whose right of ownership, alike of the original line and of the extensions, is perpetual. In lieu of guarantees the bondholders had originally, the company received Argentine government bonds for £500,000 of the 6 per cent. funding loan, and from the Entre Rios province £350,000 in 5 per cent. bonds, all of which have been realised. In 1901 a concession was obtained from the provincial government for the construction of an extension of 72 miles, which was opened for traffic in June, 1902; in 1905, further concessions were obtained from the provincial government for the construction of branches 134 miles in length (completed in May, 1908), towards the cost of which the provincial government gave a subvention of $1,000,000 in bonds of the province, carrying 5 per cent. interest, and 1 per cent. amortisation; in 1908-9 a further extension of 33 miles was built; and in 1909 a concession was granted by the national government for an extension of 39 miles (completed late in 1911), towards the construction of which the national government gave a subvention of $7,246 gold per mile. The company now owns 730 miles of line, including a ferry route of 49 miles, connecting the Entre Rios Railways, via the Buenos Ayres Central, with Buenos Ayres direct. Negotiations are in progress for working the line constructed by the government between Diamante and the company's station at Crespo, and the further extension beyond the company's station at Hasenkamp. The company is exempt from all national and provincial taxes for periods of twenty years (from October 11, 1905) and thirty years (from November 13, 1905) respectively.

As from November 1, 1912, the management of the Entre Rios Company's system, including the ferry, was assumed by the Argentine Railway Company, under which the latter gave certain guarantees in relation to minimum dividends; in the autumn of 1914, however, the Argentine Railway Company found themselves, owing to the financial crisis consequent upon the European war, unable to meet its liabilities under the working agreement in cash, and, as a result of negotiations, the working agreement has been cancelled as from July 1, 1914, and, in settlement of all claims on either side, the Argentine Railway Company has handed over to the Entre Rios Railway Company 2,500 fully-paid shares of 500 francs each of the Compagnie Française des Chemins de Fer de la Province de Santa Fé.

In October 1904, a scheme was brought forward for dealing with the arrears of dividend on the 5 per cent. preference stock, these amounting to 39½ per cent., and in 1905 parliamentary power was

obtained for the funding of these arrears into second preference stock, holders of the old preference stock also receiving 5 per cent. in second preference stock as compensation for giving up, temporarily, their cumulative rights. The capital issued is as under, the company's power to borrow on debentures and debenture stock being limited to the amount of the issued ordinary and preference capital:—

£1,783,140 Ordinary stock, part of £2,000,000 authorised.

£2,000,000 Five per cent. first preference stock, being the total authorised. The dividend on this stock was formerly cumulative, but as from June 30, 1904, was non-cumulative until such times as full dividends on both classes of preference stock had been paid for three consecutive years. This result has been obtained, and the dividends are now again cumulative.

£734,049 Four per cent. non-cumulative second preference stock, part of £1,000,000 authorised.

£1,505,000 Four per cent. debenture stock (this particular stock being limited to an amount equivalent to one-third of the ordinary and preference capital issued), of which £800,000 was issued in August, 1905, at 90 per cent.; £250,000 in October, 1907, at 87½ per cent.; £150,000 in June, 1908, at 89 per cent.; £57,684 in July, 1910, at 93⅓ per cent.; £47,316 in June, 1911, at an average price of 94⅔ per cent.; and £200,000 in July, 1912, at 90 per cent. Interest is payable April 1 and October 1, and the principal is to be repaid at par April, 1986, but the company has reserved the option to redeem all or any of the debenture stock (now) at any time, at 5 per cent. premium, on six months' notice, the stock being also redeemable at the same premium in the event of the voluntary liquidation of the company before 1986.

£700,000 Five per cent. debentures (to bearer) of £100 each, ranking after the foregoing 4 per cent. debenture stock, of which £250,000 was issued in October, 1908, at 96½ per cent., £250,000 in November, 1909, at par, and £200,000 in November, 1910, also at par. Interest is payable June 1 and December 1, and the principal is repayable at par on December 1, 1950, but the company has reserved the right to redeem all or any of the debentures at any time after December 1, 1918, at par, on six months' notice.

£1,303,000 Five per cent. consolidated debenture stock, ranking after the above 5 per cent. debentures, issued in February, 1913, at 95 per cent., and since. Interest is payable March 1 and September 1, and the principal is to be repaid at par on March 1, 1973, but the company has reserved the right to redeem all or any of the stock at any time after March 1, 1920, at 105 per cent., on six months' notice, and the stock is also to be repayable at 105 per cent. in the event of the voluntary liquidation of the company prior to March 1, 1973. The proceeds of this issue were to be applied, amongst other things, in the improvement of the main line and the securing of it against flood damage in future.

The accounts are made up annually to June 30, and submitted in November, an interim report being usually issued in April (none in 1915). In 1904-5 arrears of dividend on the preference capital of 3½ per cent. were funded into second preference stock, as stated above; for 1904-5 and 1905-6 4½ per cent. was paid each year on the first preference; for 1906-7 the full rate of 5 per cent., together with 2½ per cent. on the second preference; for 1907-8 the full rate, together with 3 per cent. on the second preference; for 1908-9 the full rate, but nothing on the second preference; for 1909-10 the full rate, together with 1 per cent. on the second preference; for 1910-11 the full rate on the first and second preference, and 1½ per cent. on the ordinary; for 1911-12 the full dividend was paid on both preferences, but nothing on the ordinary. As from November 1, 1912, the management of the system was assumed, as stated above, by the Argentine Railway Company, Limited; for 1912-13 the full dividends were paid on the first and second preference stocks, under the guarantee of the Argentine Railway Company, but there was no distribution on the ordinary stock, a sum of £43,837 having been charged against income in respect of expenditure occasioned by floods, while an exceptionally large amount was spent on renewals. For 1913-14 only 2½ per cent. was paid on the first preference stock and 2 per cent. on the second preference stock; in respect of 1913-14, after meeting interest charges, there was a surplus on working of £76,424, of which £64,681 was distributed in April, 1914, in dividends for the half-year to December 31, 1913, on the first and second preference stocks, leaving £11,743, to which should have been added £53,494 due under the agreement with the Argentine Railway Company; the Argentine Company, however, was not in a position to pay this amount in cash, and has handed to the Entre Rios Company 2,500 fully-paid shares of 500 francs each in the Compagnie Française des Chemins de Fer de la Province de Santa Fé in settlement of all claims on either side arising out of the working agreement, and that working agreement has been cancelled as from July 1, 1914. In April, 1915, the directors announced that they were unable to declare interim dividends on the ordinary or preference stocks of the company. For the year ended June 30, 1915, the gross earnings were £455,100, as against £627,950 for the preceding twelve months, and for the period from July 1 to November 6, 1915, £173,400, as against £143,100 for the corresponding period of 1914.

Erie and Pittsburgh Railroad Company.—*Office:* Scott Building, Erie, Pennsylvania.—Shares of this company are known here. They are of $50 each, and amount to $2,000,000 (part of $4,500,000 authorised), besides $1,660,850 of 7 per cent. guaranteed shares (part of $2,500,000 authorised), and the funded debt is $4,428,801. The dividends on the shares are paid in New York in March, June, September and December—that on the guaranteed shares is paid without deduction, but that on the shares for $2,000,000 is subject "to a four (4) mill tax on a valuation which is made by the State Department," and reduces the dividend to about 6⅖ per cent. net. After payment of the charges

under the lease, there was a loss to the Pennsylvania Company in respect of 1910 of $50,595, in 1911 a loss of $151,242, in 1912 a loss of $46,222, in 1913 a profit of $38,332, and in 1914 a loss of $76,604.

No dividend has since been paid on either class of preferred shares, and no dividend has yet been paid on the common shares; all fixed charges are being met. Grand Trunk Railway Company of Canada.—*Directors:* A. W. Smithers (Chairman), Sir H. M. Jackson, Bart. (Vice-Chairman), E. J. Chamberlin (President), G. von Chauvin, J. A. Clutton-Brock, Col. F. Firebrace, W. M. Macpherson, Sir F. Schuster, Bart., and Sir W. L. Young, Bart. *Secretary:* H. H. Norman. *Office:* 203, Dashwood House, E.C.—The company was incorporated by special act of the Canadian Parliament in 1852. As from August 12, 1882, this company took the place of the old Grand Trunk and Great Western Railway Companies of Canada, and has at various times absorbed numerous subsidiary companies, including the Canada Atlantic Railway Company as from January 1, 1914. Under acts of the Canadian parliament obtained between 1884 and 1914 the debenture capital is not to require more than £2,306,198 per annum interest, and all debenture stock issued under these acts is to rank equally with the 4 per cent. debenture stock issued prior to the date of the act of 1884. The various acts authorising the stock provide that any bonds of subsidiary companies acquired or purchased by the issue of 4 per cent. debenture stock are to be held as collateral security for the 4 per cent. debenture stock holders. The guaranteed and preference stocks rank for dividends on the profits of each separate year, and the following clause of the Grand Trunk Railway Act of 1884 further defines the rights of the different issues :—"If for any half-year ending on the 30th day of June a dividend has been paid to any class of stock or share capital which, on making up the accounts for the year ending on the 31st day of December

following, it is found that the class of stock or share capital in question was not entitled to receive, then the excess shall be adjusted and repaid in the accounts of that 31st day of December if the same can be done, and if not, then in the accounts of the following, or any subsequent year." The company owns and leases 3,992 miles of road. The capital issues are as under, there being in addition £3,111,500 debentures held by the Canadian government, which has waived its right to interest (6 per cent.) thereon until 6 per cent. has been earned on the ordinary stock:—

£12,500,000 Four per cent. guaranteed stock (non cumulative), ranking for dividend after all debenture, bond charges and guarantees have been met. With a view to providing for future capital requirements power was obtained in 1903 and 1909 from the Canadian parliament to increase the amount of this stock, and the total authorised is now £12,500,000. In September, 1903, £750,000 was placed at 97½ per cent.; in May, 1904, £500,000 at 96½ per cent.; in 1905, £500,000; in 1906, £1,128,000, of which £1,000,000 was issued publicly in March, at par; in February, 1908, £1,000,000 at 92½ per cent.; in 1910, £482,433 was sold privately; in November, 1911, £1,250,000 was issued publicly, at 92 per cent.; in 1912, £375,000 was sold privately; and in 1913, £284,445 was sold privately.

The line is worked by the Grand Trunk Company, which gives Wellington bonds 30 per cent. of the gross receipts as interest, and sets aside a further 20 per cent. of extra traffic interchanged for redeeming bonds by drawings in May and November. The bonds were originally to mature July 1, 1891, but redemption now takes place as stated above. Great Indian Peninsula Railway Company.—*Directors:* Col. F. Firebrace (Chairman), J. E. Dallas (Deputy-Chairman), Sir H. P. Burt, K.C.I.E. (Government Director), Sir C. H. Armstrong, A. H. Campbell, J. F. Finlay, C.S.I., and H. C. E. Wenden, C.I.E. *Secretary:* R. H. Walpole. *Office:* 48, Copthall Avenue, E.C.—As from June 30, 1900, this railway became vested in the Secretary of State for India, who assumed all liability in respect of debenture debt, particulars of which are now included in this work in the statement of the Indian government debt. The capital stock of the company was £20,000,000; the average price of this stock during the three years ended August, 1899, was £174 5s. 11d. per cent., and on this the purchase was based. Of the total purchase consideration about one-twentieth has been provided by the issue of stock as stated below, and the holders, in respect of the remainder, had the option of taking either

A or B annuities. The A annuities expire August 17, 1948, while the B annuities are the same as the A, less deduction of a sum to be invested as a sinking fund, which it is calculated will produce as nearly as possible £174 5s. 11d. per £100 of old stock at the expiry of the annuity in 1948 (this works out at £26 2s. per £1 of annuity). The amount of A annuities is £242,847, and of B £1,025,669. Amount of sinking fund for B annuities on May 31, 1915, £5,260,101. The annuities are dealt in on the Stock Exchange as titles to £1 per annum of registered annuity, but in both cases there is a deduction of ¾d. per £1 per annum for expenses, and in the case of the B annuities a deduction of 5s. 8d. per £ per annum for the sinking fund. The amount of the annuity is receivable by the annuity trustees. Holders of A annuities have the option of converting into B annuities at any time on certain terms. The register of the annuities, which are transferable in amounts of £1 and multiples, is kept at the offices of the company, as above ; form, special or common ; fee, 2s. 6d. per transfer. Annuities must be described in transfers as follows :—"Annuity, class A (being part of the annuity created by the Secretary of State in Council of India, under the provisions of the Great Indian Peninsula Railway Purchase Act, 1900), subject to the deductions thereby authorised in the case of annuities class A." "Annuity, class B (being part of the annuity created by the Secretary of State in Council of India, under the provisions of the Great Indian Peninsula Railway Purchase Act, 1900), subject to the deduction (as allowed by the said Act in that behalf) of the sum of 5s. 8d. in the pound in respect of the sinking fund created by the said Act, and to the other deductions thereby authorised, but with the benefit of such sinking fund." The annuity trustees have adopted the provisions of the Forged Transfers Acts of 1891 and 1892, but no charge is made for the protection thus afforded.

Although the Great Indian and Indian Midland Railway Companies are now vested in the Secretary of State for India, they are both worked by the Great Indian Company, the total mileage included in this arrangement being 2,981¼. The contract is for 25 years from July 1, 1900, and the company is to receive one-twentieth of the surplus profits after deducting 2,00,00,000 rupees per annum, plus all interest charges in respect of money required for the undertaking after June 30, 1900, whether raised by the company or provided by the Secretary of State ; the account of surplus profits is now made up yearly to March 31, and any deficit in one year is not to be a charge against any subsequent year. The initial capital, all of which has been issued as fully paid, is £2,575,000 in stock, interest on which at 3 per cent. per annum is guaranteed by the Secretary of State, payable in January and July, the stock being also entitled to a share of the surplus profits from the working of the line, as stated above. This capital of £2,575,000 was made up of £1,750,000 obtained by the commutation of a portion of the Great Indian Peninsula Railway purchase consideration, and £825,000 was issued in exchange for £750,000 of the capital of the Indian Midland Railway Company, at 110. In July, 1908, there was issued through the Bank of England £1,000,000 of 3½ per cent. debenture stock at 96 per cent. under the guarantee of the Secretary of State for India in Council, and in June, 1910, £2,500,000 of similar stock was issued, also through the Bank of England, at 92 per cent., making the total issued £3,500,000 ; the interest dates are January 15 and July 15, warrants being transmitted by post, and the stock may be redeemed at par on or at any time after July 15, 1938, at the company's option with the consent of the Secretary of State on twelve months' notice. The sum of £2,500,000 has been advanced by the Secretary of State for India in Council at 3¼ per cent. interest.

The accounts are now made up to March 31 and September 30, and submitted in July and January. Transfer form, common ; fee, 2s. 6d. per transfer, stock being transferable in amounts of £1 and multiples ; transfers of 3½ per cent. debenture stock are free of stamp duty, although the old Great Indian Peninsula Railway 4 per cent. debenture stock, which now forms part of the Indian government debt, is subject to stamp duty. Stock must be described in transfers as "£3 per cent. guaranteed stock" or "3¼ per cent. debenture stock," as the case may be. The company has adopted the provisions of the Forged Transfers Acts of 1891 and 1892, but no charge is made for the protection thus afforded. Telegraphic address, Callian, Ave. London. Great Northern Central Railway of Colombia, Limited.—*Directors:* T. P. Gaskell (Chairman), Prince A. de Chimay (Belgium), N. G. Doyle, J. F. Toomer and T. H. Wilson. *Secretary:* W. Chaplin. *Office:* 123, Dashwood House, E.C.—The company was registered April 4, 1907, to acquire a charter and supplemental charter granted by the government of the Republic of Colombia, for the construction, equipment and working of a railway from Puerto Wilches to Bogotá, estimated at about 500 kilometres, the first section from Puerto Wilches to Bucaramanga being 154 kilometres. The charter has been granted for 99 years, and the government has the right to purchase the railway at any time after the expiration of 30 years, the price to be fixed by arbitration, but in no case to be "less than the amount of the value of the securities representing the guarantee of interest for the said railway issued and put into circulation." The government guaranteed interest at 7 per cent. per annum on £8,000 per kilometre for every kilometre of the lines which form the subject of the concession, equal to £560 per kilometre, and specifically allocated 5 per cent. of the customs receipts of the Atlantic ports for the payment of the guarantee (these receipts amounted in 1913 to about £105,000). Subsequently the government consented to the company issuing £9,600 per kilometre in 5½ per cent. bonds, the interest on which equalled £528 per kilometre, leaving £32 per kilometre for sinking fund. When the traffic on any section of the railway produces during ten consecutive years a sufficient sum to cover the interest guaranteed for that section, the guarantee of interest is then to terminate for that section. Moreover, the government has given under the charter a grant of 750 acres of land for every kilometre of railway built and open for traffic, the company to retain two-thirds of this land grant, the remaining one-third going to the original concessionaires. The company has a preferential right of acquiring and working mines, other than emerald mines, within a distance of 40 kilometres on either side of the railway, and the government is to make up any deficiency in earnings to meet working expenses, while any surplus of net receipts over expenses up to the amount of the guarantee is to go to the government. Any sum in excess of the guarantee is, after making provision for reserve, to be applied in providing for interest or dividends on further capital raised up to an amount equal to one-fourth of the government guarantee under the concession, and whatever sum then remains is to be apportioned—as to 25 per cent. to the government, as a refund of sums which may have been provided towards working expenses and administration, the balance of 75 per cent. to be divided equally between the government and the company. The company is exempt from import duties on all materials required for the construction and maintenance of the railway, and is free from departmental and municipal taxes.

The authorised share capital is £500,000 in shares of £1, of which £495,027 has been issued and paid up. In March, 1908, an issue of £153,500 of 5½ per cent. first mortgage bonds to bearer, of £20 each, was offered at 77 per cent. (a further £38,500 having been issued privately, making the total issue in England £192,000), and in all £498,480 of bonds has been placed, including those issued to Paris bankers. The bonds form part of a total authorised, in respect of the first 154 kilometres of the railway, of £1,478,400, with interest guaranteed by the Colombian government as above. The bonds are secured by a first specific charge on the first section of the railway and on the government guarantee and obligations in respect thereof, and by a first floating charge on the remainder of the company's undertaking; interest is payable January 1 and July 1. The company was to set aside on every January 1, commencing on January 1, 1911, such a sum for the service of the bonds as would, during the period of thirty years from that date, redeem bonds to the total nominal amount of £246,400, and in addition there was also to be set aside on every January 1, commencing with January 1, 1911, such a further sum for the service of the bonds as would, together with the first mentioned sum, enable all the bonds for the time being outstanding to be redeemed by January 1, 2006. The company could at any time prior to January 1 in any year apply the whole or any part of the said fund available for the redemption of bonds in purchasing in the market at any price not exceeding par so many of the bonds as should be obtainable.

The accounts are made up annually to June 30, and those for 1913-14 were submitted in May, 1915. So far only the first section of 154 kilometres from Puerto Wilches to Bucaramanga has been proceeded with; the first section of 20 kilometres of line was accepted by the government, and opened for public traffic on June 8, 1910. The works on the line beyond have been under construction, but owing to various causes the company has found it impossible to raise sufficient funds to continue the works in an economic manner, and they have been suspended. By the terms of the issue, interest on the bonds placed in Paris up to July 1, 1912, was paid out of capital, as well as that due on the English issue prior to the opening of the first section of 20 kilometres on June 8, 1910, since which date the interest on the English issue has been provided by the government, but there has been no later payment on the French portion.

After lengthy negotiations an agreement was come to on July 6, 1912, between the government and the company in regard to certain matters in dispute, and under this agreement the company was to issue new 5 per cent. bonds to the amount of £1,565,000, with interest and sinking fund guaranteed by the government, the new bonds to be also secured on the concession and undertaking. The new bonds were to replace the old issue, and also to provide funds for the completion of construction. Holders of both the English and French bonds were invited to deposit their securities with the company under the scheme of arrangement, and over 98 per cent. of the English bonds and over 91 per cent. of the French bonds have been deposited, scrip certificates having been issued thereagainst. Subsequently, however, the government raised questions as to the meaning of certain clauses, and in spite of continued negotiations and important concessions by the company the agreement has not been put into effect, and the company has withdrawn its staff from the railway works in Colombia, and claims, on behalf of the bondholders, creditors and shareholders, compensation for the losses and damage sustained through the failure of the Colombian government to carry out its obligations for arrears of interest during construction and loss on working, as well as for damages and compensation in connection with losses alleged to have been sustained through adverse statements made by a former agent of the government. The 1912 supplemental contract not having come into force the company bases its position upon the original concession of July, 1906. In December, 1914, the government signified its willingness to refer all matters in dispute to the arbitration of three gentlemen holding the rank of King's Counsel at the English Bar, and the necessary steps to proceed with the arbitration are being taken. The bonds deposited are still in the hands of the company, and the English and French bondholders still hold their scrip certificates.

The accounts are made up annually to June 30, and submitted in October. The dividends began at 4 per cent., were then raised to 5, still later raised to 6, and beginning November 1, 1898, were raised to 7, which rate has been continued; they are paid February 1, May 1, August 1 and November 1. On May 1, 1901, there was also paid an extra dividend of ½ per cent. from the surplus earnings of the Lake Superior Company, Limited, a corporation organised during the year 1899-1900 to own all the Great Northern Company's interest in certain outside concerns; in

November, 1907, an extra dividend of 1½ per cent. was paid from the same source (for distributions made on the ore trust certificates see below). After deducting dividends amounting to 7 per cent. on the share capital, there was a surplus in respect of 1914-15 of $3,821,412 of which $1,000,000 was transferred to the fund for permanent improvements and betterments, $193,319 was set aside for interest accrued on payments made on subscriptions for additional share capital, $531,331 was appropriated to cover renewal of Allouez Bay ore docks, &c., and $2,096,762 was transferred to profit and loss, which at June 30, 1915, stood at $50,446,801. In November, 1905, new shares for $25,000,000 were offered to the proprietors at par, in the proportion of one new share for every five old, these rights of subscription having been worth about $35 per old share. In December, 1906, ore trust certificates with no nominal value were allotted to the shareholders, without payment, at the rate of one ore trust certificate for every share, these certificates being valued by outside interests at the time as worth $86 each. In October, 1906, a contract was signed for the lease of the ore lands belonging to the Great Northern Railway Company to the United States Steel Corporation, but under the option reserved this lease was terminated. The iron ore properties are held by Messrs. L. W. Hill, J. N. Hill, W. J. Hill and E. T. Nichols as trustees, and the ore trust certificates mentioned above were allotted to the shareholders in the Great Northern Railway Company. The first distribution on these certificates was in September, 1907, when $1 per certificate was paid, and similar distributions were made in March, 1908, and September, 1909, and 50 cents each time in March, September and December, 1910, March, 1911, December, 1912, November, 1913, December, 1914, and December, 1915. The accounts of the iron ore properties to December 31, 1914, showed a balance of undistributed income of $3,819,715, all held in cash.

In 1901 the Northern Securities Company was formed to hold Great Northern shares and Northern Pacific shares, and acquired the greater part of the shares of both companies; in March, 1904, however, the United States Supreme Court declared the Northern Securities Company to be illegal, and in April-May, 1905, the bulk of its holding in Great Northern and Northern Pacific Railway shares was distributed amongst its shareholders. The capital of the Great Northern Company is now as under, besides which the company is jointly responsible with the Northern Pacific Railway Company for $215,227,000 of bonds (see separate heading in this work, "Northern Pacific—Great Northern Railway Companies"). The company acquired concessions, granted by the Spanish government, to build and work railways (of a total length of 299 kilometres) from Lorca to Granada and from Lorca to Aguilas, for 99 years from 1885, after which the lines revert to the government without payment. There is, however, an option of government purchase of the lines at any time before the expiration of the concession, on terms defined therein. The government granted a cash subsidy equivalent (at par of exchange) to about £532,000 (payable by instalments as the works proceeded), but beyond this the company has no financial assistance from the government. The line now owned (all in operation) is 104 miles in length, the concession to construct a railway about 86 miles in length, from Baza to Granada, with a subvention (at par of exchange) in respect of that section of about £287,000, having been transferred to the Granada Railway Company, Limited.

In July, 1894, it was decided to reconstruct the company, and in 1904 a similar process was gone through; the reconstruction on the latter occasion involved—the creation of £200,000 first mortgage debenture stock, the conversion of prior lien bonds into income debenture stock, and the funding of arrears of interest on the prior lien bonds—half into income debenture stock, and half into ordinary shares; the conversion of the new 5 per cent. debentures, and arrears of interest, into 50 per cent. of ordinary capital; the conversion of preference shares into 10 per cent. of new ordinary, and the conversion of ordinary shares into 5 per cent. of new ordinary. The capital is now as under:—

£691,082 Ordinary stock, issued under the scheme of 1904 against 50 per cent. of accrued interest on prior lien bonds, the principal and arrears of interest of new debentures, and old preference and ordinary shares.

£300,000 Six per cent. first mortgage debenture stock (part of £350,000 authorised). The interest dates are January 1 and July 1, and the principal is repayable by about 1945, from a sinking fund of 1 per cent. per annum, applicable to purchases half-yearly, or by tender when the price is below par, or by drawings at par, the first redemption taking place in 1912; amount outstanding, £291,828. Interest is being duly met.

£719,726 Income debenture stock, ranking for 5 per cent. interest, which is to become cumulative when it shall have been paid in full for four consecutive years. This stock was issued against the principal and half the interest of pre-existing prior lien bonds. The first payment of interest was 2 per cent. in respect of 1912; for 1913, 4 per cent. was paid; and for 1914, nil.

The accounts are made up annually to December 31, and usually submitted in April. Interest on the first mortgage debenture stock has been paid to date; the first payment on the income debenture stock was 2 per cent. in respect of 1912; for 1913, 4 per cent. was paid; and for 1914, nil—no dividend yet on the ordinary capital. Carried forward, £9,865, including £4,659 brought down. At the end of 1912 an arrangement between the company and the Hornillo Company, under which the latter received a minimum payment of £16,800 per annum from the Great Southern of Spain Railway Company, terminated, and all the shares of the Hornillo Company were acquired in consideration of £100,000 first mortgage debenture stock of the Railway Company, included in the total of such debenture stock as stated above. In 1915, to October 23, the gross earnings were 2,522,847 pesetas, as compared with 2,827,771 pesetas in the same period of 1914. Voting power, one vote for each £10 of ordinary stock. Director's qualification, £1,000 of ordinary stock. Transfer form, common; fee for registration of transfer, probate, distringas, proof of death in joint holdings, proof of marriage, or power of attorney, 2s. 6d.; a separate deed is required for each class of security. The various stocks are transferable in multiples of £1. Telegraphic address, Overglide, London. Telephone number, 5931 Central. The company is quoted in the official list. Great Western of Brazil Railway Company, Limited.—*Directors:* F. Holt (Chairman), H. C. Allen, J. P. Clarke, N. B. Dickson and W. Parish. *Secretary:* H. Tattam. *Office:* River Plate House, Finsbury Circus, E.C.—The company was registered December 21, 1872, and owns railways of a total length of 223 miles, besides working 787 miles held under lease from the Brazilian government. As regards the lines owned, 112 miles were built under a concession (for a period of 90 years) acquired by the company on its formation, granted by the provincial government of Pernambuco, and confirmed by a decree of the national government of Brazil; the guarantee in respect of this line was surrendered as from July 1, 1901, in connection with a fresh arrangement come to with the Brazilian government; during the period named of 90 years no railway is to be constructed in competition within a zone of 20 kilometres of either side of the railway. In 1904 the company was granted power to build an extension from Itabayanna to Campina Grande (50 miles—opened October 2, 1907), and another extension about 30 miles from Antonio Olyntha to Pesqueira, the concessions for these two extensions running for 60 years from 1901, at the expiration of which they are to revert to the government on payment of capital cost, plus 20 per cent. The government also agrees to take over the original lines of the company at the end of the leased period at cost, plus 20 per cent. Negotiations are proceeding with the federal government with regard to further extensions.

When the Brazilian government in 1901 acquired by purchase the Recife and San Francisco Railway, and the Sul de Pernambuco Railway, these were leased to the Great Western of Brazil Railway, and in the following year the Conde d'Eu and Natal and Nova Cruz Railways were similarly dealt with; in 1903 the Alagoas Railway and the Paulo Affonso Railway were leased to this company; and in 1904 the Central Railway of Pernambuco was similarly treated. The arrangements between the government and the company in regard to the leased lines were subjected to certain alterations from time to time, and late in 1909 a new agreement was come to, which is now in force, under which the amount of rent payable on the whole of the leased lines, including three extensions authorised, of a total length of about 260 miles (of which 67 miles have been opened for traffic), has been fixed at the average of the percentage of the rent paid in respect of the three years 1906-1908 until the gross annual earnings reach 6·2 contos of reis, and are less than 7·2 contos of reis, when the government is to take 10 per cent. of such gross earnings; when they amount to 7·2 contos of reis, and do not exceed 8·2 contos of reis, the government is to take 12 per cent.; and after they reach 8·2 contos of reis, the government is to take 15 per cent. By the agreement of 1909 the company undertook to effect certain expenditures on extensions, while the earliest date when the government may terminate the leases was extended to 1960. In 1912 a concession was obtained from the government of the state of Alagoas, Brazil, which has been transferred to the Alagoas and Northern Railway Company, in which the Great Western of Brazil Railway holds the whole of the share capital. The authorised capital is £2,500,000 (having been increased in April, 1913, by £500,000, but the class of the additional capital is not specified), and the following issues have been made:—

£1,250,000 Fully-called ordinary shares of £10.

£1,000,000 Fully-called 6 per cent. non-cumulative preferred shares of £10, but without priority as to capital. Of this amount £200,000 was issued to represent one-half the old capital as at December 31, 1903, each share of £20 being then subdivided into two shares of £10—one ordinary and one preferred—and the balance was subsequently issued at par.

£306,250 Permanent 6 per cent. debenture stock, being the total authorised. Interest is payable February 1 and August 1.

£1,693,700 Four per cent. debentures to bearer of £100 each. Of this amount £1,193,700 was issued in June, 1910, at 90 per cent., largely to provide for the redemption on January 1, 1911, of then-existing 5 per cent. debentures, holders of which had the option of exchange into the new issue, and £500,000 was issued in June, 1912, at 90 per cent. Coupons are payable January 1 and July 1, and the principal is repayable on or before January 1, 1955, by the operation of an annual cumulative sinking fund, commencing January 1, 1912, applicable to purchases in the market at or below par, and accrued interest, or to drawings (in November) at par, while the company may at any time redeem all or any of the debentures at par, on six months' notice. These debentures rank next after the permanent debenture stock, as a floating charge on the entire assets of the company. The company's total borrowing powers are limited to the amount of the share capital for the time being authorised. Amount of debentures outstanding, £1,631,400.

The accounts are made up annually to December 31, and usually submitted in April. For each of the thirteen years to 1913 the dividend was 6 per cent.; and for 1914 only the preferred dividend was paid—from January to August, 1914, the railway suffered from an abnormally heavy rainfall, resulting in serious floods, which affected adversely both transport and maintenance expenditure. A financial crisis in Brazil following the declaration of war in Europe caused severe fluctuations in exchange during the last five months of the year. Renewal and general reserve fund, £62,865; amortisation fund (to redeem capital spent on the leased lines), £58,926; 4 per cent. debentures sinking fund, £16,387; carried forward, £11,894, as against £15,691 brought down. No interim dividend was paid on either the preferred or ordinary shares on account of 1915. From January 1 to November 6, 1915, the gross receipts were £421,900, as against £530,500 from January 1 to November 7, 1914.

Voting power, one vote for every share of either class. Director's qualification, 50 shares of both classes, held for six months. Transfer form, common; fee 2s. 6d. per deed; debenture stock is transferable in amounts of £1 and multiples thereof. Fee for registration of probate, 2s. 6d. Telegraphic address, Eugenetic, Ave, London. Telephone number, 6084 London Wall. The company is quoted in the official list. Latest prices—ordinary, 90s.; preferred, 7; 6 per cent. debenture stock, 102⅜; 4 per cent. debentures, 70.

The Associated Companies.—Under an act of parliament obtained in 1865, the West Cornwall Railway was transferred to the Bristol and Exeter, South Devon, and Great Western companies (known as the "Associated Companies"), they paying certain rents to the West Cornwall. The Bristol and Exeter and South Devon companies are now amalgamated with the Great Western. Further powers were obtained in 1871, and the West Cornwall Railway is now represented by £800,533 "Great Western, Bristol and Exeter, and South Devon Railway Companies 4½ per cent. joint rent-charge stock," and £81,860 "West Cornwall guaranteed 5 per cent. stock." Guayaquil and Quito Railway Company.—*Directors:* E. H. Norton, T. H. P. Farr, A. Turnbull, S. H. Lever, A. A. Wheat and C. Williams (appointed by the shareholders); J. C. Hallock and C. Davalos (appointed by the government); C. H. Lee, C. K. Beckman and E. Hewitt (representing class C shares). *Registered or Head Office:* 15, Exchange Place, Jersey City.—The company was incorporated under the laws of the state of New Jersey, U.S., in September, 1897, to acquire a concession granted by the government of Ecuador in June, 1897. The concession was for a period of 75 years (dating from the completion of the line) for a line of railway from Duran (on the Guayas River, opposite Guayaquil) to Quito, together with docks and wharves at Guayaquil and Duran, and the provision of ferry facilities between Duran and Guayaquil, a distance of 1¾ miles. Under the agreement of 1908, however, referred to below, the above-mentioned period of 75 years was reduced to 60 years, at the expiration of which the railway is to be handed over to the government, without compensation; the concession carries land subsidies, but at the present time these are not defined. Under the contract the railway was to have been completed by June 14, 1907, but it was not opened throughout until June, 1908; the length of the railway is 287 miles.

The company issued ordinary and preference shares as well as 6 per cent. bonds, the last-mentioned being guaranteed both as to principal and interest by the government of Ecuador, with a lien on the customs receipts. Although sometimes there was delay, interest on the bonds was fully met down to the coupon due January, 1907, while as regards the service of the bonds due July, 1907, the government paid over the corresponding sum to the company, to be applied, however, to construction purposes, in view of the delay in completing the line. In September, 1907, a meeting of holders of the bonds took place in London, at which the appointment by the Council of Foreign Bondholders of a committee of Guayaquil Railway bondholders was ratified, and the Council was authorised to take such steps as they might consider expedient in the bondholders' interests. In accordance with this authorisation Mr. James P. Cooper, the secretary of the Council, proceeded to Ecuador in August, 1908, and entered into a provisional arrangement with the Ecuador government and the railway company, which was duly carried into effect. In accordance with this agreement, the coupon due July, 1907, on the old bonds has been surrendered, while the coupons due January and July, 1908, and January, 1909, were met by the issue of an equivalent amount of Ecuador government 4 per cent. salt bonds, a notice of which will be found elsewhere. The government is to continue to remit the same amount as formerly for the service of the bonds, but interest and sinking fund on $2,486,000 prior lien bonds (the proceeds of which were to be applied to the purchase of new rolling stock and the carrying out of certain repairs and improvements to the railway, &c.) are made a first charge on the government remittances, and the interest on the old railway bonds has been reduced from 6 to 5 per cent., the sinking fund remaining at 1 per cent., while in compensation for the reduction of interest on the bonds the holders received 10 per cent. in deferred certificates. When the prior lien bonds are all amortised the amount to be remitted by the government is to be correspondingly reduced. The banks in which the customs revenues are deposited were to set aside daily as from January 1, 1909, without intermission throughout each year the necessary quota of the annual service for the railway bonds, and remittances were to be made each fortnight to the bankers in London charged with the service of the bonds. The service of the prior lien mortgage bonds is being provided, although occasionally with some delay, but coupons and the redemption service of the 5 per cent. mortgage bonds are in arrear as stated below. The board of directors is composed of eleven members, two elected by the 49 per cent. of common shares owned by the government, six by the balance of the outstanding share capital, common and preferred, and three by the holders of the railway bonds (this last-mentioned right is now vested in the special voting shares held by the Council of Foreign Bondholders). In the year to June 30, 1909, the gross earnings were 1,518,986 sucres; in 1909-10, 1,684,269 sucres; in 1910-11 1,766,725 sucres; in 1911-12, 1,974,718 sucres; and in 1913-14, 2,085,602 sucres. The capital is now as under, and the 5 per cent. mortgage bonds and prior lien bonds are quoted in the official list:—

$7,032,000 Ordinary shares of $100 each. This is the total authorised, of which $3,445,700 was issued to the Ecuadoran government in consideration for the concession. The shares owned by the government are known as A, and the remaining $3,586,300 as B; they have no capital distinction, but holders of the former have the right to appoint two directors, and holders of the latter (together with the preference) the right to appoint six directors. No dividend has ever been paid on the shares.

$1,000 Special voting shares, known as C shares, and held by the Council of Foreign Bondholders, these conferring the right to appoint three directors, and ranking equally for dividend with the ordinary shares.

$5,250,000 Seven per cent. cumulative preference shares of $100 each, being the total authorised. No dividend has ever been paid on these shares.

$10,737,000 Five per cent. mortgage bonds of $1,000 each. These bonds formerly carried 6 per cent. interest, and were guaranteed both as to principal and interest by the government of Ecuador, by means of a first lien on the customs revenue, as well as by a first mortgage on the railway, but by the agreement of 1908 the remittances by the government are in the first place charged to the prior lien bonds (see below). There was formerly a "special" series of the railway bonds, but these were reduced to $233,000, and this amount was redeemed out of the issue of prior lien bonds; the "special" series bonds were issued in purchase of the old external debt of Ecuador. The interest dates for the mortgage bonds are January 2 and July 2, and the government can redeem the bonds at any time within fifty years from the date of issue, at 110 per cent., and thereafter at par, while a sinking fund of 1 per cent. per annum is provided, applicable to purchases when the price is under par, and by drawings when it stands at or over par. Payments on the bonds are made, at the rate of exchange current at the time, by Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., and also in New York. The most recent interest payments have been—coupons due July, 1910, met in January, 1913; coupons due January, 1911, met in May, 1913; coupons due July, 1911, met in September, 1913; coupons due January, 1912, met in December, 1913; and coupons due July, 1912, met in April, 1914, subsequent coupons being in arrear, while the redemption service has not been effected since the arrangement of 1908 came into operation, with the exception of the purchase of $71,000 of bonds. The amount of the bonds was originally $12,282,000, but by redemption from the sinking fund, and also from a part of the proceeds of the prior lien bonds, the amount has been reduced as above. Latest price, 31¾.

$2,486,000 Six per cent. prior lien mortgage gold bonds of $1,000 each, of which $2,253,000 was issued on behalf of the contractors for the loan, in February, 1909, through Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., at £184 13s. 9d. per bond. Coupons are payable January 2 and July 2, and the bonds are repayable at par January 2, 1930, but are redeemable from a cumulative sinking fund of 2½ per cent. per annum, accruing from the date when the bonds were issued, and applicable to tenders of bonds when the price is below par and by half-yearly drawings (in June and December) at par when the bonds are at or above par, while they may be redeemed by the company at any time at 105 per cent., on six months' notice. The bonds are

secured by a preferential mortgage on all the property of the company, and have a prior charge in front of the above-mentioned mortgage bonds on the amount which the government of the Republic of Ecuador is to remit annually, as stated above, and, moreover, the bonds are guaranteed unconditionally as to principal, interest and sinking fund by the government of Ecuador, being secured by a first charge and lien on the customs revenue of the republic. All payments are made by Messrs. Glyn, Mills, Currie and Co. Interest payments have been met up to date, sometimes, however, with delay, but the sinking fund has not been applied since December, 1914. Amount outstanding, $1,975,000. Latest price, 68¾.

His Highness the Nizam's Guaranteed State Railways Company, Limited.—*Directors:* C. A. Winter (Chairman), Col. R. A. Sargeaunt (Deputy-Chairman), Lt.-Col. R. Gardiner, Capt. G. Huddleston, C.I.E., and L. Mortimer. *Official Director (appointed by the Nizam's Government):* Sir G. C. Walker, K.C.S.I. *Secretary:* M. T. Walker. *Office:* Winchester House, E.C.—The company

was registered December 24, 1883, to acquire and work the existing Nizam's state railway, and construct and work new lines of railway. The lines under this concession are 334 miles in length. The government of the Nizam guaranteed, for a period of twenty years (terminated June 25, 1904, as regards the capital stock, and at various dates up to June 30, 1912, as regards part of the debenture capital), an income equal to 5 per cent. on the total amount of the actual ordinary and debenture capital for the time being paid up, or counted as paid up, but not exceeding £4,500,000. After payment of 5 per cent. on the ordinary capital and 4 per cent. on the debentures, the residue of the guaranteed income was invested to form a sinking fund, primarily for redemption of the debentures. The amounts paid to the company by the Nizam's government in respect of the guarantee are to be repaid with simple interest at 5 per cent. per annum out of the net earnings of the lines, 5 per cent. per annum being secured in the first instance to the shareholders, with one moiety of the surplus profits over 5 per cent. When the government has been repaid in full, all the net earnings are to belong to the company. The Nizam's government may on January 1, 1934 or 1954, by one year's previous notice, purchase the undertaking of the company on payment of a sum equal to the then ordinary and debenture capital, plus a bonus of 25 per cent. on the paid-up capital. If not so purchased, the line will vest in the government at the end of the 99 years, the value of the engines, rolling stock, plant and stores to be paid to the company in cash.

In March, 1897, a contract was signed by which the company was authorised to construct and work for a period coterminous with the lease of the pre-existing line (about 91 years) another railway, 392 miles in length, and to issue for the purposes of this line £2,500,000 of debentures, with interest at 4½ per cent. guaranteed by the Nizam's government for a period of 20 years from the time the line was opened for traffic (October, 1900); of this 4½ per cent. 1 per cent. is to form a sinking fund for the redemption of the debentures. Separate accounts are kept for the railway authorised by the contract of 1897, and the net earnings are in the first place applied in meeting advances by the government under the guarantee, while any surplus is divisible between the government and the company. The government moiety goes to repayment of guaranteed annuity while such is outstanding. The government has the option of purchasing the new line on the same dates as the old on such terms as would enable the company to repay the debentures at par. The company has constructed and works, on behalf of the government of India (to whom the net earnings are paid), a line known as the Bezwada Extension, 21 miles in length, and has also constructed for the government of H.H. the Nizam, and is working, a branch line from Purna Station to Hingoli, a distance of about 50 miles. The capital account is as under :—

Interest is payable January 1 and July 1, and the debentures are to be repaid December 15, 1967, at par, or earlier at par in the event of the government acquiring the line. The debentures are a first charge on the new line, and on the government guarantee in respect of such line, while they also rank on the old undertaking, subject to the old debentures. The debentures are partly to bearer and partly registered (both as to principal and interest); bearer debentures may be registered free of charge, but registered debentures may not be exchanged back again to bearer.

During the period in which the government guaranteed 5 per cent. per annum on the ordinary capital the net earnings were from 1900 onwards as a rule in excess of the sum required to cover the guarantee, and the last payment under the guarantee was made on July 1, 1904. The first dividend out of the earnings of the line, at the rate of 5 per cent. per annum for the second half of 1904, was paid in April, 1905, and similar payments were made for both halves of the eight years to 1912; in October, 1913, accounts for the three months to March 31, 1913, were presented, and a dividend of 1¼ per cent. Shonts (President), E. E. Starbard, F. de C. Sullivan and C. Vanderbilt. *Office:* New York.—The company was incorporated under laws of the state of New York in 1902, and leases and operates the existing subways and the Manhattan Elevated railways in New York City. In March, 1913, a fresh contract was entered into with the city of New York involving extensions and improvements to the existing systems, and new subways to be constructed and leased by the city to the company for a term of 49 years, beginning January 1, 1917, with a postponement of the date under certain conditions; the city has reserved the right upon notice, at any time after the expiration of ten years, to retake certain properties upon making payment therefor as specified in the lease, and under the new agreement existing leases are modified, so as to expire contemporaneously with the lease of the new subways, but are not subject to termination by notice, except portions thereof. The authorisations and licences for the construction of elevated railway extensions are for a period of 85 years from the beginning of operation, subject to the right of the city to take back the property at any time after the expiration of ten years from the commencement of operation. Simultaneously with the new contract with the city, consolidation of the company's outstanding obligations was taken in hand, provision being also made for the further capital requirements. The share capital authorised and issued is $35,000,000, of which $33,912,800 is owned by the Interborough Metropolitan Company, formed in 1906 as an amalgamation of the Interborough Rapid Transit Company and the Metropolitan Street Railway.

In July, 1909, there were issued here through Messrs. J. S. Morgan & Co. (now Morgan, Grenfell and Co.), 22, Old Broad Street, E.C., and Messrs. Higginson and Co., Bank Buildings, Princes Street, E.C., $10,000,000 forty-five year 5 per cent. gold mortgage bonds, but these were called in for redemption on November 1, 1913; in June, 1913, the holders were offered the right of exchanging into new first and refunding mortgage gold bonds, the old bonds to be taken in exchange at 105 and interest, while the new bonds were offered at the price of 98 and interest; and in October, 1913, $30,000,000 of the first and refunding mortgage bonds were offered for sale through the above-mentioned firms, at 99½ per cent., equivalent, at the exchange of $4.85½ to the £, to £204 18s. 10d. per $1,000 bond, the bonds being simultaneously offered in New York. The first and refunding mortgage bonds are for a total authorised of $300,000,000, ranking as a first lien upon all the leasehold and other rights of the Interborough Company; the amount issued is $103,658,000, the bonds being of $1,000 each, with interest payable January 1 and July 1, and the principal repayable at par January 1, 1966, with the right to the company to redeem as a whole or in parts of not less than $500,000 at 110 per cent. and accrued interest on any interest date. A cumulative sinking fund of 1 per cent. per annum is provided, the first semi-annual payment to be made not later than July 1, 1918. The first and refunding mortgage bonds are to bearer, but may be registered as to principal only, at the company's offices in New York, without fee, and such registered bonds can

be exchanged back into bonds to bearer; or bonds to bearer may be exchanged for fully registered bonds, in denominations of $1,000, $5,000 and $10,000, while such fully registered bonds can be re-exchanged into coupon bonds, the fee for which is $1 per bond for either operation. All payments are made in gold in New York City, free of all taxes, except income tax. In the event of the city exercising the right to take back any of the lines, "the moneys at any time so payable by the city will be sufficient to retire, at 110, outstanding bonds of an amount equal to the unamortised portion of the bonds issued for the construction and equipment of the line or lines to be recaptured by the city." In the circular issued in June, 1913, detailing the offer of exchange of old mortgage bonds for first and refunding mortgage bonds it was stated by the president that the new construction to be undertaken would involve an estimated expenditure of $173,000,000, of which the city would contribute about $66,000,000 and the company $107,000,000, the existing properties being valued at $103,000,000. It was further provided that the company should be entitled to take out of the net earnings a sum in excess of the interest and sinking fund on the entire issue of $156,000,000 of bonds (which sum it would be necessary to issue during the next three years), before the city received any return on its investment of $66,000,000.

Taylor. *Office:* 17, Battery Place, New York.—The company was formed in 1904 under the laws of the state of New Jersey, U.S., under the title of the Guatemala Railway Company, for the purpose of constructing and acquiring railways in Central America, and has concessions from the governments of Guatemala and Salvador, which authorise gold freights and passenger rates on all railways constructed and acquired in both countries. Both concessions were granted a right of way 100 feet wide the whole length of the line, and a greater width where required for the purposes of the railroad. The concession from the government of Guatemala is perpetual, with the right to the government to take over the railroads at the end of 99 years at a valuation to be arrived at by arbitration, while the concession from the government of Salvador is for 99 years, at the end of which time the railroads become the property of the government without payment, and the government has the right to take over the railroads at the end of 70 years at a valuation to be arrived at by arbitration. Both concessions give exclusive rights of railroad construction within a zone of 20 miles on each side of its lines and the preferential right to construct other railroads in the respective countries. Both countries have granted freedom from taxes, duties and imposts on all machinery, rolling stock, &c., required for the construction, equipment and maintenance of the railroads, as well as freedom from stamp duties. The railroads may be operated by steam or electricity in both countries. In 1904 the government of Guatemala contracted to transfer to the company, free of cost, the railroad constructed by the government from Puerto Barrios to El Rancho, a distance of 130 miles, when the company had completed the railroad from El Rancho to the city of Guatemala, and the company completed this work and received the transfer of the railroad in 1908. The company now operates in Guatemala 450 miles of main line, and also owns and operates 84 miles of railroad in Salvador, connecting La Union with the Lempa River. The Salvador government granted the company a subsidy of $7,000 gold for every kilometre ($11,200 per mile) of railroad constructed, this subsidy being guaranteed by 14 per cent. of certain specified import duties and by $6 gold per ton of coffee exported; this subsidy has been regularly paid. The Guatemala government granted a subsidy of $12,000 gold per mile on certain railways and $5,000 gold per mile on other railways, and the government was at December 31, 1913, indebted to the company to the extent of about $1,224,269. Further, the company has been granted a block of 22 acres of land for terminals, and owns in addition a block of 42 acres about three-quarters of a mile from the city. The company has entered into a contract with the United Fruit Company for the carriage of the whole of its product within the region served by the railway. It is the intention of the company, when deemed advisable, to construct other lines up to a total, with those already in operation and under construction, of about 800 miles.

The authorised capital is $40,000,000, $10,000,000 being in 5 per cent. cumulative participating preferred shares (entitled also to share equally in all dividends paid in any year, after 5 per cent. has been distributed on both preferred and ordinary), and $30,000,000 in common shares, and the whole amount has been issued and paid up. In May, 1912, Messrs. Dunn, Fischer and Co., 41, Threadneedle Street, E.C., invited applications for the purchase at 95 per cent. of £1,000,000 5 per cent. first mortgage bonds, the bonds being offered simultaneously in Brussels. The bonds form part of a total authorised of £4,500,000 (subject to increase to £6,000,000 for the purpose of acquiring, constructing and equipping lines of railway in the republics of Honduras and Nicaragua); they are a first mortgage and charge on all the properties of the company, subject to $6,000,000 of bonds already outstanding, which have a prior charge on 142 miles of railway; £1,234,600 of the first mortgage bonds is reserved for the purpose of acquiring or repaying the above-mentioned $6,000,000 of prior bonds, and £2,265,400 for the acquisition, construction and equipment of other lines in Guatemala and Salvador. The bonds are of £20 and £100 each, have coupons payable May 1 and November 1, in London by the issuing firm, or by the Empire Trust Company, 41, Threadneedle Street, E.C., or at the holder's option in New York at the fixed exchange of $4·86⅔ to the £, or in Paris and Brussels at the fixed rate of 25·25 francs to the £, and the bonds are repayable on May 1, 1972, from a sinking fund of ½ per cent. per annum, beginning in 1922, to be applied to purchases in the market or by tender at or under par and accrued interest, or by annual drawings at par, while the company has reserved the right to redeem the whole of the bond issue at any time at 102½ per cent. and accrued interest on six months' notice. All payments are to be made free of taxes levied in Central America or in the United States of America. It has been agreed between the company and the bankers that the company cannot issue any further bonds or create further fixed charges unless the total fixed charges on the bonds issued and proposed to be issued shall be at least twice covered by the net earnings of the railway for the preceding twelve months. The proceeds of the £1,000,000 offered in May, 1912, were to be used in part payment of railways recently acquired and in the construction of other railways, docks, terminals, &c.

The accounts are made up annually to December 31. The company commenced to pay quarterly dividends at the full rate of 5 per cent. per annum on the preferred shares in August, 1912, and this rate of distribution was continued to August, 1914, but in October, 1914, it was decided to defer the payment of the usual quarterly dividend due in the following month, and there has been no distribution since, but bond interest has been met to date; in 1914, after paying dividends amounting to 3¾ per cent. on the preferred shares, there was a surplus of $187,923, increasing the credit to profit and loss brought down to $399,316. In the nine months to September, 1915, the net earnings were £174,637, against £214,102 in the corresponding period of 1914. The company is quoted in the official list. Latest prices—common, 6¼; preferred, 30¼; bonds, 62.

Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited.—*Directors:* A. Hill (Chairman), P. M. del Paso (nominated by the Mexican government), Lord Cowdray, Lord Farrer (appointed by the Mexican Southern Railway, Limited), H. T. Hodgson and G. W. Hoghton. *Secretary:* N. Stuart. *Office:* 3, St. Helen's Place, E.C.—The company was registered April 30, 1888, to acquire concessions from the Mexican government for a railway about 255 miles in length, already constructed, and for an additional 239 miles of line to be constructed. The concessions confer the privilege of working the railways for a period of 99 years from February, 1883, after which the railways are to pass to the state, which will then recognise charges on the railways to an extent not exceeding $10,000 per kilometre (about $16,000 per mile), bearing interest at 6 per cent. per annum until paid off; the rolling stock is to be paid for at a valuation. There is no monetary guarantee, and no option of government purchase prior to the expiration of the concession. In 1891 an agreement was entered into for the acquisition of a constructed railway, 48 miles in length, terminating at Matamoros Izucar, and forming a link in the route between Vera Cruz and Acapulco. As from January 1, 1910, the company took a long lease of the Mexican Southern Railway, Limited, and has also taken a long lease of the Mexican Eastern Railway Company, Limited, for terms of which see notices of those companies. The total mileage in operation is 1,047, including 453 miles of leased lines, and the road is managed by the National Railways of Mexico, under an agreement now terminable at any time on six months' notice from either side.

The authorised capital is now £1,700,000 ordinary, £1,400,000 first preference, £1,000,000 second preference, £1,150,000 4 per cent. debenture stock, £1,300,000 4½ per cent. second debenture stock and £470,000 7 per cent. B debenture stock, and the following issues have been made:—

£1,700,000 Ordinary stock.

£1,400,000 Five per cent. non-cumulative first preference stock. In 1908 all arrears of dividend to June 30, 1907, on the then existing £1,000,000 of 7 per cent. cumulative preferred shares were satisfied by the allotment of 100 per cent. of new second preference stock, and at the same time the old preference shares were converted into £1,400,000 of 5 per cent. non-cumulative first preference stock.

£1,000,000 Four per cent. non-cumulative second preference stock, allotted in 1908 in satisfaction of all arrears of dividend on the old preferred shares.

£1,150,000 Four per cent. debenture stock, ranking as a first charge on the whole of the company's undertaking. The total authorised is £1,150,000, of which £450,000 was reserved for the retirement (effected in 1908-9) of £400,000 of prior lien debentures. Interest is due March 15 and September 15, and the principal is to be repaid September 15, 1950, the company, however, having the option of redeeming the stock on six months' notice at any time at par.

Interest due on September 15, 1914, and March 15, 1915, was paid in 5 per cent. deferred warrants (interest payable only on redemption of the warrants); for particulars as to the redemption of the deferred warrants, and also of a fresh scheme of arrangement in regard to interest payments, see below.

£1,300,000 Four-and-a-half per cent. second debenture stock. Of the amount named £150,000 was issued to holders of the old debenture stocks and the preferred shares of the company in October, 1901, at 86 per cent., £1,000,000 was disposed of to the Mexican

government at 90⅝ in 1902 (£50,000 having been issued on November 30, 1902, and £950,000 on March 31, 1903, the date on which the A debenture stock was repaid, while this £1,000,000 of stock was subsequently sold to the National Railways of Mexico), and £150,000 was issued in July-August, 1911. The total authorised is £1,300,000, ranking as a charge on the company's undertaking after the foregoing 4 per cent. debenture stock. The stock is secured by trust deed, and is repayable at par in 1950, with power to the company to redeem at 105 per cent. at any time (now) on six months' notice; interest was non-cumulative until January 1, 1906, and was payable only out of surplus revenue until the B stock had received its full interest for five consecutive years (effected by the 1909-10 payment). Interest is now due on May 30 and November 30.

Interest due on May 30 and November 30, 1914, was paid in 5 per cent. deferred warrants (interest payable only on redemption of the warrants); for particulars as to redemption of the deferred warrants, and also of a fresh scheme of arrangement in regard to interest payments, see below.

£469,459 Seven per cent. B debenture stock, ranking next after the second debenture stock. Interest is payable only if earned, and is now cumulative, but was non-cumulative until for five consecutive years the revenue had been sufficient to provide the full interest on this stock. The stock is to be redeemed on September 15, 1950, with power to the company to pay it off at any time at six months' notice at 120. For several years down to and inclusive of 1912-13 the full rate of interest was paid—most recently in equal instalments in May and November, but no payment has been made on this stock since December, 1913.

The accounts are made up annually to June 30, and submitted in December. The line was opened throughout in July, 1891. For 1905-6 2 per cent. was paid on the (then) £1,000,000 of preferred shares; and for 1906-7 3¼ per cent. was paid on the £1,000,000 of (then) preferred shares. In 1908 all arrears of dividend on the old preferred shares for £1,000,000 to June 30, 1907, were satisfied by an allotment of 100 per cent. of new second preference stock, and at the same time the old preferred shares were converted into £1,400,000 of 5 per cent. non-cumulative preference stock; for 1907-8 4½ per cent. was paid on the new first preference stock; for 1908-9 the full rate was paid on the first preference, and 1 per cent. on the second preference; for 1909-10 and 1910-11 the full rates were paid on the first and second preferences, but nothing on the ordinary; for 1911-12 the full rate was paid on the first preference and 2 per cent. on the second preference, a small sum being taken from the reserve for this purpose; and for 1912-13 only 4 per cent. was paid on the first preference.

In June, 1914, holders of the debenture stocks agreed, in consequence of the interruption to the working of the railway resulting from the disturbed political conditions of the country, to certain modifications of their rights and of the relations to the Mexican Eastern and Southern Companies, and in June, 1915, the moratorium was extended for a period of two years, but in a modified form. Interest due on the 4 per cent. debenture stock on September 15, 1914, and March 15, 1915, and interest due on the second debenture stock on May 30 and November 30, 1914, inclusive, were satisfied by the issue of 5 per cent. deferred warrants (interest payable only on redemption of the warrants), but instalments of interest falling due in the two years to March 15, 1917, in the case of the 4 per cent. debenture stock and to November 30, 1916, in the case of the second debenture stock, both dates inclusive, together with interest thereon at the rate of 5 per cent. per annum, are to be credited to the stockholders as a class; and instalments of rent payable in June, 1914, and onwards to December, 1916, inclusive, under the lease to the company of the Mexican Eastern Railway, and instalments of rent payable in June, 1914, and onwards to April, 1917, inclusive, under the lease to the company of the Mexican Southern Railway, are to be satisfied by the issue of certificates of indebtedness, carrying interest at the rate of 5 per cent. per annum; and, further, the net earnings of the Interoceanic Company's system of railways from May 30, 1914, to May 29, 1917, after providing for the instalments of the rent payable to the Mexican Southern Railway and for the similar expenses of the Mexican Eastern Railway Company, are to be applied in the following order of priority: (1) in payment of the amount payable to the Vera Cruz Terminal Company under the existing arrangements; (2) in providing for the proportion of the half-yearly instalment of interest due on the 4 per cent. debenture stock on September 15, 1917, attributable to the period between March 15, 1917, and May 29, 1917; (3) in payment of the half-year's instalment of interest on the second debenture stock on May 30, 1917; (4) in or towards the redemption at par, plus accrued interest, of deferred warrants issued in respect of interest which became payable on the 4 per cent. debenture stock on September 15, 1914; (5) in or towards the redemption rateably at par, plus accrued interest, of deferred warrants issued in respect of interest which became payable on the 4 per cent. debenture stock on March 15, 1915; (6) in or towards the payment of the arrears of interest on the 4 per cent. debenture stock, the payment of which is deferred under the scheme, together with accrued interest thereon; (7) in or towards the payment of the arrears of interest on the second debenture stock, the payment of which is deferred under the scheme, together with accrued interest thereon; (8) in or towards the redemption at par, plus accrued interest, of the deferred warrants issued in respect of interest which became payable on the second debenture stock on May 30, 1914, and November 30, 1914, and of the certificates of indebtedness issued to the Mexican Eastern Railway Company and the Mexican Southern Railway in respect of instalments of rent payable under the above-mentioned leases treated as payments of one and the same class; and (9) in the same manner as is below provided with regard to the general net earnings of each year as from May 29, 1917. The net earnings of the Mexican Eastern Railway Company, Limited, from May 30, 1915, to May 29, 1917, are to be applied, firstly, in providing for the proportion of the half-yearly instalment of rent payable on June 7, 1917, attributable to the period between December 7, 1916, and May 29, 1917, both dates inclusive, and, secondly, in or towards the redemption at par, plus accrued interest, of the certificates of indebtedness to be issued to that company; and the net earnings of the Mexican Southern Railway, Limited, during the same period, are to be applied, firstly, in providing for the proportion of the half-yearly instalments of rent

payable on June 30, 1917, and July 28, 1917, attributable to the periods between December 31, 1916, and January 28, 1917, respectively, on the one hand, and on May 29, 1917, on the other, all dates inclusive; and secondly, in or towards the redemption at par, plus accrued interest, of the certificates of indebtedness to be issued to that company. As from May 29, 1917, the general net earnings of the company of each year, after providing for the obligations of the company properly payable out of revenue, including the instalments of rent payable under the above-mentioned leases, are to be applied (1) in or towards the redemption at par, plus accrued interest, of deferred warrants issued in respect of interest which became payable on the 4 per cent. debenture stock; (2) in or towards the redemption at par, plus accrued interest, of the deferred warrants issued in respect of the interest which became payable on the 4 per cent. debenture stock on May 15, 1915; (3) in or towards the payment of the arrears of interest on the 4 per cent. debenture stock, the payment of which is deferred under the scheme, together with accrued interest thereon; (4) in or towards the redemption at par, plus accrued interest, of the deferred warrants issued in respect of the interest which became payable on the second debenture stock on May 30 and November 30, 1914, and of the certificates of indebtedness already issued to the Mexican Eastern Railway Company and the Mexican Southern Railway in respect of instalments of rent, to be treated as payments of one and the same class; and (5) in or towards the payment in proportion to the sums payable in respect thereof of the arrears of interest on the second debenture stock, the payment of which is deferred under the scheme, together with accrued interest thereon, and in or towards the redemption at par, plus accrued interest, of the certificates of indebtedness to be issued to the Mexican Eastern Railway Company and the Mexican Southern Railway, to be treated as payments of one and the same class. The company has reserved the right at any time to pay off a portion of the arrears of any instalment of interest or certificate of indebtedness, with interest on such arrears down to date, and, except as regards these provisions, deferred warrants, instalments of interest and certificates of indebtedness issued for these purposes are not to constitute debts payable by the company except in the event of the winding up of the company or the appointment of a receiver of the undertaking. The non-payment of such instalments of interest, the payment of which is deferred under the scheme, on the due dates thereof is not to constitute a default rendering the 4 per cent. debenture stock or the second debenture stock payable.

The accounts of the Interoceanic Company for 1913-14 were made up in the light of the 1914 scheme of arrangement, and for the month of June these showed a loss on working of the Interoceanic of £4,751, and a loss on working of the Mexican Southern of £1,346; after charging full interest on Interoceanic debenture stocks accrued to June 30, whether in cash or in deferred interest warrants, the rentals of the Mexican Eastern and Mexican Southern to date, with interest on deferred interest warrants and certificates of indebtedness, together with the total amount paid to the Vera Cruz Terminal Company to make up deficiency in debenture interest and working expenses to June 30, 1914 (£20,880 in respect of 1913-14), the accounts of the Interoceanic Company for the year to June 30, 1914, showed a debit to net revenue of £54,314. Italian Company of Sicilian Railways.—*Office:* Rome.—The company was established in 1885. The share capital is 20,000,000 lire in fully-paid shares of 500 lire; commencing with 1899 the shares are subject to annual drawings in Rome in October, shares drawn being paid off in the following January at 500 lire each, while for each share reimbursed a bon de jouissance is given entitling the holder to participation in annual dividends in excess of 5 per cent. (478 shares had to October, 1914, been drawn). The company has also issued 4 per cent. obligations of 500 lire each, the amount outstanding at July 1, 1914, being 8,712,000 lire; interest is payable January 1 and July 1, and the principal is being repaid by drawings. The accounts are made up annually to June 30, and submitted in November, dividends being paid in January and July. For each of the two years to 1906-7 5 per cent. was paid; for 1907-8, 5½; for 1908-9, 5½; for 1909-10, 5·80; for 1910-11, 6; for 1911-12 and 1912-13, 6·20; and for 1913-14, 6. Payments were made in January and July, 1915, on account of 1914-15, amounting to 5 per cent.

"As from July 1, 1905, the line has been taken over by the Italian government. The status of the obligations has not been altered, and they will be paid off from time to time as the company realises part of its assets, which consist practically entirely of the government annuities (capital value estimated at 32,019,000 lire on June 30, 1913), given partly in payment for rolling stock on taking over the working of the railway in 1905, and partly to meet the charges for the capital expended on the construction for account of the government of some portion of the lines."

Italian Three per Cent. Railway Bonds.—Under the above title securities for a considerable amount have been issued here and on the continent, and are quoted in the official list amongst foreign railway obligations. They are the obligations, partly of the South Italian Railway Company, partly of the Italian Company of Sicilian Railways, and partly of the Italian Company of Mediterranean Railways, but these companies have now no part in providing the service of the obligations, which is borne entirely by the Italian government, under whose guarantee the obligations were originally issued. The total amount issued was 1,227,850,000 lire in obligations of 500 lire and 2,500 lire

each, and they have also their value in French and German coinage impressed on them. Of the amount named, 157,500,000 lire was offered here in June, 1887, by Messrs. Baring Brothers and Co. (now Baring Brothers and Co., Limited), 8, Bishopsgate, E.C., and Messrs. C. J. Hambro and Son, 70. Old Broad Street, E.C., at the rate of £63 10s. per obligation of 2,500 lire; and a further 366,350,000 lire was offered in February, 1889, by the same firms at the rate of £11 11s. 3d. per obligation of 500 lire. The coupons are payable January 1 and July 1, subject to deduction for Italian taxes (now 20 per cent.), in London and most of the continental cities—in London by Baring Brothers and Co., Limited, and Messrs. Hambro, at the above addresses, at the fixed exchange of 25·25 lire to the £—the July, 1915, coupon of each 500 lire bond having been cashed at 4s. 7d., less English income tax. The obligations are redeemable by annual drawings in ninety years in May, commencing in 1896. The issue was made in five series, A, B, C, D and E, and series A and B are quoted in the official list.

Kansas City, Mexico and Orient Railway Company.—*London Agent:* J. C. Taylor, 65, Bishopsgate, E.C. *Head Office:* New York, U.S.—Four per cent. fifty-year first mortgage gold bonds, of $1,000 each, of this company are known here. The total amount of bonds issued is $21,993,000, and of these the construction companies received $12,855,000, of which about $11,280,000 have been sold to the public. Some of the bonds were offered for sale here in March, 1909, by the contractors for the road, at £200 per bond, plus accrued interest, while with each bond was given by way of bonus 40 per cent. of preferred shares and 40 per cent. of common shares; and $5,000,000 were offered for sale by the purchasers in June, 1910, through Parr's Bank, Limited, 4, Bartholomew Lane, E.C., and Messrs. Boulton Brothers and Co., 39, Old Broad Street, E.C., at £168 per bond, allottees of these bonds having been given options over preferred and common shares, which options, however, expired on June 1, 1913. Interest on the bonds is payable February 1 and August 1, and the bonds are to be repaid February 1, 1951, all payments being made in New York. Interest on the bonds due August 1, 1912, and since has not been paid. Under the mortgage the issue of bonds is limited to $22,500 per mile of completed road, with an additional $2,500,000 for heavy work in the Sierra Madre mountains, and $15,000 per mile of yard and terminal tracks. Provision is also made for increasing the issue by $12,000 bonds per mile of additional main or double track, and $15,000,000 for equipment and terminals. The construction companies contracted to provide interest on bonds sold to the public up to and including the coupon falling due August 1, 1913.

In October, 1908, Messrs. Foster and Braithwaite, 27, Austin Friars, E.C., were authorised by the contractors for the building of the railway to offer for sale on their behalf £200,000 of secured 6 per cent. five-year convertible sterling notes of £100 each, to bearer, at par, plus accrued interest. Coupons on the notes are payable February 15 and August 15, by the Electric and General Investment Company, Limited, 1, Great Winchester Street, E.C., and the principal fell due August 15, 1913. Interest on the notes due August 1, 1912, and since has not been paid, and the principal of the notes was not met at due date. The notes are a direct obligation of the railway company, and are specially secured by the deposit with the Electric and General Investment Company, Limited, of 4 per cent. first mortgage bonds to the extent of $1,000 for each £100 of notes, and the holders of the notes had the option, on any interest date, of exchanging for 4 per cent. first mortgage bonds taken at the price of 80 per cent., that is, $1,000 of bonds for every £160 of notes. There was also to be deposited with the Electric and General Investment Company an amount of cash equal to two years' interest on the notes. None of the notes have been converted. There are also—6½ per cent. sterling notes, sold in America, for £19,200; and $1,000,000 5 per cent. first lien two-year receivers' certificates (part of $2,500,000 authorised), issued in 1912. The authorised share capital is $75,000,000 in shares of $100, half being in 4 per cent. non-cumulative preferred shares, and half in common shares, and $12,500,000 of each class has been issued, all the shares being fully paid.

In March, 1912, the company went into the hands of receivers, and interest due in August, 1912, and since, on the first mortgage bonds and the convertible sterling notes, referred to above, has not been met. In March, 1912, a committee of the first mortgage bondholders was formed, consisting of the following: Lord Monson (Chairman), B. Newgass, Cecil Braithwaite, H. Bronner, G. Farquhar, F. Hurdle, W. T. Kemper, W. V. King, L. F. Loree, T. P. Shonts, E. D. Stair and S. D. Warfield, and the deposit of bonds was invited with the Columbia Trust Company of New York, and Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C. In June, 1914, the reorganisation committee invited subscriptions at 97½ per cent. towards $5,500,000 of 6 per cent. two-year gold notes, forming part of an authorised issue of $6,000,000, of which $3,200,000 had been subscribed in the United States, leaving $2,300,000 for subscription in London, and the whole of the $5,500,000 of notes has been issued. The notes are to bearer, of $1,000 each, with coupons payable April 30 and October 31, and are repayable at par, plus accrued interest, on April 30, 1916, while the whole amount may be redeemed previously, at par, plus accrued interest, at any time on sixty days' notice, either at the London office, in sterling at the fixed rate of 4s. 1½d. to the dollar, or in New York, in currency. The trustees for the note holders are the Trustees, Executors and Securities Insurance Corporation, Limited, Winchester House, E.C., and the Columbia-Knickerbocker Trust Company of New York. The amount required to meet the interest on the notes for the entire period of two years was to be held by the trustees, and the notes have as collateral the securities deposited with the reorganisation committee totalling nearly $20,000,000 of the 4 per cent. first mortgage bonds, and the proceeds were to be used in providing for the receivers' certificate and notes issued under the authority of the court, and certain other claims, preparatory to a foreclosure sale. Out of the first monies receivable under any plan of reorganization that may hereafter be issued sufficient will be retained to repay the note issue at par. Interest on the notes has been regularly paid.

On July 7, 1914, the Kansas City, Mexico and Orient Railway Company was purchased for the bondholders by the bondholders' reorganisation committee, the proceeds of the sale of the above-mentioned $5,500,000 of notes enabling the committee to do this, and to pay off the receivers and all preferential

claims. Owing to the European war, the publication of the reorganisation plan is delayed, but in the meanwhile the committee has put in a temporary president and board of directors, who are now operating the road. The Mexican section, however, remains in the hands of the Mexican receivers.

The railway will be about 1,659 miles in length, of which 979 miles are now in operation, the average mileage operated in 1908-9 having been 570 miles, in 1909-10 715 miles, and in 1910-11 1,021 miles—882 miles being the company's own line, and 139 miles worked under traffic arrangements. Subsidies have been granted by the federal and state governments in Mexico. The gross earnings for the year to June 30, 1913, amounted to $1,898,968; in 1913-14 to $1,903,156; and in 1914-15 to $2,397,039.

Madras and Southern Mahratta Railway Company, Limited.—*Directors :* Col. Sir W. S. S. Bisset, K.C.I.E. (Chairman), Sir H. P. Burt, K.C.I.E. (Government Director), Col. W. V. Constable, L. R. W. Forrest, J. O'Connell, Col. Sir D. Robertson, K.C.S.I., and E. E. Sawyer. *Secretary :* Lt.-Col. H. Bonham-Carter. *Acting Secretary :* P. A. Cory. *Office :* 91, York Street, S.W.—This company was registered May 24, 1882, as the Southern Mahratta Railway Company, Limited, to construct a system of railways, under a contract with the Secretary of State for India in Council. This contract was in the first place for 50 years, with the option to the Secretary of State to acquire the line on June 30, 1907, and certain subsequent dates, and notice was given of the intention to exercise this option on June 30, 1907, this date being subsequently altered by agreement to June 30, 1908. Under the original contract the Secretary of State guaranteed interest at 3½ per cent. per annum on the paid-up capital, and the company was also entitled to one-fourth of the net earnings of the railways, less, until December 31, 1890, any amount paid by the Secretary of State in respect of an additional guarantee to that date of ½ per cent. per annum, the guarantees of 3½ per cent. and the additional ½ per cent. being in the first place on £3,000,000, subsequently extended to an additional £500,000, while the government also guaranteed both principal and interest of the debentures. At the end of 1887 another contract was made with the Secretary of State, by which the company agreed to take over as from July 1, 1886, and complete the Mysore State Railway, the capital raised for this purpose to be guaranteed both as to principal and interest by the Secretary of State, while the profits on working the Mysore State Railway, without taking into consideration interest charges, were to be divided between the government and the company in the proportion of three-fourths to the government and one-fourth to the company.

Under a new agreement, dated June 26, 1908 (somewhat revised early in 1911), between the company and the Secretary of State, to date from July 1, 1908, portions of the Madras Railway system and South Indian Railway system were brought into this undertaking, and the £3,500,000 of ordinary capital has been increased to £5,000,000, the additional £1,500,000 having been given in part satisfaction of the purchase price of the Madras Railway. As between the Secretary of State and the company, the capital, as on December 31, 1907, is taken to be £16,250,000, viz.—Secretary of State's capital £11,250,000 ; company's capital, £5,000,000. Funds required for capital purposes from January 1, 1908, are to be provided at the Secretary of State's option, either by him by means of advances or by the company by the issue of debenture stock, debentures, or capital stock, on such terms as may be sanctioned by him. In exercising this option, the Secretary of State will, from time to time, allow the company to increase its capital so that its share of surplus receipts may be as nearly as possible four-thirteenths (the ratio of the respective capital as on December 31, 1907). To March 31, 1913, the Secretary of State's capital had been increased to £12,378,258, the company's capital remaining at £5,000,000. The advances by the Secretary of State were repaid in April and May, 1913, out of the proceeds of the issue by the company of debentures and debenture stock, and the Secretary of State's capital was thus restored to £11,250,000 The Secretary of State guarantees interest at the rate of 3½ per cent. per annum on the company's capital stock for the time being, and the surplus net receipts, after deduction of interest on debentures, are divided between the Secretary of State and the company in proportion to the respective shares in which the capital for the time being shall have been contributed by them, with the reservation that certain sums advanced by the Secretary of State up to £2,000,000 shall not be profit-sharing capital, but, until repaid, shall carry interest at

4 per cent., the amounts so treated to be the first to be cancelled when money is repaid to the Secretary of State against advances. Out of the company's share of the surplus receipts, as above determined, the Secretary of State is entitled to retain in respect of each year the equivalent in rupees of the guaranteed interest for such year, so far as the same will admit, but if such share of surplus receipts in respect of any year shall be less than the guaranteed interest for such year, the deficiency shall not be made good out of the share of surplus receipts payable to the company in respect of any subsequent year. The present contract may be determined by the Secretary of State on December 31, 1967, or on December 31 in any succeeding fifth year reckoning from that date, when the Secretary of State will repay the capital at par. Further, the contract for the working of the Mysore State Railways (the profits on which are based on each half-year separately considered) was renewed to December 31, 1937, and additional lines were brought in, the Madras and Southern Mahratta system (company's and State lines) being now 2,552 miles, and other railways are worked by the company for 580 miles. The profits on working the Mysore Railways after deducting interest on capital expended from January 1, 1908, are divided between the government and the company in the proportion of nineteen-twentieths to the government and one-twentieth to the company; in regard to the "other railways," in which the proprietors of this company do not participate in surplus receipts, working expenses are divided in the ratio of the earnings of each railway. In connection with the enlarging of the system and the taking over of a portion of the Madras Railway, &c., the name of the company was altered to the Madras and Southern Mahratta Railway Company, Limited. The capital is as follows:—

Madras Railway.—*Office:* 162, Finsbury Pavement House, E.C.—As from December 31, 1907, this undertaking became vested in the Secretary of State for India. The liability for the debenture bonds was assumed by the Secretary of State, and particulars of these debenture bonds are now given in this work with the India government debt. The prices of the 5, 4¾ and 4½ per cent. stocks of the Madras Railway Company, on the basis of which the purchase was effected, were agreed at £126$\frac{167}{891}$ for the 5 per cent. stock, £118$\frac{177}{851}$ for the 4¾ per cent. stock, and £111$\frac{277}{1782}$ for the 4½ per cent. stock, and the Secretary of State exercised his option to make payment by means of terminable annuities, expiring on April 1, 1956, at the rates of respectively £5 9s. 3d., £5 2s. and £4 16s. 3d. for every £100 of 5, 4¾ and 4½ per cent. stock. Holders of annuities had the option of taking £1,500,000 of Madras and Southern Mahratta Railway stock in exchange for a portion of their annuities, and by this means the amount of the annuities was reduced, the A class now totalling £68,165, and the B class £420,216.

Madrid and Portugal Direct Railway (Avila and Salamanca), Limited.—*Directors:* Sir C. G. Hyde, Kt. (Chairman), General W. Gordon and J. Kitching. *Secretary (pro tem.):* J. P. Jones. *Office:* 35, Great St. Helen's, E.C.—This company was registered December 3, 1887, to take over a concession for 99 years from August, 1883, from the Spanish government. There is no option of government appropriation of the line before the expiration of the concession, and no monetary guarantee was given. The company issued ordinary and preference shares and debentures, but in 1891 debenture interest fell into arrear, and in the following year receivers were appointed.

In 1895-6 a plan of reorganisation was drawn up, and the authorised capital is—£150,000 in ordinary shares of £10; £200,000 in 5 per cent. first preference shares of £1, with dividends cumulative from one year after the opening of the line throughout; and £150,000 in 5 per cent. non-cumulative second preference shares of £1; while power was taken to issue £600,000 of debentures. Of the ordinary shares £50,070, of the first preference shares £108,916, and of the second preference shares £100,010 have been issued as fully paid; and of the debentures £206,400 has been issued. The debentures are of £500 and £100 each, are secured by a first mortgage, with 6 per cent. interest, payable January 1 and July 1, and are repayable December 31, 1956, while a 1 per cent. sinking fund was to commence at the end of 1911. The line was to be about 62 miles in length, and the first section, from Salamanca to Peñaranda, a distance of 26 miles, was opened for traffic on May 31, 1894; no further construction work is proceeding.

The accounts are made up annually to December 31, and submitted in July. In the year 1901 the gross receipts were £5,606; in 1902, £6,153; in 1903, £5,982; in 1904, £6,061; in 1905, £5,848; in 1906, £6,012; and in 1907, £6,593. Interest on the debentures due in the nine years to 1907 was funded into securities of the same class, making the amount as given above, but no steps have been taken in regard to funding subsequent interest. At December 31, 1908, there was a debit to revenue account of £117,207, including £12,699 then arrear debenture interest. In February, 1906, the Spanish government issued an order declaring the line in a state of forfeiture, and took over the railway in August, 1908. The directors in their report for the year 1913, submitted in July, 1914, stated that "The Spanish government having fruitlessly attempted to obtain offers to complete the railway upon the terms of offering the existing portions of the railway as a subvention, is now proposing to incorporate it in the general system of Spanish lines and to concede it the maximum subvention of 60,000 pesetas per kilometre of line to be constructed and a further advance of 15,000 pesetas per kilometre. These terms were practically those asked for by the company more than ten years ago and refused. Had they then been conceded, the railway would have been long ago completed and opened. It is questionable whether in existing circumstances the terms now offered make it worth while for the company to make a fresh attempt to get a new concession for 99 years and complete the line. The directors are carefully investigating the position"; and in the report for 1914, submitted in August, 1915, it was stated that "on the outbreak of the war, in order to provide for the relief of distress consequent upon the great want of employment throughout Spain, the government, by two royal decrees, dated August 11 and September 17, 1914, authorised the continuance of the construction of the railway from Peñaranda to Avila as relief works from funds provided by the State, amounting to 500,000 pesetas. The directors understand that the extension of the line has accordingly been commenced, but they have no knowledge as to how far the work has yet proceeded. It has naturally been impossible for the directors as yet to take any steps in the interest of the bondholders." Voting power, one vote for every 10 ordinary or first preference shares, and one vote for every 100 second preference shares. Director's qualification, £500 in shares of any class. Transfer form, common; fee, 2s. 6d. per deed. Telephone number, 1846 Avenue.

Malvern (Funicular) Light Railway Company.—The company was incorporated in 1911. According to the government returns, the authorised capital, including loans, at the end of 1912 (later figures not having yet been published), was £15,000, none of which had been issued.

Manhattan Railway Company.—*Directors:* E. L. Marston (President), W. A. Day, R. M. Gallaway, E. Gould, G. J. Gould, J. D. Greene, E. T. Jeffery, A. W. Krech, S. J. Murphy, H. C. Phipps, J. D. Rockefeller, Jun., J. J. Slocum and E. C. Snow. *Office:* New York.—This company owns all the elevated railways of New York city and in the boroughs of Manhattan and the Bronx, the main track of the system being about 37 miles in length. The capital is $60,000,000 in shares, with a bonded debt of $40,777,000. Of this latter amount $39,777,000 is in consolidated mortgage 4 per cent. gold bonds of $1,000 each, which are known here, and are quoted in the official list to the extent of $28,065,000; the total amount authorised is $40,894,000, including provision for prior bonds when due, floating debt, &c.; interest is payable April 1 and October 1, and the principal falls due April 1, 1990, all payments being made in New York; the bonds are to bearer, but may be registered as to principal and interest in New York, the fee charged being 50 cents per bond irrespective of denomination, and such registered bonds may be re-exchanged into bonds to bearer, the fee for this operation being $1 per bond.

The accounts are made up annually to June 30, and submitted the second Wednesday in November. The railway is now leased to the Inter-Borough Rapid Transit Company, as from April 1, 1903, for 999 years from the date of organisation, the rental now and for the future to cover bond

interest and 7 per cent. dividends on the shares. The share dividends are paid quarterly. Particulars of the Inter-Borough Transit Company will be found elsewhere in this work. Latest price of 4 per cent. bonds, 92½.

Manila Railroad Company.—*Directors:* H. L. Higgins (President), J. G. Metcalfe (Vice-President), D. P. Bennett, C. A. Conant, D. T. Davis, W. Gardner, General F. McIntyre, J. G. Milburn, R. Schuster, J. S. Ulman and Col. C. C. Walcutt, Jun. *Office:* 45, Nassau Street, New York.—This company was organised in 1906 under the laws of the state of New Jersey, and took the place of the old English company holding concessions from the Spanish government (see notice of the Manila Railway Company (1906), Limited). Fresh concessions have been obtained from the Philippine government, and the company now holds concessions relating to 820 miles of railroad. The concessions provide that there shall be paid annually for a period of thirty years an amount equal to ½ per cent., and for fifty years thereafter an amount equal to 1½ per cent. of the gross earnings of the company in lieu of all taxes of every name and nature, upon the franchises, earnings and all other property owned by the company, while the Philippine government appoints two members of the board. Of the 820 miles of railroad 350½ miles are designated the "northern lines" and 469½ miles the "southern lines," and under the concession the two systems are required to be kept separate and distinct, and are to be constructed, maintained and operated as if owned by separate and independent companies. Of the northern lines 315 miles are now in operation, and the construction of the remaining 35½ miles is proceeding, while of the southern lines 235 miles have been opened for traffic, and the construction of the remaining 234½ miles is being proceeded with, to be completed by about 1917. The share capital outstanding consists of $3,652,800 (U.S. currency) 7 per cent. cumulative preferred shares, and $2,130,700 common shares, all of which are owned by the Manila Railway Company (1906), Limited. In July, 1910, Messrs. Speyer Brothers, 7, Lothbury, E.C., and the Hongkong and Shanghai Banking Corporation, 31, Lombard Street, E.C., offered for sale £411,516 13s. 4d. ($2,000,000) of Southern Lines first mortgage 4 per cent. gold bonds of £205 15s. 2d. each, at the price of 86 per cent., equal to £176 19s. per bond, the lists being simultaneously opened in the United States. The bonds have also their value in dollars, marks, florins and francs expressed on them; they form part of a total authorised limited to $30,000,000, of which $10,575,000 has been issued (inclusive of bonds deposited as special security for the 5 per cent. debenture stock of the Manila Railway Company (1906), Limited), secured by a first mortgage on the whole of the southern lines and the equipment, have coupons payable May 1 and November 1, and will mature May 1, 1939, while the company covenants that it will not, from the year commencing May 1, 1919, up to and including the year commencing May 1, 1928, pay any dividend upon its capital stock out of the earnings of the southern lines, unless in that year it shall have paid to the trustees a sum equal to ½ per cent. of the amount of bonds outstanding at the date of such payment, and that it will not in the year commencing May 1, 1929, nor in any year thereafter until the maturity or earlier redemption of the bonds, pay any dividend on its capital stock out of, in whole or in part, the earnings of the southern lines, unless in that year it shall have paid to the trustees a sum equal to 1 per cent. of the amount of bonds outstanding at the date of such payment, such transfers to the trustees to be devoted to the purchase of the bonds at not exceeding 110 per cent. and accrued interest, or to drawings at that price, or to be invested in such trust funds as are authorised by law in the state of New York, such trust funds to be held as additional security for the payment of principal and interest on the bonds. Moreover, the company has reserved the right to redeem the entire issue of bonds, but not any part thereof, at any time on three months' notice at 110 per cent. and accrued interest. The government of the Philippine Islands guarantees the interest on the bonds by endorsement on each bond, and any payments made by the government under its guarantee are to be repaid to it only at the maturity of the bonds, the lien of the government securing such repayment being subject to the lien of the mortgage securing the bonds. All payments are made free of United States and Philippine taxes, in New York in United States gold coin, or (as regards bearer bonds) in London (by Messrs. Speyer Brothers), Frankfort-on-Main, Berlin or Amsterdam. The bonds are to bearer, but may be registered as to principal only at the office of the company, free of charge, and are exchangeable for bonds registered as to both principal and interest, at a fee not to exceed $1, while partly or fully registered bonds can be re-exchanged for coupon bonds, the charge being $1 per bond. The bonds will be accepted by the United States Treasury as security for deposits of the public money of the United States in national banks at 90 per cent. of their market value. There are also first mortgage 6 per cent. gold bonds for $4,330,000, second mortgage 7 per cent. gold bonds for $7,716,000 (both falling due in 1956, which are liens on the northern lines, and, subject to the guaranteed bonds, also liens on the southern lines, and which are all held by trustees on behalf of the Manila Railway Company (1906), Limited), and a loan from the Philippine government for construction purposes of $2,313,500.

The accounts are made up annually to December 31. For the year 1913, the northern lines earned a profit, after meeting interest charges, of $211,392, and the southern lines, after meeting interest ($258,018) on bonds and other interest charges for $63,284, earned a profit of $72,424, the company at the end of 1913 having a total credit to profit and loss, as regards both northern and southern lines, of $300,174, out of which a dividend of 7 per cent. on the preferred shares in respect of the year ended September 30, 1909, was paid in May, 1914, leaving the credit balance at $67,332. For 1914 there was a loss on the northern lines, after providing $799,920 for interest on the funded debt, of $17,739, and on the southern lines, after providing $327,985 for interest on the funded debt and $102,635 for other interest, a loss of $40,705, and after crediting profit and loss with $27,813 in respect of sundry adjustments, the surplus brought forward was reduced to $36,702. All these figures are United States currency. The 4 per cent. first mortgage bonds are quoted in the official list to the extent of $2,996,000, Nos. 1 to 2996.

Manila Railway Company (1906), Limited.—*Directors:* C. J. C. Scott (Chairman), Admi. Sir C. A. G. Bridge, G.C.B., E. J. W. Byrne, Sir J. F. F. Horner, K.C.V.O., R. B. Pbillpotts and Capt. C. A. R. Scott. *Secretary:* J. Mackenzie. *Office:* 286, Dashwood House, E.C.—The old company was registered January 25, 1888, to take over a concession from the Spanish government for a line of 196 kilometres (122 miles) for a term of 99 years from April, 1887. The (then) guarantee was paid regularly by the Spanish government up to 1897, but nothing since, and on January 1, 1899, the sovereignty of the

Philippine Islands was assumed by the United States of America, which government, however, made no payment to the company in respect to the above-mentioned guarantee and the indebtedness of the Spanish government to the company. In 1903 concessions were obtained from the Philippine government for the construction of extensions of 88½ miles, and these concessions superseded that granted by the Spanish government to the old company. These concessions are in perpetuity, and without government guarantee.

For several years negotiations were carried on with a view to obtaining a settlement of the claims against the United States of America, arising out of the insurrection that followed the American occupation of the Philippine Islands, and late in 1906 an arrangement was come to, and has been carried into effect. Under this arrangement the company, in exchange for certain advantages and a clear definition of the position, surrendered its various claims against the United States. A new company has been formed in America under the title of the Manila Railroad Company, which has taken over the English company's properties, and has been granted a perpetual concession for the lines formerly owned by the English company, as well as for extensions of about 444 miles of railroad. All the American company's shares and bonds, with the exception of the guaranteed bonds mentioned below (and particulars of which will be found in the notice of the Manila Railroad Company), are held by trustees on behalf of the English company, which was registered under the present title on December 13, 1906. The authorised capital of the new company is £4,000,000 in shares of £10, half being 5 per cent. non-cumulative preference, with a priority as to capital, and half ordinary, and power was taken to issue £3,250,000 of 4 per cent. A debenture bonds and £3,250,000 of 4 per cent. B debenture bonds, but in 1909 the authorised amount of the debentures was reduced to £2,000,000 of each class, and in July, 1914, increased to £2,500,000 of each class. The reduction in 1909 in the amount of bonds authorised was in connection with the obtaining from the Philippine government of a new concession, under the terms of which the latter agrees to guarantee interest for thirty years on a new issue of bonds of the American company (which see) to defray the cost of extensions south of Manila, already partially constructed, and of further extensions of about 162 miles over and above those already agreed upon, making the total mileage of the projected system 820 miles, of which 350½ miles will form the Northern or unguaranteed system (on which the A and B bonds are secured), and 469½ miles the Southern or guaranteed system under the new concession (on which the guaranteed bonds of the American company are secured). Of the Northern system 315 miles are now in operation, and the construction of the remaining 35½ miles is proceeding; and of the Southern system 235 miles are in operation, and the construction of the remaining 234½ miles is to be completed by about 1917. The reconstruction in 1906 was carried through by Messrs. Speyer Brothers, 7, Lothbury, E.C., and Messrs. Speyer & Co., of New York, and the issued capital is now as follows :—

£399,340 Ordinary shares of £10, fully paid, issued against ordinary and deferred shares in the old company.

£2,000,000 Five per cent. non-cumulative preference stock, with a priority as to capital. Of this amount, £1,180,000 was issued (in shares of £10) against preference shares and debentures in the old company, and £820,000 was allotted to the syndicate carrying through the reconstruction, towards providing the funds for the construction of the new lines, and for the expenses of the reconstruction.

£2,000,000 Four per cent. A debenture bonds to bearer of £20, £50, £100 and £200 each, and debenture stock, secured by a trust deed on the whole of the capital, less directors' qualification shares, of the Manila Railroad Company (of U.S.). Interest is payable January 15 and July 15, and the principal is to be repaid at par January 15, 1956, or as to the whole or any part at any time after 1925, at the company's option, at 105 per cent., on six months' notice. Of the issued amount of £2,000,000, £1,257,200 was given in exchange for securities of the old company, and £442,800 was allotted to the syndicate carrying through the reconstruction, towards providing the funds for the construction of the new lines, and for the expenses of the reconstruction. Of the amount of £1,700,000 then issued, £1,250,000 was offered for sale in July, 1908, by Messrs. Speyer Brothers, 7, Lothbury, E.C., and the Hong Kong and Shanghai Banking Corporation, 31, Lombard Street, E.C., at 83 per cent. The total authorised is £2,500,000, the balance of £500,000 having been deposited as collateral. The bonds may be converted into registered debenture stock free of charge, but registered stock may not be exchanged back to bonds to bearer.

£1,880,000 Four per cent. B debenture bonds to bearer of £20, £50, £100 and £200 each, and debenture stock, ranking after the foregoing A debenture bonds on the same securities, with coupons payable April 15 and October 15, and the principal repayable at par April 15, 1956. Of the above amount of £2,000,000, £730,000 was given in exchange for securities of the old company, and £1,100,000 was allotted to the syndicate carrying through the reconstruction, towards providing the funds for the construction of the new lines, and for the expenses of the reconstruction, while £620,000 has, in addition, been deposited as collateral. The total authorised is £2,500,000. The bonds may be converted into registered debenture stock free of charge, but registered stock may not be exchanged back to bonds to bearer.

£1,000,000 Five per cent. debenture stock (the total authorised), £600,000 issued in February, 1913, through Messrs. Speyer Brothers, 7, Lothbury, E.C., at 95 per cent., and £400,000 in July, 1914, at 90 per cent. Interest is payable June 1 and December 1, and the stock is repayable at par June 1, 1939, or, as to the whole or any part (if the latter such portion to be ascertained by drawings) at the company's option at any time, on six months' notice. The stock is specially secured by the deposit with the London County and Westminster Bank, Limited, as trustee, of Manila Railroad Company (Southern Lines) first mortgage 4 per cent. gold bonds to an amount equal to 125 per cent. of the debenture stock, interest on these bonds being guaranteed by the Philippine government (see notice of Manila Railroad Company).

The accounts are made up annually to December 31, and submitted about July. Interest charges are being regularly met, but there has been no dividend on the ordinary capital, and the first dividend on the preference stock was 1 per cent. for 1911, followed by a similar distribution each time for 1912 and 1913; no preference dividend was paid for 1914. In respect of 1914 the English company received as interest on its holdings of bonds in the American company £207,066, and, after meeting interest charges, there remained £94,205 to be carried forward, as against £103,940 brought into the accounts. The company has claims in suspense against the Spanish government amounting to £45,908. In 1915 (to November 6) the gross earnings of the Manila Railroad Company's Northern lines (old and new systems) were £224,296, as against £267,250 in the same period of 1914; and of the Southern lines (new system) £163,406, against £149,429. Voting power, one vote for each ordinary share, or £10 of preference stock. Transfer form, common; fee, 2s. 6d. per deed; preference or debenture stock is transferable in multiples of £1. Telephone number, 9023 London Wall. The preference stock, A and B debentures and debenture stock are quoted in the official list. Latest prices—preference, 12¼; A debentures, 60½; B debentures, 44¾; debenture stock, 78¼.

Manitoba South-Western Colonisation Railway Company.—In January, 1886, there were issued in Amsterdam $2,052,000 5 per cent. first mortgage bonds of $1,000 each, of this company at the price of 95 per cent. The present amount is $2,616,000, of which $72,000 has been acquired by the Canadian Pacific Railway Company, and is held against 4 per cent. debenture stock of that company issued in exchange. Interest is payable June 1 and December 1, and the bonds mature June 1, 1934. All payments are made in New York, or in London, by the Swiss Bankverein (as successors to Messrs. Blake, Boissevain and Co.), 43, Lothbury, E.C., and 11, Regent Street, S.W., at the fixed exchange of 4s. 1½d. to the dollar. The line is leased in perpetuity to the Canadian Pacific Railway Company, which guarantees the interest on the above bonds. The entire share capital issued, $700,000, is held by the Canadian Pacific Company. The bonds are to bearer, but may be registered as to principal only, on payment of a fee of 5s. per bond, at the office of the Canadian Pacific Railway Company, 8, Waterloo Place, Pall Mall, S.W., and registered bonds may be reinstated as bonds to bearer for a fee of 5s. per bond. Sanders. *Office:* 1, Gluman Gate, Chesterfield.—The company was incorporated in 1910 to construct a railway about 14 miles in length, which is to be worked and maintained by the Great Central Railway Company in perpetuity for 60 per cent. of the gross receipts, while, until the expiration of the time limited for construction, the company was empowered to pay interest at the rate of 4 per cent. per annum upon the share capital called up. Marianao and Havana Railway Company, Limited.—*Directors:* Sir H. M. Jackson, Bart. (Chairman), Hon. A. O. Crichton and R. Popkiss. *Secretary:* E. J. Pringle. *Office:* 270, Dashwood House, E.C.—The railway was constructed in 1858 by a Spanish company in the Havana, with the aid of a loan of £60,000 raised in London on 600 debentures of £100 each, of which 120 were subsequently redeemed. That company having failed in 1870 to meet the interest due to the then

debenture-holders, the latter appointed a committee to look after their interests. In order to secure effective unity of action amongst the bondholders, the present company was registered January 11, 1871, as the Company of Bondholders of the Havannah and Marianao Railway, Limited, and in 1879 the name was changed as above. The company acquired 457 out of the 480 unredeemed debentures in exchange for ordinary shares, and subsequently acquired 15 debentures more. The company, as mortgagee, then commenced proceedings in Havana to foreclose the line, and eventually succeeded in August, 1876, after a five years' struggle, in having it adjudged to it for the amount of the debt.

The owners of certain lands acquired by the railway company receive an annual rent of $2,807 for the lands taken over. An agreement has been entered into with the United Railways of the Havana and Regla Warehouses, Limited, for a period of not less than 99 years from February 16, 1905, under which that company took over the working of the Marianao Company's property, and is to pay annually to the Marianao Company—(1) £1,000 to cover administration expenses; (2) a further sum of £3,000; and (3) £500 for every 1 per cent. which the United Railways Company pays to its ordinary shareholders in excess of 7 per cent. The United Railways Company also undertakes to pay the rent-charges accruing on the property in Havana. Under the above agreement the value of the railway was written down to £50,000 by the appropriation of the surplus (after payment of interest charges) for 1904 of £36,976, and the placing of £59,480 to railway suspense account.

The capital is £100,000 in fully-paid shares of £10, and £7,000 in 5 per cent. perpetual debenture stock. The accounts are made up annually to December 31, and submitted in March or April. Mashonaland Railway Company, Limited.—*Directors:* R. Maguire (Chairman), Lt.-Col. the Hon. E. Baring, C.V.O., H. Birchenough, C.M.G., H. Wilson Fox, Lord Lurgan and Hon. Sir L. Michell, C.V.O. *General Manager in Rhodesia:* E. R. Ross. *Secretary:* R. J. Hackshaw. *Registrar:* R. C. Bolton. *Office:* 2, London Wall Buildings, E.C.—The company was registered April 13, 1897, to construct a railway from Umtali to Salisbury, a distance of about 171 miles; the lines now owned are of a total length of 547 miles, and in addition the company works the Beira and Beira Junction railways, of a total length of 204 miles, as well as the lines of the Rhodesia Railways, Limited, North of Bulawayo, and those of the Blinkwater Railway Company, Limited. The authorised capital is £450,000 in shares of £1, all of which was issued, fully paid, to the British South Africa Company, but they have since been taken over by the Rhodesia Railways Trust, Limited.

In August, 1897, an issue of £1,150,000 first mortgage 5 per cent. debentures, to bearer of £100 each, was made at 90 per cent.; in April, 1899, £900,000 of similar debentures was issued at 95 per cent.; in November, 1899, £50,000 was issued at par; and in December, 1900, £400,000 was issued at 93 per cent., making a total outstanding of £2,500,000, which is the amount authorised. Interest is payable April 1 and October 1, and the principal is repayable, at the option of the company, at any time, on six months' notice, at 105 per cent., the company reserving the right to redeem a portion only of the debentures, the numbers of such debentures to be determined by drawings, and also the right to make purchases in the market in lieu of holding drawings; while, in the event of the company being wound up, the debentures are to be repaid at 105 per cent. The payment of interest in cash is unconditionally guaranteed by the British South Africa Company, by endorsement on the bonds, for 22 years from October 1, 1897, and is made at the National Provincial Bank of England, Limited, 15, Bishopsgate, E.C. Of the issue of £900,000 of debentures, made in April, 1899, £800,000 was for the purpose of converting the systems of the Beira Railway Company, Limited, and the Beira Junction Railway (Port Beira to Fontesville), Limited, into the same gauge as that of the Mashonaland Railway Company, the Beira Companies having agreed to give to the Mashonaland Company a prior lien rent-charge of £42,500 per annum, non-cumulative and payable only out of the net earnings of the Beira Railway Companies. "This rent-charge is to be secured in such a form that, in the event of a foreclosure or other proceedings on behalf of any of the debenture-holders of either the Beira Railway Company or the Beira Junction Railway Company, the priority of the rent-charge shall be reserved, and, as respects capital, be represented by a sum of £850,000, which rent-charge is to be provided and set apart before provision is made for payment to any of the debenture-holders or other creditors of the Beira Railways. The difference of £50,000 between £800,000 and £850,000 is raised for the purposes of the Beira Railways." The rent-charge dates from the completion of the widening of the Beira Railways on July 8, 1900. As from June 13, 1914, a supplemental agreement has been entered into with the Beira Railway Company under which, in

addition to the rent charge of £42,500 per annum, the Beira Companies are to pay a sum of £8,500 per annum, making a total of £51,000 per annum, and this £51,000 is to be used as a sinking fund towards the redemption of £850,000 of Mashonaland Railway first mortgage 5 per cent. debentures; it is estimated that the £850,000 of debentures named will be redeemed in about forty years' time, and the total annuity of £51,000 per annum payable by the Beira Company will then cease. The £2,500,000 of debentures is secured—on this rent-charge; on the railway from Umtali to Salisbury; by the guarantee of interest by the British South Africa Company, as above; and also on £102,760 4½ per cent. debentures and £71,259 of 6 per cent. income debenture stock of the Beira Railway Company.

In 1910 the company entered into an agreement with the British South Africa Company, the Rhodesia Railways Trust, Limited, and the Rhodesia Railways, Limited, whereby the British South Africa Company obtained the right for ten years to transfer to the Rhodesia Railways Trust, Limited, the debt due to it from this company, and in exchange to take shares at par in the Rhodesia Railways Trust, Limited, in satisfaction of the debt. Under this agreement the British South Africa Company transferred to the Rhodesia Railways Trust, Limited, the debt of £561,864 due to it from this company on August 15, 1911; this amount had been increased by September 30, 1914 (including interest), to £1,090,625.

In October, 1913, this company, in conjunction with the Rhodesia Railways, Limited, acquired the lease for a term of 25 years of the line from Broken Hill to the Congo Border, the property of the Rhodesia Katanga Junction Railway and Mineral Company, Limited, the rental to be £44,000 per annum, while any net earnings over and above the fixed annual rental are to be divided equally between the lessor company and the lessees.

In March, 1905, an issue of £2,560,000 5 per cent. guaranteed mortgage bonds to bearer, of £20 and £100 each, was made through the British South Africa Company, Parr's Bank, Limited, and the Standard Bank of South Africa, Limited, at the price of 96 per cent. Interest is payable January 1 and July 1, and the debentures are repayable at par January 1, 1955, but may, at the option of the company, be redeemed at 105 per cent. on any previous date on six months' notice, the company reserving the right to redeem a portion of the debentures only, the numbers of such debentures to be determined by drawings, and, in the event of the company being wound up, the debentures are to be repaid at 105 per cent. The due payment of capital, interest and premium is unconditionally guaranteed by the British South Africa Company, by endorsement on each bond, and the debentures are secured by a first mortgage on the main line from Kalomo to the Rhodesia Broken Hill Mine (281 miles) and on the branch line from Salisbury to Sinoia (82 miles), while, subject to the above-mentioned £2,500,000 of 5 per cent. debentures, they are a second charge on the railway from Umtali to Salisbury (171 miles), on the rent-charge payable by the Beira Railway and Beira Junction Railway Companies, and on the securities held in the Beira Railway Company. The debentures have also a first mortgage on a land grant of about 281 square miles carrying certain mineral rights, in alternate blocks of one mile square, along the line where available, granted by the British South Africa Company in respect of the 281 miles of line north of Kalomo.

The accounts are now made up annually to September 30, and submitted in May. No dividend has yet been paid. Including 293 miles opened in 1906 the company has now in operation 547 miles of line. The Beira Railway Company's line is now worked (as from August 1, 1900) by the Mashonaland Company for the balance of a term of thirty years dating from about the end of 1896 on a pro rata mileage scale. In the year to September 30, 1905, exclusive of the rent-charge of £42,500 payable annually by the Beira Companies to the Mashonaland Company, the net revenue accruing to the latter was £37,367, and the Beira Companies' proportion was £34,107; in 1905-6 the Mashonaland Company's proportion was £61,282 and the Beira Companies' share, £61,232; in 1906-7, £25,678 and £40,144 respectively; in 1907-8, £32,191 and £59,906; in 1908-9, £93,336 and £96,201; in 1909-10, £137,745 and £153,676; in 1910-11, £179,383 and £200,967; in 1911-12, £143,700 and £160,557; in 1912-13, £191,257 and £216,931; and in 1913-14, £140,320 and £156,951, and at September 30, 1914, there was a total debit to net revenue account of £1,342,604, a decrease on the year of £8,460. From October 1, 1914, to June 30, 1915, the net earnings of the Mashonaland, Beira, and Beira Junction Railways were approximately £216,888, as against £334,131 in the corresponding period (the proportion of net earnings accruing to the Mashonaland Company in respect of the Beira-Salisbury section is 42·37 per cent.). Voting power, one vote for every share. Director's qualification, 1 share. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Junglada, London. Telephone numbers, 4670, 4671, 4672 and 4673 London Wall. Both classes of debentures are quoted in the official list. Latest prices—first mortgage debentures, 60; guaranteed mortgage bonds, 84½.

The authorised capital, including loans, is £18,000, and £4,070 has been subscribed and called up in ordinary shares of £1. There are also debentures for £6,300, while a free grant of £8,260 has been made by the Treasury. The line is 6¾ miles in length, was formally reopened on July 29, 1911, and is worked by the Cambrian Railways Company. The accounts are made up annually to December 31, and submitted in February. For 1912, 1913 and 1914 4 per cent. was paid each time. Director's qualification, £100 of share capital. Transfer form, common; fee, 5s. Telegraphic address, Dinam, Llanidloes. Merrivale Light Railway Company.—The company was incorporated in 1909. According to the government returns, the authorised capital, including loans, at the end of 1912 (later figures not having yet been published), was £18,000, none of which had been issued.

Mersey Railway Company.—*Directors:* J. Falconer, M.P. (Chairman), R. Cooper, Hon. R. C. Parsons, S. G. Sheppard, G. Waddell and H. A. Wakeman-Newport. *General Manager and Secretary:* J. Shaw. *Office:* Central Station, Birkenhead.—The company was incorporated in 1866 to construct a railway connecting Liverpool and Birkenhead by means of a tunnel under the river Mersey. No issue of capital was made until 1881. Interest fell largely into arrear, and in 1900 power was obtained from parliament to reorganise the capital, which

has been done. The chief features of the plan were the extension of the date of redemption of the (then) first 4½ per cent. debenture stock, the reduction in the rates of interest on the other debenture stocks, the issue of certain amounts of preference and ordinary capital in consideration of the reduction in the rates of interest on the debenture stocks, the issue of B debenture stock to certain creditors, and the reduction in the rate of dividend on the preference stock, while from the beginning of 1901 to the end of 1905 (extended to the end of 1915, and subsequently to 1920) interest on all the debenture stocks, except the first debenture stock, is to be contingent on the revenue of the company available for each separate year. The Act of 1900 also gave power to work the railway by electricity. The electrification of the line was carried out by the British Westinghouse Electric and Manufacturing Company, Limited, and that company guaranteed the interest on the new first perpetual debenture stock and on the redeemable first 4½ per cent. debenture stock (redeemed in August, 1905, by a further issue of new first perpetual debenture stock) up to the completion of the works (the date was subsequently extended to December 31, 1908), while the British Westinghouse Company provided in August, 1905, under agreement, the sum of £249,276 for the purpose of redeeming the first 4½ per cent. debenture stock.

The authorised capital, including loans, is now £5,408,350, and £1,412,263 has been issued in ordinary stock; £649,072 in 3 per cent. perpetual preference stock; £669,388 in 4 per cent. new first perpetual debenture stock (including £249,276 issued in August, 1895, to redeem an equivalent amount of redeemable first 4½ per cent. debenture stock), with interest payable January 25 and July 25: £116,600 in 4 per cent. debenture stock (1866); £100,000 in 3 per cent. debenture stock (1871); £360,000 in 3 per cent. debenture stock (1882-3-5); and £281,429 in B 3 per cent. debenture stock. The debenture stocks rank, by a decision of the courts, in the order given.

The accounts are now made up annually to December 31, and submitted in February. There are now about 4 miles in operation, and the remaining powers have been allowed to lapse. Interest on the new first perpetual debenture stock is being regularly paid (up to the end of 1908, with assistance from the British Westinghouse Company under the guarantee referred to above); in respect of 1911 the 1866 stock received 4 per cent., the 1871 stock 3 per cent., and the 1882-3-5 stock, £1 13s. 2½d. per cent.; for 1912 the 1866 stock received 4 per cent., the 1871 stock 3 per cent., and the 1882-3-5 stock £2 17s. 9d. per cent.; and for 1913 and 1914 the 1866, 1871 and 1882-3-5 stocks received their maximum rates, and the B stock got 12s. 4d. per cent. for 1913 (this being the first distribution on the last-mentioned stock), and 1 per cent. for 1914. The working of the line by electric power commenced May 4, 1903. In the first half of 1908 the net earnings were £14,638, and in the second half, £14,494; in 1909, £18,757 and £20,572; in 1910, £21,457 and £24,709; in 1911, £26,571 and £23,959; in 1912, £26,751 and £28,405; in the year 1913, £58,345; and in 1914, £58,267. Credit to net revenue account at December 31, 1914, £1; general renewal fund, £21,065.

Voting power, one vote for each £20 of ordinary capital up to £200, one for every additional £100 up to £2,000, and one for every £200 beyond. Director's qualification, £500 of ordinary stock. The holders of each class of debenture stock have the right to appoint one director so long as the interest on their stock is in arrear. Transfer form, common; fee, 2s. 6d. per deed. Fee for registration of probate, 2s. 6d. Several classes of shares and stocks, including debenture stocks, may be transferred on the same deed. Transfers of stock must be in amounts of £1 and multiples. Telegraphic address, Tunnel, Birkenhead. The preference stock and 4 per cent. debenture stock are quoted in the official list. Latest prices—ordinary stock, 2½; preference, 8½; 4 per cent. perpetual debenture stock, 71; 3 per cent. debenture stock (1871), 45½; 3 per cent. debenture stock (1882-3-5), 37½; 3 per cent. B debenture stock, 26.

Mersina, Tarsus and Adana Railway Company.—*Head Office:* Constantinople.—The company was established in January, 1883, by a firman of the Sultan of Turkey. The company has a concession expiring January 8, 1933, and on that date the line reverts, without payment, to the government, which, however, has to pay such sum as shall be fixed by valuation for all rolling stock, tools, plant and stores then on the railway. At any time now the government may acquire the undertaking on paying for the rolling stock, &c., as above, and entering into an agreement with the company, securing to the latter for the remainder of the term of the concession an annual payment equal to 50 per cent. of the gross receipts of the railway, on the basis of the average gross receipts during the five years immediately preceding the redemption. There is no monetary guarantee, but the company's capital and revenue are free from all taxes.

The company issued ordinary shares for £165,000, and 6 per cent. bonds of £25 and £100 each for £229,850, but interest on the latter fell into arrear, and in 1899 a scheme for the reorganisation of the debenture debt was brought forward and was carried out. Under this plan there were given £110 of new 4 per cent. bonds and £11 in preference shares for each old £100 bond, and the £25 bonds received similar securities in proportion, but these preference shares (£23,154) have all been redeemed as stated below. Subsequently it became necessary to make fresh arrangements, and in 1910 another plan was brought forward under the guarantee of the Ottoman Railway Company of Anatolia, and this scheme was sanctioned by the bond and share holders, received the approval of the Turkish government, and was carried out. Under this scheme the Mersina Company takes the net revenue from the line, with a guarantee from the Ottoman Company of bond interest and sinking fund, the dividend on the preference shares and a minimum dividend of 3 per cent. on the ordinary shares, while any net revenue over and above these charges is to go as to one-half to the Ottoman Company and one-half to the Mersina Company, the latter to apply its share in the first place in redemption of ordinary shares by purchase if obtainable below £20 each, or by annual drawings at £20. The Mersina Company's share of surplus earnings up to the end of 1912 was almost entirely appropriated to the redemption of the old preference shares, the divisible surplus net earnings for the year 1912 having been £T22,838.

The capital now consists of £165,000 in fully-paid ordinary shares of £20, £55,326 in preference shares of £2 (outstanding balance of £59,346 created under the reorganisation scheme of 1910, and issued in 1913, and £181,600 (outstanding balance of £247,500) of 4 per cent. first mortgage bonds of £20 each, interest being payable by coupon on January 1 and July 1 in Constantinople and London

(by the Deutsche Bank, 4, George Yard, Lombard Street, E.C.), and the principal repayable by annual drawings, or by purchase if obtainable below £20.

The accounts are made up annually to December 31, and submitted in May or June in Constantinople. For each of the three years to 1912 the ordinary shares received 12s. per share. Reserve fund, £1,907. Later reports have not been received; it appears from a newspaper paragraph that for 1913 the ordinary shares again received 12s. per share. Owing to the state of war existing between Great Britain and Turkey, no interest was paid in London on the bonds in 1915. Voting power, one vote for every five shares. Director's qualification, 10 shares.

Methley Railway Joint Committee.—The line is the joint property of the Great Northern, Lancashire and Yorkshire, and North Eastern Railway Companies, and the capital is included in the returns of those companies.

Metropolitan and Great Central Joint Committee.—The capital is provided by the Metropolitan and Great Central Railway Companies.

Metropolitan and Metropolitan District City Lines and Extensions Railway.—The undertaking was incorporated in 1911. The lines are owned by the Metropolitan and Metropolitan District Railway Companies, and the capital is included in their returns.

Metropolitan District and London Electric Railways Joint Power House Rent Charge Stock.—Under the powers of the Metropolitan District Railway Act of 1911, a joint committee was formed by the Metropolitan District and London Electric Railway Companies, now consisting of the Right Hon. Lord G. Hamilton, W. H. Brown and H. A. Vernet appointed by the District Company, and the Right Hon. Sir A. West, G.C.B., Sir A. H. Stanley and W. M. Acworth appointed by the London Electric Railway Company, and the Act empowered this committee to acquire, from the Underground Electric Railways Company of London, Limited, the Lots Road generating station undertaking, which generates the electric energy used for working the two companies, and to lease it to those two companies for 999 years. In order to carry through the purchase an issue of £2,250,000 Metropolitan District and London Electric Railways Joint Power House Rent Charge Stock was created, carrying a fixed perpetual dividend of 4 per cent. per annum, payable January 1 and July 1; £1,000,000 of the stock was offered to the holders of the First Power House debentures of the Underground Electric Railways Company of London, Limited, at par, and, subject to such offer, Messrs. Speyer Brothers, 7, Lothbury, E.C., offered for sale, at par, the whole of the £2,250,000 of stock. The dividend on the stock from time to time issued is, by the Act of 1911, made a first charge on the rent payable under the lease as above, and the Act provides that this rent shall always be sufficient to provide this dividend and all other expenses of the committee; the rent is to be payable by the two companies in equal moieties, and each company's moiety is by the Act made a working expense of that company in priority to the interest on its present or future debentures or debenture stocks, subject, as regards the Metropolitan District Railway Company, to the rights of its existing debenture stocks in respect of surplus lands and to the rights of its existing rent-charge stocks, and, as regards the London Electric Railway Company, to the rights attached to its existing rent-charges. The joint committee are authorised by resolutions passed at a meeting of holders of Joint Power House rent-charge stock held on March 2, 1914, to issue a further amount of £250,000 of stock, ranking pari passu with the existing stock. The books of the stock are kept at Electric Railway House, Broadway, Westminster, S.W.; transfer form, common; fee, 2s. 6d.; the stock is transferable in multiples of £1. The stock is quoted in the official list in the British Railway—guaranteed stocks—section; latest price, 79.

Metropolitan District Railway Company.—*Directors:* Rt. Hon. Lord G. Hamilton (Chairman), W. H. Brown (Deputy-Chairman), W. C. Burton, Rt. Hon. Sir C. Dalrymple, Bart., Capt. W. C. Dumble, M. Griffith, E. Law, Sir A. H. Stanley (Managing Director) and H. A. Vernet. *Secretary and Business Manager:* W. E. Mandelick. *Office:* Electric Railway House, Broadway, Westminster, S.W.—The company was incorporated in 1864, and owns 24¼ miles of line. In 1903 certain rent-charges and guaranteed stocks were converted into 3 per cent. consolidated rent-charge stock as mentioned below. An agreement was entered into for the electrification of the line, which was completed by October, 1905. The agreement was with the Underground Electric Railways Company of London, Limited, and payment was largely made in stock of the railway company. The generating station from which the Railway Company obtain their electrical power was originally erected and owned by the Underground Electric Railways Company of London, Limited, but was purchased by the Lots Road Power House Joint committee and leased to the Metropolitan District and London Electric Railway companies as from January 1, 1912. The authorised capital, including loans, is £16,125,540, and the following issues have been made. Particulars of the Metropolitan District and London Electric Railways Joint Power House Rent Charge Stock will be found under that heading:—

£350,000 Midland rent-charge stock, entitled to a guaranteed dividend of 4 per cent. per annum, and secured by a rent payable by the Midland Railway Company under the provisions of the Metropolitan District Railway Act, 1878. The interest dates are January 1 and July 1.

£2,116,666 Three per cent. consolidated rent-charge stock, issued in 1903 in conversion of the Hammersmith, Ealing, Ealing and Harrow, Fulham, and Hounslow rent-charge stocks, and the Bow extension guaranteed stocks. These bore various rates of interest, and conversion was effected on such terms as to yield the same annual maximum return as formerly enjoyed. The stock is a first charge on the gross revenues of the lines on which the rent-charges and guarantees were secured, while interest, which is payable January 1 and July 1, is guaranteed in perpetuity by the Metropolitan District Company.

£744,586 Four per cent. prior lien debenture stock, of which £550,000 was issued in October, 1908, through Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., at 97½ per cent.; £150,000 was placed in June, 1912, at 99 per cent., and £44,586 in July, 1913. The stock forms part of a total authorised of £750,000, ranking on the general

revenue of the company immediately after the 3 per cent. consolidated rent-charge stock; interest is payable May 1 and November 1, and the stock is redeemable, at the option of the company, in whole or in part, on or after December 31 1920, at 105 per cent.

£2,835,825 Debenture stock, of which £1,211,625 bears 6 per cent. interest, and £1,624,200 4 per cent. Interest is payable January 1 and July 1.

£1,435,747 Four per cent. guaranteed stock. Interest (cumulative) is paid in February and August, and is secured upon the share of the District Company of the net revenues of the City Lines and Whitechapel Extension authorised by the Act of 1879, and, in addition, on the surplus revenues of the District Company after payment of interest on its mortgage debt and debenture stocks. For some years interest on this stock was only paid in part, but in 1910 all arrears were cleared off, and dividends have since been regularly paid half-yearly.

£1,500,000 Four-and-a-half (originally Five) per cent. non-cumulative first preference stock. In November, 1902, the Underground Electric Railways Company of London offered to guarantee to the preference stockholders 1 per cent. dividend for the year 1903, 2 for 1904, 3 for 1905 and 1906, and 3½ thereafter in perpetuity, the Underground Company to take any surplus dividends declared, and to exercise the voting powers of the stock subject to the restriction that the vote shall on no occasion be used for the purpose of reducing the interest payable by the District Company upon the preference stock. This offer was accepted by holders of about £537,000 of stock, and has been in force since 1903; stock so assenting is separately quoted in the official list as "assented extension preference." As from June 30, 1910, the maximum rate of interest payable on this stock was reduced from 5 to 4½ per cent. as part of the scheme for dealing with the arrears of interest on the 4 per cent. guaranteed stock. For 1910 the first preference stock received 3¼ per cent., and since then the full rate of 4½ per cent. per annum has been regularly distributed, the dividend being paid half-yearly in February and August.

In 1887 the capital account underwent certain changes, the only important alteration, however, being the separation of the railway from the landed properties, which division took place as from June 30, 1887. On October 1, 1904, a scheme of consolidation of the preference and debenture stocks was put into operation under an act of parliament, which received the royal assent June 24, 1904, and this act expressly provides that the debenture and preference stocks created and issued prior to the separation of the surplus lands from the general railway undertaking "shall after consolidation continue to have the same charge upon the surplus lands and the revenues thereof as heretofore. The stocks created and issued since the separation of the surplus lands, and which have consequently no charge on those lands, are now called the 3½ per cent. A debenture stock, 3½ per cent. A preference stock, 3½ per cent. convertible preference stock and 5 per cent. preference stock. The landed properties are managed by a committee chosen by the railway company and by the holders of the stock. The company owns about 84 miles of line, and, jointly with others, another 5 miles. The

authorised capital, including loans and the surplus lands stock, is £23,419,306, including £1,424,884 for nominal additions. The capital issues are as under, the preference stocks being given in their order of priority ; at December 31, 1914, there was a debit to capital of £601,672, to partly provide for which the Lloyd's bonds for £258,600 had been issued :—

Mexican Central Railway Company, Limited.—Particulars of bonds still outstanding under the title of the Mexican Central Railway Company will be found in the notice of the National Railways of Mexico.

Mexican Eastern Railway Company, Limited.—*Directors :* H. T. Hodgson (Chairman) Capt. A. C. Chamier and G. W. Hoghton. *Secretary :* N. Stuart. *Office :* 3, St. Helen's Place, E.C.—The company was registered December 5, 1901, having been formed by the Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited. The object was to acquire concessions granted by the Mexican government, one being for 99 years from July 4, 1890, under which a railway, 79 miles in length, had been constructed, while the other concession is in respect of a line about 61 miles in length, and is to run for 99 years from September 20, 1901. Under these concessions the company is to receive $300,000 in Mexican internal 5 per cent. bonds—$180,000 so far received. Excepting this amount the company receives no financial aid from the government, and there is no option of government purchase prior to the expiration of the concessions.

The authorised capital is £10,000 in shares of £10, all of which, excepting seven shares applied for by the signatories to the articles of association, has been allotted fully paid to the Interoceanic Railway Company. An issue of £400,000 of 5 per cent. debentures (part of £450,000 authorised) was made to the public in January, 1902, at 95 per cent. ; they are of £100 each, have coupons payable June 15 and December 15, and are to be repaid January 1, 1984, at par, while the company has power of redemption at any time (now), on six months' notice, at 105 per cent., and in the event of the liquidation of the company, either for the purpose of sale or reconstruction, the debentures are also to be redeemed at 105. As from January 1, 1920, a sinking fund of £2,000 per annum is to be set aside for the repayment of the debentures, the sinking fund to be proportionately increased if the remaining £50,000 of the authorised amount of debentures shall be issued. The line is leased to the Interoceanic Railway Company, as from July 1, 1903, until January 1, 1984, at an annual rental sufficient to cover administration expenses, interest on the debentures and the sinking fund, as above, while the Interoceanic Company has (now) the option of purchasing the property of the company at any time, on six months' notice, the purchase price to be a sum sufficient to redeem the debentures at 105 per cent.

In July, 1914, owing to the interruption to the traffic caused by the disturbed political conditions ruling in the country, it was agreed that instalments of rent payable to the Mexican Eastern Company

by the Interoceanic Company under the lease in June and December, 1914, should be made in certificates of indebtedness, against which the company has issued separate certificates of indebtedness to the debenture holders on surrender of their coupons due June and December, 1914; in June, 1915, it was agreed that instalments of rent payable by the Interoceanic Company down to and inclusive of December, 1916, are to be satisfied by the issue of certificates of indebtedness carrying interest at the rate of 5 per cent. per annum, but instead of the Mexican Eastern Company issuing certificates of indebtedness in exchange for coupons, debenture holders are to retain their coupons until such time as it is found possible to redeem them under the terms of the scheme; for particulars of the certificates of indebtedness issued by the Interoceanic Company, and their method of redemption, see the notice of that Company.

The accounts are made up annually to June 30, and submitted in November or December. The Nautla Railway of 79 miles was taken over on December 16, 1901, and the Virreyes line of 61 miles was opened for public traffic on July 1, 1903, from which date the lease became operative. In 1907-8 the working of the company's railway by the Interoceanic Company gave net receipts (converted into sterling) of £23,998; in 1908-9 of £24,546; in 1909-10 of £33,586; in 1910-11 of £31,010; in 1911-12 of £37,099; in 1912-13 of £32,385; and in 1913-14 of £23,126. Interest on the debentures due in June and December, 1914, was met in certificates of indebtedness, as stated above, while coupons due in June and December, 1915 and 1916, are to be retained by the debenture holders until the company is in a position to redeem them under the terms of the 1915 scheme. In August, 1914, the government of Mexico took possession of the railway, which remains under government control. Voting power, one vote for each share. Director's qualification, 10 shares. Transfer form, common; fee, 2s. 6d. The debentures are to bearer, but may be registered as to principal only, and the registration may be cancelled; fee for either operation, 6d. per debenture, with a minimum of 2s. 6d. Telephone number, 1126 Avenue. The debentures are quoted in the official list; latest price, 60.

Mexican International Railroad Company.— As from July 1, 1910, this company has been absorbed into the National Railways of Mexico, and particulars of the Mexican International bonds are now given in this work in the notice of the National Railways of Mexico.

Mexican Railway Company, Limited.—*Directors:* V. W. Yorke (Chairman), Lt.-Col. P. de Escandon, J. A. Gibbs, H. Goschen, W. Morcom, M. R. Pryor, C. J. C. Scott, V. Vertiz and H. C. Waters. There is also one director appointed by the government to act in Mexico. *Secretary:* B. E. Holloway. *Offices:* Finsbury Court, Finsbury Pavement, E.C.—The company was registered in 1864. The state gave a subvention to the concessionnaire of $560,000 a year, for 25 years from November 11, 1868, and the government engaged not to subsidise any other railway between Vera Cruz and Mexico for 65 years from November, 1868. When the net revenue of the company exceeds 8 per cent. per annum on the ordinary stock, the government may, in conjunction with the company, readjust the rates and fares, &c. After providing for dividends of 8 per cent. per annum, 4 per cent. of the surplus goes to the concessionnaire, and of the balance then remaining 4 per cent. goes to the directors as extra remuneration, and 4 per cent. to the reserve. In 1890 a settlement was made with the government in regard to arrears of the subvention, and what would become due in succeeding years. Out of the sums received, second debenture stock (specially secured on the subvention) was paid off on April 1, 1891, and the balance (about £300,000) has been applied to improvements, or invested for employment in that way in the future. The line, including the branches, is 758 kilometres in length. The capital of the company consists of the following:—

£2,254,720 Ordinary share capital stock.

£2,554,100 First preference share capital stock, ranking for dividends of 8 per cent. per annum upon the net revenue of each half-year.

£1,011,960 Second preference share capital stock, ranking for dividends of 6 per cent. per annum upon the net revenue of each half-year.

£2,000,000 Perpetual 6 per cent. debenture stock, with interest payable January 1 and July 1. This stock was issued at par in 1880 for the purpose of paying off the bonds then outstanding. Interest due January 1, 1915, to July 1, 1916, both inclusive, has been deferred as stated below.

£500,000 Four-and-a-half per cent. second debentures of £100 each, issued in March, 1909, at 92½ per cent., and forming part of a total authorised of £1,000,000. The stock ranks after the 6 per cent. debenture stock on the properties mortgaged thereto, and as a first charge on 75 kilometres of railway. The interest dates are April 1 and October 1, and the debentures are redeemable by means of a cumulative sinking fund, commencing at the end of 1909, sufficient for their amortisation in about fifty years, to be applied to purchases at or below par, or to drawings (in March) at par, but no redemption in the latter form was to take place before 1912. Moreover, the company has reserved the right to redeem all or any of the debentures at par on April 1 in any year after 1915, on giving not less than six months' notice, and all the debentures are to be redeemed by the end of 1960. The debentures were issued for the acquisition and extension of tributary lines, the reconstruction of certain sections of the company's existing line and bridges, additions to rolling stock, and other general purposes of the company. The balance of £500,000 is reserved for further issue to meet the cost of further extensions and improvements, and other general purposes; amount outstanding, £481,400. Interest due April 1, 1915, to October 1, 1916, both inclusive, has been deferred as stated below.

£156,000 Loans and bills payable, the company having given an undertaking to issue as and when called upon, 4½ per cent. second debentures, with a margin of 10 per cent. above market price on date of issue, as security for bills payable for £60,000.

The accounts are usually made up to June 30 and December 31, and submitted about November and May. The first preference dividend was regularly paid half-yearly since and in respect of the half-year to June, 1909, to June, 1913, and the second preference dividend since and in respect of the half-year

to December, 1910, to June, 1913, and for each of the two half-years to December, 1910, the ordinary stock got ¾ per cent. per annum; to June, 1911, 2¾; to December, 1911, 1⅞; to June, 1912, 3⅞; and to December, 1912, and June, 1913, 2½. In respect of the half-years to December 31, 1913, and June 30, 1914, as the outcome of the political conditions ruling in Mexico and the fall in the exchange, no dividend was paid on either ordinary or preference stocks, and after providing for the service of the debentures there were surpluses of £77,072 and £50,714, which were placed to reserve, which was debited with £84,817 renewals account overspent, and another item of £6,535, and then stood at £70,916. Contingency and insurance account, £27,662. Owing to the dislocation of communications and the political conditions ruling in Mexico the directors in June, 1915, announced that they had been unable to obtain the usual returns from their officials in the republic, and they were therefore not in a position to submit accounts for the second half of 1914. They, therefore, informed their stockholders that from November 18, 1914, onwards the entire property had not been in the physical possession of the company, a portion being held, according to most recent advices, by Señor Carranza's party, and a smaller portion by the supporters of Señor Zapata, while the remainder was not being worked.

Owing to the political conditions ruling in the country, and the consequent interruption of railway traffic, it was announced in December, 1914, that the directors found themselves unable to make cash payment of the interest due on January 1, 1915, on the 6 per cent. debenture stock, and holders of these and the second debentures subsequently agreed to a scheme of arrangement put forward by the board. This scheme provides that the company be at liberty to defer until January 1, 1917, payment of all or any of the instalments of interest payable on the 6 per cent. perpetual debenture stock from January 1, 1915, to July 1, 1916, both inclusive, and on the 4½ per cent. second debentures from April 1, 1915, to October 1, 1916, both inclusive, any interest so deferred on the 6 per cent. debenture stock to be paid on January 1, 1917, and on the 4½ per cent. second debentures on April 1, 1917, or previously thereto at the option of the company; with any interest deferred under this scheme there shall be paid interest thereon at 6 per cent. per annum as regards the 6 per cent. debenture stock, and 4½ per cent. per annum as regards the second debentures. No payment is to be made in respect of second debenture interest until all interest accrued on the 6 per cent. debenture stock shall have been paid or provided for.

Voting power, one vote for every £400 of stock, ordinary or preference. Director's qualification, £2,000 of share capital stock of any class. Transfer form, common; fee, 2s. 6d. per deed per seller; stock is transferable in sums of £10 and multiples thereof. Telegraphic address, Xemrail, Ave, London. Telephone number, 2596 London Wall. The company is quoted in the official list. Latest prices — ordinary, 20¾; first preference, 70⅜; second preference, 38¾; debenture stock, 83; second debentures, 55.

Mexican Southern Railway, Limited.—*Directors:* Lord Farrer (Chairman), Capt. A. C. Chamier, G. W. Hoghton (appointed by the Interoceanic Railway of Mexico) and G. A. Touche, M.P., (appointed by the trustees for the debenture stock holders). *Secretary:* T. Linton. *Office:* 332, Dashwood House, E.C.—The company was registered May 9, 1889, to construct and work a line of railway about 228 miles in length from Puebla to Oaxaca, under a concession granted by the Mexican government. In 1892 a government subvention of $2,400 per kilometre per annum for 15 years was given up in exchange for $8,000,000 of Mexican government 6 per cent. silver bonds. These bonds, less a small amount previously redeemed out of the sinking fund, were paid off January 31, 1905, and on the following day 4 per cent. first mortgage debenture stock for £695,832 was paid off at 110 per cent.; the surplus amounted to £35,594. The concession from the government for the main line is for a term of 99 years, and at the expiration of that period the line is to revert to the government, without payment—stations, rolling stock, and equipment, however, having to be paid for; there is no option of government purchase prior to the expiration of the concession. The concession for the Tehuacan-Esperanza branch (32 miles, and acquired in 1899) is for a term of 99 years expiring January 31, 1982, when the line reverts to the government, subject to payment for the line and improvements at a valuation. This branch line was originally a tramway (mule traction), but has been converted to steam traction and to the same gauge as the main line. In 1908 the company purchased three local lines, now completed, and of a total length of about 60 miles. The concessions in respect of these local lines expire between February 17, 2003, and November 20, 2005, when they revert to the government, subject to the government purchasing the rolling stock, fixtures, &c., that may be necessary to continue the operation of the respective lines. Thus the company owns about 320 miles of railway. The company has also a state concession for 7 miles of tramways (mule traction) in Oaxaca, but no term is fixed. As from January 1, 1910, the whole of the company's undertaking has been leased to the Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited, for the full period of the main line concession, the rental having been fixed at sufficient to cover the service of the Mexican Southern debenture stock (interest and sinking fund—£746,720 of debenture stock was outstanding at the time the agreement was entered into, but the amount was liable to be increased by £250,000), and to enable the following dividends to be paid on the Mexican Southern Company's ordinary stock:—for the year 1910, 3½ per cent.; for 1911, 4 per cent.; for 1912, 4½ per cent.; for 1913, 1914 and 1915, 5 each year; for 1916 and 1917, 5¼ per cent.; and for 1918 and thereafter, 5½ per cent. There is also to be set aside in each year as and from January 1, 1918, a sinking fund sufficient to redeem the Mexican Southern ordinary stock at par on the expiry of the main line concession in 1990. The company is to pay to the Interoceanic Company any moneys received from the Mexican government or from any municipality at the expiration of the following concessions of the Southern Company, viz.:—Tehuacan Urban Tramways (June 15, 1950); Tehuacan-Esperanza branch (January 31, 1982); and main line (June 8, 1990); and relinquished its rights in the concessions remaining in force after June 8, 1990, in respect of the other subsidiary lines.

Owing to the interruption to the traffic caused by the disturbed political conditions ruling in the country it was agreed in July, 1914, that the instalments of rent payable by the Interoceanic Company to the Mexican Southern Railway Company under the lease of the undertaking in June, July and December, 1914, and January and April, 1915, should be made in certificates of indebtedness, particulars of which and method of redemption are given fully in the notice of the Interoceanic Company, and in July, 1915, the operation of this arrangement was extended for a further period of two years; this rearrangement of the terms of the lease necessitated the making of fresh terms with the debenture

stockholders as detailed below. The capital of the Mexican Southern Railway Company is as under :—

£875,000 Four per cent. first mortgage debenture stock, with interest payable February 1 and August 1, and the principal repayable by annual drawings at par, or by purchase in the market at or less than par, by the date of the expiration of the main line concession (June 8, 1990), by the operation of a sinking fund. Amount outstanding, £861,318. The total authorised is £1,000,000.

Interest on the debenture stock due August 1, 1914, and February 1, 1915, was discharged by the issue of deferred interest warrants, bearing interest at 5 per cent. per annum, and redeemable out of the moneys received on the redemption of the above-mentioned certificates of indebtedness issued by the Interoceanic Company, and out of all moneys received under clause 17 (*c*) of the agreement for lease for the provision of dividends on the ordinary stock. In July, 1915, it was agreed that the instalments of interest due from August 1, 1915, to February 1, 1917, both inclusive, should not become payable on the due dates, but should carry interest at 5 per cent. per annum, and be met out of the proceeds of certificates of indebtedness issued by the Interoceanic Company and out of the other moneys above referred to (under this scheme no deferred warrants are to be issued). The interest payable on deferred warrants and on debenture interest for which deferred warrants are not to be issued, is payable when the deferred warrants are redeemed or the debenture interest is paid. The sinking fund instalments are a second charge on the resources mentioned.

£1,000,000 Ordinary stock.

The accounts are made up annually to December 31, and submitted in January or February. For 1904 and 1905 the ordinary stock got 2½ per cent. per annum ; for 1906 and 1907, 3 ; for 1908, 2 ; and for 1909, 3. For 1910 3½ per cent. was paid under the guarantee as above ; for 1911, 4 ; for 1912, 4½ ; and for 1913, 5. For 1914 no dividend was paid on the ordinary stock, and interest on the debenture stock due August 1, 1914, and February 1, 1915, was met in deferred interest warrants, while in July, 1915, it was agreed that the instalments of interest due from August 1, 1915, to February 1, 1917, both inclusive, should not be payable on due dates, but should carry interest at 5 per cent. per annum and be settled as detailed above ; owing to the political conditions ruling in Mexico no accounts or remittances were received by the Interoceanic Company from Mexico for the period subsequent to June 30, 1914. Reserve or contingency fund, £10,000. Voting power, one vote for every £10 of ordinary stock. Director's qualification, £250 of ordinary stock. Transfer form, common ; fee, 2s. 6d. per deed ; separate deeds are required for each class of security ; stock is transferable in multiples of £1. Telegraphic address, Oaxacan, London. Mexican Union Railway, Limited.—*Directors :* A. Townsend (Chairman), N. G. Doyle and Sir J. Pender, Bart. *Acting Secretary :* W. H. Barnes. *Office :* 54. London Wall, E.C.—The company was registered February 12, 1910, to acquire a concession, for 85 years, for the construction and working of a railway from Torres, on the Sonora branch of the Southern Pacific system, to Minas Prietas, and thence for a further distance of 100 kilometres. There is no guarantee under the concession, and at the expiration of the period named the line is to revert to the government without payment, except as regards rolling stock, furniture and tools. The authorised capital is £130,000 in shares of £1, and the whole amount has been allotted and paid up, all except seven shares having been issued credited as fully paid. There are also first mortgage debentures of £20 each for £215,000, with interest payable February 1 and August 1, free of income tax, and the principal repayable within 60 years from August 1, 1920, the creation of first mortgage debentures being limited to £3,000 per kilometre of line constructed or to be constructed. The debentures carry 6 per cent. interest, but as from August 1, 1912, the rate has been reduced to 3 per cent. until such time as the railway to Ures, a distance of 105 kilometres from Torres, has been opened for traffic, and thereafter the old rate of 6 per cent. is to be reverted to, but is to be payable only out of net earnings. Early in 1913 the debenture holders sanctioned the creation of 6 per cent. prior lien debentures up to an amount sufficient to provide for the construction of the line to Ures (but limited to £1,500 per kilometre), and for further extensions, &c., and £38,500 of these debentures (of £20 each) have been issued to the contractors, with interest payable February 1 and August 1, subject to income tax, and the principal repayable on the same date, and in exactly similar manner as the first mortgage debentures. The reduced rate of 3 per cent. per annum on the first mortgage debentures is guaranteed by the contractors (The Railway Finance and Construction Company, Limited), and in January, 1914, the first mortgage debenture holders authorised the company to accept from the contractors, in lieu of cash in payment for this interest, prior lien debentures taken at 70 per cent. of their face value, this arrangement to cover the period from August 1, 1913, until six months after peace shall have been definitely re-established in Mexico ; prior lien debentures handed over in respect of this interest on the first mortgage debentures are to be held by the company until six calendar months after peace shall have been established, at the expiration of which period the company shall, should any interest then remain unpaid, sell as many of the prior lien debentures as may be necessary and apply the proceeds in paying to the holders of the first mortgage debentures the interest accrued from August 1, 1913.

The last accounts were made up annually to September 30, and submitted in December. There are 65 kilometres of line already in operation, and the construction of the remaining 40 kilometres of line to Ures will be proceeded with as soon as a cessation of military operations in the district will permit. Interest due February and August, 1914 and 1915, has not been paid, but the company has received from the contractors a sufficient amount of prior lien bonds under the agreement referred to above ; no interest has yet been paid on the prior lien debentures nor is any to be paid for six months after peace has been re-established in Mexico. In the period of twenty-one months to September 30, 1911, the gross receipts were £10,402, and there was a profit on working of £551, which, together with the sum of £517 sundry receipts, was placed against debenture interest and administration charges to date, leaving a debit on that account of £16,626. No later accounts have been issued. For the fifteen months to December 31, 1912, the gross receipts were £10,260, for the year 1913, £6,755, and for the

nine months to September 30, 1914, £4,180. Voting power, one vote for every share. Director's qualification, 200 shares. Transfer form, common; fee, 2s. 6d. Telegraphic address, Mexural, London. Telephone number, 340 London Wall.

Mexico North-Western Railway Company.—*Directors:* M. Lash and H. I. Miller (Vice-Presidents), E. N. Brown, R. C. Brown, J. O. Crockett, S. G. Crowell, W. T. Eldridge, R. Gowans, H. M. Hubbard (London), J. S. Lovell and E. R. Wood. *London Office:* 34, Bishopsgate, E.C. *Head Office:* Toronto.—This company was incorporated under the laws of the Dominion of Canada on February 17, 1909, as the Mexican Transportation Company, Limited; on March 2, 1909, the name was changed to the Mexico Transportation Company, Limited; and on May 19, 1909, as above. The company was formed for the purpose of "providing the mining, timber, grazing and agricultural regions of Northern Mexico with railroad facilities, and also of acquiring and developing timber lands and carrying on a lumber business." With these objects the company acquired the entire share and bond capital of the Rio Grande Sierra Madre and Pacific Railway Company, the Chihuahua and Pacific Railroad Company, and the Sierra Madre and Pacific Railroad Company, operating about 370 miles of line, and, by means of further acquisitions, effected controls in all about 512 miles of railroad. Further, the company acquired timber lands covering an area of over 3,200,000 acres, in connection with which sawmills have been constructed at Madera, Pearson and El Paso. The lumber business has been transferred to the Madera Company, Limited, the entire capital of which is owned by the Mexico North-Western Railway Company. Owing to the long-continued revolution in Mexico, whereby the company's resources had been greatly depleted, the sanction of the holders of the first mortgage and income bonds was obtained in February, 1913, to the creation of £2,500,000 of prior lien bonds, in order to pay off floating debt for about £1,100,000, and to provide for the general purposes of the company. The capital is as under:—

$25,000,000 Fully-paid shares of $100, part of $40,000,000 authorised.

£1,671,000 Six per cent. fifteen-year prior lien bonds of £100 each, of which £1,600,000 was issued in February, 1913, through the Bank of Scotland, 30, Bishopsgate, E.C., at the price of 93½ per cent. The bonds form part of a total authorised of £2,500,000, have coupons payable March 1 and September 1, and the principal is repayable at par in 1928, but is repayable at any time on six months' notice, at 102½ per cent. The bonds are secured by a first specific charge upon all the immovable property of the company, and on all securities of other companies owned by this company, or which it may hereafter acquire, with the prior lien bonds or the proceeds thereof, in priority to the first mortgage and income bonds. All payments are made in London—by the Bank of Scotland, as above—New York and Toronto. The bonds are to bearer, but may be registered as to principal only at the company's London office as above on payment of a fee of 1s. per bond, and registered bonds may be reconverted to bearer for a like fee.

Owing to the financial conditions in Europe and Mexico, interest due September 1, 1914, and since, has not been paid.

£5,600,000 Five per cent. first mortgage gold bonds of £100 each (part of £8,459,700 authorised), of which £2,400,000 was offered for sale in March, 1909, through the Bank of Scotland, 30, Bishopsgate, E.C., at 90 per cent., and the balance issued at various times in 1911 and 1913. The interest dates are March 1 and September 1, and the bonds are redeemable at par on March 1, 1959, by means of annual payments by the company to the trustee for the holders, commencing March 1, 1919, to be applied in annual drawings at par, or by purchase of the bonds on the market, or by tender if they are at or below par, or the bonds may be redeemed at 105 per cent. at any time on six months' notice, or on the company going into voluntary liquidation or amalgamating with any other company. The bonds are, subject to the above-mentioned prior lien bonds, secured by a specific first charge on the immovable property of the company, and on all securities of other companies owned by this company. The amount may, subject to, and under the provisions of, the trust deed, be increased for extensions of lines, construction of terminals, double tracking, and other special purposes, it being provided that all additional securities and assets acquired by such additional bonds, or the proceeds thereof, shall form additional security for the entire bond issue. The bonds are to bearer, but may be registered as to principal only at the company's London office as above on payment of a fee of 1s. per bond, and registered bonds may be reconverted to bearer for a like fee. All payments are made by the Bank of Scotland, 30, Bishopsgate, E.C.

Interest was duly paid up to March 1, 1913, but that due since is in arrear.

£750,000 Six per cent. cumulative convertible income bonds, part of £1,000,000 authorised, issued to the proprietors in June, 1912, at par, in the proportion of £30 of bonds for every 10 shares held, for the purpose of providing funds for the extension and completion of the properties at Madera, Pearson and El Paso, and for the general purposes of the company. The bonds are of £20, £100 and £500 each, have coupons payable March 15 and September 15 (the amount of interest to be paid to be declared in the preceding months), and the principal is to be repaid on or before July 1, 1922, by means of an annual sinking fund, commencing July 1, 1916, to be applied to drawings at par and accrued interest, immediately after November 1 if the company shall fail to purchase the bonds on the market, while the bonds may be redeemed at par and accrued interest at any time on six months' notice from the company. On July 1, 1914, and each subsequent October 1, January 1, April 1 and July 1 until July 1, 1922, the holders are to have the option, on giving thirty days' previous notice, of converting bonds into fully-paid shares at par, at the rate of $4.86⅔ to the £. The bonds are secured by a general floating charge on the undertaking, subject to the prior lien and first mortgage bonds; they are to bearer, but may be registered as to principal at the company's office in London on the payment of a fee of 1s. per bond, and registered bonds may be reconverted to bearer for a like fee.

No interest has yet been paid.

The accounts are made up annually to December 31, and usually issued about August. No dividend has been paid on the share capital; interest on the prior lien bonds due September 1, 1914, has not been paid, and that due September 1, 1913, and since, on the first mortgage bonds is in arrear. In the year 1910 there was a profit, after providing $861,339 from revenue for bond interest, of $70,775 (gold), increasing a surplus brought down to $319,427 (gold). In 1911 the company's revenue was seriously affected by the political disturbances in Mexico, and there was a great accumulation of manufactured lumber; the credit balance brought forward was converted into a debit of $5,360, $281,995 (out of a total of $1,131,156) for bond interest having been charged to construction account, and the balance to revenue account. No later accounts have been issued. The railway and lumber mills are being worked when possible. Telegraphic address, Outstorm, London. Telephone number, 1080 (four lines) City. The shares, prior lien bonds and first mortgage bonds are quoted in the official list. Latest prices—shares, 5; prior lien bonds, 59½; first mortgage bonds, 20½.

Michoacan and Pacific Railway Company, Limited.—*Directors in London:* G. A. Mitchell, W. J. H. Moll, Capt. C. H. Potter and T. B. R. Scott. *Secretaries:* G. A. Mitchell and Co. *Office:* 2, Suffolk Lane, E.C.—The company was registered November 11, 1896, to acquire the concession, and a line of railway owned by the Michoacan Railway and Mining Company, Limited, from Maravatio on the National Railway Company of Mexico to Zitacuaro, about 60 miles in length. The concession was for a period of 99 years from August, 1888, and provided for a subvention of $6,000 per kilometre. At the end of the concession the line reverts to the government, subject to a mortgage to the extent of $6,000 per kilometre at 6 per cent., and the government has to pay a fair price for rolling stock, stations, &c. The line to Zitacuaro has been leased to the National Railway Company of Mexico for 25 years from August 1, 1900, for a rental of 20 per cent. of the gross earnings up to $240,000 (Mexican) per annum, and 40 per cent. on anything over $240,000, but should the earnings fall below $161,000 then the rental is to be reduced to such a sum as will leave $128,800 to be retained by the lessee company as the minimum cost of operating the line.

The authorised capital is £60,000 in shares of £10, which has been issued fully paid to the nominees of the vendor company. There are also—6 per cent. prior lien debentures for £20,000, issued in December, 1900, at 95 per cent., repayable July 31, 1925, with the option to the company to repay them on three months' notice at 5 per cent. premium; and 6 per cent. registered debentures of £100 each for £60,000, repayable July 31, 1925. Interest on both classes of debentures is payable January 1 and July 1—on the 6 per cent. registered debentures only if earnings permit. The 6 per cent. debentures for £60,000 formerly ranked first, but interest fell into arrear, and by agreement dated December 31, 1900, the holders agreed to give up their priority in favour of the prior lien debentures; all claims for arrears of interest to that date have been satisfied, and the date of redemption was extended to 1925. The income under the lease of the road, as above, after payment of expenses of administration, is to be applied in the first place to a fund of £1,500 per annum (cumulative) to be used, firstly, in payment of interest on the prior lien debentures, and secondly, in the purchase below, or redemption at, par of such debentures. By the operation of the sinking fund the amount of the prior lien debentures has been reduced to £15,100.

The accounts are made up annually to December 31, and submitted in July. As a result of the working of the railway the company received £5,182 in respect of 1908; £4,518 in respect of 1909; £4,895 in respect of 1910; £4,947 in respect of 1911; £5,117 in respect of 1912; and £5,811 in respect of 1913. During 1908 to 1913 interest for eleven years (to January, 1914) was paid on the prior lien debentures, and that due in July, 1914, was met; interest on the mortgage debentures is in arrear as from July 1, 1903, and including these arrears (£37,800) there was a debit to profit and loss at December 31, 1913, of £39,790, as against £40,487 brought forward from 1912. No accounts for 1914 have been issued, the railway having for some time been under the control of the government officials, who have taken over the business of the lessees. The earnings were reported by them up to June, 1914, and the agreed proportion for operation was paid up to April, 1914, since which dates no receipts have been handed over. Under these circumstances no interest has been paid on the prior lien debentures since July 1, 1914, and the sinking fund for the redemption of the prior lien debentures is in abeyance. Voting power, one vote for every share. Director's qualification, £500 in shares or debentures. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Michoacan, Cannon, London. Midland Railway Company of Western Australia, Limited.—*Directors:* Sir W. Capel Slaughter, Kt. (Chairman), A. Williamson (Deputy-Chairman), W. Mendel and G. A. Touche, M.P. *Secretary:* A. J. Barber. *Office:* 298-303, Winchester House, E.C.—The company was registered June 21, 1890, and acquired a concession from the government of Western Australia for the construction of a railway about 277 miles in length, the government granting the company a land subsidy of 12,000 acres for every completed mile of railway. Under the concession the company became entitled to select the land in blocks of not less than 12,000 acres each, within an area extending to 40 miles on either side of the railway. The company claims the right to mineral deposits, excepting the precious metals, but the legislature has passed a Mining Act which varies the company's rights. The entire land subsidy is about 3,320,000 acres, which has been duly selected. In 1893 it was found necessary to approach the government of Western Australia, who gave a guarantee on £500,000 of 4 per cent. debenture bonds, the amount of which was reduced to £300,000 by drawings from the proceeds of land sales, and the

whole of this balance of £300,000 was extinguished out of the sale in 1910 of the 4 per cent. first mortgage debenture stock referred to below. A receiver and manager was appointed at the close of 1895, but was discharged in 1901, a plan of reorganisation having been carried out in 1899-1900. In September, 1910, another scheme for the reorganisation of the capital was submitted to the proprietors, was sanctioned by the court, and has been carried out. Under this scheme, first mortgage debenture stock, referred to below, was created, the proceeds being used in redeeming the £300,000 of 4 per cent. debentures guaranteed by the government, the 5 per cent. prior lien debenture stock and the 5 per cent. cumulative income debenture stock, while holders of the 6 per cent. income debenture stock received 61·62 per cent. of new second mortgage debenture stock, 38·38 per cent. of new unified ordinary stock, and reversionary certificates for the arrears of interest. The liability of £5 per share on the then ordinary shares was extinguished, and for each £1 of paid-up ordinary share capital there was issued 4s. 6d. in new unified ordinary stock, and about 6s. in reversionary certificates; and each £1 founders' share received 17s. 6d. in new unified ordinary stock, and about 23s. 7d. in reversionary certificates. The capital is now as under:—

£655,000 Four per cent. first mortgage debenture stock, of which £600,000 was issued in November, 1910, £25,000 in July, 1912, and £30,000 in February, 1914; holders of the pre-existing 4 per cent. government guaranteed debentures were offered preferential allotment in the new stock. The stock forms part of a total authorised of £700,000, has interest payable January 1 and July 1, and is secured by a specific first mortgage on the railway and on the 1,922,850 acres of land unsold at June 30, 1910, as well as on 80 per cent. of the instalments, the total of which on June 30, 1910, amounted to £306,438, then remaining due for principal in respect of lands previously sold. Power is reserved to the company to dispose of all or any part of the lands mentioned, subject to applying 80 per cent. of the net proceeds, received in respect of principal, in the redemption of the debenture stock either by drawings at par, on three months' notice, or by purchase in the market under par, the remaining 20 per cent. of such proceeds to form part of the general funds of the company. Power is also reserved to the company to redeem the stock on like terms out of the general funds of the company. Amount outstanding, £572,658.

£600,000 Four per cent. second mortgage income debenture stock, issued under the scheme of 1910 to represent 61·62 per cent. of the principal of the old 6 per cent. income debenture stock. The second debenture stock has interest payable January 1 and July 1, and is secured on the railway and lands, subject to the above-mentioned first mortgage debenture stock; after the redemption of the first mortgage debenture stock, 80 per cent. of the net proceeds of the sales of land are to be applied to the redemption of the second mortgage debenture stock, either by drawings at par, on three months' notice, or by purchase in the market under par, until the amount of the second mortgage debenture stock outstanding has been reduced to £300,000, when the principal of the stock is to be repayable in whole or in part, at the company's option, at 102½ per cent.

£599,781 Ordinary stock, issued under the scheme of 1910, to represent 38·38 per cent. of the principal of the old 6 per cent. income debenture stock, 22½ per cent. of the paid-up old ordinary capital, and 87½ per cent. of the old founders' shares.

£809,000 Reversionary stock certificates of £1 each, issued, or to be issued, under the scheme of 1910, to be paid off out of one-third of the divisible revenue of the company, either by drawings at par or by purchase in the market under par.

The accounts are made up annually to June 30, and submitted in December. The line was opened throughout for traffic in June, 1895. Fixed charges are being met, but so far there has been no dividend on the ordinary stock. In the year to June 30, 1905, there was an excess of revenue from the working of the railway over expenditure and administration charges of £24,997; in 1905-6 of £27,634; in 1906-7 of £35,656; in 1907-8 of £37,234; in 1908-9 of £38,569; in 1909-10 of £46,632; in 1910-11 of £53,751; in 1911-12 of £46,180; in 1912-13 of £66,159; and in 1913-14 of £68,310, for which year there was an available balance, after meeting all debenture interest, and including £5,072 brought forward, of £22,083, of which £11,268 was placed to renewal and contingency account, and £10,000 to reserve account, leaving £815 to be carried forward. Reserve account, £20,000; renewal and contingency account, £35,000. In 1914-15 the gross earnings of the railway were £98,704, against £147,219 in 1913-14; and in the month of July, 1915, £5,268, against £9,547. In 1913-14, 32,450 acres of land were sold (subject to adjustment on survey) for a total of £21,194, making the total land sales 1,027,763 acres for the sum of £666,638 of which £454,470 had been received, and the balance of £212,168 was payable by instalments spread over fifteen years, and mainly carrying interest at 4 per cent. per annum, leaving unsold on June 30, 1914, 1,786,827 acres.

Voting power, one vote for every £1 of ordinary stock. Director's qualification, £100 of ordinary stock. Midland Uruguay Extension Railway Company, Limited.—*Directors:* Sir W. L. Young, Bart. (Chairman), B. H. Binder and F. Hill. *Secretary:* W. J. Day. *Office:* 71, Finsbury Pavement, E.C.—The company was registered December 6, 1911, to acquire from the Midland Uruguay Railway Company, Limited, the benefit of a concession for 90 years, granted by the government of Uruguay, dated November 8, 1911, for the construction of a line, 58 kilometres (35½ miles) in length, connecting the Midland Uruguay Railway and the Central Uruguay Northern Extension Railway. Under this concession the Uruguayan government guarantees for a term of 35 years interest at the rate of 3½ per cent. per annum on a capital of £5,000 per kilometre of line ready and opened for public service, and provision is made for the retention by the company of net earnings of the railway up to an amount equal to 1½ per cent. on the same capitalisation before any reduction can be made in the guarantee by the government; net earnings from 1½ to 5 per cent. on the guaranteed capital are to be applied to reduction of the interest payable by the state; when the net earnings exceed 5 per cent. the excess up to 6 per cent. is to be retained by the company; net

earnings in excess of 6 per cent. and up to 8 per cent. are divisible between the government and the company in the proportions of two-thirds to the former and one-third to the latter; net earnings in excess of 8 per cent. are to be applied, together with the two-thirds of net earnings between 6 per cent. and 8 per cent., wholly in repayment of sums advanced under the guarantee, but the government may elect to intervene for the reduction of tariffs. The line is to become the property of the government without compensation, at the expiration of 90 years from the date of the opening for public traffic, while it may be taken over after 25 years at the price of £5,000 per kilometre, plus 20 per cent. profit. The Midland Uruguay Railway Company, Limited, in consideration of the allotment to it of £99,993 fully-paid £1 shares of the Extension Company, undertook to guarantee unconditionally an issue of £200,000 of 5 per cent. debenture stock of the Extension Company; to work and maintain the line, paying such a sum as shall with the government guarantee be sufficient to cover debenture interest; and to provide debenture interest and administration expenses during construction. The authorised share capital is £100,000 in shares of £1, all of which, except seven shares, has been, as stated above, allotted to the Midland Uruguay Railway Company, Limited. In December, 1911, Parr's Bank, Limited, as bankers to the railway company, was authorised to receive applications for £200,000 5 per cent. debenture stock of the Midland Uruguay Extension Railway Company, Limited, at the price of 92 per cent., and all was allotted. Interest on the debenture stock is payable May 1 and November 1, and the principal is repayable at par May 1, 1960, but the stock is redeemable at par plus accrued interest, at any time, on six months' notice. The company may, with the consent of the Midland Uruguay Railway Company, create and issue, for the purpose of extensions or other railways, like stock ranking pari passu with the current issue to an amount not exceeding £5,000 per mile of extensions or other railways constructed, or acquired, but otherwise no further issue of debenture stock may be made.

The accounts are made up annually to June 30, and submitted in November. The line was opened for traffic April 10, 1913. The government guarantee and payments by the Midland Uruguay Railway Company have been punctually received. Voting power, one vote for each share. Director's qualification, 100 shares. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in amounts of £1 and multiples. The debenture stock is quoted in the official list.

Midland Uruguay Railway Company, Limited.—*Directors:* Sir W. L. Young, Bart. (Chairman), B. H. Binder, Lord Farrer, C. E. Gunther and S. A. Sillem (the chairman and Lord Farrer are directors representing the 5 per cent. debenture stock holders on the board). *Secretary:* W. J. Day. *Office:* 71, Finsbury Pavement, E.C.—The company was registered July 2, 1887, to acquire a concession granted by the government of Uruguay for a railway 317 kilometres in length (197 miles). Under this concession the government guaranteed for a term of 40 years (from the date of the concession) 7 per cent. per annum on a capital of £5,000 per kilometre. Under the scheme of arrangement of Uruguayan national liabilities, formulated in 1891, the guarantee for the remaining period of the concession was reduced from 7 to 3½ per cent., payable quarterly in gold. Net earnings in each year ended December 31 up to 1½ per cent. per annum on the guaranteed capital are to be retained by the company; net earnings from 1½ to 5 per cent. on the guaranteed capital are to be applied in reduction of the interest payable by the state; when the net earnings exceed 5 per cent. the excess up to 6 per cent. is to be retained by the company; net earnings in excess of 6 per cent. are to be applied wholly in repayment of sums advanced under the guarantee. For the service of the national debt and the railway guarantees, the government has hypothecated 45 per cent. of the gross receipts of the custom houses of the republic, while, should these revenues prove insufficient, the deficiency is to be made up from other sources of revenue; on the amount so provided the interest of the national debt forms a first charge, the railway guarantees ranking next. The guarantee, as above, yields to the company £55,481 per annum, and lapses in 1927. The government has power to purchase the line after 25 years from the commencement of its working "at a just estimate of its value," with 20 per cent. profit.

In 1907 the company obtained a concession from the government of Uruguay for an extension of the line from Algorta to Fray Bentos, a distance of about 87 miles, and this was opened for traffic on July 18, 1911. Under this concession the government guarantees interest of 3½ per cent. on £5,000 per kilometre of line from the date of the opening of the line in sections, for a period of thirty-five years dating from July, 1907; the company is to retain the net earnings up to an amount equal to 6 per cent. on a capital of £5,000 per kilometre, earnings between 1½ per cent. and 5 per cent. reducing the amount payable by the government under the guarantee, while when the earnings exceed 6 per cent. the excess up to 8 per cent. is divisible between the government and the company in the proportions of two-thirds to the government and one-third to the company. In the event of the profits exceeding 8 per cent. per annum on the guaranteed capital the government may elect between intervening in the tariffs until the net results upon the guaranteed capital are reduced to 8 per cent., or of receiving the said excess, while if on account of the reduction in the tariffs being made the profits from the working should be less than 8 per cent. per annum upon the guaranteed capital, the government binds itself to make up the same. The line is to become the property of the government, without compensation, at the expiration of 90 years from the date of the opening for public traffic, while it may be taken over after twenty-five years' working at the price of £5,000 per kilometre, plus 20 per cent. profit. A concession from the Uruguayan government, dated November 8, 1911, for the construction of a railway from Tres Arboles to Piedra Sola on the Central Uruguay Northern Extension Railway, a distance of 35½ miles, was acquired by the Midland Uruguay Railway Company, and by it transferred to the Midland Uruguay Extension Railway Company, in which the Midland Uruguay Railway Company owns practically all the share capital. The capital is as under :—

£600,000 Stock. This is the authorised amount, and the capital was issued in July, 1887, through Messrs. Antony Gibbs and Sons, 22, Bishopsgate, E.C., at par in shares of £10, and subsequently converted into stock.

£1,250,000 Five per cent. debenture stock, being part of a total authorised of £1,350,000, of which £1,131,375 was issued in July, 1887, through Messrs. Antony Gibbs and Sons, 22, Bishopsgate, E.C., at 96 per cent., and the balance privately in 1913. Interest is payable May 1 and November 1, and should the government purchase the line the debenture stock is to be repaid at par. The stock was originally

issued to bear 6 per cent. interest, but in May, 1893, a scheme of arrangement was sanctioned and carried into effect, while other plans were agreed to by the holders in November, 1898, October, 1902, and October, 1907. By the last scheme debenture interest was to be paid at the rate of 5 per cent. per annum from November 1, 1906, to April 30, 1909, provided that during such period no dividends were paid on the ordinary stock of the company, and that any surplus income as shown by the accounts was to be devoted to capital expenditure or betterment works, or for the formation of such reserve funds as the board might consider advisable to meet future expenditure of a like nature. In connection with the concession for the line to Fray Bentos, however, it was decided in July, 1908, that the interest on the debenture stock should be permanently reduced to 5 per cent. per annum, but net profits (after meeting prior lien debenture stock interest and sinking fund, and the interest on the existing debenture stock) were to be set aside up to a sum equal to 1 per cent. of the total of debenture stock issued, plus a sum equal to the interest for the last preceding year on the amount of the stock for the time being redeemed, to form an A sinking fund, while profits exceeding the contribution required for the A sinking fund were, up to the sum of £5,898, to be set aside for a further B sinking fund, such funds to be annually applied in redeeming debenture stock of this issue by purchase in the market at a price not exceeding par, or by drawings at par; moreover, the charge for securing the existing debenture stock was extended to cover the new extension, but on the other hand the capital required for constructing the extension (£600,000) was raised in 5 per cent. prior lien debenture stock, ranking as a first charge on the existing line, and also on the extension. In 1915 the authorised amount of this stock was raised from £1,250,000 to £1,350,000, and of the extra £100,000 £50,000 has been given to the company's bankers (in place of £50,000 of second debenture stock) as security for a loan of £22,000, and the remaining £50,000 of the debenture stock can only be issued with the approval of the two directors who it was agreed should represent the debenture stockholders on the board. It was also agreed that surplus profits shall, at the discretion of the directors representing the 5 per cent. debenture stockholders, be applied to renewals or betterments before providing for the A and B sinking funds. Amount outstanding. £1,189,443, plus £50,000 issued as collateral.

£600,000 Five per cent. prior lien debenture stock, issued in November, 1908, at 90 per cent., secured by a first floating charge on the entire undertaking of the company. The interest dates are February 1 and August 1, and the trust deed contains provisions for the redemption of the stock by the application of an annual cumulative sinking fund, commencing in the year ending June 30, 1912, and calculated to redeem the whole issue by June 30, 1947, to be applied to purchases in the market at a price not exceeding par and accrued interest, or to drawings at par. The company may not, without the authority of an extraordinary resolution of the prior lien debenture stockholders, create any mortgage or charge on its assets ranking pari passu with or in priority to the stock. Amount outstanding, £570,741.

£22,000 Loan, against which 5 per cent. debenture stock for £50,000 has been issued as collateral.

The accounts are made up annually to June 30, and submitted in November. The last section of the original line was opened for traffic on November 1, 1890, and the Fray Bentos extension was opened throughout on July 18, 1911. For each of the eighteen years to 1913-14 there was no dividend on ordinary capital. Under the schemes of arrangement only 4 per cent. interest was paid on the debenture stock down to and inclusive of 1901-2, but for 1902-3 and 1903-4 there was an excess distribution of ¾ per cent. each year (in addition to the then fixed rate of 4 per cent.); and for 1904-5 and 1905-6 of 1 per cent., making the return for the two last-named years 5 per cent. per annum. For 1906-7 the debenture stockholders received £4 13s. 4d. per cent., and for each of the eight years to 1914-15 the full rate of 5 per cent., after transferring £10,000 from the reserve fund in respect of 1914-15. Reserve funds, £40,988; carried forward, a debit balance of £73, as against a credit balance of £61 brought down. In 1906-7 there was a profit on working of £15,054; in 1907-8, of £5,019; in 1908-9, of £10,389; in 1909-10, of £21,181; in 1910-11, of £24,486; in 1911-12, of £28,926; in 1912-13, of £38,989; in 1913-14 of £19,142; and in 1914-15 of £11,191. From July 1 to October 31, 1915, the gross receipts were £42,020, against £31,502 in the corresponding period of 1914. Voting power, one vote for each £10 of ordinary stock if not less than £50 is held. Director's qualification, £1,000 of ordinary stock, excepting in the case of the two directors representing the 5 per cent. debenture stockholders. Transfer form, common; fee, 2s. 6d. per deed; the various stocks are transferable in amounts and multiples of £1. Telephone number, 7729 London Wall. The company is quoted in the official list. The line is 5,020 miles in length, besides which the company in 1909 took a lease for 99 years of the Wisconsin Central Railway. In June, 1890, it was announced that "the Minneapolis, St. Paul and Sault Ste. Marie Railway Company and the Canadian Pacific Railway Company, for the purpose of developing and extending the traffic between the two companies for their mutual advantage, have entered into an agreement whereby, in consideration of the first mortgage bondholders of the Minneapolis Company accepting interest at the rate of 4 per cent. per annum, instead of 5, the Canadian Pacific Company contract to guarantee the payment of such lower rate of interest." A majority of the common and preferred shares is owned by the Canadian Pacific Company.

The accounts are made up annually to June 30, and submitted the third Tuesday in September. Dividends are paid on both classes of shares in April and October, the rate on the common shares in the three years to 1907 having been 4 per cent. per annum, and in 1908 and 1909 6, while in the six years to 1915 7 per cent. per annum was paid on both classes. The net income in 1914-15 was $2,974,000 in excess of fixed charges, and after providing for the dividends paid on the preferred and common shares (7 per cent. on each) there was, on June 30, 1915, a credit to income account of $14,750,596, including $14,576,890 brought into the accounts. In the two months to August 31, 1915 (including the Wisconsin Central), the net earnings were $1,582,000, as against $1,371,444 in the same period of 1914. In April, 1909, holders of old common and preferred shares were offered rights of subscription at par to $6,048,000 new common and preferred shares, on the basis of sixteen new common and eight new preferred for each 100 shares of old common or 100 shares of old preferred, and these rights were reckoned as worth $8 per old common or preferred share; the proceeds of this share issue were to be applied to the purchase of 51 per cent. of the common stock of the Wisconsin Central Railway and to the purchase and improvement of terminals at Minneapolis, St. Paul, Duluth and Superior. The expenditures necessary for the above purchase, and for the construction of additional mileage, having exceeded the amount provided by the issue of shares above referred to, in May, 1911, holders of old common and preferred shares were offered rights of subscription at par to $4,374,800 of common shares and $2,187,400 of preferred, on the basis of fourteen new common and seven new preferred for each 100 shares of old common or 100 shares of old preferred, and these rights were reckoned as worth $8¼ per old common or preferred share. Missouri Pacific Railway Company.—*Directors:* B. F. Bush (President), N. F. Brady, N. Carlton, E. A. Faust, A. J. Hemphill, W. H. Lee, E. L. Marston, E. G. Merrill, F. J. Shepard, C. Vanderbilt, C. M. Weld, R. L. Williams and W. H. Williams. *Office:* 165, Broadway, New York.—The Missouri Pacific system, including the lines of the St. Louis, Iron Mountain and Southern Railway Company, comprises about 7,000 miles of road, of which 3,779 miles are owned by the Missouri Pacific Company. In August, 1915, the Missouri Pacific and its subsidiary, the St. Louis Iron Mountain, &c., Company, passed into the hands of Mr. B. F. Bush, the president, as receiver. For the year to June 30, 1913, there was a surplus over fixed charges of about $1,562,000, and for 1913-14 of about $74,000, but for the year to June 30, 1915 (last two months partly estimated) there was a deficit of approximately $1,250,000. In July, 1915, a scheme of readjustment was brought forward, the readjustment managers being Messrs. Kuhn, Loeb and Co., of New York; committees have been formed to represent certain classes of bonds, Mr. Robert Fleming, of London, being on the committee of 5 per cent. first and refunding mortgage bondholders, while there is also a stockholders' committee. The deposit of securities was called for under the plan, the Guaranty Trust Company of New York receiving deposits in London at its offices 33-35, Lombard Street, E.C. The company is chiefly known on this side through the British holding of Missouri Pacific first and refunding mortgage 5 per cent. bonds, the total of which is $29,806,000, but some of the other securities are also held here to a small extent. Under the reorganisation plan certain obligations of the company, amounting to $128,460,620, are to be undisturbed, and notes and equipment obligations to the amount of $28,706,000 are to be paid off in cash. Further obligations to the amount of

$123,169,000 are to be exchanged for new securities, including the $29,806,000 of first and refunding mortgage bonds, which are to receive an equivalent amount of new convertible 5 per cent. preferred shares. Holders of the existing share capital of $82,839,855 are to be assessed 50 per cent., and then receive new common shares to the equivalent amount of their existing holding. When the reconstruction scheme is carried through, the capital will consist of—$128,460,620 prior and sectional bonds; $46,923,150 new first and refunding mortgage 5 per cent. bonds; $44,399,292 new general mortgage 4 per cent. bonds; $76,751,635 new convertible 5 per cent. preferred shares, with dividends cumulative from June 30, 1918, and the right of conversion into common shares at par, while the preferred shares are also to have a priority as regards capital over the common shares for $82,839,585. Fixed charges under the scheme are "so reduced as to come well within the earnings of the system, even under the adverse conditions prevailing during the past two years." The last date for the deposit of securities under the reorganisation scheme has been fixed for December 15, 1915, and the scheme has not yet been declared operative.

By the terms of the agreement the preferred stockholders have given up to the Southern Company their voting power, and the common stockholders have sold to the Southern Company their stock at the price of 5 per cent. Moscow-Windau-Rybinsk Railway Company.—In June, 1899, Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C., issued on behalf of this company £2,975,000 4 per cent. bonds to bearer, of £20, £100, £500 and £1,000 each, with the equivalent in roubles, reichsmarks and guilders expressed on them, at 99 per cent., the subscription lists being simultaneously opened in Amsterdam. Interest is payable January 1 and July 1, and the principal is to be repaid by a cumulative sinking fund of about ½ per cent. per annum, which will extinguish the issue in fifty-five years from 1900, applied by annual drawings in April, which commenced in 1900. All payments are made in London—by the issuing firm—Petrograd (St. Petersburg), Berlin or Amsterdam, are absolutely guaranteed by the Russian government, by whom each bond is countersigned, and are exempt from all present and future Russian taxes. Amount outstanding, £2,635,000. Owing to the difficulty of remitting, the payment of coupons due January 1, 1915, was delayed for a week, but coupons due July 1, 1915, were paid at maturity. Arrangements have been made by which any bondholder may deposit his bonds in London, and receive in exchange inscribed certificates with interest payable by warrant, while bonds deposited can at any time be claimed back on surrender of the certificates; there is no fee for depositing bonds, but on giving up certificates for bonds, or transferring certificates, a fee of 2s. 6d. each certificate is charged. The bonds are quoted in the official list; latest price, 75.

The original concession for the railway was granted in 1869, while extensions were subsequently authorised and the undertaking assumed its present form in 1897. The lines have been completed, and are about 1,364 miles in length. The share capital is about 13,500,000 roubles, and there are other 4 per cent. bonds in circulation which rank prior to the issue made here in 1899. For 1904 the shares got 1·24 per cent.; for the four years to 1908, nil; for 1909, 8¼ per cent.; for 1910, 10; for 1911, 11; for 1912, 15; and for 1913 and 1914, 22·50 roubles per share each time.

Mumbles Railway and Pier Company.—*Directors:* Hon. Mrs. H. Daniell, Hon. E. Jenkins and T. J. Williams, M.P. *Secretary:* E. A. Watkins. *Office:* The Elms, Mumbles.—The company was

incorporated in 1889. The object was to build a railway about 2½ miles long to form a junction with the Swansea and Mumbles Railways, and to construct a deep-water pier at Mumbles Head. The line and the pier were opened for traffic May 10, 1898, and as from July 1, 1899, the undertaking has been leased for 999 years to the Swansea Improvements and Tramways Company (see below). The authorised capital, including loans, is £141,330, and £52,420 has been issued in ordinary shares of £10 (£47,183 received to December 31, 1914), and £24,900 in fully-paid 4 per cent. preference shares of £10. At December 31, 1914, there was a debit to capital of £6,575. The accounts are now made up annually to December 31, and submitted in February. For each of the four half-years to December, 1907, 6 per cent. per annum was paid; for the six half-years to December, 1910, 6½; for the six half-years to December, 1913, 7; and for the year 1914, 7½, Carried forward, £1,035. The lease of the properties of this company and the Swansea and Mumbles Railways, Limited, to the Swansea Improvements and Tramways Company provides for the payment of the sum of £10,000 for each of the first five years, advancing by £500 every two years thereafter until a maximum of £13,000 is reached, and there are additional small payments for, in all, about £300 per annum. The sum thus received is to be divided between the Mumbles and Swansea Companies as follows:—(1) In payment of all expenses of administration, &c.; (2) £1,200 to the Swansea Company for interest on loan; (3) £3,397 10s. to the Swansea Company for the preference dividend; (4) about £1,000 (at present) to the Mumbles Company for any loan interest and preference dividends; (5) £2,500 to the Swansea Company for 5 per cent. dividend on the ordinary capital; (6) a sum to the Mumbles Company to provide 5 per cent. on the ordinary capital of not exceeding £60,000; (7) and the balance pro rata in proportion to the ordinary capital, that of the Swansea Company to be always taken at £50,000, and that of the Mumbles Company at its figure, but not exceeding £60,000.

Muskegon, Grand Rapids and Indiana Railroad Company.—*Offices:* Grand Rapids, Michigan, U.S.—In June, 1886, an issue of $750,000 5 per cent. gold bonds of $1,000 each of this company was made, by the then firm of Satterthwaite and Co., at the price of £189 per bond. Interest is payable January 1 and July 1, and the bonds mature July 1, 1926, all payments being made in New York in United States gold coin. The bonds were a direct obligation of the old Grand Rapids and Indiana Railroad Company, and the road is operated by the new Grand Rapids and Indiana Company, which, however, has not assumed the old company's lease thereof. The line is 37 miles in length, and there are no other bonds on the section. The bonds are to bearer, but may be registered as to principal only, or principal and interest, at the offices of the company in New York or Grand Rapids, and bonds registered as to principal only may be re-exchanged into bearer bonds, no fee being charged for either operation. Coupons fell into arrear, but in 1908 three coupons were paid, and in 1909 three, the last being that due July, 1909, while coupons due January, 1910, were paid in the following month, and those maturing in July, 1910, and since at due dates. The issued share capital is $20,000. In 1908 the net earnings were $11,802 in excess of fixed charges; in 1909, $25,006 in excess; in 1910, $3,294 in excess; in 1911, $7,205 in excess; in 1912, $6,839 in excess; in 1913, $7,486 in excess; and in 1914 $2,221 in excess. The bonds are quoted in the official list under the heading of Grand Rapids and Indiana Railroad (Muskegon Division).

Nakusp and Slocan Railway Company.—In September, 1894, the Bank of British Columbia (now the Canadian Bank of Commerce), 2, Lombard Street, E.C., made an issue of £131,400 4 per cent. bonds of £100 each of this company at the price of 107½ per cent. The bonds are guaranteed both as to principal and interest by the province of British Columbia. Coupons are payable January 1 and July 1, and the principal is to be repaid at par July 1, 1918, all payments being made by the issuing bank. The line has been leased to the Canadian Pacific Railway Company for twenty-five years from August 9, 1893, the Canadian Pacific to maintain and operate the railway, and to pay as an annual rental therefor 40 per cent. of the gross earnings. The Dominion of Canada subsidised the line by the payment of a sum of $118,400, and the company has assigned to the British Columbia government the benefit of the above-mentioned agreement with the Canadian Pacific, has paid over to the government the subsidy, and has given the government a mortgage on the property to indemnify the government against the liability in respect of its guarantee on the bonds. The line was taken over for working by the Canadian Pacific late in 1894, and the Canadian Pacific holds all the share capital of $300,000. The bonds are quoted in the official list; latest price, 98⅞.

Namur and Liège Railway Company.—*Office:* 17, Rue du Parnasse, Brussels.—The preference shares of this Belgian undertaking are known here, but the holders have no longer any interest in the line, the Belgian government having leased the undertaking for a fixed payment during the remainder of the concession, which expires in 1941. There were originally 26,595 ordinary shares of 500 francs each, and 10,000 preference shares of 500 francs each. The Belgian government guarantees an annual dividend of 30 francs per share on the preference capital, and 14 francs per share on the ordinary capital. From each of these amounts 80 centimes per share per annum is deducted for administrative charges, while all the shares (excepting 205 original and 38 preference) have assented to a scheme for the redemption of the share capital within the period of the concession. The redemption is effected by means of a fund raised by the deduction of 70 centimes from the annual dividend on the ordinary shares, and of 1·70 francs from the preference dividend, the dividends being thus reduced to 12·50 francs per ordinary share and 27·50 francs per preference share; the amounts so deducted are applied to annual drawings in July for repayment in the following January, at the rate of 312·50 francs per ordinary share and (now) 705 francs per preference share. The dividends are usually paid half-yearly on January 15 and July 15, and the London County and Westminster Bank, Limited, Lothbury, E.C., cashes the coupons at the rate of 4s. 11d. per coupon per (redeemable) ordinary share, and 10s. 10d. per coupon per (redeemable) preference share, and repays shares at £12 18s. 10d. and £28 9s. respectively. No payments have been made in 1915, owing to the war.

Latest price of consolidated mortgage bonds, 110.

Nässjö Oscarshamn New Railway Company.—*London Agents:* Dent, Palmer and Co., Gresham House, E.C.—In 1897 the Nässjö Oscarshamn Railway Company was reorganised under the above title, one of the chief objects of the reorganisation being to facilitate the raising of additional funds required to put the railway in substantial order. The capital is 3,150,000 kroner in fully-paid shares of 100, 1,000 and 5,000 kroner, almost all the share capital being held in Sweden. There are also 4 per cent. first mortgage bonds to bearer, of £5, £40, £100 and £250 each, for £146,240 (outstanding balance of £171,070, of which £52,940 was issued for cash, and the remainder was issued in exchange for old income bonds at the rate of 40 per cent. of the former for the latter). Interest on the first mortgage bonds is payable January 1 and July 1 in London by Messrs. Dent, Palmer and Co., and a sinking fund commenced in 1904, to be applied to the redemption of the loan by annual drawings in May, the last to take place in 1948, while the company has the right to pay off the bonds in any year (now) on six months' notice. For 1906 the shares received 10 per cent.; for 1907, 9; for each of the five years to 1912, 6; and for 1913 and 1914, 7. Reserve funds, 845,154 kroner; carried forward, 92,798 kroner. Natal-Zululand Railway, Limited.—*Directors:* G. H. Raw (Chairman), John S. Sheldrick and J. T. A. Stopford. *Secretary:* W. M. Bemister. *Office:* 96, Gresham House, E.C.—The company was registered March 10, 1896, to construct an extension, about 50 miles in length, to the River Tugela, of the Natal North Coast Railway, the property of the Natal government. The company formerly had a guarantee from the Natal government of 3 per cent. per annum on the cost of the railway to the extent that the net earnings of the railway should fall short of such interest. In 1906-7 disputes arose between the company and the railway department of the government, and a fresh agreement was come to, dating from June 30, 1907. Under this agreement the government has taken over the working of the railway, and is to pay to the company a fixed yearly sum of £13,500 per annum, payments to be made quarterly, while the government has the right to expropriate the railway for the sum of £350,000 at the expiration of completed periods of ten years from June 30, 1907, on giving to the company at any time during any of the ten-year periods at least twelve months' notice, provided that no such notice shall be given (except in the event of the government desiring to expropriate the railway for intercolonial purposes) until the government shall have given the company six months' previous notice "to the effect that they are about to consider the question of expropriation of the railway." The annual sum payable of £13,500 is £3,000 in excess of the amount required to meet the service of the debentures.

Of the authorised capital of £320,000 in shares of £10, £30,000 was issued as 4 per cent. cumulative preference, but in 1904 this was converted into ordinary, and the subscribed capital is now £108,190 in ordinary shares, all fully paid. An issue of £150,000 (part of £300,000 authorised) 3 per cent. first mortgage debentures of £100 each was offered for subscription at 92½ per cent., and all was allotted, while the balance of £150,000 has since been issued at 70 per cent.; interest is payable April 1 and October 1, and the company has reserved the right to redeem the debentures at par on the line being expropriated by the government. There are also 3 per cent. second mortgage debentures for £50,000, with interest payable June 1 and December 1, and redemption particulars the same as for the first mortgage debentures.

The accounts are made up annually to August 31, and submitted in October, an interim dividend (in 1915 of 1 per cent.) being paid in March. The line was opened for traffic throughout in December, 1898. For 1904-5 and 1905-6 5 per cent. was paid each year; for 1906-7, 4; for 1907-8, 2; for 1908-9, 1909-10 and 1910-11, 2¼; for 1911-12 and 1912-13, 2½; and for 1913-14 and 1914-15, 2. Reserve fund, £5,000; carried forward, £1,251. Voting power, one vote for every share. Director's qualification, 25 shares. Transfer form, common; fee, 2s. 6d. Telephone number, 8176 London Wall. The debentures are quoted in the official list; latest price, 66.

National Railroad Company of Mexico. — Amalgamated with the Mexican Central Railway Company, Limited, under the title of the National Railways of Mexico.

National Railways of Mexico.—*Directors:* L. Cabrera (President), C. B. y del C. Negrete (Chairman), J. Acuna, M. A. Berlanga, J. N. Amadar, E. S. A. de Lima, G. Mancera, R. Nieto, A. J. Pani, M. C. Rolland, J. Simon and R. Zubaran. *New York local board:* W. E. Curtis, I. Enriquez, J. J. Hanauer, R. V. Pesqueira, W. T. Rosen, C. H. Sabin, R. Schuster and H. H. Wehrhane. *Offices:* Mexico City, and 25, Broad Street, New York.—By act of congress approved December 26, 1906, and a decree of the president of the republic of Mexico, dated July 6, 1907, the readjustment and union of the Mexican Central Railway Company, Limited, and the National Railroad Company of Mexico was effected through the creation of a new company entitled Ferrocarriles Nacionales de Mexico (National Railways of Mexico). The plan of readjustment was issued in April, 1908, the managers being Messrs. Speyer Brothers, of London, Messrs. Kuhn, Loeb and Co., Speyer and Co., Ladenburg, Thalmann and Co. and Hallgarten and Co., of New York, the Bank für Handel und Industrie, and the Berliner Handels-Gesellschaft, of Berlin. As from July 1, 1910, the Mexican International Railroad Company was absorbed, and late in 1913 the Vera Cruz to Isthmus Railway Company was taken over, and at the beginning of 1914 the Pan American Railroad Company was absorbed.

The accounts are made up annually to June 30, and usually submitted in October. For the fiscal year 1908-9 2 per cent. was paid on the first preferred shares, together with $10 in cash per old preferred share (in December, 1908, under the reconstruction scheme); for 1909-10, 3 per cent. was paid on the first preferred shares; for 1910-11 and 1911-12 4 per cent. was paid each year on the first preferred shares, but there was no distribution on the second preferred; and in respect of 1912-13 2 per cent. was paid on the first preferred shares (in February, 1913), but there has been no distribution since. For 1912-13 there was a surplus over fixed charges of $723,561 (Mexican currency), and after transferring $36,178 (Mexican currency) to the reserve fund (increasing it to $493,486 Mexican currency), and paying 2 per cent. on the first preferred shares, the credit balance of $567,052 (Mexican currency) brought down was reduced to $98,962 (Mexican currency). In 1913-14 (the report for which year has not yet, November 9, 1915, been published), in consequence of the political conditions ruling in the country, the net earnings were only $2,286,609 (Mexican currency), as against $21,126,335 in 1912-13. In December, 1913, it was announced that, owing to the dislocation in the service of the company's railway, consequent on the disturbed conditions in Mexico, resulting in interruptions to traffic, in loss of earnings, and in increased expenses, the company was unable to provide the cash for interest due January 1, 1914, on National Railroad of Mexico prior lien bonds and National Railways of Mexico prior lien bonds, and that the Mexican government had agreed, in order to assist the company and to protect its own interest in the system, to advance to the company a certain amount of its 6 per cent. 10-year treasury gold bonds of 1913. These Mexican government bonds have been deposited in trust with the Guaranty Trust Company of New York as security for an issue of National Railways of Mexico 6 per cent. notes, which notes were issued at par for interest due on the two issues of prior lien bonds referred to; and interest due April 1, 1914, on National Railroad of Mexico first consolidated mortgage bonds, as well as interest due April 1, 1914, on National Railways of Mexico guaranteed general mortgage bonds and interest due June 1, 1914, on the secured gold notes, was similarly met, but subsequent payments are in complete arrear, a scheme brought forward at the end of July, 1914, for meeting engagements by the issue of the company's notes secured against government bonds having fallen through.

The company in its present form owns 6,818 miles of road, in addition to which it controls 173 miles, as well as the Interoceanic of Mexico, of a length of 1,047 miles. The company holds £1,038,450 of second debenture stock, £1,310,500 ordinary stock, £102,000 second preference stock and £142,800 first preference stock of the Interoceanic Railway Company of Mexico. The capital account is now as under, and the first and second preferred shares, the prior lien bonds (to the extent of $92,361,600) and the general mortgage bonds (to the extent of $54,421,500) of the amalgamated company are quoted in the official list, as well as the prior lien bonds and first consolidated mortgage bonds of the old National Railroad Company of Mexico, the two Mexican International issues (the first consolidated mortgage bonds only as regards $6,277,000 of the bonds stamped as guaranteed by the National Railroad of Mexico), and the Vera Cruz and Pacific bonds (amongst Foreign Railways); the figures regarding capital account are given in U.S. currency:—

Nitrate Railways Company, Limited.—*Directors:* Sir R. Harvey (Chairman), C. de Burlet, J. Cameron-Head, L. de Lannoy, Col. F. G. Oldham, G. T. Symons, A. de Wandre and Capt. D. Wilson-Barker. *Secretary:* G. L. H. Axworthy. *Office:* 110, Cannon Street, E.C.—The company was registered August 24, 1882, and owns railways serving the greater part of the nitrate works of the province of Tarapaca, Chili. These lines were constructed under concessions from the Peruvian government (the territory served having since passed into Chilian control); the concessions expire in 1936, 1957 and 1974, when the lines revert to the government, but the concession in regard to one of the sections has been declared forfeit by the Chilian government. The concessions carried exclusive rights for certain periods, which, however, have expired. There are no options of government purchase prior to the expiration of the concessions, and no monetary guarantee was given. In May, 1890, a concession (without monetary guarantee) was granted for the construction of an extension to the Lagunas nitrate beds, and this line was opened in January, 1893; the government has in this case reserved the option of purchasing the line at any time. The capital is as under :—

£1,656,000 Ordinary shares of £10, fully paid. By an act of parliament obtained in 1891, the option is given to shareholders to require the company to issue to them at any time new "preferred converted ordinary shares" and "deferred converted ordinary shares" against the existing ordinary shares, at the rate of one preferred share of £10 and one deferred share of £10, for each ordinary share of £10. The dividend is declared on the original capital as if undivided, and, on the amount accruing to the divided portion, the preferred shares rank first for 7 per cent. dividends in each year, the balance going to the deferred. By act of parliament obtained in 1901, however, shareholders have now the option of reconverting preferred and deferred converted ordinary shares, presented in equal amounts, into ordinary unconverted shares. On December 31, 1913, the capital stood at £1,484,360 ordinary, £171,640 preferred ordinary, and £171,640 deferred ordinary.

£2,000,000 Five per cent. first mortgage bonds of £100, £500 and £1,000, issued in 1888. A portion of this issue was allotted in exchange for pre-existing bonds, and the balance was placed by public subscription at 98½ per cent. Interest is payable January 1 and July 1, and the bonds were issued redeemable at 5 per cent. premium in about 31 years by half-yearly drawings in June and December, commencing December, 1888. The company was to provide £130,000 per annum for the service (interest and redemption) of the issue, but had power to accelerate redemption. In each of the years 1912, 1913 and 1914 the company provided £100,000 for the redemption of first mortgage bonds in excess of the minimum originally fixed, and in consequence of the disorganisation to the nitrate trade occasioned by the war, and the resulting reduction in the Nitrate Railways Company's receipts, the bondholders agreed, at a meeting in November, 1914, to a scheme put forward by the directors, and approved by the trustees for the bondholders, for the suspension of the sinking fund, provided for in the trust deed, during the period of the war, or until January 1, 1918, whichever is the earlier date, the extra amortisation provided in the past more than covering the minimum rate of amortisation up to January 1, 1918. The suspension of the sinking fund was agreed to subject to the company undertaking to make no dividend payment on the share capital until the sinking fund is resumed. In November, 1915, it was announced that the directors had decided to resume the amortisation of the bonds, and to hold a drawing on December 1, 1915. The issue was made through Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C.; and Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., make all payments on the bonds. Amount outstanding on December 31, 1914, £248,400.

The accounts are made up annually to December 31, and submitted about April. For 1901 the dividend was 3 per cent., giving the preferred 3; for 1902 and 1903, 5, giving the preferred 5; for 1904, 5½, giving the preferred 5½; for 1905 and 1906, 8 each year, giving the preferred converted the full rate of 7 per cent., and 1 per cent. to the deferred; for 1907, 6, giving the preferred 6; for 1908 and 1909, 3, giving the preferred 3; for 1910, 7½, giving the preferred the full rate of 7 per cent., and the deferred ½ per cent.; for 1911, 7, giving the preferred the full rate of 7 per cent.; and for 1912 and 1913, 7½ each year, giving the preferred the full rate of 7 per cent., and the deferred ½ per cent. Late in 1914 it was agreed, as stated above in the notice of the first mortgage bonds, that the sinking fund on the bonds should be suspended during the period of the European War, or until January 1, 1918, whichever is the earlier date, the trustees for the bondholders stipulating that no dividend shall be paid on the share capital until the amortisation on the bonds is resumed; an interim dividend of 2½ per cent. was paid in November, 1914, on the undivided ordinary and preferred shares on account of 1914, and on the closing of the accounts for that year there was, in accordance with the above-mentioned agreement, no further distribution, a credit balance of £59,921, including £43,759 brought down, being carried forward. Reserve fund, £200,000. An interim dividend of 2 per cent. on the unconverted ordinary shares and the preferred converted ordinary shares has been declared, payable on December 6. The gross earnings in 1915, to October 31, were £280,669, as against £499,901 in the same period of 1914.

Voting power, one vote for each ordinary share; preferred converted ordinary shares have a right

of voting equal to one-third of a similar number of ordinary shares, and deferred shares carry two-thirds of the voting rights attaching to an equivalent number of ordinary shares. Director's qualification, £500 of ordinary shares, or £500 of preferred and £500 of deferred. Transfer form, common; fee, 2s. 6d. per deed. Registered ordinary shares, which have not been converted into preferred and deferred, can be made to bearer in certificates of 1, 5 or 10 shares, on payment of the stamp duty and 6d. per certificate of a single share and 1s. per certificate of 5 or 10 shares; for reconversion to registered no charge is made. In January, 1913, an agreement was entered into with the London and South Western Railway, and has received the sanction of parliament, for the lease to that company of the undertaking for 999 years as from January 1, 1913, at a fixed rent of £25,250 per annum, payable by half-yearly instalments. The accounts are now made up annually to December 31, and submitted in March. North Eastern of Uruguay Railway Company, Limited.—*Directors:* W. Higgins (Chairman), H. C. Allen and A. P. Henderson. *Secretary:* G. R. Cable. *Office:* River Plate House, Finsbury Circus, E.C.—This company was registered December 10, 1886, and is a reconstruction of an Uruguayan undertaking. The old company constructed 21 miles, and the new company has constructed a further 55 miles (88 kilometres). The Uruguayan government gave a guarantee, in respect of the 55 miles constructed, of 7 per cent. on £5,000 per kilometre, for forty years, dating from the opening of each section of 50 kilometres. Under the scheme of arrangement of Uruguayan national liabilities formulated in 1891, the guarantee for the remaining period of the concession was reduced from 7 to 3½ per cent., payable quarterly in gold, the company, however, being allowed to retain the first 1½ per cent. of net earnings before any rebate on account of guarantee begins to accrue to the government, and under a further arrangement come to with the government in April, 1906, when the net earnings (after allowing 40 per cent. of the gross receipts, plus a constant of $87.38 per kilometre of line for each six months as working charges) exceed 5 per cent. of the guaranteed capital, the excess up to 6 per cent. and one-third of the net earnings between 6 and 8 per cent. are to be retained by the company; and the remaining two-thirds between 6 and 8 per cent. are to be applied wholly in repayment of sums advanced under the guarantee. Further, the government has reserved the right to intervene in the tariffs when more than 8 per cent. is earned on the real capital, and the government has extended the period of its guarantee until the year 1941. In January, 1909, a further provisional agreement was entered into with the government, whereby the company is allowed a more liberal basis for calculating the working expenses for guarantee purposes, viz., 45 per cent. of the gross earnings, plus a constant of $88.50 per kilometre of line for each six months, such basis to commence to operate from the date of the opening (October 1, 1910) of the first section of the Central Uruguay Eastern Extension Company's line from Nico Perez to Treinta y Tres, and to remain in force for ten years, to be readjusted thereafter on the basis of the average cost of working the combined Central Uruguay system during such ten years. For the service of the national debt and the railway guarantees, the government has hypothecated 45 per cent. of the gross receipts of the customs houses of the republic, while, should these revenues prove insufficient, the deficiency is to be made up from other sources of revenue; on the amount so provided the interest of the national debt forms a first charge, the railway guarantees ranking next. The line belongs to the company in perpetuity, but the government may purchase it 25 years after the opening at a fair valuation, plus 20 per cent.

The authorised share capital is £800,000 in shares of £10, half ordinary and half non-cumulative 7 per cent. preference. The ordinary shares were issued as fully-paid to the old company, and in payment for concessions and extensions, and the whole of the preference capital has been subscribed and paid.

The accounts are made up annually to June 30, and submitted in September. As from July 1, 1889, the company has leased the line (with the benefit of the concessions) for 999 years to the Central Uruguay Railway Company, Limited, that company to maintain the North Eastern line, and pay an annual rental which is now (since and including 1895-6) and is to be for the remainder of the term, £56,000, with £100 a year for administration expenses, and to provide office accommodation for the company and clerical staff. Thus, for the twenty years to 1914-15 the ordinary received 7 per cent. per annum. The preference and ordinary dividends are paid in equal proportions in April and October. Voting power, one vote for each ordinary share, and two votes for each preference. Director's qualification, £1,000 of either ordinary or preference shares. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Durazno, Ave, London. Telephone number, 1101 London Wall. The company is quoted in the official list. Latest prices—ordinary, 10; preference, 10.

North Western of Uruguay Railway Company, Limited.—*Directors:* Sir A. Holland, Kt. (Chairman), Sir R. Edgcumbe, K.B. (Deputy-Chairman), F. W. Barrow and H. G. M. Conybeare. *Secretary:* R. F. Fisher. *Office:* 20, Copthall Avenue, E.C.—This company was registered May 3, 1882, to acquire the railway and other property of the North Western Railway of Monte Video Company, Limited, which was formed to construct and work a line under a concession from the government of Uruguay, dated December, 1870. A new arrangement was concluded in 1885 with the government of Uruguay with respect to the extension of the then existing line, the government giving a guarantee for forty years of £29,400 per annum, commencing with the opening of the sections of the extension; by the scheme for dealing with Uruguay national engagements, formulated and carried through in 1891, this guarantee of £29,400 per annum was reduced by one-half. A proportion of the net receipts over the whole line is applied in reduction of the guaranteed amount when the net receipts exceed 1½ per cent. on the guaranteed capital. The guarantee came into partial operation late in 1886, and since 1887, when the last section of the extension was opened, the guarantee has been in full operation. There is no

guarantee in respect of the old line; the properties belong to the company in perpetuity. The railway is free from all imposts and dues for the term of forty years.

The issued capital is—£120,120 ordinary stock; £583,850 6 per cent. first preference non-cumulative stock; £293,173 5 per cent. second preference stock (the first and second preference stocks having a priority as to capital in that order over the ordinary); £400,000 6 per cent. first mortgage debenture stock (being the total authorised), with interest payable June 15 and December 15, and the principal irredeemable; and £72,625 6 per cent. second mortgage debenture stock (part of £100,000 authorised), with interest payable June 15 and December 15, and the principal repayable at any time, at the company's option, at 110 per cent., on six months' notice. The debenture stocks are secured by a charge (in their order of priority) upon the railway and the government guarantee, and by $1,260,000 bonds of the internal debt of the republic of Uruguay, bearing 4 per cent. interest. The interest on these bonds is regularly paid.

The accounts are now made up annually to June 30, and submitted in November. For 1903-4 and 1904-5 only debenture interest was met; for 1905-6 1 per cent. was paid on the first preference; for 1906-7, 1907-8 and 1908-9, 2 each year; for 1909-10, 2½; for 1910-11 and 1911-12, 3; for 1912-13, 2⅓; and for 1913-14 and 1914-15, nil, only interest charges being met. Reserve fund, £18,000; insurance fund, £4,789; rolling stock renewals fund, £10,000; carried forward, £2,762, against £6,878 brought down. In the three months to September 30, 1915, the receipts were $68,500, as against $52,143 for the corresponding period. Voting power, one vote for every £20 of preference or ordinary stock. Director's qualification, £1,000 of capital paid up, either preference or ordinary. Transfer form, common; fee, 2s. 6d. per deed; stock is transferable in any amount not being a fraction of £1. Telegraphic address, Cuareim, Ave, London. Telephone number, 9367 London Wall. The company is quoted in the official list. Latest prices—first preference stock, 21; first debenture stock, 80.

North-Western Railway Company of Peru, Limited.—*Directors:* C. N. Clarke (Chairman), Hon. A. G. Brand, E. B. T. Studd and F. M. Voules. *Secretary:* T. M. C. Steuart. *Office:* 65, Bishopsgate, E.C.—The company was registered October 31, 1908, to acquire a concession dated December 12, 1906, granted by the Peruvian government and ratified by the president on January 7, 1907. Under this concession the company receives fiscal or municipal lands necessary for the construction of the railway, stations, and other incidental works, free of cost; the government has guaranteed to the company, for a period of 30 years (from November 15, 1910), annual interest of 6 per cent., payable half-yearly, on the bonds issued for the construction and equipment of the railway. The government has further undertaken during the said period of 30 years to make good the annual deficit (if any) resulting from the working of the railway, while during the same period the excess of net earnings over the guarantee is to go—as to one-half to the company, and one-half to the government until the latter has been reimbursed all sums advanced under the guarantee. The company is exempt from payment of fiscal duties upon articles and materials used in the construction and upkeep of the line, this exemption to continue so long as the net revenue of the railway is not sufficient to provide the sum guaranteed as above. The government has reserved the right to purchase the railway, buildings and works after the expiration of eight years from the date on which the line is opened for public traffic throughout, the purchase price to be computed, in the absence of agreement, on the basis of the mean rate at which the debenture and share capital of the company, issued to provide the sums employed in the construction and equipment of the railway, has been quoted in England during the three years preceding the date of such purchase. The railway as originally planned is to be 158½ miles in length (see below), and the company is given a preferential right to construct branches and extensions.

The authorised capital is £600,000 in shares of £1, of which £594,262 has been allotted fully paid in part payment for the concession and for the complete construction and equipment of the line, the construction company also taking £996,600 of first mortgage debentures, while the construction company has advanced £19,500 for working capital, for which it has received second debentures for £25,000. In November, 1910, the above-mentioned amount of £996,600 of 5 per cent. first mortgage debentures of £20 each was offered for sale at 95 per cent.; all of the debentures were subscribed for, and the whole capital sum of £830,513 mentioned in the decree has been paid to the company's bankers. The debentures are secured by a trust deed covering the entire undertaking of the company; interest is payable May 1 and November 1 (not paid November 1, 1914, or since), and as from October 1, 1916, the company has to appropriate in every year the sum of £51,335, the surplus in excess of interest requirements to constitute a sinking fund for the redemption of the debentures, which are to be repaid within 75 years from May 1, 1916, the sinking fund to be applied to drawings at 105 per cent.; moreover, the company has undertaken in each year, commencing with 1916, to set aside the whole of its profits of the preceding year, but not exceeding £20,000 per annum, for the acceleration of the repayment of the debentures, this sum to be applied to purchases, or by tender, at any price below 105, or to drawings at 105; and the company has reserved the right to pay off at any time after May 1, 1916, all or any of the debentures at 105 per cent., on six months' notice.

The accounts are made up annually to June 30, and submitted about the close of the year. With the exception of about 25 miles between Lima and Ancon, the whole of the railway was opened for traffic on June 1, 1912; the portion named has not been constructed. In order to meet the wishes of the government the company expressed its willingness to enter into an agreement with the Central Railway of Peru for a third rail to be laid on that company's existing railway between Lima and Ancon, so as to take the rolling stock of this company through to the capital, but owing to a change in the government of Peru nothing definite has yet resulted. The government has not only suppressed the Lima-Ancon section, but has issued a decree rescinding the company's concession, and is in arrear with payments under the guarantee. Interest on the first mortgage debentures due May 1, 1914, and since is in arrear. The company's affairs and position have been the subject of representations by the British Foreign Office to the government of Peru, but in view of the disturbance of trade in Peru caused by the European war, and the consequent financial crisis, the Foreign Office has advised the directors that it would be inadvisable at the present time to press matters. Pending a settlement with the government a temporary arrangement has been made with the Central Railway of Peru for the working of this company's line on a cost and percentage basis. For the period from April 1, 1912, to

June 30, 1913, the net earnings were £25,779, and after providing for debenture interest there was a debit to revenue of £18,078; while for 1913-14 there was a deficiency on the same basis of £7,378, and in respect of these two amounts the company has a claim, under the terms of the concession, against the government of Peru. The above-mentioned sums of £18,078 and £7,378 were transferred to expenditure account, which thus became in debit to the extent of £39,382. Voting power, one vote for every share. Director's qualification, one share. Transfer form, common; fee, 2s. 6d. Telegraphic address, Prutrains, Led, London. Telephone numbers, 1140 and 1141 London Wall.

Ledyard, J. P. Morgan, G. B. Schley, W. Sloane, C. Steele, W. S. Tod and P. The accounts are made up annually to June 30, and dividends are paid quarterly in February, May, August and November. The company owns and controls in all 6,932 miles of line. For 1901-2 5 per cent. was paid on the common shares; for 1902-3, 6½; and for each of the twelve years to 1914-15, 7, after payment of which rate there was a surplus for 1914-15 of $1,462,820, the credit to profit and loss then standing at $83,176,241. On account of 1915-16 1¾ per cent. was paid in November. In the two months to August, 1915, the net earnings were $4,565,514, as against $4,229,774 in the same period of 1914. Further, in December, 1908, a dividend of $11.26 per share was paid (not, however, on the $93,000,000 of shares issued in January, 1907) from the accumulated surplus of the North Western Improvement Company, which is owned by the Northern Pacific. In January, 1907, shareholders were offered the right of subscribing at par for three new shares for every five held, these rights of subscription being valued at $24 per old share. In regard to the land grant, the total sales in 1912-13 were 526,374 acres for $3,040,126, and the net collections on sales and land contracts were $1,048,456 (after deducting expenses and taxes); there were unsold on June 30, 1913, 9,306,407 acres, while $5,838,805 was owing in respect of lands sold for payment by instalments. "No value is placed upon the lands of the company in any statement of its assets until the same are contracted for sale." The prior lien bonds rank now as a first charge on the bulk of the land grant. The capital issues known here are as under, all being quoted in the official list (the general lien bonds to the extent of $56,000,000), and there are in addition—$20,000,000 refunding and improvement mortgage 4½ per cent. bonds (issued in 1914); a sectional mortgage for $8,080,000; indebtedness of other companies assumed, $14,933,000; and $215,227,000 of bonds issued jointly with the Great Northern Company (see separate heading in this work, "Northern Pacific—Great Northern Railway Companies"). A controlling amount of Northern Pacific common stock, and of Great Northern common shares, became the property of the Northern Securities Company, but the United States Supreme Court declared that company to be illegal, and early in 1905 the bulk of its holding in Northern Pacific and Great Northern Railway shares was distributed amongst its shareholders :—

Ottoman Railway Company of Anatolia.—*Office:* Constantinople.—The company was formed in March, 1889, under the laws of the Ottoman Empire, for the purpose of acquiring a line of railway from Haidar Pasha, a suburb of Scutari (Constantinople), to Ismidt, a distance of 57¼ miles, and of extending that line to Angora, a distance of 302 miles, making a total length of 359¼ miles. At the expiration of 99 years from (now) March 5, 1903, the line is to revert to the Turkish government, which has reserved the right to purchase the undertaking at any time after the expiration of 30 years by paying during the remainder of the term an annuity equal to 50 per cent. of the gross average earnings of the five years preceding the purchase, such annual sum not to be less than 10,000 francs per kilometre, or £643 per mile. In either case the value of the rolling stock, materials, and stores is to be refunded by the government. During the whole term of the concession the Turkish government guarantees to the company an annual gross revenue of 10,300 francs per kilometre, equivalent to £659 4s. per mile, on the line from Haidar Pasha to Ismidt (57¼ miles); and 15,000 francs per kilometre, or £960 per mile, on the line from Ismidt to Angora (302 miles). The tithes of the provinces of Ismidt, Ertogroul, Kutayah and Angora, through which the lines run, have been specially assigned to the administration of the Ottoman Public Debt in Constantinople for securing payment to the railway company of any sums that may be required for completing the amounts thus guaranteed by the government. In case the average annual gross earnings of the whole line exceed the sum of £659 4s. per mile, the excess for the Haidar Pasha-Ismidt section, up to £960 per mile, is to be applied in reduction of the guarantee on the Ismidt-Angora section, and should the average annual gross earnings of the line Haidar Pasha-Angora exceed £960 per mile, 25 per cent. of such excess is to accrue to the government.

In 1893 the company obtained from the Turkish government a concession for the construction and operation of an extension line from Eski-Cheir to Konia, a distance of 276 miles. The concession is dated February 15, 1893, and runs for a period of ninety-nine years from March 5, 1903, "at the expiration of which period the line will revert to the Ottoman government, which reserves the right to purchase the undertaking at any time after 30 years from the date of the grant of the concession, by paying during the remainder of the term an annuity equal to 50 per cent. of the gross average earnings of the five years preceding the purchase, such annual sum not to be less than 10,000 francs per kilometre, say £643 per mile, being more than sufficient to cover interest and sinking fund on the Extension line debentures. In either case the value of the rolling stock, materials, and stores is to be refunded by the government. In the event of the government exercising the right to purchase the line, the regular payment of the annuity is to be secured and to form the subject of a special convention between the government and the company." In respect of this concession the Turkish government has undertaken to pay yearly during the whole term of the concession such an amount, not exceeding £T296·31 gold per kilometre, say £434 sterling per mile, as may be required to bring the gross traffic returns up to a total of £T604 gold per kilometre, say £885 sterling per mile per annum. Should the annual gross traffic receipts exceed £885 per mile, the Turkish government is to receive 25 per cent. of the excess. The Turkish government, as security for its guarantee, has assigned to the administration of the Ottoman Public Debt the tithes of the sandjaks (provinces) of Trebizond and Gumuchhané (adjacent to the Black Sea), the said administration being instructed to pay over annually, direct to the railway company, out of these tithes, such an amount as may be due from the Imperial government in respect of its guarantee.

In 1898 the company obtained from the Turkish government a concession for the construction and the operation of a branch line from the actual station of Ada-Bazar (Ismidt-Angora line) to the city of Ada-Bazar, about 6 miles. The concession is dated October 10, 1898, and expires at the same date as the concession of the Haidar Pasha line. All the gross receipts of the branch line appertain exclusively to the company, but the Turkish government does not give any guarantee for it. Afterwards, the company obtained from the Turkish government a concession for the construction and operation of a harbour, quays, docks, &c., at Haidar Pasha. This concession is dated March 23, 1899, and runs for the same period as the concession of the Haidar Pasha line. The Turkish government has the right to purchase the undertaking during the same period as the Haidar Pasha line, but not without purchasing simultaneously the whole Anatolian railways, by paying during the remainder of the term an annuity equal to 80 per cent. of the gross average earnings of the five years preceding the purchase, such annual sum not to be less than sufficient to cover interest and sinking fund on the capital not amortised. In the event of the government exercising the right to purchase the line, the regular payment of the annuity is to be secured, and to form the subject of a special convention between the government and the company. The capital is as under :—

£5,400,000 Shares of £20, 10,000 of which are fully paid, 125,000 have £12 called up, and 135,000 (issued in December, 1907) £5 called. The shares are "to bearer." They are subject to drawings in July or August, at the rate of about 100 a year, payment being made forthwith. Shares drawn participate in surplus dividends in excess of 5 per cent. per annum. Amount outstanding in 1914, £5,318,000.

£3,200,000 Four-and-a-half (originally Five) per cent. (Main Line) debentures of £20, £100 and £500 each, with their equivalent in marks and francs indicated on them at the exchange of 20·40 and 25 per £ respectively. Of this amount £1,000,000 was offered in January, 1890, at 86¼ per cent., by the Trustees, Executors and Securities Insurance Corporation, Limited, the lists being simultaneously opened on the continent, while an additional £1,400,000 was placed by the Deutsche Bank in 1891, and £800,000 has been placed privately, making the total authorised of £3,200,000. In 1910 the debenture holders were offered the option of consenting to a reduction in the rate of interest on their debentures from 5 to 4½ per cent., beginning on October 1, 1910, or having their debentures repaid at par, those agreeing to the reduction receiving a conversion bonus of 1 per cent. on the nominal amount of the bonds. The reduction in interest has been indicated by a stamp on the bonds and coupon sheets, most of the holders having elected to convert. Coupons are payable April 1 and October 1, and the principal is to be repaid at par within 90 years by annual drawings in April, for repayment in the following October, redemption having commenced in 1895. The company has undertaken not to exercise its right to increase the sinking fund or to repay the whole amount until April 1, 1925. The bonds are exempt from all Ottoman taxes and duties, and payments have been made in London—by the Deutsche Bank, 4, George Yard, Lombard Street, E.C.—Berlin, Bremen, Frankfort-on-Main, Hamburg and Constantinople. Amount outstanding in 1914, after deducting the bonds drawn and the amount redeemed under the 1910 option, about £3,079,560.

Coupons and drawn bonds due October 1, 1914, were not paid in London, neither were the coupons due in 1915 met here, and there appears to be no knowledge on this side as to whether a drawing of debentures for redemption took place in April, 1915.

£3,200,000 Four-and-a-half (originally Five) per cent. Konia debentures of £20 and £100 each, with their value in marks and francs also expressed on them, at the exchange of 20·40 and 25 per £ respectively. The total authorised of the bonds is £3,200,000, and £1,600,000 was issued in December, 1894, by the Deutsche Bank, 4, George Yard, Lombard Street, E.C., at the price of 89 per cent., the balance having since been placed on the continent. In 1910 the debenture holders were offered the option of consenting to a reduction in the rate of interest on their debentures from 5 to 4½ per cent., beginning on October 1, 1910, or having their debentures repaid at par, those agreeing to the reduction receiving a conversion bonus of 1 per cent. on the nominal amount of the bonds. The reduction in interest has been indicated by a stamp on the bonds and coupon sheets, most of the holders having elected to convert. Coupons are payable April 1 and October 1, and the principal is repayable at par within 90 years from October 1, 1895, by means of a sinking fund applied to annual drawings in April, for repayment in the following October, redemption having commenced in 1895. The company has undertaken not to exercise its right to increase the sinking fund or to repay the whole amount until April 1, 1925. The bonds are exempt from all Ottoman taxes and duties, and payments have been made in London (by the issuing bank), Berlin, Bremen, Frankfort-on-Main, Hamburg and Constantinople. The bonds rank as a first charge on the line from Eski-Cheir to Konia, the government guarantees in connection therewith, and also on the surplus revenues of the main line derived from actual traffic receipts and government guaranteed payments after meeting all charges on the main line debentures. Amount outstanding in 1914, after deducting the bonds drawn, and the amount redeemed under the 1910 option, about £3,070,760.

Coupons and drawn bonds due October 1, 1914, were not paid in London, neither were the coupons due in 1915 met here, and there appears to be no knowledge on this side as to whether a drawing of debentures for redemption took place in April, 1915.

60,000,000 Francs (the total authorised) 4½ per cent. obligations of 500 and 2,500 francs each, with their value in German and Turkish currency also expressed on them, issued on the continent in March, 1912, at 96½ per cent., plus accrued interest. Coupons are payable on June 1 and December 1 on the continent, and the bonds are repayable by annual drawings which commenced in 1913, while the company has reserved the right to accelerate redemption from April 1, 1925, or to repay the total amount outstanding after that date, on giving about one month's notice. The bonds are exempt from all Ottoman taxes and duties, and payments are made on the continent. Amount outstanding in 1914, 49,926,000 francs.

There appears to be no knowledge on this side as to whether coupons on these obligations due December, 1914, and since, have been met, or as to whether drawings were effected in 1914 and 1915.

The accounts are made up annually to December 31. The main line was opened for traffic on November 22, 1892; the Konia extension was completed on July 28, 1896; and the extension to Ada-Bazar was opened November 1, 1899. The company has ceded the concession for the construction and working of the harbour of Haidar Pasha to a separate company, the majority of the share capital of which is held by the railway company, and the harbour was opened for traffic on April 14, 1903. For the five years to 1904 the shareholders got 5 per cent. each year; for the four years to 1908, 6; for the three years to 1911, 5; and for 1912, 5½. In 1910 the net earnings were 6,159,303 francs, and the government had to provide 2,922,055 francs under its guarantee; in 1911 the net earnings were 8,196,594 francs, and the government had to provide 1,045,304 francs; and in 1912 the net earnings

were 10,162,648 francs, and the government received as its share of the above-mentioned 25 per cent. of excess earnings 902,958 francs in respect of the Haida Pasha-Angora line and 392,516 gold piastres in respect of the Eski-Cheir to Konia line. Reserve funds, 16,910,972 francs. Later reports have not been received; the dividend for 1913 is believed to have been 6 per cent. The first two series of debentures are quoted in the official list.

Ottoman Railway from Smyrna to Aidin.—*Council:* Lord Rathmore (President), H. T. Anstruther, F. Single, L. E. Smith, W. H. Swaffield and J. H. Trewby. *London Manager and Secretary:* T. H. Cooke. *Offices:* Winchester House, E.C.—As from April 30, 1888, the agreement between the company and the Turkish government has undergone a complete change. A new convention has been entered into, bearing the above date, by which the government extended the company's concession to October 15, 1935, and gave power to construct 200 miles of additional lines. A guarantee of interest from the Turkish government was terminated, and the arrears of this guarantee, with sundry other claims against the government, are fixed at £650,000. A price is named in the convention at which the government may purchase the lines at the termination of the concession, rolling stock and supplies to be taken over at a valuation. The purchase consideration may be paid by the government in one single amount at the expiration of the concession, or by means of anticipated payments made in cash into the hands of the company, such payments to carry compound interest of 5 per cent., and to accumulate down to the termination of the concession. The sum of £650,000, recognised by the government as being due to the company, carries no interest, and is to be paid or provided for in the same manner as the price fixed for the purchase of the railway. It is provided that the government can take possession only of the system as a whole, and the company is to be left in possession of the line until the full purchase money is paid (none has yet been paid). The government exercises certain control over the tariffs. In 1906 a further convention was granted by the Turkish government for extensions of the line (65 miles), and the prolongation of the terms of the company's existing concessions to 1950; the last section (22 miles) of the extensions was opened for traffic on November 1, 1912. Negotiations were proceeding, up to the time of the outbreak of the war, between the company and the Ottoman government for a further extension of the company's system and other matters.

In 1899 the company failed to meet the interest on some of the debenture issues, and the reconstruction of the bonded debt was then decided upon, holders of nearly all of the bonds having come into the plan. Under the scheme two classes of debenture stock were created, as mentioned below, which have been issued to holders of the old debentures, in settlement of the floating debt, &c. The plan provided that, after payment in full of interest on both classes of debenture stocks, a sum of £10,000 per annum, being a portion of the yearly saving in interest on the debenture stocks, compared with the old debenture issues, should be placed to a reserve fund until such fund amounted to £100,000 (the reserve is now in excess of that amount). The reserve fund is to be used, firstly, in meeting any deficiency in interest on the debenture stocks, and secondly, in forming a sinking fund to pay off the additional capital created under the plan. The reserve fund (having reached £100,000) is to accumulate for the benefit of a sinking fund, but such accumulations are not to be taken into account in ascertaining whether the £100,000 has been maintained; no dividend on the shares in excess of 4 per cent. per annum was to be paid until the reserve fund had reached the figure named, while after it reached £50,000 the directors had power to invest the fund in the purchase of 4 per cent. debenture stock, and after ten years power was given to invest it in the purchase of 5 per cent. debenture stock.

On November 27, 1914, the company's railway was seized by a Turkish force, and the Imperial Ottoman government formally took possession of the railway on December 6, 1914. Interest on the 4 and 5 per cent. debenture stocks which fell due on January 1, 1915, was duly paid, but with the assistance of an advance from the company's bankers on reserve fund investments, while in May, 1915, it was announced that the company would not be able to make cash payment either of the half-yearly interest due July 1, 1915, or on subsequent half-years, as long as the war with Turkey lasts. In June, 1915, the debenture holders agreed to defer payments of interest falling due on both issues for twelve months after the signing of peace between the British and Turkish governments, or for the period of three years from June 30, 1915, whichever should be the shorter, deferred interest in both cases to carry interest at the rate of 5 per cent. per annum. In the case of the 4 per cent. debenture stock the company is to have the right of issuing similar stock at the rate of £120 for every £100 of interest so satisfied, while in the case of the 5 per cent. debenture stock £100 of such stock may be issued in respect of £100 of interest so satisfied. The company will from time to time issue certificates in respect of any interest deferred under the scheme, and will retain the right to pay off in cash at any time any portion of any interest the payment of which is deferred under the scheme, but will not be permitted to pay off in cash any interest on the second debenture stock unless and until all interest accrued on the first debenture stock has been paid. The company's borrowing powers are limited to £3,573,634. The following issues have been made:—

£994,340 Ordinary shares to bearer of £20, fully paid.

£300,000 Six per cent. cumulative preference shares of £20 each to bearer, fully paid; they represent the total authorised. Interest on these debentures is being regularly paid in cash. They have a priority over the ordinary shares as regards capital and any arrears of dividend.

£9,600 Five per cent. debentures of £100 each, with coupons payable May 1 and November 1 as regards £8,300, and January 1 and July 1 as regards £1,300, while the principal of all is repayable October 15, 1935. These are the only debentures outstanding of £1,200,000, which amount was reduced, previous to the reconstruction in 1899, to £1,199,940.

£1,957,552 Four per cent. first debenture stock, redeemable at par October 15, 1935, with the right to the company to pay off the stock at 110 at any time on six months' notice, which is also to be the redemption price in the event of the security becoming enforceable through a voluntary winding up for reconstruction or amalgamation. Of the above amount £150,000 was issued in July, 1910, at 94 per cent. The total authorised is

£2,064,978. Interest is payable January 1 and July 1. Interest due July 1, 1915, was met in certificates, as stated above.

£1,401,025 Five per cent. second debenture stock, similar in all respects except the rate of interest, but subject, to the foregoing 4 per cent. debenture stock. Of the above amount £150,000 was issued in July, 1910, at 101½ per cent. The total authorised is £1,508,656. Interest due July 1, 1915, was met in certificates, as stated above.

£52,000 loan from bankers, against reserve fund investments.

£74,175 certificates for debenture interest due July 1, 1915, payable in cash or stock, as detailed above.

The line in operation is 379¼ miles in length. The accounts are made up to June 30 and December 31, and submitted in September and March, but those to June are regarded as interim. For 1905, 5 per cent. was paid; for 1906 and 1907, 6 each year; for 1908, 5; for 1909, 4½; for 1910 and 1911, 5; for 1912, 5½; for 1913, 6; and for 1914, nil. The preferred share dividends are usually paid May 1 and November 1, and these were regularly met to November 1, 1914, since when, however, there has been no payment. Reserve fund at June 30, 1915 (invested), £143,223; general reserve (for share capital sinking fund and general purposes), £42,680. In June, 1915, the debenture holders agreed to postpone payment of debenture interest, as detailed above. Voting power, one vote for 5 up to 10 shares of either class, and one vote for every 10 shares beyond. Director's qualification, 50 ordinary shares. Transfer form for debenture stock, common; fee, 2s. 6d.; debenture stock is transferable in sums of £10 and multiples. Telegraphic address, Ottoman, London. The shares and debenture stocks are quoted in the official list. Latest prices—ordinary shares, 12; preference, 14; first debenture stock, 47; second debenture stock, 54.

Ottoman, Smyrna and Cassaba Railway and Extension Company.—The company was formed under a concession from the Sultan of Turkey, dated February 22, 1893, to take over from the Turkish government the existing railway of the Smyrna and Cassaba Railway Company, Limited, from Smyrna to Cassaba and Alascheir and its branches, and extend the main line to Afium-Kara-Hissar. The lines acquired were of a total length of 165 miles, and the extensions which have been completed since have increased the length to 438 miles. In respect of the lines acquired, the Turkish government granted to the company an annuity of 2,310,000 francs per annum for 99 years, equivalent to £91,600, this being secured by "half the gross receipts of the present Cassaba railways," and "the tithes of the cereals of the sandjak of Aidin, which have been especially assigned as security for the payment of the annuity, and which tithes the European administration of the Public Debt of Turkey has undertaken to collect." The government has the right of acquiring the railway after the expiration of 30 years from 1893 on payment of half the gross receipts of the railways, with a minimum of £91,600 per annum, until the expiration of the 99 years. In the construction of the extension to Afium the government guarantees annual gross receipts of 830 Turkish pounds per kilometre (say £1,200 per mile), and, if these do not produce this sum, the balance is to come from the surplus tithes of the sandjak of Aidin, and from the tithes of the sandjaks (provinces) of Denizli and Saroukhan, also collected by the European Administration of the Public Debt of Turkey. If the government exercises its right of purchase of the extension after 30 years from 1893, it is to give security for payment of not less than 11,500 francs per kilometre per annum.

The accounts are made up annually to December 31, and submitted in June. For each of the four years to 1903 4½ per cent. was paid; and for the ten years to 1913, 5. Statutory reserve fund, 685,000 francs; special, exchange and sinking fund reserves, 2,910,000 francs; carried forward, 49,692 francs. Later accounts have not been received. The capital is as under, the first issue of bonds being quoted in the official list:—

16,000,000 Francs in fully-paid shares to bearer of 500 francs. Coupons are payable at the Imperial Ottoman Bank in Paris and Constantinople.

£2,262,400 Four per cent. bonds of £20 each, with their value in Turkish £ and francs also expressed on them, while in addition to the single bonds there are certificates of five bonds and twenty-five bonds. These bonds were issued in July, 1894, through the Imperial Ottoman Bank in London and on the continent, at 83 per cent., specially secured on the annuity of £91,600 as above. Coupons are payable February 1 and August 1, and the principal is to be repaid in 99 years at par by annual drawings in July in Constantinople, the first repayment having taken place in 1895. Payments are made, free from Ottoman taxes, by the issuing bank in London, 26, Throgmorton Street, E.C. Amount outstanding, £2,205,720.

Owing to the war, coupons due in 1915 have not been paid in London.

70,000,000 Francs Four per cent. bonds of 500 francs. These bonds are in all respects similar to the foregoing, except that they are not faced sterling, that the drawings commenced in 1898, and that the special security assigned is the revenue of the extensions and the surplus tithes of Aidin, and the tithes of Denizli and Saroukhan. Coupons are paid in London by the Imperial Ottoman Bank, 26, Throgmorton Street, E.C., at the sight rate of exchange on Paris, free from all Ottoman taxes. Amount outstanding, 68,320,000 francs.

Owing to the war, coupons due in 1915 have not been paid in London.

Pacific Great Eastern Railway Company.—*Office:* Victoria, British Columbia.—In March, 1913, Messrs. Brown, Shipley and Co., Founder's Court, E.C., the London County and Westminster Bank, Limited, Lothbury, E.C., and the Union Bank of Canada, 6, Princes Street, E.C., issued on behalf of the Pacific Great Eastern Railway Company, at the price of 99 per cent., £1,000,000 of first mortgage 4½ per cent. guaranteed debenture stock, and in January, 1914, £1,500,000 of similar stock was issued through the above institutions at 95 per cent., making, with £375,000 issued privately at various dates, a total so far allotted of £2,875,000. The stock is unconditionally guaranteed both as to principal and interest by the government of British Columbia. Interest is payable January 15 and July 15, by warrants sent by post, and the principal is repayable July 15, 1942. The stock is secured by a

first mortgage upon the railway to be constructed nearly north and south from Vancouver to Fort George, a distance of about 480 miles, together with the rolling stock, equipment, &c. ; the amount to which the guarantee from the British Columbia government extends is $35,000 per mile of line, or a total of $15,750,000 (£3,236,345). The company is exempt from all British Columbia provincial or municipal taxes until July 1, 1926. The construction of the line is being proceeded with, and "the company hopes to have over 200 miles in operation by the end of 1915." The books of the stock are kept by Messrs. Brown, Shipley and Co., as above, and transfers are effected on common forms in multiples of £1 ; fee, 2s. 6d. There is also a register of stock in Victoria, to which stock may be transferred from London and vice versa on payment of a fee of 2s. 6d. Interest on stock registered in Victoria is paid at the fixed exchange of $4·866 to the £. The stock is quoted in the official list ; latest price, 93¾.

Writing under date of September 16, 1914, the vice-president of the company stated as follows :— "At the recent session of the legislature of the province of British Columbia a further guarantee of bonds for $35,000·00 per mile was given by the provincial government to the company for the continuation of the line into what is known as the Peace River district, a distance of three hundred and thirty miles north and north-easterly from Fort George. This latter portion of the line is now in course of construction. The time for completion is fixed by the act for March, 1917."

Pacific Railway of Colombia.—This company, whose registered title is Compañia del Ferrocarril del Pacifico, was authorised under the laws of the republic of Colombia to connect the port of Buenaventura on the Pacific coast with the valley of the Cauca, and ultimately with Bogota, the capital of Colombia. The line is to be in all 580 kilometres (say 362 miles) in length, of which 100 kilometres are completed, and for each kilometre of line constructed the company is to receive from the Colombian government a subsidy of £7,600, which is liquidated by the payment to the company of 50 per cent. of the custom receipts of the Pacific ports of Buenaventura and Tumaco. The prospectus issued offering sterling bonds in December, 1911, contains the following : "Owing, however, to the rapidity with which the line has so far been constructed, the company has earned by way of subvention more than the 50 per cent. of the customs has sufficed to pay. In respect of this excess the Colombian government, under the terms of the concession, has handed to the company custom bonds called libranzas, which are payable with interest at 8 per cent. on presentation at the custom houses out of the 50 per cent. before mentioned, in priority to any other payment. The company has thus accumulated libranzas to the amount of $595,980 gold (say £119,200), which with accrued interest have a present nominal value of about £141,000. These libranzas have been deposited as specific security for the present issue with the International Financial Society, Limited, who through their agents, Messrs. Schloss Bros., will from time to time present to the custom houses for payment sufficient libranzas to provide for the service of the loan. The government of Colombia has, through its fiscal agent and consul-general in London, Señor José M. Nuñez, taken official cognisance of the deed of charge, so that whenever these libranzas are presented or notified for encashment no other payment can be made out of the 50 per cent. of the gross receipts of the custom houses on the Pacific coast assigned to the railway, until such libranzas have been satisfied and paid. There is no mortgage debt on the railway, and the terms of the concession provide that if any such mortgage debt shall be created all libranzas outstanding shall be liquidated out of the proceeds. In this event the libranzas deposited with the International Financial Society, Limited, would be paid off and the proceeds would be available for the redemption of the bonds of the present issue." In December, 1911, the International Financial Society, Limited, Dashwood House, E.C., offered £119,200 sterling 5 per cent. five-year bonds to bearer, of £100 each, at the price of £93 per bond, specially secured as stated above, and the whole amount was allotted ; coupons are payable April 1 and October 1, at the office of the International Financial Society, as above, and the principal is to be repaid at par by eight equal half-yearly drawings in March and September, commencing in March, 1913, but bonds may be purchased in the market under par, or by tender, with a view to cancellation, and any bonds so purchased are to go in reduction of the half-yearly drawings. Moreover, power is reserved to redeem the bonds at par at any time. All payments on the bonds are made by the International Financial Society, Limited, as above. Amount outstanding, £37,100. The bonds are quoted in the official list.

Padstow, Bedruthan and Mawgan Light Railway.—The company was incorporated in 1903. According to the government returns the authorised capital, including loans, was, at the end of 1912 (later figures not having yet been published), £125,000, none of which had been issued.

Paraguay Central Railway Company, Limited.—*Directors:* M. A. Rodriguez (Chairman), V. V. Branford (Vice-Chairman), B. H. Binder, J. H. S. Lawton, C. F. Mendl, S. F. Mendl and E. Schickendantz. *Secretary:* F. J. Lawton. *Office:* 9, Throgmorton Avenue, E.C.—The company was registered February 11, 1889, to acquire from the Paraguayan government—a railway, which had been in operation for many years, from Asuncion to Paraguari, 45 miles in length ; the line from Paraguari to Villa Rica, then in course of construction (completed December 25, 1889), 47 miles in length ; and the right to construct a railway from Villa Rica to Villa Encarnacion, on the river Parana. The government guaranteed for twenty years 6 per cent. per annum on the purchase price of $2,100,000 gold (equivalent to £420,000) for the railway from Asuncion to Villa Rica ; and a like rate on $30,000 gold (£6,000) per kilometre of the extension beyond that place, the working expenses, for the purposes of the guarantee, being fixed at 65 per cent. of the gross receipts. The line is to belong to the company in perpetuity, there being no option of government purchase.

Difficulties arose with the government, and the guarantee fell very largely into arrear. For several years negotiations were carried on with the government for a settlement of the arrears, and other matters, and an agreement come to between the Paraguayan executive and the company's representative was confirmed by congress, and passed into law by a decree of July 20, 1907. Under this agreement the company surrendered all claim against the government in respect of the guarantee, while the government gave up £210,000 of preference shares in the railway company, and granted—a concession for feeder lines ; freedom, within certain limits, as to tariff ; and complete exoneration from all taxes of whatever nature for a term of 25 years, the company undertaking to immediately put in hand the construction of the line from the present limit to Encarnacion.

In connection with the fresh arrangements with the government it was decided to reconstruct the company's capital, and for this purpose the company was placed in voluntary liquidation, but all proceedings of this character were stayed in February, 1908. The rearrangement of capital involved—the cancellation of the £210,000 of preference shares formerly held by the government; the issue to holders of old debenture stock of 125 per cent. of new debenture stock to cover principal and arrears of interest; and the creation of 6 per cent. prior lien debenture stock to an amount not exceeding £600,000, to provide the money to properly equip the line with rolling stock, to complete the line to Encarnacion, and to build the feeder lines. In 1909 the government agreed to the company changing the gauge of its lines so as to make it uniform with those of the Argentine North Eastern and Entre Rios railways, thus completing the through route to Buenos Ayres, and in connection with this matter the authorised capital was further increased by £290,000 to £562,930, the new shares to rank equally with the old except that, as regards 22,000 shares, there are no voting rights, and the Argentine government agreed to subscribe at par for 22,000 of the new shares, and also to purchase the company's rolling stock rendered obsolete by the change of gauge, while the remaining 7,000 new shares were issued fully paid to the contractors, in part payment for work done in connection with the extension. The extension to Encarnacion was opened to traffic on July 1, 1911, and the change of gauge effected by April, 1911. For the construction of two extensions respectively east and west—the former from Borja to Iguazu, a distance of about 165 miles, and the latter from Paraguari to Carapegua, a distance of 15½ miles, to meet any balance due on change of gauge and through route account, and for the electrification of the Asuncion Tramway, an issue of 6 per cent. notes for £500,000 was authorised (all now issued). These notes constitute, both as to capital and interest, a charge ranking before the 5 per cent. debenture stock. A portion of the eastern extension was opened for traffic on March 15, 1914, but the construction of the western extension is not at present being proceeded with, and the company now has in operation a total of 255 miles. The company owned a concession from the national government for a tramway in Asuncion (about 26 miles in length, of which 17 miles are electric traction, 7 steam and 2 mule), which includes the public and private supply of electricity for lighting, but this concession has been transferred to another company (the Asuncion Tramway, Light and Power Company, Limited), the bulk of the capital of which is held by the Paraguay Central Railway Company; in October, 1914, a receiver was appointed for the Asuncion Tramway Company. The capital is now as under :—

£562,930 Ordinary shares of £10, fully paid, including 22,000 shares subscribed for by the Argentine government at par.

£600,000 Six per cent. prior lien debenture stock, £510,000 of which was purchased by Chaplin, Milne, Grenfell and Co., Limited (now in liquidation), and offered by that company for sale—as to £210,000 in June, 1908, at 89 per cent., £200,000 in February, 1909, at 91 per cent., £100,000 during 1910, and £90,000 was allotted during 1911, credited as fully paid. Interest is payable January 15 and July 15, and the stock is redeemable at any time, at the company's option, in whole or in part, on three months' notice, but there is no fixed date for redemption; the stock is secured by a first floating charge on the undertaking both present and future, and the company may not, without the consent of the stockholders, create any mortgage or charge on its assets to rank pari passu with, or in priority to, the stock. Interest due January 15, 1915, and since is in arrear.

£500,000 Six per cent. notes (being the total authorised), issued as to one-half in August, 1911, and as to one-half in February, 1913, on both occasions privately. Interest is payable February 1 and August 1, and the notes were repayable on August 1, 1914. They constitute both as to capital and interest a charge ranking before the 5 per cent. debenture stock. Interest due August 1, 1914, and since has not been met, and the repayment of the notes is overdue.

£1,300,000 Five per cent. debenture stock, of which £1,267,500 was issued against principal and arrears of interest—the latter amounting to 80 per cent. at November 1, 1907—of old 5 per cent. debenture stock for £1,014,000, at the rate of £125 of new stock for every £100 of old. Interest on the new stock is contingent on the earnings of the company until the full amount has been paid for three consecutive years, or until a dividend is distributed on the ordinary shares, and on either of these events happening interest on the debenture stock is to become cumulative. The stock is redeemable at any time after June 30, 1937, at the option of the company, on three months' notice. The authorised amount is £1,300,000. This stock received 4½ per cent. per annum for the period from February 25 to June 30, 1908; £1 2s. 5d. per cent. for 1908-9 (paid in May, 1910)—nothing since.

The accounts are now made up annually to June 30, and submitted about October, and interim accounts for the first half of the financial year are published in May. At June 30, 1908, a sum of £41,917 was available for the payment of interest on the 5 per cent. debenture stock, and a distribution at the rate of 4½ per cent. per annum was made for the period from February 25, 1908 (the date of the order of the court sanctioning the scheme of arrangement), to June 30, 1908; for 1908-9, after meeting prior lien debenture stock interest, there was an available sum of £41,497 (which included £22,250 brought forward), and £10,000 was placed to renewal account, £14,608 applied in making a payment of £1 2s. 5d. per cent. on the 5 per cent. debenture stock (this was not distributed until May, 1910, owing to litigation), and £16,888 was placed to reserve; for 1909-10, after meeting prior lien debenture stock interest (£25,886), and £11,481 special administration expenditure in connection with the change of gauge, there was an available sum of £15,278, which was placed to renewal account; for 1910-11, after meeting prior lien debenture stock interest (£31,958), there was an available balance of £20,354, which was transferred to renewal account; for 1911-12, after meeting prior lien debenture stock interest (£35,826), there was an available balance of £6,878, which was transferred to renewal account; for 1912-13, after meeting prior lien debenture stock interest (£36,000), and extinguishing the debit of £6,022 brought forward, there was an available balance of

£12,449, which was placed to renewal account; and for 1913-14, after meeting prior lien debenture stock interest (£36,000), and writing off £15,119 (the whole of the amount except £677) interest, discount and expenses on the issue of 6 per cent. three-year notes, there was a surplus of £13,005, which was applied in writing down the outlay in connection with the Asuncion Tramway, Light and Power Company, Limited (the Asuncion Tramway Company is now in the hands of a receiver). General reserve fund, £16,888. The company has considerable claims against the government for special military services, loss of traffic by the revolutions in 1911 and since, &c., and, no payment having been received in 1913-14 on this account, the amount owing was given in the balance-sheet at June 30, 1914, as £179,768. From July 1 to November 6, 1915, the gross receipts were equivalent to $8,439,000 (Paraguayan currency), as against $4,523,000 (Paraguayan currency) in the corresponding period.

In July, 1914, a scheme was brought forward for funding the floating indebtedness of the company, including the 6 per cent. notes for £500,000, but in consequence of the financial dislocation caused by the war it was found impossible to carry out the proposed plan, and the company fell into default in regard to the payment of interest and the repayment of the principal of the 6 per cent. notes, while default also took place in January, 1915, in the payment of interest on the prior lien debenture stock. In October, 1914, Mr. B. H. Binder, one of the directors, was appointed receiver on behalf of the holders of the prior lien debenture stock and the 6 per cent. notes.

Voting power, one vote for each share, except as regards 22,000 of the 29,000 ordinary shares authorised in 1910, which have no voting power. Director's qualification, 50 shares. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in multiples of £1. Telegraphic address, Pirapo, London. Telephone number, 6031 London Wall. The company is quoted in the official list. Latest price of 6 per cent. prior lien debenture stock, 57⅝.

Parana Railway Company.—This company has now no London office.

Paris, Lyons and Mediterranean Railway Company.—*Office:* Paris.—Two classes of obligations of this company are known here. They are both of 500 francs each, with coupons representing 3 per cent. interest. One class, issued between 1857 and 1866, and in 1885 and since, is in ten series of 600,000 obligations each, and seven series of 100,000 obligations each, and 3,386,261,000 francs has been issued, of which 2,779,980,500 francs is outstanding (after January 1, 1915); coupons are payable January 1 and July 1, and the principal is repayable by 1958 by annual drawings in September. The second class is in nine series of 600,000 obligations each, and seven series of 100,000 obligations each, and of the total authorised 3,144,312,500 francs has been issued (between 1866 and 1884 and since 1908), while from January 1, 1915, 2,570,200,000 francs is outstanding; coupons are payable April 1 and October 1, and the principal is repayable by 1958 by annual drawings in July. All payments are made in Paris, subject to French taxes, but coupons are collected by the Crédit Lyonnais, 40, Lombard Street, E.C. Some of the obligations are registered, and some are to bearer, and obligations of one class may be exchanged into the other, the French tax of 0.75 per cent. being charged in exchanging from registered to bearer. The company has also issued 2½ per cent. obligations for 257,393,000 francs (225,043,500 francs outstanding), and 6 per cent. obligations for 24,286,000 francs (24,186,000 francs outstanding). The share capital is 214,509,500 francs, balance outstanding of 400,000,000 francs, in shares of 500 francs, redeemable at par by drawings in September for repayment on January 1, holders receiving one titre de jouissance in respect of each share redeemed. The accounts are made up annually to December 31. The company had a guarantee, which expired at the end of 1914, from the French government, and dividends of 11 per cent. per annum were paid up to December 31, 1913, but for 1914, owing to the war, the dividend was only 8 per cent., and the titres de jouissance (of which there are 47,528 in circulation) received for 1914 20 francs per titre. Shareholders' reserve fund, 11,194,210 francs; statutory reserve, 21,148,612 francs. Some of the 3 per cent. obligations, with interest payable January and July, are quoted in the official list; latest price, £16.

Parsonstown and Portumna Bridge Railway Company.—According to the last government returns (1912—later returns not having yet been published), the line was taken possession of by a creditor on January 6, 1879, and has been closed for traffic since that date.

Argos, Nauplia, Myli-Corinth, Patras, Pyrgos, Olympia, Cavassila, Bartholomio, Cylene, Cylene Baths, for an annuity for the unexpired portion of the concession equal to the average net receipts of the preceding seven years, less the two worst years, such annuity not being less than the net receipts of the preceding year, and being secured on the net receipts of the line; the line Myli-Calamata for an annuity for the unexpired portion of the concession equal to one-quarter of the average of the gross receipts of the line for the preceding seven years, less the two worst years, after deduction from this average of the fixed sum of 4,000 drachmas per kilometre, such annuity, however, never to exceed the sum of 4,000 drachmas per kilometre; the line Pyrgos-Kyparissia-Meligala for an annuity for the unexpired term of the concession, equal to one-quarter of the gross receipts of the line for the year of purchase, after deduction from such gross receipts of the amount allowed to the company on that year for the working of the line (the amount allowed to the company varies according to the gross receipts per kilometre of each year), such annuity, however, never to exceed 4,200 drachmas per kilometre; and the line Diacophto Kalavryta for an annuity for the unexpired term of the concession equal to one-quarter of the average of the gross receipts for the preceding seven years, less the two worst years, after deduction of 4,000 drachmas per kilometre, but such annuity never to exceed 1,500 drachmas per kilometre."

The line is 10¼ miles long, was opened in August, 1883, and is to be worked in perpetuity by the Great Western Company at a percentage of the gross receipts, varying with the amount of the receipts; such percentage is not, however, to exceed 70 per cent., nor to be less than the proportion which the expenses on the Great Western system bear to the gross receipts. Net revenue is below the amount required to cover interest charges, and to June 30, 1915, there was a debit balance of £21,622 (as against £21,032 at June 30, 1914), which includes £17,160 unpaid interest on the Lloyds' bonds, and £3,707 advanced by the Great Western Company on account of deficiencies, and interest thereon. Director's qualification, £200 of any class of stock. Transfer form, common; fee, 2s. 6d. per deed; fractions of £1 are not accepted. Fee for registration of probate, 2s. 6d.

Puerto Cabello and Valencia Railway Company, Limited.—*Directors:* N. G. Burch (Chairman), J. M. Macdonald, G. A. Pilditch (Managing Director and Secretary) and S. Watkinson. *Office:* Finsbury Pavement House, E.C.—The company was registered September 26, 1885, to acquire a concession from the Venezuelan government. The concession is for 99 years, dating from the completion of the line, and the government gave a guarantee during that period of 7 per cent. per annum on a capital of £820,000, but in 1891 the shareholders agreed to a reduction in the guarantee to 5 per cent. as from January 1, 1891. The line is the property of the company in perpetuity, and there is no option of government purchase. The government guarantee fell largely into arrear, and it was therefore decided in 1898 only to pay debenture interest to the extent permitted by

the earnings. To the end of 1902 the company's claim against the Venezuelan government was £261,440, exclusive of interest, while the Anglo-Venezuelan Mixed Commission awarded £231,794, of which nearly one-half was received during 1904, £43,776 in 1905, £48,355 in 1906, and the remainder in 1907; on the basis laid down by the commission the company's claims on the government in respect of guarantee for the twelve years to 1914 are, together, £328,645, in respect of which, and other matters, negotiations are proceeding with the government. The payments made by the Venezuelan government during 1904 enabled the company in July, 1904, and January, 1905, to pay up all arrears of debenture interest; the extent of the government arrears, however, prevented the payment of any share dividend for the twenty-one years to 1914, but a special payment of £1 per share was made in May, 1911, referred to below.

In 1905 a reconstruction of the debenture debt was carried out. The company issued at par in July, 1887, £340,000 of 7 per cent. debentures, and in 1905 these were converted into equal amounts of first charge 5 per cent. bonds and 5 per cent. debenture stock, while a certificate for £15 (equal to 2 per cent. per annum for seven and a half years) was given in respect of each old debenture, to represent the difference between the interest on the old debentures and that on the new securities for a period of seven and a half years from January 1, 1905, to July 1, 1912, on which latter date the company was to redeem the old debentures; these certificates were redeemed out of the money received after December 14, 1904, under the award given by the Anglo-Venezuelan Mixed Commission. In the reconstruction of the debenture debt it was provided that should the company at any time agree with the Venezuelan government for a commutation, by the payment of a lump sum, of the then future payments of the guarantee, or any part thereof, the money received in commutation is to be applied—as to one-third to the purchase and extinction of first charge bonds, or debenture stock; as to one-third to the general purposes of the company; and as to one-third to the shareholders. The capital is now as under :—

£460,000 Shares of £10, fully paid. The Venezuelan government formerly held 16,000 shares; these subsequently came into the possession of the Barquisemeto Railway Company, which was afterwards absorbed by another company, and nearly all the shares were sold. When the Venezuelan Mixed Commission adjudicated upon the Puerto Cabello Company's claim, the Venezuelan government claimed certain payments on these shares, and received £1 11s. 11d. per share on the 16,000 shares, and the Puerto Cabello Company contends that until the remaining 30,000 shares shall have also received £1 11s. 11d. each (£1 was paid in May, 1911) the 16,000 shares formerly held by the government are not entitled to anything.

£190,000 First charge 5 per cent. coupon bonds to bearer of £50 and £100 each, with coupons payable January 1 and July 1, and the principal repayable January 1, 1955, with power to the company to redeem them at par at any time on twelve months' notice. The above amount is the total authorised. Interest has been paid to date.

£170,000 5 per cent. debenture stock, constituting a second charge upon the same property as the above-mentioned first-charge bonds. Interest on the debenture stock is only to be paid out of net earnings and government guarantee, other than the amount awarded by the commission. After payment of interest on the debenture stock any surplus money available is to be applied in making up any deficiency of interest on the stock in respect of previous years, before payment of any dividend on the share capital. The principal is to be repaid January 1, 1955, the company having power to redeem the stock at par at any time on twelve months' notice. The amount is limited to £170,000. Interest has only been paid to the extent detailed below.

The accounts are made up annually to December 31, and submitted about May. The line is 34 miles in length, and was opened for traffic at the beginning of April, 1888. Since 1905 interest on the first charge bonds has been regularly met, although it was not until 1910 that it was fully provided out of revenue, but the only payments on the debenture stock have been 1 per cent. for 1905, 8s. 4d. per cent. for 1910, 16s. per cent. for 1911, 4¾ per cent. for 1912, the full rate of 5 per cent. for 1913, and 3¼ per cent. for 1914. From 1893 to 1914, owing to the large amount due by the government in respect of its guarantee, there was no share dividend, and at December 31, 1914, there was a debit to net revenue account of £11,926, the same as at the close of 1913. The amount unappropriated of the award of the Anglo-Venezuelan Mixed Commission at December 31, 1911, was £36,378, after deducting a dividend of £1 per share paid under a special resolution in May, 1911, on the shares other than those formerly held by the government, for the period expiring December 31, 1895, and against this award was also set the above deficiency of £11,926, leaving the amount of the unappropriated award at £24,452. The net revenue from the working of the line in 1909 was £3,851; in 1910, £7,299; in 1911, £9,176; in 1912, £15,956; in 1913, £18,629; and in 1914, £13,386, besides £951 received from interest and transfer fees. Reserve fund, £3,442; renewal fund, £6,926. The gross earnings in 1915 up to September 30 (as cabled) amounted to £32,216, as against £32,522 in the same period of 1914. Voting power, one vote for every 5 shares held for one month. Director's qualification, 50 shares. Transfer form, common; fee, 2s. 6d. per deed. Debenture stock is transferable in amounts of £1 and multiples. Telegraphic address, Epulation, London. Telephone number, 2382 London Wall. The company is quoted in the official list. Latest prices—shares, 2⅛; bonds, 63⅜.

Qu'Appelle, Long Lake and Saskatchewan Railroad and Steamboat Company.—*London Office:* Bond Court House, Walbrook, E.C. *London Secretary:* H. W. Harding. *Head Office:* Toronto, Canada.—The company was incorporated in 1883, by an act of the parliament of the Dominion of Canada, to construct a railway about 254 miles in length, and the line was completed in 1890. As the road was completed, the company became entitled to an annual subsidy from the Dominion government, for the transport of government traffic, of $80,000 for twenty years. The company was entitled to a land grant of about 1,400,000 acres, which, however, was sold to partly provide for interest on the old bonds up to February, 1896. In July, 1889, the then firm of Messrs. Morton, Rose and Co. made an issue of £500,000 6 per cent. first mortgage bonds of £100 each, of this Canadian company, at par, and subsequently £282,700 was sold privately, making the total outstanding £782,700, but these have

now all been converted, as mentioned below, or paid off. In July, 1906, an offer was made on behalf of the Canadian Northern Railway Company, and this was accepted by the bondholders, and has been carried into effect. Under this offer the Qu'Appelle Company gave in exchange for every £100 bond £107 in new 4 per cent. debenture stock, both principal and interest being guaranteed by the Canadian Northern Railway Company, while the scrip certificates, issued in respect of unpaid interest on the bonds, received 30 per cent. of their face value in new debenture stock. The stock is not to exceed £1,050,000, and has a mortgage on the railroad, converted bonds of the old issue being kept alive as collateral. The amount of debenture stock issued is £1,037,972, with interest payable June 30 and December 31, and the principal falls due July 1, 1936. Debenture stock is transferable at the London office as above; transfer form, common; fee, 2s. 6d.; stock being transferable in sums of £1 and multiples. The debenture stock is quoted in the official list to the extent of £922,309; latest price, 60.

Quebec and Lake St. John Railway Company.—*Head Office:* Toronto, Canada. *London Office:* Bond Court House, Walbrook, E.C.—This company was first known here by the issue in February, 1899, of £780,000 of first mortgage 5 per cent. bonds. Default took place in the payment of interest in 1899, and in the following year an act was obtained from the provincial legislature of Quebec by which the company was reorganised. In 1906 the control of the company was obtained by the purchase of the common shares by interests allied with the Canadian Northern Railway Company, and late in 1910 a conversion scheme was brought forward, was accepted by the security holders, and has been carried into effect. Under this scheme £895,688 of 4 per cent. perpetual debenture stock has been issued in exchange for three old classes of bonds, this stock being guaranteed both as to principal and interest by the Canadian Northern Railway Company; interest is payable January 1 and July 1, by warrant sent by post. The company has power to increase the amount of the debenture stock up to £1,500,000, subject to the consent of the trustees. The line is 241 miles in length. The share capital is $4,524,000, all issued and fully paid, and nearly the whole is owned by the Canadian Northern Railway Company. Debenture stock is transferable on common forms in multiples of £1; fee, 2s. 6d. Registers of the stock are kept in London and Toronto, and stock may be transferred from one register to the other on payment of a fee of 2s. 6d. either way. Debenture stock for £755,837 is quoted in the official list; latest price, 68.

At the sale in 1896 of the assets of the Philadelphia and Reading Railroad Company, under proceedings in foreclosure of its general mortgage, the Reading Company was the purchaser of all the rolling and floating equipment formerly owned by the Railroad Company, together with considerable real estate, which had not been used for railroad purposes, and certain stocks, bonds, and other securities, owned by the Railroad Company. A new railroad company was formed, called the Philadelphia and Reading Railway Company, which purchased the railroad and franchises formerly owned by the Philadelphia and Reading Railroad Company, and the $20,000,000 of stock, as well as a purchase-money mortgage bond for $20,000,000 of the new railway company, were acquired by the Reading Company, which also acquired the capital stock

of the Philadelphia and Reading Coal and Iron Company. The Philadelphia and Reading Railway Company began operations on November 30, 1896, and leases from the Reading Company all the railroad rolling stock and floating equipment used upon its lines. The Reading Company controls railroad corporations having a total of 2,215 miles of road. Elsewhere will be found information regarding the Philadelphia and Reading Railway Company, and the Philadelphia and Reading Coal and Iron Company.

The accounts are made up annually to June 30. Dividends are paid upon the first preferred shares quarterly on the second Thursday of March, June, September and December; on the second preferred on the second Thursday of January, April, July and October; and on the common shares on the second Thursday of February, May, August and November. The dividends on the common shares in the four years to 1909 were at the rate of 4 per cent. per annum; in 1910, 1911 and 1912, 6; and in 1913, 1914 and 1915, 8. After meeting dividends the surplus of the Reading Company for the year ended June 30, 1915, was $143,722, increasing the total credit to profit and loss to $27,402,926.

Latest price, 41¼.

$98,537,000 General mortgage 4 per cent. gold bonds of $1,000 each, issued under the joint mortgage of the Reading Company and the Philadelphia and Reading Coal and Iron Company. Drexel and Co., Philadelphia. A sinking fund is provided out of the revenues of the company, based upon 5 cents per ton of all anthracite coal mined in each calendar year from land owned or controlled by the Philadelphia and Reading Coal and Iron Company; to June 30, 1914, bonds for $6,926,000 had been cancelled through the sinking fund, leaving the amount outstanding as above. The total authorised of the bonds is $135,000,000, which includes provision for certain prior mortgage bonds of the old Philadelphia and Reading Railroad Company. Rhodesia-Katanga Junction Railway and Mineral Company, Limited.—*Directors:* T. White (Chairman), J. H. Birchenough, C.M.G., G. Pauling, C. F. Rowsell, M. White and R. Williams (Managing Director). *Secretary:* L. Scotland. *Office:* Friars House, New Broad Street, E.C.—The company was registered January 25, 1909, to construct, and work in perpetuity, a railway about 132 miles in length from Broken Hill, North-Western Rhodesia, to a point on the Congo frontier, together with branch lines to Kansanshi, and to acquire the right to select two farms of 6,000 acres each in North-Western Rhodesia, &c. Further, the company has acquired all the Rhodesian assets of the Tanganyika Concessions, Limited, including the Kansanshi copper mines, and all the coal areas belonging to the Tanganyika company. The British South Africa Company has the right to expropriate the railway on November 4, 1918, or at the end of every subsequent period of five years, on six months' notice, the consideration to be the actual cash cost price of the railway and equipment, plus a sum equal to 10 per cent. of the total of such cost price. The railway was worked by the Mashonaland Railway Company, Limited, for the actual expenditure incurred, but in October, 1913, the Mashonaland Railway Company, Limited, and the Rhodesia Railways, Limited, acquired the lease for a term of 25 years of the Rhodesia-Katanga Railway, the rental to be £44,000 per annum, while any net earnings over and above the fixed annual rental are to be divided equally between the lessor company and the lessees.

The authorised capital is £1,510,000, £1,500,000 being in ordinary shares of £1, and £10,000 in B shares of 1s., the latter ranking, as regards both dividend and capital, equally with the ordinary shares, and as if they were of the same nominal amount. Of the ordinary shares £593,757, and of the B shares £9,382 10s., have been allotted and paid up. There are also 5½ per cent. debentures to bearer, of £20 and £100 each, for £800,000 (being the total authorised), of which £428,000 was issued at par in February, 1909; £300,200 was issued to the contractors at various times at par, in consideration for work done, and the balance of £71,800 was issued at par in December, 1911; interest on the debentures is payable June 30 and December 31, and the principal is repayable at par January 1, 1959, but the company retains the option of redeeming the debentures at the same price, at any time (now), in whole or in part (if in part, by drawings), on three months' notice, or to purchase the debentures in the market or otherwise at not exceeding par, while in the event of a winding up they

are to be repaid at a premium of 5 per cent. The debentures are secured by a first mortgage on the railway and rights, and interest has been guaranteed for a period of twenty years from June 30, 1909, by the Tanganyika Concessions, Limited, sums so advanced to rank as a second charge on the undertaking, and holders had the right prior to January 1, 1914, of converting their debentures into ordinary shares at par. In January, 1912, the whole of the above debentures for £800,000 were offered for sale through Messrs. Emile Erlanger and Co., at par. There are also advances for £35,324.

The accounts are now made up annually to September 30, and those to September 30, 1914, were submitted in the following August. The railway was opened on December 11, 1910. The mineral area has been pegged out, and the coal areas (on which coal seams have been discovered) are being developed; the production of ore from the Kansanshi mines was suspended in August, 1914, owing to the European war and the difficulties of transport, and has not yet (November, 1915) been resumed. The farms have been selected. Debenture interest is paid to date, but there has been no dividend on the shares. At September 30, 1914, there was a debit to profit and loss of £81,191, this being after taking into consideration sales of copper from the Kansanshi mines, and £49,505, the amount credited under lease for the working of the railway for the year 1913-14. As from October, 1913, the line has been leased to the Mashonaland Railway Company, Limited, and the Rhodesia Railways, Limited, on the terms mentioned above. Voting power, one vote for every share. Director's qualification, 250 shares of either class. Transfer form for shares, common; fee, 2s. 6d. per deed. Telegraphic address, Rhokata, London. Telephone numbers, 8857 and 8858 Central. The debentures are quoted in the official list; latest price, 84.

Rhodesia Railways, Limited.—*Directors:* Lt.-Col. the Hon. F. Baring, C.V.O., O. Beit, H. Birchenough, C.M.G., H. Wilson Fox, Hon. Sir L. Michell, C.V.O., and R. Maguire. *Secretary:* R. J. Hackshaw. *Registrar:* R. C. Bolton. *Office:* 2, London Wall Buildings, E.C.—The company was registered May 24, 1893, as the Bechuanaland Railway Company, Limited (the name being changed as above in 1899), to, in the first instance, construct a railway from Vryburg, in the Crown colony of British Bechuanaland, to Mafeking, in the same colony. The 96 miles to Mafeking were opened for traffic on October 3, 1894, and in November, 1897, the line had reached Bulawayo, a total distance of 588 miles. In 1901 an extension was commenced from Bulawayo to Kalomo, in North-Western Rhodesia, the present terminus of this company's system, and this was completed on May 29, 1905, while the line connecting Salisbury with Bulawayo was completed on October 6, 1902, and with branches there are now in operation 1,397 miles. The capital is as under:—

£8,000 Shares of £1, all paid up, this being the authorised amount.

£2,000,000 Five per cent. debentures of £10, £50 and £100 each, issued in respect of the line from Vryburg to Bulawayo, on which they are a first charge, as well as on the land grant of about 8,000 square miles in respect of this line. Interest is payable May 1 and November 1, and the principal is repayable, in whole or in part, at 105 per cent. at any time on the company giving six months' notice, any partial redemption to be by drawings. The British South Africa Company guaranteed interest to November 1, 1915; amount outstanding, £1,931,800. The debentures are to bearer, but may be registered as to principal only on payment of a fee of 10s. per cent., and registered debentures may be again made payable to bearer on payment of 10s. per cent. Registered debentures, however, are not a good delivery on the Stock Exchange.

£3 997,130 First mortgage 4 per cent. debentures to bearer of £5, £10, £25, £50 and £100 (part of £4,250,000 authorised). Of this amount £3,125,000 was offered in May, 1899, at par, and the greater part was subscribed, while the balance has since been placed, and the total issued is now as above. Interest is payable May 1 and November 1, and the debentures are redeemable at par May 1, 1949, while the company has reserved the right to redeem them at any time, on six months' notice, at 107 per cent. These debentures, and the following issue, are secured by—a first mortgage on the line from Bulawayo onwards, and on land grants to the extent of about 800 square miles along the railway given in aid of the extension; a second mortgage on the line from Vryburg to Bulawayo, and its attached land grants; and also by a guarantee as to principal, premium and interest by the British South Africa Company. The debentures may be registered as to principal only on payment of a fee of 2s. 6d. per bond, and registered debentures may be again made payable to bearer on payment of a like fee. Registered debentures, however, are not a good delivery on the Stock Exchange.

£252,870 First mortgage 3 per cent. debentures (part of the above-mentioned £4,250,000). These debentures were issued to mining and development companies in respect of the extension of the line from Bulawayo towards Lake Tanganyika, and are similar in all respects, except the rate of interest, to the first mortgage 4 per cent. debentures.

In 1910 this company entered into an agreement with the British South Africa Company, the Rhodesia Railways Trust, Limited, and the Mashonaland Railway Company, Limited, whereby the British South Africa Company obtained the right for ten years to transfer, in whole or in part, to the Rhodesia Railways Trust, Limited, the debt due to it from the Rhodesia Railways, Limited, and in exchange to take shares at par in the Rhodesia Railways Trust, in satisfaction of the debt. Under this agreement the British South Africa Company transferred to the Rhodesia Railways Trust, Limited, the debt of £570,024 due to it from this company in February, 1911; this amount had by September 30, 1913, been liquidated.

In October, 1913, this company, in conjunction with the Mashonaland Railway Company, Limited, acquired the lease, for a term of 25 years, of the line from Broken Hill to the Congo border, owned by the Rhodesia-Katanga Junction Railway and Mineral Company, Limited, the rental to be £44,000 per annum, while any net earnings over and above the fixed annual rental are to be divided between the lessor company and the lessees.

The accounts are made up annually to September 30, and submitted in May. No dividend has yet been paid. In the half-year to March, 1906, there was a net profit on working, exclusive of depreciation

Rohilkund and Kumaon Railway Company, Limited.—*Directors:* A. Izat, C.I.E. (Chairman), Sir H. Burt, K.C.I.E. (Government Director), Col. Sir W. Bisset, K.C.I.E., L. L. Cohen, G. B. Allen and Col. T. Gracey, C.S.I. *Secretary:* E. A. Neville. *Office:* 237, Gresham House, E.C.—The company was registered October 6, 1882, with the primary object of carrying out a contract with the Secretary of State for India for the construction and working of a single-track railway (54 miles in length) to connect the province of Kumaon with the railway system of India. The government is to pay 10,000 rupees annually for conveyance of mails during the existence of the contract, and as from the end of 1897 takes half the revenue over 6 per cent. The contract of the company with the government is for 99 years. Early in 1904 the company obtained power to construct extensions of a total length of 139 miles, and the then power of the government to purchase the line, if desired, in 1912 was waived, but the price payable by the Secretary of State for the original line, in the event of his subsequently purchasing it, is to be a sum "equal to 25 times the excess of the average annual yearly amount of the earnings during the five years immediately preceding December 31, 1912, over the aggregate sum to which the working expenses of the company and share of surplus (if any) belonging to the Secretary of State in Council of India . . . amount yearly during the same five years" (the terms in which the Secretary of State may, if he so elect, purchase the original undertaking in 1932 are being fixed upon the basis of 1912 under the option given by the agreement of 1904). The purchase price of the new lines, if taken over in 1932, is to be 25 times the average annual net earnings during the five years preceding the purchase in 1932, provided that the minimum payment shall be a sum equal to the capital expended, and the maximum a sum equal to the capital

expended, plus 20 per cent. Under the 1904 agreement a branch of 9 miles was made over to the company at cost price, and early in 1909 the company obtained powers to construct extensions of 57 miles (both with the same option of purchase, and on the same terms, as the extensions authorised in 1904). The company's line now in operation is 257 miles in length; by agreement entered into in 1890, and modified in 1901 and 1909, the company has constructed for the government 169 miles of line, which it works, besides another 143 miles of state lines, making a total operated of 569 miles; in the event of the purchase of the undertaking by the Secretary of State on December 31, 1932, the company is to receive, in regard to the above 169 miles, the sum expended. Net profits on the working of the state lines covered by the agreement of 1890 are divisible in certain proportions between the Secretary of State for India and the company. Debentures raised for the 169 miles referred to are guaranteed by the Secretary of State. The company has acquired all the debentures of the Powayan Steam Tramway Company, and issued therefor £46,085 3½ per cent. debenture stock. The capital is now as under:—

£400,000 Ordinary stock.

The above amount of £75,000 is the portion renewed of a loan of £107,000, which fell due July 1, 1915, renewal being effected at ¼ per cent. discount and ¼ per cent. commission.

£800,000 Four per cent. debenture stock, of which £600,000 was issued publicly in April, 1909, at par, and £200,000 privately early in 1912, with interest payable February 1 and August 1, and the principal repayable, at the option of the company, on or after December 31, 1932, in whole or in part, at par, on twelve months' notice. The stock was authorised under the 1909 agreement, to provide funds for the construction of extensions to, and the development of, the company's own lines, and also for the development of certain state lines. The stock ranks after the undermentioned 3½ per cent. debenture stock, and is secured on the net earnings of the company's lines and the state lines worked.

£46,085 Three-and-a-half per cent. debenture stock, issued in 1914 in full payment for all the debentures of the Powayan Steam Tramway Company acquired. The amount of this stock authorised in 1906 was £175,000, but only the above amount is to be issued. Interest is payable January 15 and July 15, and the principal is repayable at par on or after December 31, 1932, on six months' notice.

Royal Portuguese Railway Company.—*Office:* 28, Rue de Châteaudun, Paris.—The shares and bonds (all to bearer) are held here to a considerable extent. The accounts are made up annually to December 31, and submitted in June. Interest on some of the obligations fell into arrear on July 1, 1891, and a scheme of settlement was promulgated by the Portuguese commercial tribunal at Lisbon in January, 1894, but was not approved by the bondholders, and the Portuguese government then submitted a modified proposal, which was confirmed by all parties concerned, and the new securities were issued in 1897. Under this plan the shares were not touched; the old bonds received, for every three bonds, one first preference bond with fixed interest at the old rate, and two second preference bonds taking variable interest but not exceeding the old rates respectively; and the claims of the government, the floating debt, the claims of the Spanish railways, and the superannuation fund received payment in first preference bonds taken at 315 francs each. The company is managed by a council of 21 members, of whom 11 are nominated by the bondholders, 5 by the shareholders, and 5 by the Portuguese government. The first and only dividend on the shares since 1890 was 2 per cent. for 1910, paid in October, 1911. The net yield from working in 1908 was about 18,094,000 francs; in 1909, 18,962,000 francs; in 1910, 19,070,618 francs; in 1911, 16,818,103 francs; in 1912, 17,180,000 francs; in 1913, 16,080,000 francs; and in 1914, 13,967,000 francs. Payments are made in London as well as on the continent—in London by Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., at the exchange of the day on Paris, but Messrs. Glyn do not pay the excess interest on the Beira Baixa obligations, which is met only in Germany (by the Bank für Handel und Industrie). The capital is as under :—

35,000,000 Francs shares of 500 francs. By drawings, &c., the amount outstanding has been reduced to 32,957,500 francs.

Coupons are payable January 1 and July 1, and the bonds are redeemable by purchases or drawings at par in not more than 75 years, dating from 1898. The fixed rates of interest are paid, and the 46,322,500 francs of Beira Baixa obligations received in respect of 1905 an excess payment of ½ per cent.; for 1906 and 1907, 1 per cent. each year; for 1908, ½ per cent.; for 1909, 1 per cent.; for 1910, the full 1½ per cent.; for 1911 and 1912, 1 per cent.; for 1913, 0·40 per cent.; and for 1194, nil.—these payments being made in the July following. Redemption is being regularly effected by purchase in the open market, by which means the amount has been reduced as given above.

Fraser and Sons, 31, Copthall Avenue, E.C.—Under a convention signed in 1877 the company's concession from the Italian government is for 99 years from that date. During that period the government is to pay the company an annuity of 14,800 lire per kilometre, and guarantees minimum gross receipts of 7,000 lire per kilometre per annum. Speyer Brothers, 7, Lothbury, E.C., offered for sale £1,000,000 of first mortgage 4½ per cent. gold bonds of this company, at the price of 94 per cent. The bonds are of £100 and £200 each, but are (now) exchangeable, at the holder's option, in New York for $500 and $1,000 bonds, at the fixed exchange of $4.85 per £, upon payment to the company of $15 per £100, or $30 per £200 bond, with adjustment of interest; the total authorised is $30,000,000, of which in all $10,420,000 has been issued, and a further $10,000,000 can be issued at par for new mileage, at actual cost, such new mileage to be included in the lien, and $7,600,000 at par for actual cost of additions and betterments to properties, on which the mortgage securing the issue is a first lien. Interest is payable February 1 and August 1, and the bonds are repayable at the company's option, as to the whole issue, but not any part thereof, on any interest date, at 105 per cent., on sixty days' notice, while in any case redemption is to take place February 1, 1941. Both principal and interest are unconditionally guaranteed by the Chicago, Rock Island and Pacific Railway Company, and engagements have been regularly met. All payments on the sterling bonds are made by the issuing firm, and on the dollar bonds in New York, free from all United States taxes. The bonds are to bearer, but may be registered (in New York) as to principal only, or may be exchanged for bonds registered as to both principal and interest, and registered bonds can be reconverted to bearer; no charge is made for converting bearer bonds into registered as to principal only, or vice versa, but a charge of $1 is made for each $1,000 bearer coupon bond restored and exchanged for fully registered bond. The bonds are secured by a first mortgage on about 67⅞ miles of road, on leasehold or trackage rights over an additional 11 miles, and by a first lien upon all the bonds, and upon at least 95 per cent. of the stock, of the St. Paul and Des Moines Railroad Company, owning 126 miles of road. The entire capital stock, other than directors' shares, of the St. Paul and Kansas City Short Line Railroad Company is owned by the Chicago, Rock Island and Pacific Railway Company. The bonds for £1,000,000 are quoted in the official list; latest price, 66¼.

Salvador Railway Company, Limited.—*Directors:* M. J. Kelly (Chairman and Managing Director), P. R. Chalmers, E. Lembcke, R. H. McCarthy, C.M.G., and G.T. Symons. *Secretary:* F. C. Tillbrook. *Office:* 7-8, Idol Lane, E.C.—The company was registered August 7, 1895, to take over a concession granted by the republic of Salvador, but it was not until October, 1899, that capital was issued. The concession is for eighty years from April, 1894, at the expiration of which term the railway and all its accessories are to become the property of the state, while the government has reserved the right, at the expiration of the first fifty years, to purchase the railway at a price to be agreed upon or fixed by valuation. The company is protected from competition, and has preferential rights (except as against the government) for constructing future extensions. The government has granted a subsidy until December 31, 1916, of £24,000 per annum, and any excess of net earnings beyond £80,000 per annum is to belong, as to one-third to the government, and two-thirds to the company, up to £96,000, after which the excess of net earnings is to be divisible equally between the company and the government. The subsidy is specially secured upon 15 per cent. of all the maritime import duties. The capital issues are as under:—

£250,000 Six per cent. non-cumulative preference shares of £10, without priority as to capital, fully paid. This is the total authorised.

£250,000 Ordinary shares of £10, fully paid, being the total authorised. These and the foregoing preference shares were issued fully paid in part consideration of the concession, railways, &c.

£250,000 Five per cent. prior lien debentures to bearer, of £100 each (being the total authorised), of which £163,000 was issued in October, 1899, at 95 per cent., and £87,000 in June, 1903, at 88½ per cent., on both occasions through Chalmers, Guthrie and Co., Limited, 9, Idol Lane, E.C. Interest is payable March 1 and September 1, and a cumulative sinking fund of 1 per cent. per annum has been established to redeem the debentures by purchases or drawings, at not exceeding par, the first redemption having taken place in 1900, while they are secured by a trust deed on the concession and railways taken over, but not on any future acquired like property; amount outstanding, £198,700.

Interest on these debentures has been paid to date. See below for proposed scheme of arrangement.

£660,000 Five per cent. mortgage debentures to bearer, of £100 each (being the total authorised), of which £240,700 was allocated to the conversion of the Salvador government 6 per cent. bonds of 1889, and £419,300 was issued in October, 1899, through Chalmers, Guthrie and Co., Limited, 9, Idol Lane, E.C., at 87 per cent. Interest is payable February 15 and August 15, and the debentures are charged in like manner to the prior lien debentures, but are subject thereto, while the trust deed provides for their repayment by means of a cumulative sinking fund of 1 per cent. per annum from August 15, 1906, to be applied by purchase or drawings, at not exceeding 103 per cent.; amount outstanding, £566,600.

Interest on these debentures due August 15, 1915, has not been paid. See below for proposed scheme of arrangement.

£110,000 Five-and-a-half per cent. terminal bonds of £100 each, of which £35,200 was issued in conversion of then existing 5 per cent. terminable notes, and £74,800 was issued in November, 1911, through Lloyds Bank, Limited, 72, Lombard Street, E.C., at 90 per cent. Interest is payable March 15 and September 15, and the principal was repayable at par by December 31, 1921, by annual drawings, or by purchases in the market if below par, the company to redeem annually by these means, commencing in December, 1912, one-tenth of the whole issue, while the company reserved the right to redeem the outstanding bonds at any time at 103 per cent. on three months' notice, which is also to be the price of redemption, should voluntary liquidation be decided on, for the purpose of reconstruction or amalgamation. In 1915, however, the terms of repayment were slightly modified in view of the fact that the company, in order to replace one vessel lost, entered into a contract for another one costing more than the original vessel, and the bondholders then agreed that for 1915, 1916 and 1917 the amount of bonds to be redeemed should be reduced from £11,000 to £5,500 per annum, and the date for final repayment of the loan was extended to June 30, 1923. The proceeds of the bonds were applied to the redemption of such of the terminable notes as were not exchanged for bonds of this issue, to the redemption of the mortgage, securing advances for the construction of a steamship, and the payment of the balance of the construction price of another of the company's vessels. The bonds are secured by a first mortgage to trustees of three steamships, and on the whole of the share capital of the lighterage and warehouse undertaking, operated by the company at its terminal port of Acajulta. Amount outstanding, £77,000. The bonds are to bearer, but may be registered, and registered bonds can be re-exchanged into bonds to bearer, the charge for either operation being 6d. per bond, with a minimum of 2s. 6d.

Interest on these bonds has been paid to date. See below for proposed scheme of arrangement.

The accounts are made up annually to June 30, and submitted in November or December. The line is about 100 miles in length, all in operation. The government subsidy is being met, and for 1899-1900 net income from all sources was £2,098 short of debenture interest; in 1900-1 the debit was increased to £10,963, in 1901-2 to £16,868, and in 1902-3 to £17,761, but in 1903-4 this was reduced to £6,413. In 1904-5 the debit balance was extinguished, and a dividend of 3 per cent. was paid on the preference shares; for 1905-6 the full rate of 6 per cent. was paid on the preference, but nothing on the ordinary;

for 1906-7 the ordinary got 3 per cent.; for 1907-8, 1 per cent.; for 1908-9 only 2 per cent. was paid on the preference shares; for 1909-10, 3; for 1910-11, 4; for 1911-12 and 1912-13 the ordinary shares received 2 per cent. each time; and for 1913-14 there was no distribution on either class of shares, owing to the adverse conditions still prevailing in Mexico, the abnormally high rate of exchange ruling in Salvador, and generally the unprecedented position brought about by the European war. General reserve fund, £10,000; renewals of plant reserve, £5,000; exchange reserve, £5,000; carried forward, £4,555, as against £4,668 brought down. From July 1, 1914, to June 28, 1915, the approximate gross receipts were $1,300,000, compared with $1,417,710 in the corresponding period, and from July 1 to November 6, 1915, the approximate gross receipts were $343,100, as against $307,156 in the same period of 1914. A scheme of arrangement is (November 15, 1915) under consideration. It is proposed to ask the holders of prior lien debentures and mortgage debentures for relief from redemption for three years, and the holders of the terminal bonds to agree to the redemption fund being reduced by one-half. As regards interest the only issue which it is proposed to touch is the mortgage debenture loan for £660,000, holders of which are to be asked to accept for three years 5 per cent. deferred interest warrants for any amount that the income available will not permit to be paid in cash.

Voting power, three votes for every preference share, and two votes for every ordinary share. Director's qualification, 25 shares of either class. Transfer form, common; fee, 2s. 6d. per deed for shares, and 6d. per debenture, with a minimum of 2s. 6d. Telegraphic address, Sembrado, London. Telephone number, 4521 London Wall. The company is quoted in the official list. Latest prices—ordinary shares, 19s. 6d.; prior lien debentures, 96; mortgage debentures, 54½; terminable bonds, 97.

San Paulo and Minas Railway Company, Limited.—*Directors:* Vicomte de Santo Thyrso and C. Poirson (Paris). *Secretary:* W. S. Lane. *Office:* 24, St. Mary Axe, E.C.—The company was registered February 26, 1907, to acquire the San Simao Railway, running from Bento Quirino station on the Mogyana Railway to Serra Azul station, in the state of San Paulo, a distance of 14 miles, and extend the same to San Sebastião do Paraiso, in the state of Minas Geraes, making a total of 87½ miles. The authorised capital is £200,000 in shares of £1, all of which has been subscribed and paid up. In July, 1907, an issue of £280,000 6 per cent. first mortgage debentures of £20 was created, and £271,040 has been placed (£205,000 was offered for sale in November, 1908, at 87½ per cent., while a further £8,860 has been deposited as collateral security); interest is payable June 1 and December 1, free of British income tax, and the debentures are redeemable by 1963 by annual drawings at par, commencing in May, 1913, or by purchase in the market below par, while the whole issue is redeemable (now) on any June 1 or December 1, on six calendar months' previous notice. The amount of debentures outstanding is £278,940, including £1,020 drawn in November, 1913 (not yet paid off).

The accounts are made up annually to December 31, and submitted in November. Interest on the debentures was duly paid to December 1, 1913, but that due June 1, 1914, and since has not been paid, and Mr. C. C. Baker, of Messrs. Ball, Baker, Cornish and Co., 1, Gresham Buildings, Basinghall Street, E.C., has been appointed receiver on behalf of the debenture holders. The construction of the railway to Matto Grosso de Batataes was completed in May, 1909, and to San Sebastião do Paraiso on May 15, 1911, while the remainder of the line was formally accepted by the company from the contractors on December 1, 1911, but owing to the line not being actually transferred to the company until May 31, 1912, arrangements were made with another company whereby, in return for the net receipts of the railway from December 1, 1911, to May 31, 1912, it provided the funds necessary to meet the coupon due on the debentures on June 1, 1912. Until it was formally accepted by the company the contractors worked the line and guaranteed the interest on the debentures and all administration expenses. For the seven months to December 31, 1912, there was a credit balance, after meeting debenture interest, income tax, &c., of £2,033. Later accounts have not been issued.

Voting power, one vote for every share. Director's qualification, 250 shares, other than the first directors. Transfer form, common; fee, 2s. 6d. Telegraphic Address, Progredior, London. Telephone number, 6990 London Wall.

San Paulo (Brazilian) Railway Company, Limited.—*Directors:* Lord Balfour of Burleigh, K.T. (Chairman), O. R. H. Bury, F. N. Chapple, J. Gordon, C. E. Johnston and Lt.-Col. Sir G. Smith, K.C.M.G. *Secretary:* V. Hinde. *Offices:* 111, Gresham House, E.C.—The company was established in 1858, and re-registered on November 11, 1902. Under a concession granted to the company there was a guarantee of 7 per cent. per annum from the Brazilian government on a capital of £2,650,000, the company to retain all profits up to 8 per cent., and any excess above that to be divided between the government and the company. The company was also given security from competition, for 90 years, for 20 miles on either side of the line. Under the concession, however, power was given to the company to renounce the government guarantee on payment to the government of all sums received in former years under the guarantee, and, such payment having been made, the company exercised this option of renunciation, dating from January 1, 1890. By this renunciation the right of the government to participate in the profits of the company ceased, power, however, being retained to require a reduction in the tariff if the company's net earnings on the authorised capital shall exceed 12 per cent. per annum for two consecutive years. The line is the property of the company in perpetuity, but the government has power to purchase the line in 1927 for such an amount of stock as will secure a return equal to the average dividends of the five previous years, but not less than 7 per cent. per annum. The government had originally power to acquire the line in 1897, but in 1895, after lengthy negotiations, a fresh agreement was come to with the government, by which the existing line was doubled, and an extension over the Serra was constructed. The earliest date for the government purchase of the line is extended as above, while conditions as to monopoly were modified. The line is 153½ miles in length.

The capital was increased in 1914 by the creation of £600,000 in shares of £1, and the authorised amount is now £4,600,000, of which £4,000,000 has been issued, as well as £2,000,000 debenture stock, there being—£3,000,000 in ordinary stock; £1,000,000 in 5 per cent. non-cumulative preference stock, with a priority as to capital; £750,000 in 5½ per cent. debenture stock; £250,000 in 5 per cent. debenture stock, issued in 1893; and £1,000,000 in 4 per cent. debenture stock, half issued in February, 1899, at 103 per cent., and half in July, 1900, at 102½. If the road is sold to the government, the debenture stocks (which all rank equally) may be paid off at par at the next interest date after the expiry of six months' notice; debenture interest is paid January 1 and July 1. The construction of the line over the Serra and the doubling of the existing line were completed in 1900.

The accounts are made up to June 30 and December 31, and submitted about October and April, but the financial year now closes with December, and the balance dividend is declared in April. For each of the six years to 1906 12 per cent. was paid; for five years to 1911, 13; for 1912 and 1913, 14; and for 1914, 10 (free of income tax). For the half-year to June, 1915, 5 per cent. was distributed in October. Reserve fund, at June 30, 1915, £2,131,730; carried forward, £171,275. For the period from July 1 to November 1, 1915, the gross receipts were £662,506, as against £501,965 in the same period of 1914. Voting power, one vote for every £20 of ordinary; preference stockholders do not vote unless their dividend is in arrear. Director's qualification, £2,000 of ordinary capital. Transfer form, common; fee, 2s. 6d. per deed, a separate deed being required for each class of stock; stock may be transferred in amounts of £1 and multiples. The company has adopted the provisions of the Forged Transfers Acts, 1891 and 1892, but no fee is charged for the protection thus afforded. Telegraphic address, Taskmaster, London. Telephone number, 2344 London Wall. The company is quoted in the official list. Latest prices—ordinary stock, 171; 5 per cent. preference stock, 87½; 5½ per cent. debenture stock, 100½; 5 per cent. ditto, 90; 4 per cent. ditto, 79¾.

Schull and Skibbereen Tramway and Light Railway Company, Limited.—This undertaking has been taken over by the county council of Cork, a committee of which is now working it. *Secretary :* W. Goggin. *Office:* Railway Terminus, Skibbereen, co. Cork.—The West Carbery Tramways and Light Railways Company, Limited, was registered December 7, 1883, to construct a light railway (14¾ miles in length) authorised under the Tramways and Public Companies (Ireland) Act, 1883, and in 1892 the name was changed as above. The authorised share capital is £57,000 in shares of £1, all subscribed and paid up, and on which a minimum dividend of 5 per cent. per annum is guaranteed in perpetuity by the baronies of the East and West divisions of West Carbery. Any loss on working falls on the baronies, and sums paid under the guarantee are to be returned out of earnings in excess of dividends on the guaranteed shares. In the event of the company failing, the baronies are bound to work the line and pay the guarantee on the shares, and whether the line be open or subject, however, to the line being worked. The accounts are made up to June 30 and December 31, and usually submitted in August and February. The working of the line is carried on at a loss, there not the guarantee is to be paid. Scinde, Punjaub and Delhi Railway.—As from January 1, 1886, this railway became vested in the Secretary of State for India. The capital of the company was in consolidated stock and shares, the amount paid up being £11,075,319. Of the purchase consideration £3,912,044 was provided by the issue of India 3½ per cent. stock, and as regards the balance the holders of stock had the option of taking either A or B annuities—those who elected A receiving annuities equal to £5 1s. 3·435d. per £100 of old capital, while those taking B annuities received the same, less a deduction of 8s. 8d. per annum per £100 of capital, this sum being retained and invested as a sinking fund, which it is calculated will produce £126 9s. 9d. per £100 of stock (which works out at about £24 13s. 4d. per £1 of annuity) at the date of expiry of the annuity (December 31, 1958), that being the average price of the stock in the three years to December 31, 1884. Somerset and Dorset Railway Company.—*Directors:* A. G. Anderson, Lord Clinton, H. W. Drummond, H. T. Hodgson, G. Murray-Smith and Sir W. W. Portal, Bart. *Secretary:* A. L. Charles. *Offices:* Derby.—The company is the result of the amalgamation in 1862 of the Dorset Central and the Somerset Central, and under an act obtained in 1871 the company extended the system to Bath. The authorised capital, including loans, is £3,156,513. Of this amount there have been issued—£646,352 in ordinary stock, of which £16,460 is called A, and £95,520 B, the former ranking for 5 per cent. before the latter gets anything; £85,000 first 5 per cent. preference stock; £35,655 first 4½ per cent. preference stock; £90,880 second 5 per cent. preference stock; £360,000 extension ordinary stock; £160,000 5 per cent. debenture stock, No. 1; £474,380 debenture stock, No. 2, of which £253,378 ranks for 5 per cent. and £221,002 for 2½; £168,000 4 per cent. debenture stock, No. 3; and £230,000 5 per cent. extension debenture stock. The greater part of the capital issued as above has been exchanged for debenture stock of the Midland Railway Company, under powers conferred on the Midland by act of parliament obtained in 1889, and the whole of No. 4 debenture stock for £200,000 has been redeemed with Midland Railway debenture stock. The extension capital ranks for dividend on the rent (referred to below) payable in respect of the extension, and this gives the extension ordinary 3½ per cent. per annum. As from November 1, 1875, the company's system is leased in perpetuity to the Midland and London and South Western companies for a rent of £33,308 in respect of the old line, and £24,100 of the extension, and in addition 10 per cent. of the gross receipts above £24 per mile per week, one-third of which is applicable to increase the dividend upon the extension ordinary stock up to 5 per cent. The additional rent account is adjusted at the end of October in each year. The line is 92 miles in length.

The accounts are now made up annually to December 31, and submitted in February. No dividend has yet been paid on the preference and ordinary capital of the main line, but the interest and dividends on all the extension capital and on the main line debenture stocks are duly paid, and in respect of the year ending October, 1904, a surplus dividend of 14s. 11·39d. per cent. was paid on the extension stock; for 1904-5, 14s. 6·49d.; for 1905-6, 14s. 11·56d.; for 1906-7, 16s. 5·9d.; for 1907-8, 16s. 1·03d.; for 1908-9, 16s. 6·76d.; for 1909-10, 18s. 10·85d.; for 1910-11, £1 0s. 1·63d.; for 1911-12, 18s. 9·46d.; for 1912-13, £1 2s. 9·57d.; and for 1913-14, £1 3s. 4·84d. Avenue, E.C. (telephone numbers, 4502 and 4503 London Wall).—In November, 1911, Messrs. Speyer Brothers, 7, Lothbury, E.C., offered for sale £2,000,000 4½ per cent. first debentures of this company at the price of 86½ per cent., the debentures being also offered in Amsterdam and Switzerland, and in May, 1912, Messrs. Speyer Brothers offered for sale £982,500 of similar debentures at 90 per cent., thus completing the total authorised of £4,000,000, the remaining £1,017,500 having been issued in exchange for old 5 per cent. debentures. The debentures are of £20, £100 and £200 each, have coupons payable April 1 and October 1, and the principal will mature October 1, 1961; a cumulative sinking fund, beginning in 1916, is to be provided, sufficient to redeem the debentures at or before maturity, such fund to be applied annually to purchases at or below par and accrued interest, or to drawings at par, while the whole or any portion of the issue may be redeemed at par on any interest date, on three months' notice by the company. The debentures are secured under a trust deed upon—the lease from the State of San Paulo, of the railway as at present constructed or lines hereafter to be acquired with the debentures or their proceeds—there are 813 miles in operation and 268 miles are to be constructed; the full benefit of the contract with the Brazil Railway Company, by which the line is operated; and on certain shareholdings, &c. The lease of the railway from the state of San Paulo is for 60 years, expiring July 1, 1967, subject to the annual payment as rent to the state of (*a*) a sum equal to the amount required for the service of the debt, amounting to £3,800,000, having a first mortgage on the greater part of the railway; (*b*) interest at the rate of 6 per cent. per annum on the capital expended by the state on extensions and improvements; and (*c*) 25 per cent. of the net revenue remaining after deducting the above amounts and crediting certain sums to the company, including 6 per cent. on its capital expenditure recognised by the state. The government has the right to rescind the lease after July 1, 1937, on payment by way of indemnity of an amount in the public funds of the state sufficient to produce a revenue equal to the average net revenue of the company derived from the railway during the five most profitable years of the preceding seven years of working. Under the contract with the Brazil Railway, the latter takes the whole earnings of the line and undertakes to pay all sums due from the Sorocabana Railway Company under the lease from the state, and also the sum necessary, after taking into account the income of the Sorocabana Railway Company derived from sources other than the lease, to meet the principal, interest and sinking fund, payments of all debentures issued by the Sorocabana Railway Company with the consent of the Brazil Railway Company, and, moreover, a sum sufficient to enable the Sorocabana Railway Company to pay the full dividend of 6 per cent. per annum on its preferred shares, as well as a dividend on the ordinary capital on a rising scale with a minimum of 3 per cent. per annum. As stated above, the government of San Paulo has issued bonds for £3,800,000, secured by a first mortgage on the greater part of the Sorocabana Railway, and the £4,000,000 of 4½ per cent. first mortgage debentures have no actual charge on the railway, but only on the lease granted to the State of San Paulo, and on certain other guarantees and assets as named above. The debentures are to bearer, but may be registered as to principal, and such registered debentures may be re-exchanged into debentures to bearer, the fee for either operation being 1s. per debenture. Payments are made in London (as regards coupons by the Bank of Scotland, 30, Bishopsgate, E.C., and as regards principal by the London County and Westminster Bank, Limited, Lothbury, E.C.), Amsterdam and Switzerland.

The share capital of the Sorocabana Railway Company consists of $2,000,000 of 6 per cent. preferred shares (25 per cent. paid) and $8,000,000 of ordinary shares, fully paid, all of which, except $64,000 of ordinary, is held by the Brazil Railway Company. The accounts are made up annually to December 31, and submitted in November. In each of the four years to 1912 the ordinary shares received 3 per cent.; and in 1913, 3½. Interest on the debentures due October 1, 1914, was not met until the end of December, but interest due April 1 and October 1, 1915, was met at due dates. Debentures for £3,175,000 are quoted in the official list; latest price, 59¾.

South and North Alabama Railway Company.—*Office:* Montgomery, Alabama, U.S.—An issue of 6 per cent. sterling bonds was formerly known here, but these were repaid May 1, 1903, and the only issue known in this country is $10,000,000 (the total authorised) 5 per cent. consolidated mortgage bonds of $1,000 each. Coupons are payable February 1 and August 1, and the principal falls due August 1, 1936, all payments being made in New York in gold. The bonds are to bearer, but may be registered as to principal only. The company is controlled by the Louisville and Nashville Railroad Company, which guarantees the above-mentioned bonds, and they are quoted in the official list; latest price, 108¾.

South Austrian Railway Company.—*London Agents:* N. M. Rothschild and Sons, New Court, St. Swithin's Lane, E.C. *Head Office:* Vienna.—As from January 1, 1876, the Italian lines of this company became the property of the Italian nation, and the title of the company was reduced to the above. In addition to cash payments and debts and obligations taken over, the price included the payment by the Italian government of 29,569,887 francs per annum up to the end of 1954, and from that date to the end of 1968, 12,774,751 francs per annum. The Hungarian government pays an annuity of 600,000 francs. The capital issues known here (and quoted in the official list) are as under; at December 31, 1913, there were also 5 per cent. obligations for 109,825,500 francs, and 4 per cent. obligations for 37,534,000 marks and 96,563,000 francs:—

375,000,000 Francs ordinary shares to bearer of 500 francs. A sinking fund was formerly applied to drawings in December, for repayment at par on May 1 following, the holders receiving certificates entitling them to participate in all dividends above 5 per cent. on the undrawn shares. In 1898, however, it was decided that the company should apply the sinking fund to the purchase of shares in the market when they could be obtained at less than par, and shares so purchased are cancelled, and no excess dividend certificates issued. No purchases, however, took place in 1904, or since (to the end of 1913). The total number of shares redeemed and purchased (to the end of 1913) is 21,804, of which 16,697 are excess-dividend shares; they are, however, included in the foregoing statement of amount of ordinary capital. Dividends were paid in London at the current rate of exchange, and drawn shares were redeemed at the same rate.

£71,761,980 Three per cent. obligations of £20, or 500 francs, with coupons payable January 1 and July 1, in London, Vienna, Berlin, &c. The coupons are now, owing to certain taxation, paid here at the rate of 5s. 2⅝d. only. These obligations are known as series A, C, D, F, H, I, K, M, O, P, S, T, U, V and Z. The bonds were repayable by annual drawings, within 90 years of the respective dates of issue. The drawings were made in December, and obligations drawn were paid off in London (if so desired) at the full rate of £20. Pending negotiations between the company and the bondholders, the drawing of December, 1902, was temporarily postponed (since effected), and it was ultimately agreed that the drawings for the sixteen years 1902 to 1917, both inclusive, should be on a reduced scale; while late in 1908 it was decided to suspend drawings for the three years to 1910 (this suspension was continued to the end of 1913—no later information received), and to authorise the raising of new loans on the condition that such loans should not modify in any way the existing rights of the holders of the 3 per cent. obligations. It was also resolved that in the event of the company being at any future time unable to meet its engagements, the several groups of obligation holders should share in the required sacrifice, having regard to their respective rights. Interest was duly met to July, 1914, and the amount outstanding was reduced to £62,036,760; since the outbreak of war, however, no interest has been paid in London, and it is not known if any drawing were held in December, 1914.

£15,000,000 Three per cent. obligations of £20, or 500 francs, with coupons payable April 1 and October 1. These are known as series X, and are similar to the above in all respects excepting the dates of payment of interest, and the number of years (98) of their currency. Drawings were at first reduced, and then suspended, as for the other issues of 3 per cent. obligations. Engagements were duly met to April, 1915, and the amount outstanding was reduced to £13,642,720; since the outbreak of war, however, no interest has been paid in London, and it is not known if any drawing were held in December, 1914.

The accounts of the company are made up annually to December 31, and usually submitted to the shareholders in May, in Vienna. For the thirteen years to 1913 no dividend was paid. For 1910, after meeting all charges, there was a deficit of 2,269,335 crowns; for 1911 a deficit of 1,714,722 crowns; for 1912 a profit of 1,918,946 crowns; and for 1913 a profit of 706,442 crowns. Statutory reserve fund, 5,152,086 francs (4,906,749 crowns). The accounts for 1914 have not been received. Latest prices—obligations (January and July), 6⅜; obligations (April and October), 6⅜.

A reorganisation of the company has been under consideration, but in consequence of the European war the whole matter is in abeyance.

South Behar Railway Company, Limited.—*Directors:* Sir H. S. Cunningham, K.C.I.E. (Chairman), A. H. Campbell and F. M. Halliday. *Secretary:* Lt.-Col. H. Bonham-Carter. *Office:* 91, York Street, S.W.—The company was registered July 4, 1895, to acquire the right to construct, under a contract with the Secretary of State for India, a line of railway in Bengal between Lakhisarai and Gya, a distance of about 79 miles. Under the contract with the Secretary of State for India the payment by the company out of capital of 4 per cent. per annum interest was sanctioned during the construction of the line; such lands as are necessary for the railway, stations, &c., are given free; and the Secretary of State reserves the right of taking over the line on June 30, 1919, or on the expiration of every subsequent period of ten years, on giving the company twelve months' notice, on payment of the capital expended on the line. It was further agreed, as between the company and the government, that the line should be worked in perpetuity by the East Indian Railway Company for 35 per cent. of the gross receipts for the first two years, and 45 per cent. thereafter, with a rebate of a sum not exceeding 30 per cent. of the gross earnings from traffic interchanged towards giving a return of 4 per cent. on the capital expenditure. As from January 1, 1906, however, an entirely fresh arrangement has been in force, under which the line is leased to the Secretary of State for India in Council for the remainder of the contract—that is, up to June 30, 1919, when he will take over the undertaking, paying to the company therefor £684,580—for £30,000 per annum, payable in half-yearly instalments on June 30 and December 31. This payment will enable the company to distribute 5 per cent. per annum on the ordinary stock until the end of the contract.

The authorised capital is £400,000, of which £379,580 has been issued and paid up, and converted into stock. Power was taken to create debenture capital for £290,000, and this has been fully exercised in stock, carrying 3½ per cent. interest, payable January 1 and July 1, and irredeemable before 1919. Of the ordinary stock £350,000 was issued in July, 1895, through Messrs. A. Ruffer and Sons, 39, Lombard Street, E.C., in £10 shares at par, and £250,000 of the debenture stock was issued through the same firm in March, 1896, at 106 per cent.

The accounts are made up to June 30 and December 31, but the company's financial year now ends at December 31, and only one meeting is held—about January. The line was completed by July 8, 1899. In respect of the years to June 30, 1900, and 1901, 4 per cent. per annum was paid; for 1901-2, 3½; for 1902-3, 3⅝ per cent.; for 1903-4 and 1904-5, and the half-year to December, 1905, 4; and for both halves of the nine years to 1914, 5. Capital reserve account for premium on issue of 3½ per cent. debenture stock, £15,000; carried forward, £6,917. For the first half of 1915 2½ per cent. was paid in July. Voting power, one vote for each £10 of ordinary capital. Director's qualification, £1,000 of ordinary capital. Transfer form, common; fee, 2s. 6d.; stock is transferable in multiples of £1. Telegraphic address, Dharwar, London. Telephone number, 210 Victoria. The company is quoted in the official list. Latest prices—ordinary stock, 101½; debenture stock, 89⅜.

South Clare Railways Company, Limited.—*Directors:* W. M. Murphy (Chairman), E. Anderson, J. J. Dudley, J. W. Lombard, M. Mescal, J. Griffin, T. J. Bourke and W. C. Doherty, the last four being Baronial Directors. *Secretary:* W. J. Kennedy. *Office:* 39, Dame Street, Dublin.—The company was registered June 9, 1884. In June, 1889, the authorised capital was increased to its present amount for the purpose of constructing and working, under the Tramways and Public Companies

(Ireland) Act, 1883, a railway 26 miles in length. The authorised capital is £140,000 in shares of £10, and in respect of £120,000 of this, in the event of the net earnings of the line being insufficient to provide dividends of 4 per cent. per annum, the amount required to make up such a dividend is to be provided (in perpetuity) by the county of Clare, half such deficit being contributed to the county as a refund by the Treasury while the lines are open and carry traffic. The county is also liable for any excess of working expenses over the receipts. After repaying any sums advanced under the guarantee, all the net earnings belong to the company. The guaranteed dividends are a first charge on the net earnings. In the event of the company breaking down, the baronies are bound to maintain and work the lines, and pay the dividends on the shares. All the shares have been issued and paid up.

The accounts are now made up annually to October 31, and submitted in the September or October following. The line is worked at cost price by the West Clare Railway Company, Limited. For the half-year to October, 1908, there was a profit on working of £121; to April, 1909, a loss of £968; to October, 1909, a profit of £824; to April, 1910, a loss of £778; to October, 1910, a loss of £247; to April, 1911, a loss of £1,057; to October, 1911, a profit of £301; to April, 1912, a loss of £1,258; to October, 1912, a loss of £973; for the year to October, 1913, a loss of £502; and for 1913-14 a loss of £1,584. Dividend reserve fund, £1,517. The guaranteed dividends are paid March 25 and September 25. Voting power, one vote for each share up to 10, one vote for every additional 5 shares up to 100, and one for every 10 beyond. Director's qualification, 10 shares. Transfer form, common; fee for registration of transfer or probate, 2s. 6d. Telegraphic address, Verax, Dublin. Telephone number, 3174, Dublin.

South Eastern Railway Company.—*Directors:* H. C. O. Bonsor (Chairman), Lord Hothfield (Deputy-Chairman), Lt.-Col. the Hon. E. Baring, E. W. Mellor, W. Mewburn, Sir D. L. Salomons, Bart., A. W. Smithers and W. R. Stevens. *Secretary:* C. Sheath. *Address:* London Bridge Station, S.E.—The company was incorporated in 1836. The South Eastern and Chatham Companies own together 624 miles of line, and in addition 15 miles are partly owned. In 1898, as a result of prolonged negotiations, an arrangement was come to with the London, Chatham and Dover Railway Company for an improved, efficient, and economical working of the competitive traffic, this agreement taking effect as from January 1, 1899, and on August 1, 1899, an act was obtained to provide for the working union of the two companies; the net revenue of the South Eastern and London and Chatham Companies combined is divided in the proportions of 59 per cent. to the former and 41 to the latter. The authorised capital, including loans, is £34,389,235, and at December 31, 1914, there was a debit to capital of £445,480. The various issues are as follow:—

£10,049,240 Ordinary stock, of which £8,485,580 has been divided into equal amounts of preferred and deferred stock. A dividend is declared on the entire ordinary stock as above, and on the dividend accruing to the divided portion the preferred stock ranks first for 6 per cent. per annum, the deferred taking all after that payment. The preferred dividend is based upon the profits of the entire year, and the deferred dividend is therefore only ascertained once a year. Unless there should be arrears from the first half of the year, the preferred dividend is paid in equal half-yearly instalments, notwithstanding that the available sum for the first half may be sufficient to pay more. The option of dividing stock is confined to the first half of the year.

£984,300 Consolidated guaranteed 4½ per cent. stock, non-contingent.

£2,172,580 Consolidated 4½ per cent. preference stock, dependent on the profits of each separate year.

There are also rent-charges for about £13,400 per annum. The accounts are now made up annually to December 31, and submitted in January. The interest and dividends upon the debenture, vested companies and preference stocks, and the annuities, are paid July 14 and January 14, in respect of the periods ending June 30 and December 31, except on the convertible 4 per cent. preference stock (1903), which is paid with the ordinary dividends. South Indian Railway Company, Limited.—*Directors:* Sir H. Kimber, Bart. (Chairman), Sir H. Burt, K.C.I.E. (Government Director), A. Brereton, C.S.I., Sir D. Fox, Kt., Neville Priestley (Managing Director), Sir J. D. Rees, K.C.I.E., C.V.O., M.P., and A. J. Yorke. *Office:* 91, York Street, Westminster, S.W.—The company was registered November 21, 1890, for the purpose of working, managing, and maintaining for the Secretary of State for India the railways, 654 miles in length, previously forming the undertaking of the South Indian Railway Company (acquired by the Secretary of State for India as from December 31, 1890), and for completing and working certain extensions thereof, and the total now in operation is 1,763 miles, after deducting 264 miles transferred to the Madras and Southern Mahratta Railway Company.

Under the original contract the Secretary of State guaranteed 3 per cent. interest on £1,000,000 of share capital, and after meeting certain interest charges surplus profits were divided between the company and the government in the proportion that 14,000,000 rupees (the rate at which the company's share capital was reckoned) bears to the rest of the capital. As an outcome of prolonged negotiations between the government and the company a fresh agreement was come to, which took effect as from January 1, 1911. Under this agreement the Government capital in the undertaking as at December 31, 1910, was fixed at £13,000,000, and the company's capital at £1,000,000, making together a total of £14,000,000, "which sum shall be taken as including the value of the stores to be retained and accepted by the company, but shall not be taken as including the debentures of the company, amounting to £873,000, the interest only on which shall be at charge of the undertaking, and the Secretary of State will not as heretofore take any share of surplus profits thereon as if it were part of his capital." The Secretary of State, in the exercise of his power in deciding how capital is to be provided, is to allow the company from time to time to increase its ordinary capital to the extent required to maintain, as between that capital and the government capital, the ratio of one to thirteen. The capital expenditure from January, 1911, to March, 1915, was 250.23.430 rupees, or £1,668,229, the expenditure up to June, 1914, having provisionally been advanced by the Secretary of State, the whole outlay having, however, since been financed by the issue in July, 1914, of 4 per cent. debenture stock referred to below. Net profits in excess of debenture interest, the guaranteed interest as below on the company's capital, and interest at 3½ per cent. on the government capital, are to be divided between the government and the company in proportion to the capital of each in the undertaking. The Secretary of State guarantees 3½ per cent. interest on the company's capital. The guaranteed interest is paid half-yearly on January 1 and July 1, and the surplus profits are to be calculated and paid to the company yearly in June following the financial year in which they are earned. The Secretary of State is to have the right, on one year's notice, to determine the contract on December 31, 1945, or in any fifth year thereafter, by repayment at par of the company's capital. The company, if required by the Secretary of State to construct or acquire a line as part of the undertaking, is to be at liberty to appeal to arbitration if it expects that the line will not pay 4 per cent., in order that such compensation may be granted to it as is held to be reasonable. The company is to be further protected against loss arising from diversion of traffic owing to the construction of short circuit lines, unless such lines form an integral part of the company's undertaking.

The authorised capital is £2,000,000, of which £1,000,000 has been issued in shares of £10, and paid up, and converted into stock. There are also debentures of £1,000 and £5,000 each for £448,000, of which £73,000 bears 3½ per cent. interest, payable February 15 and August 15, and is repayable February 15, 1916, £175,000 bears 3¾ per cent. interest, payable January 3 and July 3, and is repayable July 3, 1917 (this issue bore 3½ per cent. interest and fell due July 3, 1913, but was renewed for four years at 5s. per cent. discount), and £200,000 bears 3¾ per cent. interest, payable January 3 and July 3, and is repayable January 3, 1919 (this issue bore 4 per cent. interest and fell due January 3, 1914, but was renewed for five years at 7s. 6d. per cent. discount). Further debentures for £1,062,000 have been raised by the company on behalf of the Secretary of State for the purposes of the Travancore branch; of this amount £500,000 bears 3½ per cent. interest, payable January 3 and July 3, and is repayable on July 3, 1916 (this issue bore 3½ per cent. interest and fell due January 3, 1915, but was renewed for eighteen months at 1¼ per cent. discount with a commission of ¼ per cent.); £437,000 bears 3½ per cent. interest, payable February 15 and August 15, and is repayable February 15, 1916; £75,000 bears 3¾ per cent. interest, payable January 3 and July 3, and is repayable July 3, 1917 (this issue bore 3½ per cent. interest and fell due July 3, 1913, but was renewed for four years at 5s. per cent. discount); and £50,000 bears 3¾ per cent. interest, payable January 3 and July 3, and is repayable January 3, 1919 (this issue bore 4 per cent. interest and fell due January 3, 1914, but was renewed for five years at 7s. 6d. per cent. discount). Both principal and interest of the debentures are guaranteed by the Secretary of State for India.

On the acquisition of the South Indian undertaking by the Indian government, liabilities in respect of outstanding debenture stock were assumed by the government, and for information regarding this security see notice of Indian government debt.

In July, 1914, applications were received by the Bank of England for £3,000,000 4 per cent. registered debenture stock at 97½ per cent., guaranteed both as to principal and interest by the Secretary of State for India in Council. In November, 1914, it was announced that allottees of this stock would be allowed as an alternative to payment at the due dates as modified by the moratorium, to withhold further instalments and to receive stock for £13 in respect of £17 10s. per cent. paid, stock for £35 in respect of £37 10s. per cent. paid, and stock for £67 10s. in respect of £67 10s. per cent. paid. Interest is payable January 1 and July 1, and the stock may be redeemed at par on, or at any time after, July 1, 1945, upon six months' notice being given by the company, with the previous consent of the Secretary of State for India in Council, or by the Secretary of State for India in Council if at the time the company's contracts with him for the working of the undertaking shall have terminated, while it is agreed between the Secretary of State and the company that, if the Secretary of State determines the existing working arrangements and takes possession of the undertaking of the company, he shall be deemed to stand in the place of the company so far as regards its liability on the stock, and that thereupon the company shall be discharged from all liability to the holders.

The accounts are now made up annually to March 31, and submitted in November, dividends being paid half-yearly on January 1 and July 1. Excess dividends of 3 per cent. per annum were paid in respect of the two half-years to December, 1906; 3½ to June, 1907; 4 to December, 1907; 4½ for five half-years to June, 1910; and 7 to December, 1910—all in addition to the guaranteed 3 per cent. per annum. Since the revision of the contract in 1910, excess dividends of ½ per cent. per annum were paid to June and December, 1911 and 1912, 1 to June, 1913, 2 to December, 1913 (1 per cent. per annum being from the surplus profits of 1912, and 1 per cent. per annum from the surplus profits of 1913), and 1 for the three half-years to June, 1915, in addition to the interest of 3½ per cent. per annum guaranteed under the revised contract, while payment is announced on January 1, 1916, of ½ per cent. from surplus profits, together with the guaranteed interest of 1¾ per cent. South Manchurian Railway Company, Limited.—This company was formed in June, 1906, under Japanese law, to take over, improve and operate railways in Manchuria, of a total length of 720 miles. Of these 528 miles are held under concession from the Chinese government, originally for a period of about 75 years, to run from 1907, with the right that the Chinese government might purchase the railways on payment of the outlay. The lease, however, has been extended by a fresh treaty of 1915 and now expires in 2002, and the right has been cancelled. The remaining 192 miles are held under treaty stipulations between Japan and China originally for a term of 18 years from December 22, 1905, after which term the Chinese government had the right to purchase the railways at a price to be determined by arbitration. This term, however, has also been extended by the treaty of 1915, and now expires in 2007. The company also owns coal mines, and harbour works at Dalny, besides electric and gas works and hotels. Jarvie, L. F. Loree, O. Mills, L. J. Spence, W. Sproule and E. P. Swenson. *Financial Office:* 165, Broadway, New York.—For many years this company has been known here in consequence of its having leasing engagements with companies whose securities were held in Great Britain, but in 1899, through the readjustment of the debt of the Central Pacific Railroad Company, the Southern Pacific Company's securities became known in this market. The company's lines on June 30, 1915, comprised 10,587 miles of "proprietary" and 31 miles "owned" lines—a total of 10,618 miles, and in respect of a large portion of this total the Southern Pacific Company is the principal stockholder. Such capital stock has been placed in trust, and its own capital issued against such deposit. The accounts are made up annually to June 30. The first dividend on the common shares was a half-yearly payment at the rate of 5 per cent. per annum on October 1, 1906, while in April, 1907, a similar distribution was made; in July, 1907, a quarterly dividend at the rate of 5 per cent. per annum was paid; and in October, 1907, a quarterly dividend at the rate of 6, and similar distributions have since been made down to and inclusive of October, 1915. For 1914-15, after meeting prior charges and 6 per cent. on the common shares, a credit to profit and loss of $106,329,623 brought forward was increased to $112,926,447. In regard to the common shares formerly held by the Union Pacific Railway Company and its auxiliaries, see notice below of the common shares. The capital issues known here are as under, and all are quoted in the official list. At June 30, 1915, there were in addition—$227,000 of 4½ per cent. gold bonds due July 1, 1929; and 4½ per cent. equipment trust certificates for $11,075,000, repayable at various dates up to December 1, 1924, $8,096,000 being series A, $1,809,000 series B, and $1,170,000 series C:—

$272,674,405 Common shares of $100. Of this amount $126,650,000 was formerly held by the Union Pacific Railway Company or its auxiliary concerns, but in December, 1912, the United States Supreme Court gave its decision that this ownership was illegal; after prolonged negotiations plans were, in June, 1913, submitted to the court, and approved, under which $38,292,400 of the Southern Pacific Company's shares was sold to the Pennsylvania Railroad Company in exchange for $42,547,200 in equal amounts of Baltimore and Ohio Railroad common and preferred shares, and the remaining $88,357,600 was placed in trust, and is now represented by certificates of interest issued by the Central Trust Company of New York as trustee, which were offered for sale (having been underwritten) in August, 1913, to common and preferred shareholders of the Union Pacific Railway Company at $92 per share, the price including two quarterly dividends, payable April 1 and July 1, 1913, of 1½ per cent. each; subscriptions were received in London by Baring Brothers and Co., Limited, 8, Bishopsgate, E.C. Latest price, 104¼.

$34,218,500 Four per cent. collateral trust gold bonds of $500 and $1,000. Of this amount $16,819,000 was issued against common shares of the old Central Pacific Railroad Company under the reorganisation plan of 1899, and the balance was issued against an allotment of preferred shares in the new Central Pacific Company. The bonds are secured by the deposit in trust of all but $1,300 of the common and all of the preferred shares of the Central Pacific Company. The total authorised issue is $36,819,000, and the remaining bonds can only be issued from time to time as an equivalent amount of Central Pacific preferred capital is received and added to the collateral trust, an amount of Central Pacific preferred being reserved for improvements and additions on the Central Pacific at not exceeding $200,000 per annum. The bonds have interest payable June 1 and December 1, and the principal is to be repaid August 1, 1949, with the option to the company to call the bonds in for repayment at any time at par and accrued interest on six months' notice. The bonds are free of taxes, and payments are made in the United States. The bonds are to bearer, but may be registered as to principal only in New York, and again made payable to bearer; or the bonds may be exchanged for securities registered, both as to principal and interest, when they must remain so. It is optional with the company to require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge connected with the exchange of bonds, and also the further sum of $1 for each new bond issued on exchange. The bonds are to bearer, but may be registered as to principal only, and may be exchanged for bonds registered both as to principal and interest, and such registered bonds may be exchanged back again for coupon bonds. The total length of line in operation is 923 miles. Under the concessions the company has obtained all lands required for the undertaking free, with the exception of land in native states; the railway is worked and maintained by the Secretary of State for India through the North-Western State Railway for 52 per cent. of the gross earnings, with a rebate, if required, from the North-Western State Railway to make up 3½ per cent. on the rupee expenditure charged in the company's capital account in India as regards the main line and the Kaithal branch, 5 per cent. as regards the Ludhiana extension, and 4½ per cent. as regards the Sutlej Valley and Jullundur Doab lines. There is no option to purchase by means of an annuity.

The authorised capital is £1,000,000 ordinary, and £2,300,000 4 per cent. cumulative preference, the latter (authorised in 1903, 1908 and 1911 for extensions) having also a priority as to capital, and debenture stock for £500,000 was authorised by the Secretary of State in 1895, and a further £500,000 in 1913. Southern San Paulo Railway Company, Limited.—*Directors :* F. Holt (Chairman) and N. F. O'Brien (representing the debenture holders), B. H. Binder and F. M. Voules. *Secretary :* W. P. Grimwood. *Registered Office :* 9, Throgmorton Avenue, E.C.—The company was registered February 1, 1911, to acquire from the Brazilian Railway Construction Company, Limited, a concession, dated December 24, 1907, granted by the government of the State of São Paulo Brazil (as modified by contract of July 26, 1910), for the construction and working of a railway in the State of São Paulo, the total length to be 164 kilometres, including sidings. The government has guaranteed the payment half-yearly in Brazilian currency, for a period expiring January 11, 1939, of an annual sum equivalent to interest at 6 per cent. per annum on the capital expenditure, which is fixed at 72 contos of reis per kilometre, making for a length of main line of 160 kilometres, at 16d. per milreis, £768,000. The maximum rate of payment will thus be

691·2 contos, or at the same rate £46,080. The net receipts, reckoned in accordance with the concession, will be treated as on account of the guarantee. When such net receipts in any year shall exceed 8 per cent. on the capital expenditure so fixed, one-half the excess will belong to the government until all moneys paid under the guarantee have been recouped. The government has agreed to concede, for colonisation purposes, a free grant, subject to the laws of the state, of unoccupied state lands; and exemption from all state taxes during the period of the interest guarantee, while preferential rights have been given to the company for certain extensions. The vendors agreed to transfer the concession, to provide the necessary lands, and to procure the completion and equipment of the line, and certain other obligations, for £711,750 in cash and £499,843 in fully-paid shares, while the issue of debentures was underwritten for £47,500 in cash and £300,000 in fully-paid shares.

The authorised capital is £800,000 in shares of £1, all of which has been issued fully paid, £500,000 to the vendors, and £300,000 to the underwriters, as stated above. In February, 1911, the London and Brazilian Bank, Limited, 7, Tokenhouse Yard, E.C., was authorised to receive, on behalf of the company, applications at 93½ per cent. for an issue of £900,000 5 per cent. first debentures to bearer, of £100 and £20 each, forming part of an authorised issue of £920,000, with coupons payable February 1 and August 1 (see below for rearrangement of 1915) at the London and Brazilian Bank, Limited, and the principal repayable by the operation of a cumulative sinking fund of ½ per cent. per annum, commencing in 1916 (postponed under the scheme of 1915) applicable by means of purchases on the market at or below par and accrued interest, or by drawings at par. Moreover, the company has reserved the right to redeem the whole or part of the debentures on six months' notice at par. The debentures are secured by a specific charge on the railway, and no charge ranking on the same security, equally or in priority to, the debentures, can be created without the holders' consent. A scheme was brought forward in January, 1915, for partially rearranging the debenture debt, but subsequently it was found necessary to make more drastic changes, and another scheme was brought forward in July, 1915, was agreed to, and is being proceeded with. Under this plan interest due on the debentures on February 1 and August 1, 1915, is to be paid in 6 per cent. income debenture stock at par, while the company is given the right to discharge any part of the interest subsequently falling due in similar debenture stock at par should the directors deem this necessary, and the commencement of the annual sinking fund for the redemption of the debentures is deferred until there is surplus revenue available after payment of the full interest in cash. Until debenture interest is met fully in cash the board is to be controlled by persons nominated by the debenture holders, and thereafter the debenture holders are to elect one director. The 6 per cent. income debenture stock will rank as a floating charge upon the undertaking next after the first debentures, is to be repayable at par at any time on the company giving six months' notice, and is limited to the total required for the above-mentioned purposes, the maximum amount to be issued under the scheme not to exceed in the aggregate £300,000. The accounts are made up annually to December 31, and usually submitted in July. The first section of the line (about 58 kilometres in length) was opened for traffic in December, 1913, further sections were opened in August and November, 1914, and the whole line has been in operation since May, 1915. Voting power, one vote for every share. Director's qualification, 50 shares. Transfer form, common; fee, 2s. 6d. Telegraphic address, Sulspaulo, London. Telephone number, 4502 London Wall. The debentures are quoted in the official list.

Burton. *Office:* 8, Arthur Street, E.C.—The company was registered September 11, 1908, to acquire a concession granted by the government of the state of Bahia, Brazil, for the construction of a line about 224 miles in length, from Ilheos to Conquista, state of Bahia, Brazil, together with a pier and warehouses at Ilheos. The concession is for fifty years from the completion of the line, after which it reverts to the government without payment, the pier and warehouses remaining the property of the company in perpetuity; for a period of twenty years from the commencement of construction the company has a subvention from the state of Bahia. The company took over about 20 miles of line from Ilheos to Almada, in course of construction, which was opened in June, 1910, while a further length of line of about 17 miles to Itabuna was opened for traffic in September, 1911. Under the concession the company is bound to construct 10 kilometres of line per annum. A concession has also been obtained for two branches to be of an aggregate length of 30 kilometres, and they were taken over by the company on January 1, 1914; in respect of the branch lines the company has a guarantee on a similar basis to the one for the main line. In August, 1913, 100,000 additional shares were created, and the authorised capital is now £300,000 in shares of £1, of which £282,257 has been subscribed and called up. The company took power to borrow on debentures a sum of £1,350,000, and this was exercised up to £547,000 by the issue of 6 per cent. first mortgage bonds of £20 each, of which £10,540 had been purchased, leaving £536,460 outstanding.

In November, 1914, holders of the first mortgage bonds agreed to a scheme of re-arrangement, under which each existing first mortgage bond of £20 has been exchanged for a new first mortgage bond of £10, and a participating bond for £10, while coupons due September 1, 1914, and March 1, 1915, on the old first mortgage bonds have been funded into new first mortgage bonds; the company's bonded indebtedness now stands at £304,390 in first mortgage bonds of £10 each (inclusive of new first mortgage bonds issued for interest due September 1, 1914, to March 1, 1915, on the old first mortgage bonds) and £268,230 in participating bonds of £10 each; in addition £16,630 of bonds of each class has been deposited as security for loans. Both classes carry interest at the rate of 6 per cent. per annum, clear of income tax, payable March 1 and September 1, the first payment being made September 1, 1915, but the company is to be at liberty, as regards the participating bonds, to satisfy six of the half-yearly instalments of interest payable from September 1, 1915, to March 1, 1919, both inclusive, in new first mortgage bonds to be taken at 90 per cent., while the company is also to be at liberty, with the previous consent in writing of the two directors appointed by the bondholders, on September 1, 1919, or on the March 1 or September 1 in any subsequent year (but not on more than one date of such year) to satisfy the half-yearly instalment of interest due and payable in respect of the participating bonds then outstanding on that date by allotting in exchange therefor first mortgage bonds taken at 90 per cent. As regards scrip for new first mortgage bonds, given in exchange for interest, the interest on such scrip is only payable when the scrip has been exchanged for bonds. In each year when a dividend on the ordinary shares is declared there is to be paid by the company, out of the profits earned in that year, to the holders of the participating bonds an additional sum equivalent to one-quarter of the whole amount payable to the ordinary shareholders by way of dividend, with the stipulation that such additional sum, payable out of profits to the participating bondholders, shall not in any one year exceed 3 per cent. of the nominal amount of the participating bonds. With regard to redemption, both the first mortgage bonds and the participating bonds are to be repayable at par on January 1, 1960, and they are to constitute pari passu a first floating charge upon the properties and assets, while no mortgage can be created ranking in priority to, or pari passu with, the charge in favour of the bondholders except with the sanction of extraordinary resolutions passed at a meeting of the holders of each class of bonds. The company undertook to set aside on January 1, 1915, and thereafter on January 1 of each year, a sum equal to the total of the annual sums which would have been applied by the company in redemption of the old first mortgage bonds to be applied in redemption of bonds of either class by drawings at par, or by purchases at a price not exceeding par, but it was further

stipulated that the sums so to be set aside in respect of the redemption of bonds from January 1, 1915, to January 1, 1919, both inclusive, should only be payable out of net earnings, and in the event of the net earnings for any of the years 1914 to 1918, both inclusive, being insufficient to provide for the redemption of the number of bonds specified, the company shall, out of its net earnings in every year subsequent to 1918 (after providing thereout a sum sufficient to redeem the bonds which ought to be redeemed in such year) apply the balance of such net earnings, or so much thereof as is required, towards the redemption of bonds which should have been redeemed out of net earnings in the years 1915 to 1919, both inclusive. So long as the nominal amount of the first mortgage bonds and participating bonds for the time being outstanding exceeds £5,000 per kilometre of railway constructed the company is to set aside out of the profits in each year, before declaring a dividend on the shares, to a special fund the sum of £10,000, to be applied towards extensions or towards the redemption of bonds. So long as any of the bonds of either class are outstanding the bondholders, irrespective of class, are to appoint two directors; Mr. Jules A. Cristin and Mr. Paul Deleuze are to retain office as bondholders' directors until January 1, 1919, at least.

The accounts are made up annually to December 31, and submitted in July. Debenture interest due March 1, 1914, was duly met, but default took place on September 1, 1914, and in 1914-15 a scheme, detailed above, was carried through for the reorganisation of the old first mortgage indebtedness; interest due September 1, 1915, on the new first mortgage bonds issued under the scheme of rearrangement was duly met in cash. The company took over the working of the line from the contractors early in 1913, up to which time the contractors had received the subvention. In 1914 there was a profit on railway working (converted into sterling at 14d. per milreis) of £19,112, and other receipts totalled £804; after charging £19,254 for interest, London expenses, income tax, loss on exchange, and other outgoings, there was a debit of £6,135, increased to £9,218 by loss on sale of investments, and the total debit to appropriation account then stood at £11,678. From January 1, 1915, to August 31, 1915, the gross receipts were £32,365, as against £25,713 in the corresponding period of 1914.

Interest on both issues for the first ten years was provided from subsidies received from the Quebec provincial government, but on the termination of these subsidies default took place. Subsequently a committee of bondholders was formed, which called for the deposit of bonds, in order to protect the interest of the bondholders, and after some years an act of the Dominion parliament was obtained, and came into force January, 1905, giving the company power to issue prior lien bonds, and to convert both classes of pre-existing bonds into consolidated mortgage income bonds.

The subscribed share capital is $1,000,000, all of which has been paid up. In July, 1906, there were issued through the Bank of Montreal, 47, Threadneedle Street, E.C., at par, £50,000 of 5 per cent. prior lien bonds of £100 each, with coupons payable May 1 and November 1 by the issuing bank, and the principal repayable at par May 1, 1926, with the option to the company to redeem them at any time at 110 per cent. on one month's notice, or at 105 per cent. on six months' notice; these bonds (of which £43,300 are outstanding) constitute a first charge on the whole of the undertaking. A sinking fund is provided, which is applied, as opportunity offers, to purchases, the balance of the fund being invested and accumulated; at June 30, 1914, the redemption fund, including £6,700 prior lien bonds redeemed, stood at £18,283. The three old issues of bonds, with arrears of interest to July, 1904, are under the act of 1904 converted into 5 per cent. consolidated mortgage income bonds, ranking after the prior lien bonds, the total authorised being £589,200, in bonds of £100 each: the interest on these bonds is non-cumulative, and is payable only if earned, while the principal is to be repaid July 1, 1950. The bonds deposited with the bondholders' committee have been converted, and scrip certificates for £583,400 consolidated mortgage income bonds issued, and against these scrip certificates the committee have issued their provisional certificates for a corresponding amount (these certificates have not yet been exchanged for definitive bonds); for interest payments see below.

The accounts are made up annually to June 30, and usually submitted in September. For three years to June 30, 1907, a payment of 1½ per cent. was made in May, 1908, on the provisional certificates for the income bonds; and in respect of each of the five years to 1911-12, 1 per cent. was paid on the provisional certificates; and for 1912-13 and 1913-14, 1¼. Carried forward, $4,717. The accounts for 1914-15 have not been received, but in October, 1915, it was announced that "the board considered it inadvisable to pay any dividend on the consolidated mortgage income bonds, the net revenue being applied to strengthen the company's resources."

The bondholders' committee is composed of Messrs. A. L. Reynolds (Chairman), J. B. Ball and H. Marnham; the secretary is Mr. H. R. Boyce, and the office is at Winchester House, Old Broad Street, E.C. The prior lien bonds and the committee's provisional certificates for the consolidated mortgage income bonds are quoted in the official list. Latest prices—prior lien bonds, 99½; income bonds (provisional certificates), 32.

Tournay to Jurbise and Landen to Hasselt Railway Company.—*Office:* Rue Ortelins, Brussels. *London Agents:* I. Thomson, T. Bonar and Co., 57½, Old Broad Street, E.C.—This company formerly had only two classes of shares, ordinary and 3 per cent. cumulative preference, amounting originally to 12,500,000 francs each in shares of 500 francs, but in December, 1906, there were issued, in exchange for each ordinary share, one new 3 per cent. share of 500 francs "of fixed revenue," ranking after the preference shares, and one new ordinary share of 500 francs "of variable revenue," while in 1908 then existing "actions de jouissance" were split into tenths, and there are now 960 of these in issue. After providing for the preference dividend and sinking fund, and paying 2 per cent. on the "fixed revenue" shares, surplus profits are to be applied—as to seventeen-twentieths (1) in paying a further dividend of 1 per cent. on the "fixed revenue" shares, and appropriating a sufficient sum for redemption (2) in making provision for certain reserves, and (3) in paying dividends on the "variable revenue" shares, the balance being distributed amongst the holders of "actions de jouissance." The original preference shares are in course of redemption (by 1938) by annual drawings in March from a sinking fund of 45,000 francs per annum, shares drawn being paid off here at the current rate of exchange; the new shares "of fixed revenue" are also in process of extinction by half-yearly purchases from a sinking fund of 25,000 francs per annum, and the ordinary capital "of variable revenue" is also redeemable by purchases in the open market. By the operation of the sinking funds the amount of the preference shares has been reduced to 7,354,610 francs, that of the "fixed revenue" shares to 7,024,000 francs, and that of the "variable revenue" shares to 9,234,500 francs. The authorised capital, including loans, is £60,000, and £15,000 has been issued in ordinary shares of £10 (£13,850 received); £30,000 in 5 per cent. guaranteed shares of £10, the interest being guaranteed by the barony of Trughenachmy, in the county of Kerry, for 35 years from the opening of the line; and £15,000 in loans at 5 per cent. Further, there was on June 30, 1915, a debit to capital account of £11,891. The accounts are made up to June 30 and December 31, and submitted in August and February. The line is 8 miles in length, was opened for traffic on July 5, 1887, and is now worked by the Great Southern and Western Railway Company. For the half-year to June, 1911, the working resulted in a profit of £661; to December, 1911, of £621; to June, 1912, of £465; to December, 1912, of £576; to June, 1913, £555; to December, 1913, £697; to June, 1914, £580; to December, 1914, £688; and to June, 1915, £559. The dividend due on the guaranteed shares is being paid, and for some time past the earnings have been sufficient to meet current debenture interest and to provide a small payment each half-year on account of arrears, which amounted on June 30, 1915, to £9,697. The line is now in the hands of a receiver. Voting power, one vote for every share of either class up to 10, one for every 5 shares beyond up to 100, and one for every additional 10 shares. Trans-African Railway Company.—*Head Office:* Oporto. *London Office:* 79, Lombard Street, E.C. —This company is known here by the issue in June, 1886, at 81¼ per cent., through the Capital and Counties Bank, Limited, 39, Threadneedle Street, E.C., and since, of £1,890,000 5 per cent. first mortgage bonds of £100 (known as series A) and £20 (known as series B) each, being the total authorised. Coupons are payable January 1 and July 1, and the principal is to be repaid by a sinking fund calculated to extinguish the issue by the expiration of the concession, by half-yearly drawings in June and December (commenced June, 1887), in Oporto. Coupons are payable in London, Oporto, Lisbon or Amsterdam, and the principal of the bonds is payable in London, Oporto or Lisbon—payments in London being made by the Capital and Counties Bank, Limited. Amount outstanding, £1,842,200. The share capital subscribed is $3,600,000 in shares of $90, all of which is paid up, and there are loans, &c., for $169,580.

The company was formed at Oporto to construct a railway in the province of Angola, West Africa, under concession for 99 years from September, 1885, from the Portuguese government. By the terms of this concession the government guarantees 6 per cent. per annum on a cost of £7,110 per mile (the line being about 227½ miles in length) during the whole term of the concession, and dating from the opening of each section, the first of which is 37½ miles long, and the remaining sections 25 miles each. If the net earnings of the line exceed 8 per cent. on the guaranteed capital, half of the surplus is to go to the government for repayment of advances under the guarantee, with interest thereon at 4 per cent. When these advances have been repaid all net earnings belong to the company. For the purposes of the guarantee the working expenses are to be calculated at £425 per mile per annum. The government gave the company—all the state lands required for the railway, also one-half of the state lands within a zone of 500 metres (547 yards) on each side of the centre of the railway, in alternate sections with the government; exemption from import duties on materials required for the construction and working of the line; and exemption from general and municipal taxes, except a duty on goods of not exceeding 5 per cent. The government has the right to redeem the concession after 25 years from the completion of the line, the price of redemption to be an annuity, for the unexpired portion of the concession, equal to the average of the net proceeds of the best five of the seven years immediately preceding that in which the redemption takes place. In no case is such annuity to be less than the net product of the last of the seven years, or less than 6 per cent. on the capital disbursed in the construction of the line.

The accounts are made up annually to June 30, and submitted in November or December. The first section of the line was opened at the end of October, 1888, and the whole line has been in operation since 1899. The trustees for the bondholders are—Sir H. Kimber, Bart., and A. de Q Montenegro. The service of the bonds has been duly met. Union Pacific Railroad Company.—*Directors:* R. S. Lovett (Chairman), O. Ames, A. J. Earling, R. W. Goelet, W. A. Harriman, M. Hughitt, O. H. Kahn, C. A. Peabody, W. Rockefeller, W. G. Rockefeller, M. L. Schiff, J. F. Smith, W. V. S. Thorne, F. Trumbull and F. A. Vanderlip. *Office:* New York.—The Union Pacific Railway Company passed into receivers' hands in October, 1893, and the present company was incorporated in 1897, and took possession of the Union Pacific main line on February 1, 1898, and the Kansas Pacific lines on April 1, 1898. The company owns directly 3,559 miles of first and additional main tracks, but controls, through ownership of stock, &c., in all 7,636 miles of main track. On June 30, 1914, either directly or through subsidiary companies, the company held a very large amount of shares in other companies. These shares in other companies included a holding of $126,650,000 in the Southern Pacific Company, but in December, 1912, the United States Supreme Court gave a decision to the effect that the control of the Southern Pacific by the Union Pacific, through its holding as stated of common shares, was illegal; after prolonged negotiations plans were, in June, 1913, submitted to the court, and approved, under which $38,292,400 of the Southern Pacific Company's shares was sold to the Pennsylvania Railroad Company in exchange for $42,547,200 in equal amounts of Baltimore and Ohio Railroad common and preferred shares, and the remaining $88,357,600 was placed in trust, and is now represented by certificates of interest issued by the Central Trust Company of New York as trustee, which were offered for sale (having been underwritten), in August, 1913, to common and preferred shareholders of the Union Pacific Railway Company at $92 per share, the price of issue including two quarterly dividends, payable April 1 and July 1, 1913, of 1½ per cent. each; subscriptions were received in London by Baring Brothers and Co., Limited, 8, Bishopsgate, E.C. Besides the shares in the Baltimore and Ohio Company, received as stated above from the Pennsylvania Railroad Company, the Union Pacific, through a subsidiary, also had at June 30, 1913, $32,334,200 of common shares of the Baltimore and Ohio, and $7,206,400 of preferred shares, and early in 1914 it was decided to distribute the bulk of the Baltimore and Ohio shares amongst the Union Pacific common shareholders, but the actual distribution was not carried out until July, 1914, owing to litigation, although the warrants to represent the distribution were issued in March, 1914. The only important holdings in other companies now remaining consist of $22,500,000 of shares in the Illinois Central Railroad Company, $20,000,000 of shares in the New York Central and Hudson River Railroad Company, and $3,594,035 of common shares and $1,805,992 of preferred shares in the Baltimore and Ohio Railroad Company.

The accounts are made up annually to June 30. The dividend on the preferred shares is paid half-yearly, in April and October, and in April and October, 1901, 1902, 1903 and 1904, and April, 1905, there was also paid 2 per cent. on the common shares each time; in October, 1905, 2½; in April, 1906, 3; and in October, 1906, and in April, 1907, 5; in July, 1907, the payment of quarterly dividends was commenced, 2½ per cent. being then distributed, and the same rate was paid in October, 1907, and subsequently to April, 1914, while, as stated below, the distribution has been reduced to 8 per cent. per annum, and this rate is now being paid (to October, 1915). Early in 1914 it was decided to distribute amongst the Union Pacific common shareholders the holding in the Baltimore and Ohio Railroad, at the rate of 12 per cent. of Baltimore and Ohio preferred and 22 per cent. of Baltimore and Ohio common, together with $3 per share in cash, and warrants to represent this distribution were issued in March, 1914, although owing to litigation the actual distribution was not made until July, 1914 (the Baltimore and Ohio shares issued for this distribution carried dividends payable after April 1, 1914, and interest from that date was also paid on the cash part of the distribution); as part of this arrangement the annual dividend on Union Pacific common shares was reduced from 10 to 8 per cent. For 1914-15 there was a surplus, after payment of 8 per cent. on the common shares, of $5,544,032, the credit to profit and loss on June 30, 1915, then standing at $96,962,242. At June 30, 1915, the company owned either directly or through the Union Pacific Land Company (all of whose share capital is owned by the Union Pacific Railroad Company) 1,006,657 acres of land, and $1,120,783 was owing in respect of lands sold; sales in 1914-15 were 10,087 acres for an average of $5.91 per acre, and there was an excess of receipts in the year over expenses of $497,942. The capital is now as under, and all five issues are quoted in the official list—the last-mentioned as regards the sterling bonds only:—

By the exercise of an option of conversion into shares the amount has been reduced from $75,000,000 to that given above. The bonds are to bearer, but may be registered as to principal only, or may be exchanged for bonds registered both as to principal and interest. Latest price, 99¼.

The $30,000,000 reserved for New York is in bonds of $500 and $1,000 each, and sterling bonds are exchangeable for dollar bonds at the fixed exchange of $4.85 per £1. In September, 1910, a further £1,500,000 was issued at 97 per cent. and interest accrued to October 17, 1910, by Baring Brothers and Co., Limited, and Messrs. Glyn, Mills, Currie and Co., this amount being also in bonds of £100 and £200. The interest dates are March 1 and September 1, and the principal is due June 1, 2008, but all the bonds outstanding (but not any part thereof) may be redeemed at the option of the company at 107½ per cent. and accrued interest, on September 1, 1918, or upon any interest date thereafter, subject to at least three months' notice. All payments are free from United States taxes, those on sterling bonds being made in London by Baring Brothers and Co., Limited, 8, Bishopsgate, E.C., and in New York, and those on dollar bonds in New York only. The bonds are secured by a first mortgage on 1,393 miles of main track and 146½ miles of other track, and a lien, subject to the first mortgage railroad and land grant bonds, upon the remaining 2,090 miles of main track and 1,366 miles of other track. The amount is limited to $200,000,000, of which $100,000,000 is reserved to refund a like amount of first mortgage railroad and land grant bonds, and the balance can only be issued for construction purposes on the acquisition of additional lines or other property in connection with the mortgaged lines. Bonds of the sterling portion of the loan, which were issued to bearer, may be registered with Baring Brothers and Co., Limited, either as to principal only, or as to principal and interest; bonds registered as to principal only may be reconverted to bearer bonds, but when once registered as to principal and interest they must remain so. Bonds of the currency portion of the loan may be registered in New York as to principal only, or as to both principal and interest, and in both cases reconversion may be effected into bearer bonds. The company is working under six concessions granted by the federal government; one concession is perpetual, and the remaining five are for periods of years expiring in and after 1970, and upon the termination of the concessions the railroads comprised therein revert to the government free from all mortgage. The share capital fully paid up is $23,000,000, Mexican currency, and in June, 1910, there were offered for subscription by Messrs. J. As from January 1, 1906, the Cárdenas and Júcaro Railway was acquired, increasing the number of miles of road by 211, and as from July 1, 1906, the Matanzas Railway has been acquired, increasing the number of miles by about 178, while in 1907 the company acquired a controlling interest in the Havana Central Railroad Company; the total mileage is now 681. Late in 1911 the company acquired over 98 per cent. of the ordinary capital of the Western Railway of Havana by issuing ordinary and preference stock against the shares of the Western Company, and in 1913-14 holders of £889,740 ordinary and £702,190 preference shares of the Cuban Central Railways, Limited, accepted offers to exchange their holdings for securities of the United Railways of the Havana Company.

The authorised capital is now £6,860,000 of ordinary stock, £600,000 of deferred ordinary, and £3,500,000 of preference, and there is power to raise money on debentures, which, however, must not exceed the amount of the share capital for the time being issued or agreed to be issued. The amounts issued are as under:—

Of this amount £1,400,000 was formerly in preferred stock, ranking before £140,000 deferred for 3 per cent. per annum, and equally with the deferred after payment on the latter of a like rate, but all distinction between the two classes ceased on payment of the dividends for 1903-4. After payment of 8 per cent. per annum on the ordinary stock, this stock is to take a like dividend, any surplus profits to be distributed pro rata amongst the ordinary and deferred stockholders, while, when the two classes shall have received dividends of 8 per cent. per annum for two consecutive years, all distinction between them is to cease.

£2,786,429 Five per cent. cumulative preference stock, having a priority over the ordinary and deferred in regard to capital. Of the amount named £500,000 was purchased by Messrs. J. Henry Schröder and Co. from the company at 101½ per cent., and was offered to the existing proprietors of the company at 105 per cent. in July, 1905; £1,000,000 was purchased by Messrs. Schröder and Co. from the company, and offered by that firm for public subscription at 96 per cent. in June, 1911; late in 1911 £514,239 of the preference capital was issued in part purchase of shares in the Western Railway of Havana; in 1914 £502,190 of the preference capital was issued against Cuban Central preference shares acquired.

Henry Schröder and Co., and subsequently, up to a total of £1,600,000, but when the English company was formed in 1898 holders of the bonds were offered the option (still open) of exchanging into the 5 per cent. irredeemable debenture stock (1906) of the new company, and a large portion was so exchanged, leaving the amount (after deducting bonds redeemed) as above; bonds exchanged, however, are kept alive, being deposited with trustees. Coupons are payable January 1 and July 1. In the first four years the sum of £80,000 per annum was to be provided for the service of the loan, while in the following 37 years £96,000 is to be used, any balance remaining, after providing for interest, to be applied to the annual amortisation of the bonds by drawings (about June) at par, or by purchase in the market if at or under par, the first redemption of bonds having taken place in 1894. The right to accelerate redemption of the bonds in or after 1899 by 1 per cent. has been retained, and bonds redeemed under this proviso are to be drawn and paid off at the rate of 105 per cent. Payments are made by the issuing firm.

£380,000 Five per cent. A irredeemable debenture stock, ranking in priority to all other issues of the English company. The stock is secured on the entire property and undertaking, but, as regards the railways, subject to the above bonds of 1890. The stock was issued to the extent of £350,000 publicly by Messrs. J. Henry Schröder and Co., at 98 per cent., in February, 1898, and the remaining £30,000 has been allotted since. Interest is payable January 1 and July 1.

Of the total of £2,988,193, £940,000 was issued in part payment of the purchase consideration of the Cárdenas and Júcaro Railway; £493,700 of stock, having been acquired by Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C., was offered by them in February, 1906, to the holders of the pre-existing stocks of the company at 116 per cent.; £800,000 of stock, having been acquired by Messrs. J. Henry Schröder & Co., was offered by them in April, 1907, to the holders of the pre-existing stocks of the company at 106 per cent.; and £328,001 was issued in payment of the dividend of 5 per cent. declared on the ordinary stock for 1913-14 (see below). The stock is secured by first charges (a) for £1,374,100 on the Cárdenas and Júcaro Railway, (b) for £650,000 upon the Matanzas system, and (c) for £800,000 upon bonds and shares of the Havana Central Railroad Company, whilst it is also charged on the United system, subject to the above-mentioned charges thereon. The interest dates are January 1 and July 1.

£1,281,455 Four per cent. debentures of £20, £100, £500 and £1,000 each, and debenture stock, issued in 1907 (in exchange for bonds of the Havana Central Railroad Company) and since. Interest is payable January 1 and July 1, and the principal is to be repaid May 1, 1955, with power to the company to redeem at par at any time on six months' notice. This issue is specifically charged on bonds and shares of the Havana Central Railroad Company, and is limited to £1,323,100.

£988,750 Four-and a-half per cent. debentures to bearer of £19 15s. 6d., or 500 francs each, issued by Messrs. J. Henry Schröder and Co., 145, Leadenhall Street, E.C., at 99½ per cent., in July, 1911, on behalf of the contractors for the issue, the bonds being offered simultaneously in Paris on similar terms. Interest is payable in London by the issuing firm, or in Paris, and the company has the option of repaying the whole or any part of the issue after three years at 103 per cent., while the bonds are repayable within 50 years by means of a cumulative sinking fund, either by half-yearly drawings at 103 per cent., commencing January 1, 1917, or by purchase in the market below that figure. In addition to the interest the company will pay British income tax, as also the taxes, imposts or duties for the time being in force charged upon the debentures circulating in France. The debentures rank as a floating charge on the undertaking, subject to the above-mentioned debenture stocks and debentures.

The accounts are now made up annually to June 30, and submitted in October or November. For 1904-5 10 per cent. was paid on the ordinary stock. Ordinary capital for £940,000 issued in part payment for the Cárdenas and Júcaro Railway was barred from participation in the profits of the old railways for the half-year to December 31, 1905, and certain other "excepted" assets, and from these assets a distribution of 12 per cent. on £1,540,000 of ordinary stock was made in April, 1906, a further 4½ per cent. in October, 1906, and 5s. 3d. per cent. in January, 1914, the scrip issued to the stockholders to represent participation in these assets being then cancelled. For the half-year to June 30, 1906, dividends amounting to 8½ per cent. were paid on £2,480,000 of ordinary stock—4½ per cent. in June, 1906, and 4 per cent. in October, 1906, leaving £9,963 undivided. In November, 1906, a bonus of 50 per cent. in ordinary stock was issued to the holders of £2,480,000 of ordinary stock, and for 1906-7 5 per cent. was paid on £4,760,000 of ordinary stock. For 1907-8 the preference dividend was paid, but there was no distribution on the ordinary stock (revenue having suffered through a shortage in the sugar crop and a strike of the employees which lasted from September, 1907, to January, 1908); for 1908-9 the ordinary stock received 2 per cent.; for 1909-10 and 1910-11, 4; for 1911-12, 4½; and for 1912-13, 5. For 1913-14 5 per cent. was declared, but, owing to the financial difficulties arising out of the European war, this was paid in 5 per cent. irredeemable debenture stock (1906) at par, and carrying interest as from January 1, 1915, fractions of £ being distributed in cash; for 1914-15 5 per cent. was paid in cash. Reserve account, £700,000; general renewals reserve, £223,122; insurance account, £30,000; carried forward, £15,548. From July 1 to November 7, 1915, the gross railway receipts were £451,446, as against £350,980 from July 1 to November 7, 1914.

Voting power, one vote for each £10 of preference, ordinary or deferred ordinary capital, but the trustees of the consolidated debenture stock "hold shares (three ordinary of £10 each, included in the above ordinary stock) entitling them to one-third votes of the entire company for the time being. This power is conferred in the original agreement between the old vendor company (Bank of Commerce) and the transferrer to the new company, and in the articles the shares are specifically set aside for the trustees, with mention of the votes conferred." Director's qualification, £500 in ordinary or preference stock. Transfer form, common; fee, 2s. 6d. per deed for all stocks; stock of any class is transferable in multiples of £1. The company having compounded with the inland revenue for the stamp duties payable on transfers of preference, ordinary and deferred stock, transfer deeds must be presented unstamped to the company, which makes no charge beyond the fee, as above; stamp duty has, however, to be paid on transfers of debenture stock. Latest prices—ordinary stock, 73⅜; preference, 86; A debenture stock, 104¾; consolidated debenture stock, 93¼; debenture stock (1906), 91½; 4 per cent. debentures, 70; 4½ per cent. debentures, 90.

Uruguay East Coast Railway Company, Limited.—*Directors:* G. Grinnell-Milne (Chairman), B. H. Binder and G. Hannaford. *Secretary:* R. W. Worsley. *Office:* 1, Broad Street Place, E.C.—The company was registered July 14, 1908, to take over the properties of the Uruguay Great Eastern Railway Company, Limited, registered July 22, 1889, and a new concession has been obtained from the Uruguayan government. Under this concession the government has undertaken to give to the company a subvention of £750 per kilometre of line (the total length of line authorised being 113 kilometres), the subvention being payable in government bonds taken at 92 per cent., carrying 5 per cent. interest and 2 per cent. cumulative sinking fund. Moreover, the government has given to the company a guarantee of 3½ per cent. on a capital of £5,000 per kilometre in operation, and on the entire length of 113 kilometres this guarantee represents £19,775 per annum, but it is only payable when the net earnings of the line do not exceed 1½ per cent. on that capital, and is to be proportionately reduced when the net earnings exceed 1½ per cent., while in liquidation of amounts advanced by the government under this guarantee the company is to pay two-thirds of the net earnings between 6 and 8 per cent. on the fixed capital, and when the net earnings exceed 8 per cent. all the excess over such percentage is to be paid to the government, which may take over the line at any time during the first twenty years of working on paying £5,000 per kilometre plus a bonus of 20 per cent., deducting from such total the subvention of £750 per kilometre mentioned above, while after the first twenty years the line may be expropriated by the government on payment of twenty times the maximum annual earnings obtained by the company, without taking into account the variable subvention referred to above. The authorised capital is £125,000 in shares of £1, of which £124,640 has been subscribed and paid up, nearly all the shares having been allotted credited as fully paid to the old company. There are also £309,420 (outstanding balance of £319,500 issued and authorised) 5 per cent. first charge debentures to bearer, of £20 each, with interest payable April 1 and October 1, and the principal repayable in 37 years, by annual drawings (in October) at par, or by purchases in the market at or below par; and £184,980 perpetual 4 per cent. debenture stock (for the three years to October 19, 1911, income debenture stock), all of which has been issued to the old company, with interest payable January 1 and July 1.

The accounts are made up annually to June 30, and submitted in November. The first section of 50 kilometres was opened in May, 1895, and the remaining 63 kilometres in December, 1910. There has so far been no dividend on the shares. For 1910-11 interest on the first charge debentures only was paid, but for 1911-12, 1912-13 and 1913-14, interest on both classes of debenture debt was met. Renewals fund, £4,000; carried forward, £12. Voting power, one vote for every share. Director's qualification, 400 shares. Transfer form, common; fee, 2s. 6d.; the 4 per cent. debenture stock is transferable in sums of £1 and multiples. Telegraphic address, Presented, London. Telephone number, 3251 London Wall. The company is quoted in the official list. Latest price of debentures, 66.

Uruguay Northern Railway Company, Limited.—*Directors:* Col. E. Villiers (Chairman), B. H. Binder, A. Darton, C. E. Günther and F. C. Norton. *Secretary:* W. J. Day. *Office:* 71, Finsbury Pavement, E.C.—The company was registered November 1, 1887, to acquire a concession granted by the government of the republic of Uruguay for the construction of a railway about 114 kilometres in length, or nearly 71 miles. Under the concession the government guaranteed for a period of forty years interest at the rate of 7 per cent. per annum on £5,000 per kilometre, making the total amount of the guaranteed interest £39,970 per annum. Under the scheme of arrangement of Uruguayan national liabilities, formulated in 1891, the guarantee for the remaining period of the concession was reduced from 7 to 3½ per cent. Net earnings in each year ended December 31 up to 1½ per cent. per annum on the guaranteed capital are to be retained by the company; net earnings from 1½ to 5 per cent. on the guaranteed capital are to be applied to reduction of the interest payable by the state; when the net earnings exceed 5 per cent. the excess up to 6 per cent. is to be retained by the company; net earnings in excess of 6 per cent. are to be applied in repayment of sums advanced under the guarantee. For the service of the national debt and the railway guarantees, the government has hypothecated 45 per cent. of the gross receipts of the custom houses of the republic, while, should these revenues prove insufficient, the deficiency is to be made up from other sources of revenue; on the amount so provided the interest of the national debt forms a first charge, the railway guarantees ranking next. The guarantee is payable in gold. Power is reserved to the government to purchase the railway after 25 years from its commencing to work "at a fair valuation, plus 20 per cent."; but if not so purchased, the line belongs to the company in perpetuity.

The authorised capital is £350,000 in shares of £20—£250,000 in 7 per cent. cumulative preferred (converted into stock), and £100,000 in ordinary. All the ordinary shares have been issued as fully paid; in May, 1889, there were issued to the public, through Messrs. J. H. Schröder and Co., 145, Leadenhall Street, E.C., all the preferred shares at par, and the whole amount has been called up and converted into stock; in June, 1889, there was issued through the same firm, at 90 per cent., £449,400 5 per cent. perpetual debenture stock, with interest payable January 1 and July 1; and in 1897, 1898 and 1899 £31,002 5 per cent. prior lien debenture stock was issued for interest on the debenture stock, and in 1908 a further £8,000 and in 1910 a further £10,000 of similar stock were issued, making a total of £49,002. In April, 1892, the holders of the debenture stock agreed to a reduction of the interest upon the debenture stock to 3½ per cent. per annum as from January 1, 1892, with the proviso that the reduced amount of interest in each year shall be increased by two-thirds of the net earnings of the railway up to 1½ per cent. on the capitalisation of £5,000 per kilometre; the rate of interest on the debenture stock is to return to 5 per cent. when the company shall have repaid the government all sums received under the guarantee. It was further provided that interest for 1891 and the first half of 1892 should be paid in bonds of the Uruguayan 3½ per cent. consolidated debt at par, these bonds having been issued to the company in payment for all arrears of guarantee up to the end of 1891.

The first section of the line was opened for traffic September 17, 1890, and the second and final section was opened April 17, 1891. The accounts are made up annually to June 30, and submitted in November or December. For 1904-5 the fixed 3½ per cent. was paid on the debenture stock and 1 per cent. on the preferred; for 1905-6 the debenture stock got £4 3s. 7d. per cent. and the preferred 2 per cent.; for 1906-7, £4 9s. 5½d. and 2 per cent. respectively; for 1907-8, £4 4s. 2½d. and 2 per cent.; for 1908-9, 3½ and 1 per cent.; for 1909-10, £4 7s. 9d. and 2 per cent.; for 1910-11, £4 9s. 9d. and 1½

per cent.; for 1911-12, £4 13s. 6d. and $1\frac{3}{4}$ per cent.; for 1912-13, £4 15s. 4d. and 2 per cent.; for 1913-14, £4 6s. 7d. and nil; and for 1914-15, £3 14s. 3d. and nil. Carried forward, £8,659, including £7,335 brought down. In 1910-11 there was a profit on working of £6,675; in 1911-12 of £7,931; in 1912-13 of £10,967; in 1913-14 of £5,596; and in 1914-15 of £1,444. In the four months to October, 1915, the gross earnings were £6,744, compared with £4,922 in the corresponding period.

Voting power, one vote for every £20 of ordinary or preferred capital. Director's qualification, £500 of preferred stock. Transfer form, common; fee, 2s. 6d. per deed; all classes of stock are transferable in multiples of £1. Telephone number, 7729 London Wall. The preferred and debenture stocks are quoted in the official list. Latest price of debenture stock, $43\frac{3}{4}$.

Vale of Glamorgan Railway Company.—*Directors:* E. L. Evan-Thomas (Chairman), Sir C. J. Cory, Bart., M.P., F. L. Davis, G. F. Insole and T. R. Thompson. *Secretary:* E. T. Lawrence. *Office:* Barry Docks.—The company was incorporated in 1889, but it was not until 1894 that capital was issued. Including loans, the authorised capital is £764,000, and £533,000 ordinary stock has been issued, and £127,000 3 per cent. debenture stock. To December 31, 1914, capital had been over-expended by £31,017, almost entirely provided by temporary loans. The line, 21 miles in length, was opened on December 1, 1897, and is to be worked in perpetuity by the Barry Railway Company, which is to maintain and work the road for 60 per cent. of the gross receipts, the Vale of Glamorgan Company, however, in the first place to receive 4 per cent. out of the gross receipts. The accounts are now made up to December 31, and submitted in February. For the two half-years to December, 1902, $3\frac{1}{2}$ per cent. per annum was paid; to June and December, 1903, 4; and for the eighteen half-years to December, 1912, and the years 1913 and 1914, $4\frac{1}{18}$. Carried forward at December 31, 1914, £417. On account of 1915, $4\frac{1}{18}$ per cent. per annum was paid in August.

Voting power, one vote for every £10 of ordinary stock up to £100, one vote for every additional £50 up to £1,000, and one for every £100 beyond. Director's qualification, £500 of ordinary. Telephone number, 503, Barry. Latest prices—ordinary, $85\frac{1}{2}$; debenture stock, 68.

Van Railway Company.—*Secretary:* W. J. Lavington. *Office:* Dashwood House, E.C.—The company was registered as limited June 9, 1870, under the title of the Van Railway Company, Limited, to construct a railway about $6\frac{1}{2}$ miles in length in connection with the Van Mine, but subsequently the word Limited was dropped, a Board of Trade certificate having been obtained. The authorised capital, including loans, is £26,666, and there have been issued—£20,000 ordinary shares of £1 5s., and £3,000 debenture stock. There has been no dividend on the shares since 1884, and debenture interest fell into arrear. In October, 1895, an agreement was come to with the Cambrian Railways Company to exercise running powers over the Van Railway, the Cambrian Company to pay a toll of £150 per annum and to keep the line in necessary repair, the agreement to be for a period of fourteen years, subject to termination on six months' notice at the option of the Cambrian Company in certain eventualities. Subsequent to this agreement, rent-charge creditors agreed to reduce their claims by one-half, and the interest on the debenture stock was also reduced, all arrears of rent-charge and debenture interest being at the same time cancelled. This agreement has since been terminated and a new one arrived at by which the Cambrian Railways Company pays £80 per annum instead of £150; this has necessitated a further reduction in the rent-charge and in debenture, and such payments are being met. The secretary is acting as receiver. No report has recently been issued, but the above information is official. Voting power, one vote per share. Director's qualication, 150 shares. Transfer form, common; fee, 1s. per deed.

Vandalia Railroad Company.—*Directors:* J. J. Turner (President), J. P. Green, W. H. Lee, D. T. McCabe, V. T. Malott, J. D. Oliver, G. L. Peck, C. H. Seybt. C. M. South, E. B. Taylor and H. G. Veeder. *Office:* Pittsburg, Pa., U.S.—This company is the result of the consolidation, as on January 1, 1905, of five companies, and the total mileage owned is 651. The share capital is $14,613,950, a large majority of which is held by the Pennsylvania Company, and the total bonded debt on December 31, 1914, was $19,127,818. The accounts are made up annually to December 31, and submitted in April. For 1905 4 per cent. was paid on the shares; for 1906, $4\frac{1}{2}$; for 1907, 1908, 1909 and 1910, 5 each year; for 1911, $2\frac{3}{4}$; for 1912 and 1913, 4; and for 1914, nil, there being a surplus for 1914 over charges of $112,345, increasing the credit to profit and loss brought forward to $905,883. The following issue is known here:—

$17,184,000 Consolidated mortgage 4 per cent. bonds of $1,000 each, $9,879,000 being series A (part of $15,000,000 authorised) and $7,305,000 series B (part of $10,000,000 authorised), the total authorised of the two series being thus $25,000,000. Coupons on the A series are payable February 1 and August 1, and the principal is repayable February 1 1955; and coupons on the B series are payable May 1 and November 1, and the principal is repayable November 1, 1957, with the privilege of earlier redemption from a sinking fund. All payments are made in gold in New York. Of the above B series about $400,000 was offered for sale here in April, 1910, by Messrs. Speyer Brothers, 7, Lothbury, E.C., at the price of $100\frac{1}{2}$ per cent., a further amount of about $1,000,000 having already been placed, and applications were simultaneously received in New York. A sufficient amount of the bonds is reserved for the retirement of the balance of $1,899,000 of the funded debt, subject to which the consolidated mortgage bonds are a first charge on the property. The bonds are to bearer, but may be registered as to principal at the office of the Farmers' Loan and Trust Company in New York, or may be registered as to both principal and interest, and registered bonds can be reconverted into bonds to bearer, the fee for either operation being $1 per bond. Latest price of bonds in New York, 86.

Venezuela Central Railway Company, Limited.—*Directors:* N. G. Doyle (Chairman), W. Chaplin, A. Cherry and H. B. F. Knight. *Acting Secretary:* H. M. Shefford. *Office*, 123, Dashwood House, E.C. —The company was registered July 7, 1905, and owns and operates a railway under concession from the Venezuelan government for 99 years from January, 1911, while at the end of the period the lines revert to the government without payment. There is no monetary guarantee under the concession. The line from Caracas to Santa Lucia, 52 kilometres, was opened for traffic in January, 1911, and that from Santa Lucia to Santa Teresa, with a small branch, was opened at the close of 1913, the lines in operation being of a total length of about 62 kilometres. Moreover, the company has certain rights as to construction of further lines, and a railway from Santa Teresa to Aponte, adjacent to Ocumare, a distance of about 22 kilometres, is now under construction. About 10 kilometres of the line has been equipped for electric traction.

The authorised capital is £200,000 in shares of £1, all of which has been subscribed and paid up. In June, 1910, the debenture debt was reconstructed, and in place of one class of debentures there were issued two classes, each limited to £2,500 per kilometre, while in February, 1914, a further issue of first debentures was made for the purpose of carrying out the construction of the railway beyond Santa Teresa. There are now—6 per cent. first debentures of £10 each for £240,000 (the total authorised), with interest payable April 1 and October 1 (see below), and the principal repayable through a sinking fund in thirty-three years from 1920, the company having reserved the right on or at any time after December 31, 1921, to give six months' notice to redeem any of the debentures on any April 1 or October 1 at 110 per cent. (of these debentures £155,000 was issued in part exchange for old debentures under the reconstruction plan of June, 1910, and £85,000 was issued in February, 1914, at 80 per cent.); and second 6 per cent. debentures of £10 each for £134,150 (part of £155,000 authorised), with interest payable April 1 and October 1 (not met) only out of the net earnings of the railway until the full interest shall have been paid for three consecutive years, and the principal repayable from a sinking fund in thirty-three years from 1953.

At a meeting of holders of the first debentures in September, 1915, it was agreed to release the company from its obligation to pay the interest on the first debentures due October 1, 1915, the directors having asked for this relief owing to the cost of repairing the damage caused to the railway by floods and injury to the crops by locusts, &c. The debenture holders further agreed that until the company shall, out of its net profits, have paid the full interest on the first debentures for a continuous period of three years, one-half of each instalment of interest, commencing with the payment due April 1, 1916, shall be payable only out of net profits, and shall be non-cumulative. The one-half of each instalment of interest which is thus payable out of net profits only is to be paid so soon after the December 31 in any year as it shall have been ascertained that there are net profits of that year available for such payment, but the interest (if any) payable out of profits in respect of 1915 shall be a proportionate part only of the interest for a year calculated in respect of the period from October 1 to December 31, 1915. So soon as the interest on the first debentures shall have been paid in full for three consecutive years, the whole of the interest shall be payable on April 1 and October 1, but so that as regards one half of the instalment payable on the April 1 next after the expiration of such period of three years, the payment shall be only a proportionate payment calculated from the January 1 to the April 1.

The accounts are made up annually to December 31, and those for 1914 were submitted in November, 1915. Interest on the first debentures was guaranteed by the contractors up to the time that the line to Santa Teresa was constructed, and for six months thereafter. In respect of 1911 the contractors had to provide £1,436 under their contract to effect this payment, but in respect of 1912 and 1913 this was fully provided out of revenue, leaving a credit balance at the close of 1913 of £1,173, inclusive of £388 brought down; in respect of 1914 after meeting interest charges there was a loss of £10,050, thus converting the credit balance brought down into a debit of £8,876. Owing to the cost of repairing the damage caused to the railway by floods, the injury to the crops by locusts and other causes, the returns from the line were not sufficient to provide for the payment of interest on the first debentures due October 1, 1915, and the debenture holders agreed to forgo this payment, and also agreed to other modification of their rights, as detailed above. Sums advanced by the contractors (under their guarantee of debenture interest) are not subject to repayment by the company. The gross receipts for 1908 were £10,043; for 1909, £11,629; for 1910, £15,306; for 1911, £19,346; for 1912, £25,343; for 1913, £29,531; and for 1914, £24,673 (the working expenses for 1914 having been £19,331). Voting power, one vote for every share. Director's qualification, 250 shares. Transfer form, common; fee, 2s. 6d. Telegraphic address, Revival, London. Telephone number, 5069 London Wall. The debentures are quoted in the official list. Latest price of first debentures, 67½.

Vera Cruz and Pacific Railroad Company.—Under this title bonds for $7,000,000 (U.S). were issued; the Vera Cruz and Pacific Railroad Company was subsequently reincorporated as the Vera Cruz to Isthmus Railway Company, which late in 1913 was merged into the National Railways of Mexico, and particulars of the Vera Cruz and Pacific bonds will be found in the notice elsewhere of the National Railways of Mexico.

Vera Cruz (Mexico) Railways, Limited.—*Directors:* Sir C. G. Hyde, Kt. (Chairman), J. B. Body (Managing Director in Mexico), J. H. Macdonald and Hon. W. H. M. Pearson. *Secretary:* A. Colls. *Office:* 47, Parliament Street, S.W.—The company was registered July 6, 1900, to acquire from S. Pearson and Son, Limited, railways of a total length of 63 miles, tramways 12 miles in length, a fleet of steamers, and over fifty acres of freehold land adjoining the Vera Cruz Harbour, with houses and warehouses, &c., while in connection with the railways the company has received a subvention of 270,000 acres of land. The tramways were disposed of in 1907-8 to the Vera Cruz Electric Light, Power and Traction, Limited, for £50,000 of debentures and £25,000 in £1 shares in that company, and in 1908 the company sold its interest in a concession, granted in 1906, for the construction and working of a terminal station at Vera Cruz, together with certain other properties there, consisting of land and a pier, to the Vera Cruz Terminal Company, Limited, for 2 (out of 18) £5 shares, and £13,700 of debentures of the Terminal Company (the debentures, with similar securities allotted to other railway companies, were issued publicly in April, 1908, on behalf of the Railway Company, at 96½ per cent.). The company has, in exchange for terminal facilities, jointly with the three other lines interested in

the Terminal Company, become responsible for the working expenses of that company, together with the interest on and redemption of the issue of its debentures. The company also has an interest in the profits of certain oil properties in Mexico.

The authorised capital is £750,000 in shares of £10, half being 6 per cent. cumulative preference, and half ordinary. In the event of liquidation the preference shares have a priority as to capital, and after repayment of the ordinary shares are to receive out of any surplus assets a further £1 per share. Of the preference capital, £250,000, and a like amount of ordinary, have been subscribed and called up, £125,000 of preference capital (reducing the amount to £250,000) having been surrendered. The original vendors guaranteed the full dividend on the preference shares up to June 30, 1910.

The accounts are made up annually to June 30, and those for 1913-14 were submitted in June, 1915. There has so far been no distribution on the ordinary shares, but the preference dividend has been paid to June 30, 1914. A guarantee of the preference dividend by the vendors expired at the end of 1910; for 1913-14 there was a net loss on working the railway and steamers of £324, exclusive of £2,000 written off for depreciation of steamers, and the preference dividend for that year was paid by means of a profit of £14,596 on sale of securities, the value of securities then on hand, at cost or under, being £58,775, besides which the company had advanced on security £66,200. It is expected that the working of the railway in 1914-15 will show a heavier loss than for 1913-14. Carried forward at June 30, 1914, £288, as against £566 brought into the accounts. Voting power, one vote for every share of either class. Director's qualification, 50 shares of either class. Transfer form, common; fee, 2s. 6d. Share warrants to bearer are issued for 1, 5, and 10 shares, fee, 2s. 6d. per warrant and stamp duty, and bearer warrants may be reconverted into registered shares on payment of a fee of 2s. 6d. Telegraphic address, Alveo, London. The preference shares are quoted in the official list; latest price, $5\frac{5}{16}$.

Vera Cruz Terminal Company, Limited.—*Directors:* V. W. Yorke (Chairman), W. Morcom (Mexico—Managing Director) and V. Vertiz (Mexico), all representing the Mexican Railway Company, Limited; H. I. Braschi, representing the Mexican government; G. W. Hoghton and F. Adams (Mexico), representing the Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited; and Sir C. G. Hyde, Kt., and E. S. A. de Lima (Mexico), jointly representing the Vera Cruz (Mexico) Railways, Limited, and the Vera Cruz al Istmo Railway Company (the last mentioned has now been absorbed into the National Railways of Mexico). *Secretary:* B. E. Holloway. *Office:* Finsbury Court, Finsbury Pavement, E.C.—The company was registered November 21, 1907, to carry into effect the provisions of a concession dated April 6, 1906, granted by the government of Mexico to the representative of the Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited, the Mexican Railway Company, Limited, the Vera Cruz and Pacific Railroad Company (subsequently the Vera Cruz and Isthmus Railroad Company, which has now been absorbed into the National Railways of Mexico), and the Vera Cruz (Mexico) Railways, Limited. Under this concession, which is for a term of 50 years, from May 29, 1906, the above-mentioned companies undertook to form the Vera Cruz Terminal Company, Limited, having for its principal objects the provision of facilities for handling and forwarding traffic at the Port of Vera Cruz, Mexico. The company is granted free importation for five years of all materials, machinery, &c., necessary for the construction and maintenance of the works, and for the services to be performed, and for the following ten years exemption from import duties to the extent of $20,000 (Mexican currency) per annum will be allowed, and afterwards an abatement of $10,000 per annum; during the continuance of the concession the terminal station, works and services, together with the capital invested, will be exempt from all federal and local taxes, with the exception of stamp duty; any railways which may in future have access to the Port of Vera Cruz, and wish to make use of the services of the company, will be entitled to do so upon equitable terms; and the rates which the company will, in agreement with the government, be empowered to charge for the services to be rendered, will be fixed upon a basis sufficient to cover the cost of working and maintenance, to provide for debenture interest and redemption, and for the creation of a fund for the renewal of the works and installations, and their enlargement, if required. The works authorised by the concession have been completed, and at the expiration of the concession the terminal station, lands, buildings and other real property of the company are to become the property of the Mexican government, free from encumbrance, with the exception of the lands, lines and piers taken over from the Mexican Railway Company, which are to revert to that company upon repayment of the consideration received therefor from the Vera Cruz Terminal Company. The terminal facilities include about 21 miles of railway.

The authorised share capital is £90 in 18 shares of £5, which are held by or on behalf of the Mexican government (4 shares), Mexican Railway Company, Limited (6 shares), Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited (4 shares), Vera Cruz and Pacific Railroad Company—now absorbed into the National Railways of Mexico (2 shares), and the Vera Cruz (Mexico) Railways, Limited (2 shares). An issue of £1,000,000 of debentures was authorised, of which £28,000 was allotted to the Mexican government for lands acquired, and £265,800 to the four railway companies named in payment for properties taken over, and as compensation for the loss of revenue which they will suffer owing to the Terminal Company taking over the pier and lighter businesses, while £700,000 of the debentures (including the £265,800 given to the four railway companies as above) was issued publicly at 96½ per cent. in April, 1908, and £272,000 has since been disposed of, making the total amount of £1,000,000 issued. They are of £100 each, carry 4½ per cent. interest, payable by coupon on January 15 and July 15 (July 15, 1915, not paid), are secured by a trust deed constituting them a specific first charge on the concessions, lands, lines and piers, and a floating charge on the undertaking and other property. The trust deed provides that an annual amount of £45,000 shall be paid into a service fund by half-yearly instalments, commencing on July 1, 1911 (the instalment due July, 1915, was not provided), while beginning with January 1, 1913, there is to be an additional sum of £3,075 per annum, any surplus of the fund after payment of interest to be applied to the redemption of the 4½ per cent. debentures by annual drawings (in December) at par, or by purchase in the market at or below par (the first redemption having taken place in 1913), this provision securing the amortisation of the debentures for £1,000,000 on or before January 1, 1976, while in the event of the issue of further debentures the above sums are to be correspondingly increased; the company may at any time after January 1, 1923, redeem additional

4½ per cent. debentures by drawings at par. The due payment of interest and the redemption of the 4½ per cent. debentures are secured by the joint and several undertakings of the Mexican Railway Company, Limited, the Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited, the Vera Cruz and Pacific Railroad Company, and the Vera Cruz (Mexico) Railways, Limited, who in addition undertake to provide any deficit in the working expenses of the company. Amount of 4½ per cent. debentures outstanding, £993,500. There have been created 5 per cent. second debentures to bearer, for £100,000, of which £92,500 has been deposited with the bankers as security for loans for £67,000.

The accounts are made up annually to June 30, and submitted in December. Interest on the debentures was met to January, 1915, but that due July 15, 1915, has not yet (November, 1915) been paid, neither was the amount provided for the redemption of debentures, and an informal committee has been appointed to confer with the directors in regard to a postponement of interest payments and the sinking fund. For 1911-12 there was a profit on working of £8,628; for 1912-13 a loss of £561; and for 1913-14 a profit of £8,542, and at June 30, 1914, after providing interest and sinking fund for the debentures, there was an accumulated debit to net revenue account of £171,811, inclusive of £106,696 brought down. Voting power, one vote for each share. Director's qualification, nil. Transfer form, common; fee, 2s. 6d.; transfers of shares are only permitted to a nominee of the Mexican government, or of one of the four railway companies named above. Telegraphic address, Vercruco, Ave, London. Telephone number, 2596 London Wall. The debentures are quoted in the official list; latest price, 57½.

Vicksburg, Shreveport and Pacific Railway Company.—*Directors:* L. A. Jones (President and General Manager), D. D. Curran (Chairman), J. B. Ardis, J. B. Monroe, W. P. Richardson, T. F. Steele and F. P. Stubbs, Jun. *Office:* New Orleans, Louisiana, U.S.—In February, 1886, Messrs. Sheppards, Pellys, Scott and Co. (now Sheppards, Pelly, Price and Pott), 57, Old Broad Street, E.C., placed $1,000,000 6 per cent. (now 5 per cent.) prior lien mortgage bonds to bearer, of $1,000 each, of this road, at the price of £214 per bond, and in March, 1887, the same firm placed, at £222 per bond, a further $323,000, making up the total authorised of $1,323,000; coupons are paid May 1 and November 1, and the bonds matured November 1, 1915, when they were extended to November 1, 1940, the rate of interest being reduced from 6 to 5 per cent., all payments being made in gold in New York, free of Federal income tax. Owing to default in interest on other issues the company went into the hands of a receiver in April, 1900, and was reconstructed in April, 1901, the present company entering into possession on May 1 of that year. The above-mentioned prior lien bonds were not affected by the reconstruction, and are a first charge on the property. The other capital issues are $2,856,500 of common shares; $2,142,800 5 per cent. non-cumulative preferred shares; and $1,922,000 5 per cent. general mortgage bonds, with interest payable May 1 and November 1, and the principal repayable May 1, 1941, the authorised amount being $3,500,000, of which $255,000 is held in reserve for future requirements, and $1,323,000 against the above-mentioned prior lien bonds. The Alabama, New Orleans, Texas and Pacific Junction Railways Company, Limited, is largely interested in this company, which owns 188 miles of road. The accounts are made up annually to June 30, and presented in November. The preferred dividend was paid for each of the six years to 1906-7; for 1907-8 there was no distribution; for each of the six years to 1913-14 the full rate was paid (annually about September), while for 1914-15 there was no distribution. In recent years the only dividends on the ordinary shares have been 2½ per cent. for 1902-3; 3 for 1903-4; 2 for 1904-5; and 2 for 1912-13, there having been no dividend on the common shares for the seven years to 1911-12 or for 1913-14 and 1914-15. After meeting fixed charges there was a surplus for 1914-15 of $109,186, increasing the credit to profit and loss brought down to $841,908, of which $483,446 had been invested in additions and betterments. The prior lien bonds are quoted in the official list; latest price, 108¼.

Victoria and Sidney Railway Company.—*Head Office:* Victoria, B.C.—In July, 1894, the International Financial Society, Limited, Dashwood House, E.C., offered for sale $250,000 5 per cent. first mortgage gold bonds, of $1,000 each, of this company, at the price of £212 per bond. The total issued is $300,000, which is the limit. Coupons are payable March 1 and September 1, and the principal is repayable at par September 1, 1917, the interest (only) being guaranteed to maturity, and so endorsed on each bond—as to 2 per cent. by the government of the province of British Columbia, and as to 3 per cent. by the corporation of the city of Victoria. All payments are made in gold by the Bank of British North America, in New York. The line is 16 miles in length, and has been in operation since June, 1894. The paid-up share capital is $103,000, and in the year to June 30, 1911, the gross earnings were $54,321, and the working expenses $33,710; in 1911-12, $59,713 and $50,927; in 1912-13, $78,861 and $52,957; and in 1913-14, $56,468 and $81,868 (later figures have not been received).

Victoria Station and Pimlico Railway Company.—*Directors:* W. H. Roberts (Chairman), Visc. Colville of Culross, J. Elger and W. F. Fladgate, M.V.O. *Secretary:* E. C. Price. *Office:* 57, Moorgate Street, E.C.—This company was established in 1858, and derives its revenue from the rent paid under agreement for 999 years by the Brighton, Chatham, and Great Western Companies, who use the station and the line. The Brighton pays £1,125 a year, and the Chatham and Great Western pay between them £32,000 a year. The Brighton Company has the custody of the line, and the expenses are paid rateably by all the companies using it. This arrangement gives the Victoria Company an income sufficient to pay 9 per cent. per annum on its ordinary stock, and this rate of dividend is now regularly paid January 1 and July 1, on which dates debenture interest and preference dividends are also paid. Out of the accumulation of the small annual surplus an extra ½ per cent. was paid for the second half of 1882, and similar distributions were made for the second halves of 1885, 1888, 1892, 1896, 1900, 1904, 1907, 1910 and 1914. The accounts are now made up annually to December 31, and submitted in February. Carried forward at December 31, 1914, £2,573. On account of 1915 4½ per cent. was paid in July. The capital consists of £132,322 in 4½ per cent. debenture stock, £130,000 in 4½ per cent. preference stock, and £225,000 in ordinary stock. Voting power, one vote for each £10 of ordinary or preference stock up to £100, one vote for every additional £50 up to £1,000, and one vote for every £100 beyond. Director's qualification, £500 of ordinary stock. Transfer form, common; fee, 2s. 6d. each stock; stock is transferable in amounts of £1 and multiples thereof. Fee for registration of probate, 5s. Villa Maria and Rufino Railway Company, Limited.—*Directors:* Lord St. Davids (Chairman), J. A. Goudge, E. Norman, Hon. R. E. Philipps and M. Van Raalte. *Secretary:* F. Sanders. *Office:* Dashwood House, E.C.—The company was registered December 3, 1888, to acquire a concession granted by the Argentine government for the construction of a railway 227½ kilometres (about 141¼ miles) in length. Under the concession the government gave a guarantee for interest during a period of eleven years from the date of the opening for traffic of each section of the railway, but towards the close of 1895 an agreement was come to with the Argentine government for a settlement of arrears of the guarantee, and a commutation of future payments thereunder, and the guarantee was cancelled as from January 1, 1896, the company having received 4 per cent. Argentine railway guarantees rescission bonds for £367,063. By this rearrangement the company is freed from all obligations of reimbursing sums received under the guarantee, and the government undertook not to grant any railway concession with guarantee or other aid within thirty kilometres of the company's line for ten years from 1895. The line belongs to the company in perpetuity, subject to the government right to acquire the property upon the expiration of the guarantee at the valuation price (to be mutually agreed upon), plus 20 per cent.

In 1894-5 interest on the then 5 per cent. debenture stock for £550,000 having fallen into arrear, a reconstruction of the debenture capital took place. As from July 1, 1905, the road has been leased in perpetuity to the Buenos Ayres and Pacific Railway Company, and in connection with this lease the old ordinary shares were written down to 25 per cent. of their nominal value, being then amalgamated with the preferred shares into guaranteed stock, while the old 6 per cent. second debenture stock was converted into an equivalent amount of 4 per cent. first debenture stock. The authorised capital is now £393,750 in guaranteed stock, ranking for dividends as stated below, and £673,500 in 4 per cent. first debenture stock, ranking as a first charge on the undertaking, with interest payable January 1 and July 1, while the principal is irredeemable except in the event of liquidation, and the amount may be increased to the extent of £4,000 for every additional mile of line built; and all the guaranteed and debenture stocks have been issued. To June 30, 1915, £73,457 had been advanced by the Buenos Ayres and Pacific Railway Company.

The accounts are made up annually to June 30, and submitted in November. The line was opened throughout on April 1, 1891. Under the lease as above the Buenos Ayres and Pacific Railway Company guarantees 4 per cent. interest on the debenture stock of the Villa Maria Company, with 3 per cent. per annum for four years from July 1, 1905, on the guaranteed stock of the Villa Maria Company; 3½ per cent. per annum for four years from July 1, 1909; 4 per cent. per annum for four years from July 1, 1913; and 4½ per cent. per annum from July 1, 1917, and thereafter. The guaranteed payments are being made, those on the guaranteed stock on April 1 and October 1. Voting power, one vote for each £25 of guaranteed stock. Director's qualification, £500 of guaranteed stock, held for three months. Transfer form, common; fee, 2s. 6d. per deed; stock of all classes is transferable in multiples of £1. Telephone number, 2610 London Wall. The company is quoted in the official list. Latest price of debenture stock, 67.

Marston, S. McRoberts, H. H. Rogers and J. W. Sterling. *Office:* 55, Wall Street, New York.—In May, 1912, Messrs. Higginson and Co., Bank Buildings, Princes Street, E.C., having purchased the same from the constructors of the railway, offered for sale $25,000,000 of first mortgage 5 per cent. gold bonds of $1,000, $500 and $100 each, at the price of 99 per cent., the lists being simultaneously opened in the United States, and the total amount now issued is $27,000,000. The bonds form part of a total authorised of $75,000,000, of which $48,000,000 is reserved for additions, improvements, &c.; the issue is a first mortgage on all the property of the company, including terminals, and the proceeds were to be applied in providing for the retirement of $17,000,000 of notes called for repayment June 1, 1912, and for additional equipment, &c. Interest is payable May 1 and November 1, and the bonds are repayable May 1, 1962, but they may be repaid by the company on any interest date before maturity at 110 per cent. and accrued interest. Principal and interest are payable in the United States, or by the agents of the company in London (the Farmers' Loan and Trust Company, Limited, 26, Old Broad Street, E.C.), at the fixed rate of exchange of $4.86⅝ per £ sterling. The company operates 503 miles of road, of which nearly 470 miles are owned in fee. For the year to June 30, 1914, there was a surplus, after meeting interest charges, rents, &c., of $1,260,852. The first mortgage bonds are quoted in the official list; latest price, 99¼.

Sperling and Co., Basildon House, Moorgate Street, E.C., at 87½ per cent., both interest and principal being guaranteed by the Russian government. Coupons are payable March 1 and September 1, and the bonds are to be redeemed at par by annual drawings (in June), commencing in 1911 and terminating in 1987. Wabash Railroad Company.—*Directors:* W. S. Pierce (Chairman), H. E. Cooper, R. M. Gallaway, R. Goelet, G. J. Gould, J. H. Harding, T. H. Hubbard, E. T. Jeffery, A. W. Krech, E. B. Pryor, J. J. Slocum and H. R. Winthrop. *Office:* New York.—The company in its present form dates from August 1, 1889, and in 1906 considerable alterations were made in regard to the capital issues known here, holders of the bulk of the A and B debentures accepting an option offered them of exchanging their holdings for certain amounts of new 4 per cent. refunding bonds, common shares and preferred shares, while all of the A debentures have now been exchanged. At

May 1, 1915 (according to the plan of reorganisation referred to below), the capital consisted of the common and preferred shares as stated below, and a funded debt of $108,285,377, in addition to receivers' certificates for $15,950,000. The accounts are made up annually to June 30, and usually published at the end of September. For 1904-5 and 1905-6 no payment was made on the A and B bonds, but all prior charges were met; for 1906-7 the outstanding A bonds received their full rate of 6 per cent., and the B bonds 1 per cent.; in respect of 1907-8 3 per cent. was paid on the A bonds, and 1 per cent. on the B; for 1908-9 2 per cent. was paid on the B; for 1909-10 4 per cent.; for 1910-11, 3; and for the four years to 1914-15, nil. For 1913-14, after setting aside $903,631 for additions and betterments, and charging bond interest (exclusive of the refunding and extension mortgage and the B bonds, both of which were not paid) there was a deficit of $2,584,087, increasing the debit to profit and loss to $12,253,074; in 1914-15, the net earnings from working were $5,903,951, against $5,562,882 in the previous year. The company owns and leases 2,040 miles of road. In December, 1911, receivers were appointed, and in the following month a committee was formed of first refunding and extension 4 per cent. bond holders with a view of formulating a reorganisation scheme in co-operation with Messrs. Kuhn, Loeb and Co., of New York, and this committee called for the deposit of refunding and extension bonds in New York with the Equitable Trust Company, and in London with Messrs. Robert Fleming and Co., 8, Crosby Square, E.C., and the Railway Share Trust Company, Limited, 3, Bank Buildings, E.C. Another committee of first refunding and extension bond holders was formed in New York, with the Central Trust Company as depository. Interest due on the first refunding and extension bonds on January 1, 1912, and since, has not been paid, but both the committees mentioned above offered to purchase the January, 1912, coupons of bonds deposited; interest on the first mortgage bonds has been paid to date.

In April, 1915, a plan of reorganisation was published, Messrs. Kuhn, Loeb and Co. being the reorganisation managers, and this plan has been declared operative. The reorganisation plan only alters the status of the first refunding and extension bonds, the preferred shares, and the common shares, as regards the securities known here, and of those securities not known here the reorganisation plan only affects 4½ per cent. gold notes for $5,000,000, against which certain securities pledged have been realised, and a new issue of $1,500,000 of 4 per cent. gold notes is to be made. As regards the preferred and common shares, under the plan of reorganisation these are to pay an assessment of 30 per cent. in cash, and against the old shares and this assessment the holders of old preferred shares will get 50 per cent. of new profit sharing preferred shares A, and 50 per cent. of new common shares, and the holders of the old common shares will get 50 per cent. of new profit sharing preferred shares A and 45 per cent. of new common shares; holders of the first refunding and extensions mortgage bonds, with all matured and unpaid coupons, except the coupon of January 1. 1912 (which will be paid to assenting holders in cash, with interest simultaneously with the issue of the new securities) on taking part in the underwriting and the cash assessments on the old preferred and common shares, will receive 120 per cent. in new convertible preferred shares B—as the holders of commanded preferred shares did not fully come into the scheme, holders of the first refunding and extensions bonds, who agreed to the plan, have been called upon to make payment of $654·82 per $1.000 bond, for which they will receive the preferred A and common shares which would have been given to the old shareholders had they come into the scheme (holders of the bonds had the option of paying this $654·82 per bond in full by October 8, 1915, or 10 per cent. only by that date, but the balance, with 6 per cent. per annum interest, by January 8, 1916. On reorganisation the new company will issue profit sharing preferred shares A for $46,200,000 (plus such a further amount not to exceed $5,000,000 as may be required for the sole purpose of making provision for holders of certain unsecured claims), and 5 per cent. convertible preferred shares B for $48,720,000. The preferred shares A will be entitled to 5 per cent. dividends in priority to the preferred shares B and the common, such dividends to be non-cumulative, and, after setting aside a sufficient sum to provide the dividend of 5 per cent. on the preferred shares B and 5 per cent. on the common shares, the preferred shares A are to be entitled to receive additional dividends at the same rate per cent. as any further dividend which may be declared in respect of that year upon the common shares; the preferred shares A will at the option of the company be redeemable, as an entirety, at any time after five years from the date of issue, upon twelve weeks' notice, at 110 per cent., and, in the event of liquidation, the preferred shares A will have a priority as regards capital over the preferred shares B and the common shares, and, after repaying the preferred shares B and the common shares, the preferred shares A, the preferred shares B, and the common shares will rank equally on surplus assets. The preferred shares B will rank for preferential dividends of 5 per cent. per annum, non-cumulative; the holders will at any time after August 1, 1918, and up to thirty days prior to any date fixed for the redemption of the preferred shares A, have the right of exchanging their preferred shares B for 50 per cent. of profit sharing preferred shares A, and 50 per cent. of new common shares, with a proper adjustment of declared and unpaid dividends; the preferred shares B will, at the option of the Company, be redeemable as an entirety, at any time after five years from the date of issue, upon twelve weeks' notice, at 110 per cent., and in the event of liquidation, the preferred shares B are to have a priority as regards capital over the common shares, while, after repayment of the preferred shares A, the preferred shares B, and the common shares, all the three classes are to rank equally on the remaining assets. The assessment of 30 per cent. on the old preferred and common shares has all been called up. Under the plan of reorganisation the absolute fixed charges of about $5,800,000 per annum prior to reorganisation have been scaled down to about $3,200,000. The scheme provided for cash requirements of nearly $28,000,000, including $16,428,500 for receiver's certificate and interest to August 1, 1915,, and $3,500,000 working capital. The capital issues known here are as under, the two classes of shares and the first refunding and extension bonds (to the extent of $35,602,000) being quoted in the official list, as well as the certificates of deposit issued by the Equitable Trust Company of New York for the first refunding and extension bonds:—

$53,200,213 Ordinary shares of $100.

$39,200,213 Preferred shares of $100, ranking before the ordinary for 7 per cent. non-cumulative dividends, and equally with the ordinary in all above 7 on both classes.

$33,900,000 Five per cent. first mortgage bonds of $1,000 each, with interest payable May 1 and November 1, and the principal falling due May 1, 1939, all payments being made in gold in New York. The bonds are to bearer, but may be registered as to principal only at the company's office in New York, no fee being charged ; bonds once registered must remain so. The authorised total is $34,000,000. Latest price in New York, 102.

West of India Portuguese Guaranteed Railway Company, Limited.—*Directors:* E. E. Sawyer (Chairman), Lt. J. V. Da Cruz (Government Director), H. Van B. Collet, E. S. Pemberton and C. P. Whitcombe. The company also has a representative director in Lisbon. *Secretary:* G. K. Wasey. *Office:* 4, Coleman Street, E.C.—The company was registered April 26, 1881, to construct a railway, 51 miles in length, through Portuguese-Indian territory. Interest at the rate of 5 per cent. per annum was originally guaranteed by the Portuguese government on a capital of £800,000, and the government agreed to guarantee 6 per cent. per annum interest on any additional capital, should it be required, and this further guarantee has been given on a sum of £550,000. The authorised capital is £800,000 "capital stock," and £550,000 debenture stock, and all has been issued—the debenture stock with 5 per cent. interest, payable January 15 and July 15, and redeemable at the

company's option at any time after 1925 on six months' notice, or earlier if the government acquires the line. Any surplus profits, after providing for the guaranteed dividends, are to be divided between the Portuguese government and the company. Any deficiency in earnings to meet expenses is to be a first charge on net earnings of succeeding years.

The guaranteed interest was originally secured by the appropriation of the annual sum of four lacs of rupees, payable by the British government to that of Portugal under the treaty of Lisbon of 1878. The following statement is from the company's prospectus:—"If, at the expiration of the first twelve years of the treaty of Lisbon, the annual payment of four lacs be discontinued, the company is to have the option of making over the railway and other works to the Portuguese government, who shall thereupon repay to the company the full amount expended on the works executed by the company, with 10 per cent. added thereto, and shall purchase all the rolling stock, &c., at a valuation. If the company should wish to make over the undertaking to the Portuguese government after the expiration of the first thirty years, without renewal of the aforesaid treaty, it shall have the right to do so, and to receive from the Portuguese government the amount actually expended on the railway, telegraph and other works executed by the company, and all other articles and things of every kind then belonging to the company, and the government shall purchase the rolling stock at a valuation. After the expiration of the first thirty years of the said convention, or at any previous period on the expiry of the treaty of Lisbon without renewal, it shall be lawful for the Portuguese government, on two years' previous notice, to redeem the concession and purchase from the company, for a sum in sterling equal to the amount of the value of all the shares, debentures and stocks of the company, calculated at their mean market value for the three years preceding the expiration of the notice, the railway and ancillary works, excluding rolling stock and stores, which shall be purchased by the Portuguese government separately at a valuation. Provided nevertheless that the price to be paid by the Portuguese government shall never be less than the amount actually expended by the company on the railway, telegraph and other works At the expiration of the ninety-nine years, the railway and other works become the property of the Portuguese government. The treaty of Lisbon was ratified in 1879, for twelve years (to January, 1892), and, if not denounced, was to run for another twelve years. The British government, however, denounced the treaty, which terminated January 14, 1892, negotiations for a renewal having proved futile. Negotiations were then carried on for a considerable time between the Portuguese government and the company, the result of which was an offer by the Portuguese government to deposit annually, in three instalments, in a bank in Bombay, for the purposes of the guarantee to the company, the sum of 600,000 rupees, to be derived from the Abkari duties of the whole of the Portuguese possessions in India, or, should they not suffice, the amount to be made up from the general revenues of the state. The term Abkari includes the tax on cocoanut and other trees worked for the manufacture of native spirit, the still-head duties, and the licences for the sale of native and foreign wines and spirits. In the event of any failure to meet its guarantee on the part of the Portuguese government, the board has retained the right to claim repayment of the capital on six months' notice, and the government has the right to give a similar notice should it at any time desire to take over the line instead of at the periods fixed by the contract of 1881. The Portuguese government has also agreed to give to the railway company a first charge on any subsidy which may be payable by the English or Indian government in the event of another treaty being arranged.

The accounts are made up annually to December 31, and submitted in June. A portion of the line was opened in January, 1887, and the whole system has been in operation since the end of January, 1888. In 1905 there was a profit on working of 220,840 rupees, in 1906 a profit of 208,947 rupees, in 1907 a profit of 458,590 rupees, in 1908 a profit of 353,953 rupees, in 1909 a profit of 336,556 rupees, in 1910 a profit of 491,488 rupees, in 1911 a profit of 491,221 rupees, in 1912 a profit of 364,944 rupees, in 1913 a profit of 493,065 rupees, and in 1914 a profit of 560,470 rupees. As from July 1, 1902, and until June 30, 1917, the undertaking is to be worked by the Southern Mahratta Railway Company, the working expenses of the two lines to be borne by each company in proportion to their respective gross earnings. The government guarantee is duly met, and the 5 per cent. dividends on the capital stock are paid January 15 and July 15. A sinking fund has been established for the redemption of the debenture stock in 1987, the amount of which on December 31, 1914, was £46,323; reserve account, £158,717.

Voting power, one vote for each £100 of capital stock. Director's qualification, £1,000 of capital stock. Transfer form, common; fee, 2s. 6d. per transfer. All payments are made in New York. The bonds are to bearer of $1,000 each, but may be exchanged, free of charge, in New York, into registered bonds of $500, $1,000, $10,000 and $50,000, with interest payable by cheque forwarded to the registered holder; registered bonds may not be exchanged back to bearer bonds. is £105,000, of which £32,500 has been raised by 6 per cent. preference (A) shares of £10, £42,500 by ordinary (B) shares of £10, and £30,000 by 5 per cent. debenture stock, with interest payable June 30 and December 31. Meetings are held in September and March to receive the accounts to June 30 and December 31. The preference dividend is now computed to June 30 and December 31. The line is 11½ miles in length. The Ebbw Vale Steel, Iron and Coal Company, Limited, has guaranteed all payments down to and sufficient to cover 5 per cent. per annum on the ordinary shares. These payments were regularly made to June, 1902, but for the fifteen half-years to June, 1909, only the preference dividend was paid (owing to provision having to be made to pay off loans, now all liquidated), and in lieu of dividends ordinary shareholders received an allotment of debenture stock for the period 1902-9, making the total of debenture stock issued as above; in respect of the second half of 1909, the dividends on the preference and ordinary shares at the above rates, and the interest on the debenture stock, were paid for four months to December 31, the shortened period being due to a change in the accounts; and for the eleven half-years to June, 1915, 5 per cent. per annum was paid on the ordinary shares. Voting power, one vote for every share, ordinary or preference, up to 10, one for every 5 shares beyond up to 100, and one for every additional 10 shares. Director's qualification, 50 shares of either class. For some years the working of the line was carried on at a loss, and the Ebbw Vale Company asked to be relieved of its liability to carry on the traffic of the road, a proposal to which the directors of the West Somerset Company agreed, subject to the guaranteed dividends being paid as heretofore. The traffic has now been entirely stopped.

White Pass and Yukon Railway Company, Limited.—*Directors:* C. C. Macrae (Chairman), Hon. S. C. Glyn (Vice-Chairman), E. Hanson (Montreal) and E. F. North. *Secretary:* J. A. Robertson. *Office:* Basildon House, Moorgate Street, E.C.—The company was registered July 30, 1898, to acquire the capital of three companies—one incorporated by act of parliament of the Dominion of Canada, one by act of the legislature of British Columbia, and one incorporated in the United States of America—whose powers comprised, inter alia, the construction of a railway from Skaguay Harbour to Fort Selkirk (about 325 miles), on the Yukon. As from May 1, 1901, the company acquired the steamships on the River Yukon and other properties of the Canadian Development Company, the business being transferred to the British Yukon Navigation Company, Limited (incorporated under the laws of British Columbia), the equity in the shares of which is owned by the White Pass and Yukon Company. The first section of the line (to Lake Bennett) was opened on July 6, 1899, and the second section (to White Horse) was opened on July 30, 1909; the main line at present constructed is 112¼ miles, and a line of steamers runs from White Horse to Dawson City on the River Yukon, connecting therewith steamers running to points on the Lower Yukon river.

The authorised capital is £1,700,000 in shares of £10, of which £1,000,000, fully paid, was issued to the contractors in part payment for construction, and in payment for the rights and concessions acquired, £100,000 was issued at par for cash and paid up, and £275,000, fully paid, was issued in 1901 to the shareholders to represent revenue appropriated to capital purposes, making a total allotted of £1,375,000. There is also 5 per cent. consolidated first mortgage debenture stock for £791,504 (including scrip as stated below for interest due January 1 and July 1, 1915), part of a total authorised of £794,802; the stock was originally created for the purpose of consolidating pre-existing debenture stocks, holders of which were offered the option of conversion into the new stock, and of the original issue of stock not so taken the balance was issued on cash subscriptions at par in December, 1900; interest is payable January 1 and July 1, and the stock is repayable at par December 31, 1930, with the option to the company of redemption at 110 per cent. at any time after December 31, 1920, on six months' notice, and in case of voluntary liquidation. A sinking fund has been created on a 3 per cent. basis for the redemption of the debenture stock at maturity on December 31, 1930, and the company has undertaken to pay into the sinking fund out of the profits for each year £16,586 (the sum required on a 3 per cent. basis to provide for the redemption of the stock at maturity), or to purchase, out of such profits, debenture stock of that nominal amount; to June 30, 1915, the sinking fund amounted to £282,485, including the extra amount set aside each year for the redemption of the branch line bonds held in the sinking fund (see below), of which £202,406 had been employed in acquiring £211,726 of the above-mentioned first mortgage debenture stock, and £67,000 in acquiring bonds for that amount of the British Yukon Railway Company. The stock is secured on the bonds and share capital of the local companies owning the existing railway of 112¼ miles (see below). An issue of £255,555 of 6 per cent. debentures of £100 (and one of £55, which was paid off in January, 1911) was made in 1901 in payment for the properties of the Canadian Development Company, and by the issue of £17,885 of registered debentures of £7 in payment of interest due January 1 and July 1, 1915 (referred to below), the amount of debentures outstanding has been raised to £273,385; these debentures rank as a first charge on the properties purchased, and as a second charge (after the above-mentioned debenture stock) on the other properties; the interest dates are January 1 and July 1, and the debentures are (now) redeemable at par on December 31, 1930, or, at the company's option, at 5 per cent. premium on any interest date previously, on six months' notice. All of these debentures, excepting, of course, those issued in 1915 for funding purposes, were offered for sale by public prospectus in February, 1902, at par; they were formerly redeemable at par not later than January 1, 1911, but the conditions were altered in 1906.

In the spring of 1908 the British Yukon Railway Company (the local company incorporated by the act of parliament of the Dominion of Canada) was authorised under a new act of parliament of the Dominion of Canada to construct a branch line of about 16 miles to the White Horse copper mines, and to issue 5 per cent. bonds to an amount not exceeding £6,000 per mile, secured upon such branch line. During 1908 the first seven miles were completed and opened for traffic, in respect of which £42,000 of bonds were issued, while against engineers' certificates of work done on the remainder of the branch line a further £7,000 of bonds were issued, making the total £49,000. During 1910 the branch line was extended a distance of about 4¼ miles to reach the Pueblo Copper Mine, making the total present length of the branch line about 11¼ miles. At an extraordinary general meeting of the holders of the 5 per cent. consolidated debenture stock, held on February 21, 1908, a special resolution was passed, under which the trustees of the sinking fund for that stock were authorised to purchase the bonds of the British Yukon Railway Company to an amount not exceeding £6,000 a mile as part of the investment for the sinking fund, and £67,000 of bonds, which have been guaranteed by the White Pass and Yukon Railway Company, Limited, have been so purchased. A separate sinking fund (on a 3 per cent. basis) has been established for the redemption of these bonds.

In March, 1914, the company issued £70,000 of 6 per cent. secured notes, repayable by annual drawings (in November) of not less than £14,009; these notes were issued to enable the White Pass and Yukon Company to make an advance to the American Yukon Navigation Company (whose steamers plying on the Yukon river below Dawson connect there with the steamers of the White Pass and Yukon route), to assist that company in acquiring the fleet of another steamship company, the competition from which in the year 1913 prevented the local companies (subsidiary to the White Pass and Yukon Company) from declaring any dividends. The £70,000 of 6 per cent. notes are secured by a first charge of $4 per ton on certain specified freight; amount outstanding, £56,000. There are also loans for £30,000.

The accounts are made up annually to June 30, and submitted in December. For 1900-1 a dividend of 5 per cent. in cash was paid (in April, 1901), and 25 per cent. in shares was distributed in August, 1901, to represent revenue appropriated to capital purposes up to June 30, 1901; for 1901-2 there was no dividend; for 1902-3, 5 per cent. was paid; for 1903 4, 4; for 1904-5, 1905-6 and 1906-7, 5 each year; for 1907-8, 4; for 1908-9 and 1909-10, 2; for 1910-11 and 1911-12, 1; and for 1912-13 and 1913-14, nil. Owing to rate cutting as the result of competition from another steamship company (terminated in the early part of 1914), the local subsidiary companies of the White Pass and Yukon Company were unable to declare any dividend on their shares for the year 1913, and hence the White Pass and Yukon Company, after providing for interest on debenture stock and debentures (but not the sinking funds) and all charges, incurred a loss for the year to June 30, 1914, of £10,186, thereby reducing a credit balance of £25,801 brought forward to £15,614, which was carried over. At meetings of the holders of the 5 per cent. consolidated first mortgage debenture stock and the 6 per cent. debentures held in December, 1915, the holders of the two classes respectively agreed that interest payable January 1 and July 1, 1915, with a bonus of 1 per cent. added thereto should be paid and satisfied by the issue of debenture stock and debentures respectively (or of scrip certificates) ranking equally with the existing debenture stock and debentures. Voting power, one vote for every share. Director's qualification, 25 shares. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in multiples of £1. Telegraphic address, Closely, London. Telephone number, 1741 London Wall. The company is quoted in the official list. Latest price of first debenture stock, 48.

Zafra and Huelva Railway Company.—*Directors in London (forming the London Committee):* Sir K. J. Matheson, Bart. (Vice-President), R. H. C. Harrison, H. M. Matheson, Maj. H. A. Micklem, D.S.O., J. Steuart and H. J. Wenham. *London Secretary:* H. B. Milne, 3, Lombard Street, E.C. *Head Office:* Madrid.—In June, 1884, an issue was made in London by Messrs. Matheson and Co., 3, Lombard Street, E.C., of 28,000,000 pesetas 3 per cent. bonds of 500 pesetas (£20) each of this Spanish company, at £10 13s. per bond, and in April, 1889, a similar amount was issued at £11 9s. 6d. per bond, thus completing the total authorised of 56,000,000 pesetas, of which 46,084,000 pesetas is outstanding. Coupons were payable January 1 and July 1, in London, Paris or Madrid (in London by the issuing firm), and the bonds were to be repaid (in London or Madrid) by half-yearly drawings (at Madrid) in January and July, for repayment in the same month, over ninety years, commencing July, 1890. There are also 3 per cent. second mortgage obligations of 500 pesetas for 21,161,500 pesetas (outstanding balance of 21,500,000 pesetas), identical with the first mortgage as to payments and drawings. At December 31, 1914, there were bankers' advances for £23,338. The share capital is 28,000,000 pesetas in fully-paid shares of 500 pesetas. The line is 180 kilometres (112½ miles) in length, and was constructed under concession from the Spanish government, who contributed a portion of the cost. The line reverts to the government in 1987 without further payment. Interest on the bonds was regularly met until January 1, 1894, but default took place on both classes on July 1, 1894, and there were no drawings in that month. An arrangement was then come to, terminating in 1899, under which small payments were made only on the first mortgage bonds.

In 1899 a fresh arrangement was come to by which it was provided that for the ten years ending 1908 the whole of the net proceeds of the railway should go to the first mortgage bonds—80 per cent. as interest, and 20 per cent. in redemption of bonds by tender or purchase—while in subsequent years the net proceeds are to be applied in like manner, excepting that if in any year the 80 per cent. applicable for interest on first mortgage bonds shall exceed the full rate of 3 per cent. per annum, nothing shall be paid in excess of 3 per cent., any surplus of the 80 per cent. of net earnings to be applied in payment of interest and redemption of second mortgage bonds in the proportion of 80 per cent. of such surplus for interest, and 20 per cent. for redemption. It was decided in 1908 to set aside annually for some years to come the sum of £5,000 to a special fund for permanent way renewal, &c. Under the 1899 scheme the following payments have been made (in April of each year) on the first mortgage bonds: 1905, 3s.; 1906, 5s. 6d.; 1907, 8s. 7d.; 1908, 8s.; 1909, 6s. 8d.; 1910, 6s. 9d.; 1911, 5s. 3d.; 1912, 7s.; in 1913, 8s.; in 1914, 8s. 1d.; and in 1915, 2s. 11d., while in 1905 £4,555 was applied in the purchase of first mortgage bonds by tender; 1906, £7,813; 1907, £11,699; 1908, £10,565; 1909, £8,955; 1910, £8,831; 1911, £6,780; 1912, £8,781; 1913, £9,874; 1914, £9,921; and 1915, £3,704, leaving the amount outstanding as given above. The payment of interest in April of each year was against and in full discharge of the two coupons falling due in the preceding July and January.

The accounts are made up annually to December 31, and submitted in Madrid in March. The net earnings of the line in 1905 were £37,493; in 1906, £57,498; in 1907, £52,685; in 1908, £43,646; in 1909, £43,458; in 1910, £33,321; in 1911, £43,756; in 1912, £49,325; in 1913, £49,271; and in 1914, £17,702 (after setting aside £5,000 each year in respect of the seven years to 1914 for permanent way renewal, &c.), while special expenditure incurred in 1912 and 1913 of £21,112 for re-sleepering, &c., was provided out of current revenue, and further sums yet to be expended are to be written off over a limited number of years. In 1915, to September 30, the gross earnings were £72,973, as against £116,258 in the same period of 1914. The first mortgage bonds are quoted in the official list; latest price, 81s. 3d.

Banking and Discount Companies.

In the event of liquidation of British Companies the Companies Consolidation Act of 1908 *provides that a past member shall not be liable to contribute, in regard to uncalled capital in limited companies, if he has ceased to be a member for one year or upwards before the commencement of the winding up of the company; and there is the further limitation that all present shareholders must first be exhausted before past shareholders are called upon, while in no case are past shareholders responsible for debts incurred after they left the company.*

In regard to Banking Companies not registered under the Companies Acts, the liability of the shareholders is, as far as possible, stated in each separate notice.

Reserved liability is a term used in reference to such portion of the uncalled capital as may only be fallen back upon for the purposes of winding up.

The French law courts have decided that holders of partly-paid shares to bearer are liable for the balance of the amount subscribed.

Inman. *Head Office:* Threadneedle Street, E.C.—The first charter was dated July 27, 1694, during the reign of William and Mary. The object was to lend the government £1,200,000 at 8 per cent., and with that foundation grew up the state debt to the bank, which now stands at £11,015,100. The amount in 1834 was £14,686,800, when one-fourth was repaid by an issue to the bank of an equivalent of 3 per cent. "reduced" stock, which stock was subsequently converted into an annuity for twenty-six years. This annuity expired in 1860. In 1892 an important rearrangement of the relations between the Bank of England and the government took place, one point of which was the reduction in the rate of interest on the above government debt of £11,015,100 from 3 per cent. to 2¾, the alteration dating from April 5, 1892; this regulation remained in force until April 5, 1903, from which date the rate was reduced to 2½ per cent. The act of 1844 authorised the issue of notes to the extent of £14,000,000 against "securities" of equal value, of which the government debt of £11,015,100 was to form part—all notes above the £14,000,000 to be secured by an equal amount of gold. Upon this simple arrangement the "issue department" was made automatic. The bank can only issue more notes by the deposit of gold, and only withdraw that gold in the proportion in which the notes are returned. The amount of the notes now issued upon the security of the "government debt" and the "other securities" is £18,450,000. This increase is owing to the lapsed country issues being in some cases taken up by the bank under the law of 1844, to the extent of two-thirds, which additional issue takes place upon a deposit of stock to this extent in the issue department.

The proprietors' capital is £14,553,000 in stock, and there is a reserve fund, called "rest," of over £3,000,000. Half-yearly meetings are held in March and September to declare dividends to February 28 and August 31, but no accounts are published other than those issued weekly. In each of the ten years to 1913 both the April and October dividends were at the rate of 9 per cent. per annum, free of income tax, while in February and August, 1914, and February and August, 1915, the rate was 10 per cent. per annum, subject to income tax. No person is entitled to more than one vote; a member is not qualified to vote in any general court unless he holds £500 stock (whether in his own right or in trust for another person), and has been possessed thereof for at least six calendar months, unless he has acquired the said stock by transmission on death or by marriage. Where stock stands in the joint names of two or more members, they may, by writing under their hands, in a form provided on application at the Bank of England, nominate one of their number to vote in respect of such stock; and if none of them is so nominated the one whose name stands first in the register of members shall be qualified to vote. The nomination referred to must be lodged at the head office of the Bank in London, for examination, not less than ten clear days before the first general court at which the nominee desires to vote. Director's qualification, £4,000 of stock for governor, £3,000 for deputy-governor, and £2,000 for other directors. The stock is quoted in the official list amongst British Funds, &c. Latest price, 230¼.

Bank of England stock is amongst those securities in which trustees, not prohibited by the terms of their trust, may invest. The dividends are paid April 5 and October 5.

TRANSFERS.—Transfers of securities domiciled with the Bank of England are in some cases effected by signature in the books, and in other cases by stamped deed in the usual way, but in regard to British Government securities—that is, Consols, the 2½ and 2¾ per cent. annuities, Local Loans stock, Guaranteed 2¾ and 3 per cents. (Irish Land stocks), War stock (1925-28), and War stock (1925-45)—there are two classes, one transferable by signature in the books, and the other transferable by deed. As regards securities transferable by signature in the books, the transfer days are Monday, Tuesday, Wednesday, Thursday and Friday, or on Saturday (between 11 a.m. and 12.30 p.m.) upon payment of a fee of 2s. 6d. Instructions for transfers are received between 9.30 a.m. and 1 p.m., and between 1 and 3 p.m. on payment of a fee of 2s. 6d. Transfers must be executed between 11 a.m. and 3 p.m. Transfers can be accepted between 9.30 a.m. and 4 p.m. (9.30 a.m. and 1 p.m. on Saturdays). Transfers of Bank stock are charged 9s. for sums of £25 and under (including stamp duty), and 12s. for sums over £25, but with this exception, and the special fees mentioned above, transfers of stock made by signature in the books are free of charge. Transfers of Eastern Bengal Railway annuities, and Scinde, Punjaub and Delhi Railway annuities, and of Eastern Bengal Railway, East Indian Railway, Great Indian Peninsula Railway, and South Indian Railway debenture stocks, and Egyptian Government 3½ per cent. preference stock, are subject to stamp duty, but other stocks managed by the Bank are free of stamp duty. All transfers of securities transferable by signature in the books must be made by the stockholder, or by his duly authorised attorney. Eastern Bengal Railway annuities, and Scinde, Punjaub and Delhi Railway annuities are not transferable in fractional parts of £1, except when such fractional parts have been allotted to the stockholders in respect of their former holdings of railway stock. Stockholders who may find it inconvenient to attend at the Bank to accept stock can obtain confirmation of the inscription of a sum of stock by forwarding the stock receipt, with a request for confirmation and a postal order for 1s., to the Chief Accountant, Bank of England, E.C. The stock receipt will be returned enfaced with a statement as to the inscription of the stock.

In regard to securities transferable by deed, as from April 1, 1912, in accordance with Act 1 & 2 Geo. V., cap. 48, sec. 17, and the regulations made thereunder, holders of the following stocks, viz.: Consols, the 2½ and 2¾ per cent. annuities, Local Loans stock, the Guaranteed 2¾ and 3 per cents. (Irish Land stocks), War stock (1925-28), and War stock (1925-45), inscribed in the bank books may demand that their stock, or part thereof, be registered as stock transferable by deed. The demand must be made in the prescribed form, and be lodged at the bank, either by hand or through the post, together with a fee of 2s. 6d. On registration of the stock as stock transferable by deed the stock will become so transferable and will cease to be transferable in the stock transfer books. A certificate of registration in respect of the stock will be issued in due course. Deeds of transfer must be executed by all the transferors and transferees, the execution by each party being attested by a credible witness. The common form of transfer deed may be used, and no stamp duty is payable. On lodgment of the deed of transfer at the bank, which can be effected at any time during the bank's business hours, the register certificate must be

surrendered, and a fee of 2s. 6d. paid. On registration of the transfer a register certificate in the name(s) of the transferee(s) will be issued. When the deed of transfer relates to part only of the stock held by the transferor(s) a register certificate will be issued for the balance of the stock. Holders of stock for the time being registered as stock transferable by deed may demand that their stock, or part thereof, shall cease to be transferable by deed and become transferable in the stock transfer books (i.e., by the stockholder or his attorney attending in person at the bank, being identified by a stockbroker, and executing a transfer in the books). The demand must be made in the prescribed form, and be lodged at the bank with the register certificate and a fee of 1s. A certificate of inscription of the stock will be issued in due course; this document is of value as a memorandum only, the stockholder's title being the entry in the bank books. When the demand relates to part only of the stock a register certificate will be issued for the balance of the stock. Transfers of Eastern Bengal Railway, East Indian Railway, Great Indian Peninsula Railway, and South Indian Railway debenture stocks are made by stamped deed in the usual way; transfers of Thames Conservancy debenture stock, Belgian 3 per cent. stock, Chinese 5 and 4½ per cent. stocks, and Greek 2½ per cent. stock by unstamped deed. British Government securities are transferable in any amount; Eastern Bengal Railway and Thames Conservancy debenture stocks are transferable only in multiples of £1; East Indian Railway, Great Indian Peninsula Railway, and South Indian Railway debenture stocks in multiples of £10; and Belgian 3 per cent. stock, Chinese 5 and 4½ per cent. stocks, and Greek 2½ per cent. stock, in such amounts sterling as are represented by the relative bonds. Holders of Chinese 5 and 4½ per cent. bonds, Greek 2½ per cent. bonds, and Belgian 3 per cent. bonds, may at any time exchange their bonds for stock on payment of the commutation stamp duty of 1s. 3d. per £10, or part thereof, and holders of stock of the above issues may at any time exchange the same for the relative bonds, but such holders will be liable for any stamp duty which may be payable in respect of the bonds. Stock can be transferred to a person, or persons (not exceeding four), or to a corporation (acting by seal)—(*a*) by the stockholder, or in a joint account, by all the stockholders (or, if the stockholder, or surviving stockholder, is deceased, by his executors or administrators), attending in person at the Bank of England, being identified by a stockbroker, and executing a transfer in the bank books; (*b*) by a duly authorised attorney, in like manner. Production of the stock receipt, which a stockholder receives from his stockbroker when he buys stock transferable in the stock transfer books (or the certificate of inscription which he obtains on exchange of stock transferable by deed for stock transferable in the stock transfer books), is not necessary on transferring such stock. These documents are of value only as memoranda, the title of the stockholder being the entry in the bank books. Stockholders who may find it inconvenient to attend at the Bank to accept stock can obtain confirmation of the inscription of a sum of stock by forwarding the stock receipt, with a request for confirmation and a postal order for 1s. to the Chief Accountant, Bank of England, E.C. The stock receipt will be returned enfaced with the statement as to the inscription of the stock. In transferring stock transferable by deed the registered certificate issued must be surrendered when the stock to which it relates is being dealt with. The transfer books of Bank stock are not now (as was formerly the case) closed for the preparation of the dividend. The balance for the dividend is struck on the evening of the day on which the general court of proprietors is held at which the dividend is declared, and on the day following the stock is transferable ex dividend. In the case of other stocks the balance for a dividend is struck on or about the 1st of the month next preceding that in which the dividend is payable. The balance for the dividend on Bank stock, however, is struck about the middle of March and September. Registers of British 2½ per cents., 2¾ per cent. annuities, Guaranteed 3 and 2¾ per cent. stocks (Irish), Local loans stock, and India 2½, 3 and 3½ per cent. stocks are kept at the Bank of Ireland as well as the Bank of England, and stock registered on the books of either bank can be transferred to the other free of charge. For particulars as to the arrangements at the Bank of Ireland, see the notice of that company.

DIVIDENDS.—Dividends on all securities payable at the Bank of England are now distributed on their due dates. Coupons payable at the Bank of England must be presented at the dividend pay-office between the hours of 10 a.m. and 3 p.m. (10 a.m. and 12 noon on Saturdays), and must be left three clear days (if presented at a branch, five clear days), or, in the case of Egyptian coupons, four clear days, for examination. Dividends on sterling stocks transferable in the Bank books are now paid by warrants sent by post (*a*) without application, to the sole or first or first surviving stockholder or executor or to the administrator; (*b*) upon application, to any stockholder, executor, or administrator (other than the sole, or first, stockholder, executor, or sole administrator), or to any person, firm, or company, upon the written request, in the prescribed form, of all the stockholders, executors, or administrators. The payment of dividends on personal attendance has been discontinued. Forms of postal request can be obtained at the Bank of England, or at any of its branches. Forms of postal request in respect to English Government stocks can also be obtained at any money-order office throughout the United Kingdom. A separate form must be used for each separate holding of stock. Postal dividend warrants are crossed, and consequently are only payable on presentation through a banker. The Postmaster-General has instructed the postmasters of the various money-order offices throughout the United Kingdom to cash postal warrants for dividends on English Government funds when the persons presenting them are known and the funds at the disposal of the office permit, but such persons cannot demand the payment of their warrants. Dividend warrants are not posted to foreign addresses except at the special request of stockholders made on the prescribed form which may be obtained at the Bank of England. Dividends on Indian Railway and Thames Conservancy debenture stocks, Belgian 3 per cent. stock, Chinese 5 and 4½ per cent. stocks, Greek 2½ per cent. stock, and Corporation of London 2½ per cent. debenture stock are paid only by transmission of warrants through the post to the stockholders or their nominees.

Dividends on Indian rupee promissory notes and registered stock are paid: (*a*) On personal application at the India Office, Bank of England—to the owner of the notes or stock, or to his attorney or agent; (*b*) by post—to the owner of the notes or stock, or to his attorney or agent. Dividends on promissory notes and registered stock are paid by bills of exchange on India, commonly called interest bills. In order to prepare the dividends on promissory notes, the notes must be left personally by the proprietor, or his agent, at the India Office, Bank of England, for at least seven days, receipts being

given in exchange, but the notes must in no case be sent by post. As an interest bill is payable in India in rupees, the bill is usually sold in London, for sterling, at the exchange of the day, through a banker or other agent.

The dividend room at the head office is open from 9.30 a.m. to 4 p.m. (9.30 a.m. to 1 p.m. on Saturdays), and the India Office, Bank of England, is open during the same hours.

Stock certificates are issued to "bearer," but holders of English Government Funds, and of Metropolitan, London County, New Zealand, New South Wales, Queensland and Transvaal stocks, can insert a name, and so make the certificate "nominal," in which case it cannot be reinscribed in any name other than that so inserted. "Nominal" stock certificates, if duly endorsed, may be exchanged for "bearer" certificates on payment of a fee of 1s. per certificate. Certificates may be exchanged for either larger or smaller denominations, on payment at the rate of 1s. per certificate surrendered. Subsequent to the date on which the last coupon is payable, a stock certificate, upon its presentation at the Chief Cashier's office, will be exchanged, free of charge, for a new certificate. This regulation does not apply to stocks whose term of currency has expired.

Promissory notes of the Indian rupee 3½ per cent. loans of 1842-3, 1854-5, 1865, 1879 and 1900-1, and the 3 per cent. loan of 1896-7 can be converted into stock at the India Office, Bank of England, free of charge, but should application be made for reconversion of such stock into notes within six months the transaction will be treated as an exchange of notes for notes, and a fee of 2s. per note charged. Promissory notes of the above-mentioned rupee loans can be obtained in exchange for stock on payment of a fee of 2s. per note issued. Notes of which the backs are filled with endorsements or memoranda can be renewed at the India Office, Bank of England, on payment of a fee of 2s. per note surrendered, but should any note be subdivided a fee of 2s. per note issued in exchange will be payable. Stock can be transferred to India, and certificates of the transfer obtained, at the India Office, Bank of England. Loan certificates, with coupons attached, of the 3½ per cent. loan of 1854-5 can be exchanged for stock at the India Office, Bank of England, free of charge ; but stock cannot be exchanged for loan certificates.

INVESTMENT OF DIVIDENDS ON 2½ PER CENT. CONSOLIDATED STOCK, 2½ PER CENT. ANNUITIES, LOCAL LOANS STOCK, GUARANTEED 2¾ PER CENT. STOCK (IRISH), GUARANTEED 3 PER CENT. STOCK (IRISH), WAR STOCK (1925-28), WAR STOCK (1925-45), TRANSVAAL STOCK, INDIA STOCKS, METROPOLITAN CONSOLIDATED STOCKS AND LONDON COUNTY COUNCIL STOCKS.—The Bank of England is prepared, in accordance with instructions received from the Treasury, the Secretary of State for India in Council, and the London County Council, to undertake the investment, in the same stock, of the dividends upon 2½ per cent. consolidated stock, commonly called "Consols," 2½ per cent. annuities, Local Loans 3 per cent. stock, Guaranteed 2¾ per cent. stock (Irish), Guaranteed 3 per cent. stock (Irish), war stock (1925-28), war stock (1925-45), Transvaal 3 per cent. guaranteed stock (1923-1953), India 3½, 3 and 2½ per cent. stocks, Metropolitan 3½, 3 and 2½ per cent. stocks, and London County consolidated 3½, 3 and 2½ per cent. stocks. The instructions apply only to stock transferable in the stock transfer books and to amounts of stock less than £1,000. Such stock may stand in one, two, three or four names. In joint accounts, one at least of the stockholders must be over twenty-one years of age, except in cases provided for in the Act, 55 and 56 Vict. ch. 39, sec. 3 (where the limitation of £1,000 does not apply). In these cases, viz. :—(*a*) Where an infant is the sole survivor in an account ; (*b*) where an infant holds stock jointly with a person under legal disability ; (*c*) where stock has by mistake been bought in or transferred into the sole name of an infant, the Bank may, at the request in writing of the parent, guardian, or next friend of the infant, receive the dividends and apply them to the purchase of like stock, and the stock so purchased shall be added to the original investment. In these cases the limit of £1,000 mentioned above does not apply. Proof of the date of birth of any stockholder under twenty-one years of age must be lodged with the Bank of England. The stock must already be standing in the applicant's name. The Bank does not undertake the original investment. The investment of a dividend will not take place until the first working day of the month following that in which it is

due, thus giving a stockholder the opportunity of applying to receive the warrant for any particular dividend by post, if he wishes to do so. All unreceived arrear dividends (if any) are dealt with at the time of the first investment under the order. For each £1 or part of £1 invested there will be a charge of 1d. Should a stockholder wish to be informed of each purchase, the Bank of England will furnish particulars for an additional charge of 3d. per investment. These charges will be deducted from the dividends before the investments are made. When any person who has elected to dispense with advices subsequently makes inquiry as to the amount of the accumulated stock, he will be furnished with such information upon payment of 3d. per investment, with a maximum charge of 2s. 6d. Orders to invest are cancelled (*a*) by the sum of stock exceeding £1,000; (*b*) by the death of a stockholder; (*c*) by a written request to stop the purchases; (*d*) by the coming of age of a minor in the account. The dividends cannot be invested on an account in which a deceased name appears, and it should be remembered that proof of death does not remove a stockholder's name from the Bank books. Forms can be obtained on application at the Head Office of the Bank of England, or at any of its branches. All communications on the subject should be addressed to the Chief Accountant, Bank of England, London.

Powers of Attorney.—Powers of attorney in respect to stock transferable at the Bank, enabling any named persons to act for stockholders, may be obtained at the Power of Attorney Office, Bank of England, on the necessary instructions being lodged by hand. Horsfall, Bart., Lord Kinnaird, K.T., G. Macpherson, J. E. Mounsey, E. H. Parker, H. E. Seebohm, Sir J. Smith, H. E. Snagge, P. Tew, H. L. M. Tritton, J. H. Tritton, F. B. Whitfeld, C. M. Woodbridge and R. Woodhouse. *General Manager:* F. C. Goodenough. *Assistant General Manager:* W. F. Tuke. *Secretary:* E. Fisher. *Assistant Secretaries:* W. N. Seeley and E. C. Ruggles-Brise. *Head Office:* 54, Lombard Street, E.C.—The company was registered July 20, 1896, to acquire the banking businesses of Messrs. Barclay, Bevan, Tritton, Ransom, Bouverie and Co., of London and elsewhere, Messrs. Gurney and Co., of Norwich and elsewhere, as well as several other businesses in different parts of England, while other undertakings have since been absorbed, including the Stamford, Spalding and Boston Banking Company, Limited, in 1911; Messrs. J. and C. Simonds and Co. in 1913; and Messrs. Nevile, Reid and Co. in 1914. Late in 1912 50,000 new shares were created, increasing the capital to £9,000,000 in shares of £20, all of which was subscribed, and £3,600,000, or £8 per share, paid up (including 50,000 shares issued in December, 1912, at a premium of £8 10s. each), and has been converted into 450,000 A fully-paid shares of £4, and 450,000 B shares of £16, with £4 paid up on each. The A and B shares are entitled to rank pari passu for dividend on the amount paid up, the dividend on the former being limited to 10 per cent. per annum, while the B shares take any surplus divisible profit.

In October, 1915, the directors issued a circular to the shareholders stating that earlier in the year provisional terms for amalgamation had been arranged with the United Counties Bank, Limited, under which the existing B shares of Barclay and Company, Limited, were to be subdivided into denominations of £4 each, with £1 paid, while a further 900,000 B shares of £1 each were to have been created, and there were to have been issued three B shares of £4 each, with £1 paid, in Barclay and Company, Limited, in exchange for every share of £20, with £4 paid, in the United Counties Bank, Limited, and in addition one fully-paid A share of £4 in Barclay and Company for every twelve shares in the United Counties Bank, Limited. Moreover it was intended to create 200,139 new A shares of £4 each in Barclay and Company, Limited, and to offer them at a premium to shareholders of both banks. The Treasury Committee for dealing with new capital issues, however, would not sanction the scheme, which consequently fell through, but in October, 1915, a provisional agreement was entered into for the joint working of the two banks, and this was approved by the shareholders in November, 1915. Under the agreement four directors of each bank join the board of the other (the directorate of Barclay and Company, Limited, as above, having been revised in accordance with this agreement). The two banks while remaining distinct agree to use their best endeavours to promote the interests of the other, and it was provided that (1.) The dividends payable by each bank in any one year are to be paid only out of the profits of that year, and (except by mutual consent) are not in the case of Barclay and Company, Limited, to exceed 10 per cent. per annum on the A shares and 17½ per cent. per annum on the B shares, less income tax in each case, and in the case of the United Counties Bank, Limited, are not (except by mutual consent) to exceed £13 19s. 2d. per cent. per annum, less income tax. If the profits of the United Counties Bank, Limited, in any one year are not sufficient to allow of a distribution of the sum of £166,570, less income tax, being the amount required for payment of a dividend at the above rate, Barclay and Company, Limited, are to contribute such a sum not exceeding £10,000 per annum, less income tax, as may be necessary to make good the deficiency. Surplus

profits, subject to depreciation of investments, are, as from January 1, 1916, to be divided between the two banks in the proportions approximately of three-fourths to Barclay and Company, Limited, and of one-fourth to the United Counties Bank, Limited, but such surplus profits (except by mutual consent) are to be held in reserve. (2.) Each bank agrees to recommend to its shareholders the adoption of the original agreement for amalgamation as soon as the sanction of the Treasury Committee can be obtained or is no longer necessary. (3.) In the event of either bank declining to carry out such amalgamation, the other bank may either determine the joint working agreement (depriving the dissenting bank of any surplus profits it may have received) or continue the joint working agreement, which runs for ten years from January 1, 1915, with power of extension for a further ten years.

The accounts are made up annually to June 30, and submitted in July, an interim dividend (in 1915 of $8\frac{3}{4}$ per cent. on the B shares) being paid in February. For each of the eight years to 1908-9, 15 per cent. was paid; for 1909-10, 1910-11 and 1911-12, $12\frac{1}{2}$; for 1912-13, $13\frac{1}{3}$; for 1913-14, $18\frac{3}{4}$; and for 1914-15. $17\frac{1}{2}$. Reserve fund, £1,600,000 (invested); carried forward, £70,623 after placing £500,000 to investment reserve account. Dividends, formerly paid free of income tax, are now paid less tax. Voting power, one vote for every 5 shares. Director's qualification, 500 shares of each class. Transfer form, special; fee, 2s. 6d. Telegraphic address, Fifty-four, Stock, London. Telephone numbers, 798 Avenue and 2800 Central. The shares are quoted in the official list. Latest prices, A shares, $8\frac{3}{32}$; B shares, $11\frac{3}{8}$.

Commercial Bank of Australia, Limited.—*London Directors:* G. Niven and A. Williamson. *London Manager:* G. W. Wallace. *London Office:* 2a, Bishopsgate, E.C. *Head Office:* Melbourne.— The company was established in 1866, and on April 4, 1893, suspended payment. On April 28, 1893, a new bank was registered under the same title as before, under the Victorian Companies Act of 1890, and subsequently took over the old bank, and in 1896 it was found necessary to again carry through a reorganisation plan. In 1897 £4 per ordinary share was written off, and in 1902 a further reduction of £5 10s. per share was made. The authorised capital is now £3,150,000—£150,000 in ordinary shares of 10s., and £3,000,000 in preference shares of £10. Under the rearrangement of 1896 the preference shares are entitled to dividends of 4 per cent. per annum, those for the first three years (dating from July 1, 1896) being cumulative at the rate of 2 per cent. per annum, and thereafter cumulative at the rate of 3 per cent. per annum. The preference shares have also a priority over the ordinary as to capital, while in the event of a final distribution of assets the ordinary shares are to rank as of £6 each, surplus profits to be divided amongst all the shares equally irrespective of class. The subscribed capital is now £95,659 in fully-paid ordinary shares of 10s. (having been reduced in 1902 from £6), and £2,117,350 in fully-paid preference shares of £10. The bank is legally advised that there is no special liability on the part of the shareholders for notes in circulation (amounting on June 30, 1915, to £39,124). The accounts are made up to June 30 and December 31, and submitted in Melbourne early in August and February, dividends on shares registered in London being paid immediately on telegraphic advice of their declaration. For the twenty-nine half-years to December 31, 1913, the preference shares got 3 per cent. per annum; and for the three half-years to June, 1915, 4. Carried forward, £9,576. In 1909 an "Assets Trust" special reserve account of £295,000 was applied in reduction of the estimated deficiency in connection with the Special Assets Trust Company, Limited, and out of the profits of the twelve half-years to December, 1914, £278,000 (nothing to June, 1915) was set aside for the reinstatement of capital, the proportions ranging from £15,000 to £30,000 per half-year.

The main object of the plan of 1896 was to separate the bulk of the business prior to suspension of 1893 from new business obtained by the bank. The entire block of old assets was transferred to the Special Assets Trust Company, Limited, these assets having been written down by £1,200,000 on the reduction of the ordinary capital by that amount in 1897, referred to above. The deposit receipts issued under the plan of 1893, and outstanding at the time of the reconstruction in 1896, were exchanged to the extent of one-third into deposit receipts of the bank, bearing interest at the rate of 3 per cent. per annum until September 30, 1899, and thereafter at the rate of 3½ per cent. per annum; these deposit receipts have all been paid off. The remaining two-thirds of the old deposit receipts were made a first charge upon the remaining assets of the old bank existing prior to the suspension in 1893, and carrying 3 per cent. interest from July 1, 1896, such interest to be paid half-yearly out of the proceeds of realisations and income from the said assets, while the punctual payment of interest is guaranteed by the bank, for the payment of which, if necessary, the bank is to make advances. All moneys received in respect of the old assets are to be placed to the credit of a special account applicable at the end of each half-year, when such amount totals £50,000 or upwards, after providing interest and other expenses chargeable on the assets of the old bank, to redeeming a portion of the deposit receipts, such portion to be determined by drawings or by tenders, while all the deposit receipts not repaid previously are to be redeemed July 1, 1916, any deficit on realisation of assets to be provided by the bank. Amounts owing on current and deposit accounts received by the bank subsequent to the suspension in 1893 rank as a first charge on the new assets of the bank, prior to the deposit receipts issued in respect of the old liabilities. At June 30, 1915, the outstanding deposit receipts of the Special Assets Trust amounted, with accrued interest, to £36,301. In 1901 a new general manager was appointed, and he immediately proceeded to make a fresh valuation, with a view to ascertaining the liability of the bank in respect of its guarantee of the deposit receipts of the Special Assets Trust Company. Previously to this valuation, the bank's interest in the Special Assets Trust Company had been valued at about £700,000, but the valuation disclosed a deficiency of assets as against liabilities in the Trust Company of £1,500,000, which

deficiency was at June 30, 1915, estimated at £760,662. Any loss now made in connection with the operations of the "Trust" company is provided for before the profits of the bank are struck.

Voting power, one vote for every share of either class. Director's qualification, 100 shares of either class, held for three months. A register of shares, both ordinary and preference, is kept in London. Transfer form for London register, special; fee, 2s. per transfer. Shares can be transferred from the London register to Melbourne, but not vice versâ. Telegraphic address, Cubiform, London. Telephone number, 703 Avenue. English, Scottish and Australian Bank, Limited.—*Directors:* C. J. Hegan (Chairman), J. A. Bryce, M.P., Hon. Sir J. A. Cockburn, K.C.M.G., J. Jackson, Visc. Knutsford and J. Paterson. *London Manager and Secretary:* E. M. Janion. *Office:* 38, Lombard Street, E.C.—The English, Scottish and Australian Chartered Bank was incorporated in 1852. The bank suspended payment April 12, 1893, and on August 9, 1893, the present bank was registered to take over the undertaking, business being resumed August 21, 1893. The old bank had a capital of £900,000 in shares of £20, subscribed and paid up. For each old share there was issued one new share of £35, with £10 credited as paid, while a further £12 10s. per share was called up; in 1897-8 a further £10 per share was written off as lost, and the authorised capital is now £1,078,875 in shares of £25, all subscribed, and £539,437 10s., or £12 10s. per share, paid up. It is claimed that there is no special liability on the part of the shareholders for notes in circulation (amounting on June 30, 1915, to £2,052).

At the time of the suspension of the bank there was a sum of £4,630,000 due on terminal deposits and current accounts, beside £838,000 due to the government, to note holders, and on bills payable, &c. Provision was made for the cash payment of this £838,000, and to the remainder of the creditors certain securities were issued. In 1896 relations with the creditors of the bank again underwent some reorganisation, and there are now—£983,547 4 per cent. perpetual debenture stock, with interest payable January 1 and July 1, and the principal repayable at the option of the bank on six months' notice at 5 per cent. premium; £889,419 3 per cent. perpetual preferred inscribed deposit stock, with interest payable January 1 and July 1; and £686,000 3 per cent. deferred inscribed deposit stock, with interest payable July 1 (or, at the option of the directors, January 1 and July 1), but only if earned; after meeting interest on the perpetual debenture stock and the preferred inscribed deposit stock, and 3 per cent. on the deferred inscribed deposit stock, £15,000 is to go to the reserve fund for securing the interest on the preferred inscribed deposit stock, and then the deferred stock is to get an extra 1½ per cent. per annum. There were 4 per cent. terminable deposit receipts, but these have now all been redeemed. One-fourth of the sum declared by the directors as available for dividend in any one year is to be applied in the redemption of deferred inscribed deposit stock, the redemption to be effected by purchases or drawings. To June, 1915, there were also new deposits at interest and current accounts for £7,058,797, these ranking equally with the debenture stock as a first charge on the assets.

The accounts are now made up annually to June 30, and submitted in October or November, an interim dividend (in 1915 of 4 per cent.) being paid in May. To June 30, 1899, no dividend on the shares was paid by the new bank, and the deferred inscribed deposit stock received only 3 per cent. per annum; since then the deferred deposit stock has received 4½ per cent. per annum (3 per cent. per annum on January 1 and July 1, and 1½ per cent. actual after the annual meeting), and for 1899-1900 2½ per cent. was paid on the shares; for 1900-1, 3½ per cent.; for 1901-2, 4; for 1902-3, 4; for 1903-4 and 1904-5, 4 each time; for 1905-6, 4½; for 1906-7 and 1907-8, 5; for 1908-9 and 1909-10, 6; for 1910-11, 7; and for the four years to 1914-15, 8 (free of income tax). Reserve fund, £400,000; carried forward, £33,229. Voting power, one vote for each share. London Bank of Australia, Limited.—*Directors:* D. Finlayson (Chairman), R. J. Black, G. H. Campbell, A. Cunningham, Hon. Sir A. Lawley, G.C.S.I., E. V. Reid and G. Slade. *Manager and Secretary:* W. H. Barber. *Accountant:* A. A. Shipston. *Office:* 71, Old Broad Street, E.C.—The company was registered August 2, 1893, to take over the business of the London Chartered Bank of Australia, which was established in 1852. The authorised capital was £4,000,000 — £1,500,000 in preference shares of £10, and £2,500,000 in ordinary shares of £40—but in 1899 £10 per ordinary share was written off on a revaluation of assets, and in 1903 £7 10s. per ordinary share, reducing the authorised ordinary capital to £1,386,067 in shares of £22 10s. The amount of ordinary shares allotted is £1,104,817, with £491,030, or £10 per share, called up, and of the preference capital £171,930 has been allotted as fully paid. The preference shares formerly ranked first for cumulative dividends up to 5½ per cent., with a priority as to capital; the ordinary were then to receive 5 per cent., and of any surplus profits one-half was to go to the preference shares, to make up the total dividend to 7 per cent., but it was provided that when the preference shares should have received five yearly dividends at the rate of 7 per cent. their priority as to dividends was to cease, and this five years period was completed by the payment of the dividend for 1914, so that the two classes of shares now rank equally as to dividend, although the preference have a priority as regards capital. Of the uncalled capital, £12 10s. per share is reserved liability. There is no extra liability on the shareholders for notes in circulation (amounting on December 31, 1914, to £7,155), "as same is provided for by securities vested in trustees."

The accounts are made up annually to December 31, and submitted in May. For 1903, 1904, 1905 and 1906 the ordinary shares received 2½ per cent. per annum; for 1907, 3½; for 1908, 4; for 1909, 1910, 1911 and 1912, 5; for 1913, 6; and for 1914, 7; while in respect of 1910, 1911, 1912, 1913 and 1914 the preference shares received an additional 1½ per cent., the last payment having the effect, as stated above, of cancelling all distinction between the two classes as regards dividend, although the preference retain their priority as to capital. Reserve fund, £300,000; carried forward, £28,317. On account of 1915 an interim dividend of 3½ per cent. on both classes was paid in November. Transfer form, ordinary; fee, 2s. 6d. per deed. The deposit receipts are transferable by special endorsement; fee, 2s. 6d. Telegraphic address, Repliames, London. Telephone number, 3286 London Wall (two lines). Queensland National Bank, Limited.—*London Directors:* R. H. Spens (Chairman) and D. W. Macdonald. *London Manager:* J. W. Dickinson. *London Office:* 8, Princes Street, E.C. *Head Office:* Brisbane.—The company was registered at Brisbane in 1872 under the Queensland Companies Act (1863); on May 15, 1893, the bank suspended payment, and a scheme of arrangement with the creditors was carried out without liquidation. The bank resumed business in Brisbane August 2, 1893, and in London September 22, 1893. Towards the close of 1896 it was found necessary to make fresh arrangements with the old creditors of the bank, and a scheme of arrangement was carried through in May-June, 1897, while towards the close of 1904 a further rearrangement took place in regard to the amount owing to the Queensland government. Under the rearrangement of 1893 a sum of £2 per share was written off the capital, and under the rearrangement of 1897 £3 per share, the subscribed capital being now £800,000 in shares of £5, with £480,000, or £3 per share, called up, but 21,572 shares have been forfeited.

Under the rearrangement with the government in 1904 in respect of the debt of £1,463,660, promissory notes were given extending from June 30, 1904, to June 30, 1921, to mature annually, with the right to the bank to anticipate maturity, and in 1905 the bank commenced to take up these notes; at December 31, 1914, the amount owing to the government was £61,097, representing the remaining note due June 30, 1921, which has since been paid off. As regards old general creditors, interminable inscribed deposit stock was issued for three-fourths of their claims, with 3½ per cent. interest, payable March 31 and September 30, and dating from March 31, 1897, while the principal of the stock has no fixed date of repayment, although the bank, after paying the government in full, will have the option of redeeming the stock or any portion thereof at the market value, but not less than par. The remaining one-fourth owing to general creditors of the bank is to be paid off out of profits arising from the business, which are now appropriated—75 per cent. amongst the registered holders of stock until they shall have received the sum of 5s. in the £ upon the principal moneys represented by the securities, against a portion of which the stock was issued; and the remaining 25 per cent. is being carried to the reserve fund. New current accounts or fixed deposit accounts opened since the reorganisation plan of 1893 were not affected by the plan of 1897, and have a priority over old creditors. At June 30, 1915, the amount of interminable inscribed deposit stock was £3,091,669 (£1,490,343 held in Great Britain); the amount owing to the general creditors and payable out of profits was about £489,514, of which £38,645 was repaid on September 30, 1915; and the amount owing in respect of new deposits was £7,591,692, including £1,871,986 owing to the Queensland government and £12,639 to the Commonwealth of Australia. The bank does not now issue notes.

The accounts are made up to March 31 and September 30 in London, and to June 30 and December 31 in the colony, and submitted in Brisbane in July and January. For each of the fourteen half-years to June 30, 1906, the net profit was £12,000; for each of the two half-years to June, 1907, £16,000; for each of the two half-years to June, 1908, £20,000; for each of the five half-years to December 31, 1910, £25,000; for each of the two half-years to December 31, 1911, £36,000; for each of the three half-years to June, 1913, about £48,000; and for each of the four half-years to June 30, 1915, about £50,000—these amounts were appropriated in accordance with the scheme mentioned above, a reserve fund of £190,000 having now been accumulated, while the general creditors received, in respect of the one-fourth of their claims payable to them out of profits, as stated above, one-fortieth each time in September, 1900, September, 1902, September, 1904, March, 1906, September, 1907, and September, 1908; three-eightieths each time in September, 1909, and September, 1910; one-twentieth in September, 1911; one-fortieth in March and September, 1912; three-eightieths each

time in March and September, 1913, one-twentieth in November, 1913, three-eightieths in March and September, 1914 and 1915, making a total so far repaid of forty-eight eightieths. At June 30, 1915, the balance at credit of the private depositors' repayment fund after the payment in September, 1915, was £50,104, of which the payment on March 31, 1915, absorbed £38,645.

Insurance.

It is general for Insurance Companies with unlimited liability to have a clause in their policies limiting the liability of the shareholders to the amount of capital subscribed, and the Act of 1862 *specifically exempted such clause from interference by that Act, while the Companies Consolidation Act of* 1908 *also contained such exemption. Insurance Companies should have no liability to other than policy-holders; but if they had, the liability of the shareholders would not be affected by the clause referred to.*

Kilpatrick. *Office:* 1, Dale Street, Liverpool.—The company was established in 1836, on July 25, 1904, was registered under the Companies Acts as an unlimited company, and on August 26, 1910, was re-registered as limited. In addition to life and fire the company undertakes accident, fidelity, burglary, marine, &c., business. The company has from time to time taken over the businesses of other concerns, and in 1907 acquired the whole of the share capital of the Central Insurance Company, Limited, while late in 1911 the purchase was effected of practically all the shares of the Thames and Mersey Marine Insurance Company, Limited, as detailed in the notice of that company. The capital of the Liverpool and London and Globe Insurance Company, Limited, consisted of £245,640 stock dealable in amounts of £2, and there were perpetual "Globe" annuities amounting to £49,626 per annum, but when the company was re-registered as limited in 1910 the nominal capital was increased to £3,000,000 in shares of £10, and for each £1 of stock there was given one share of £10 with £1 per share paid up. Additional shares have since been allotted, and the subscribed capital is now £2,655,250 in shares of £10, with £265,525, or £1 per share, paid up. At the same time as the old stock was converted into shares the "Globe" annuities were converted into 4 per cent. irredeemable debenture stock in the proportion of £25 of debenture stock for every £1 annuity. As of the outstanding annuities £17,394 had been purchased by the company, the conversion entailed the issue of debenture stock for £805,800. The debenture stock is secured by the company having placed in the hands of trustees sufficient security to cover the amount outstanding of the stock, together with an amount sufficient to place the stock on a 3 per cent. basis in the event of the company going into liquidation; the interest dates are June 1 and December 1. The trust deed for the debenture stock provides for the value of the investments being maintained. There is also 4 per cent. "Thames and Mersey" debenture stock for £450,695 (part of £460,000 authorised), with interest payable January 1 and July 1, and the principal repayable at par on December 31, 1961, or, at the option of the company, at any time after December 31, 1921, on six months' notice, at 105 per cent.

The accounts are made up annually to December 31, and submitted in May. In the life department there is a quinquennial valuation, the current period closing December 31, 1918. All the profits in the non-participation branch, and one-tenth of the profits in the participation branch, shown at this valuation, are carried to the shareholders' profit and loss account. The dividend for each of the twelve years to 1908 was 18s. per share; for 1909, 19s.; for 1910, 1911 and 1912, 22s.; and for 1913 and 1914, 24s. Life fund, £4,048,244; annuity funds, £905,162; general reserve fund, £1,000,000; fire reserve fund, £2,239,488; marine reserve fund, £391,047; accident reserve funds, £932,304; investment fluctuation fund, £755,000; carried forward, £882,465. On account of 1915 12s. per share was paid in November.

The company has adopted the provisions of the Forged Transfers Acts of 1891 and 1892, by which it undertakes to compensate parties suffering loss arising from forged transfers, but no charge is made for the protection thus afforded. Voting power, one vote for every share, provided such share has been held for three months. Transfers of shares are made in Liverpool; forms, common; fee, 2s. 6d. per deed. Transfers of debenture stock are made in Liverpool in amounts of £1 and multiples; forms, common; fee, 2s. 6d. Smallest holding of stock allowed, £25. Telegraphic address, Globe, Liverpool. Telephone number, 8033, Liverpool. The company is quoted in the official list. Latest prices—shares, 20; debenture stock, 84½; "Thames and Mersey" debenture stock, 92.

Up to the end of 1909 the company only transacted a life insurance business, but in 1910 it was decided to extend the scope of its operations, and the company now carries on every description of insurance business except marine; in 1911 the company acquired the undertaking of the Welsh Insurance Corporation, Limited, which was subsequently re-registered with a reduced capital, the whole of which is held by the London and Lancashire Life; and in 1912 the company purchased the shares of the Scottish Metropolitan Assurance Company, Limited, the A shares at £2 8s. 9d. per share, and the B shares at £8 2s. 6d. per share.

The authorised capital is now £350,000, having been increased in 1910 from £100,000 to £300,000 and in 1911 to £350,000; the shares, formerly of £10, were subdivided in 1910. The subscribed capital is £333,825 in shares of £5, of which £66,765, or £1 per share, has been paid up.

The accounts are made up annually to December 31, and submitted in April or May, and quinquennially the assets and liabilities of the life business are revalued, one-fifth of the declared surplus being apportioned to the shareholders, and the remaining four-fifths to the policy-holders, subject, however, to profit policies effected after December 31, 1897, participating to the extent of nine-tenths of the profits instead of four-fifths, the proprietors' share of the declared surplus being diminished by the amount required to carry this into effect. The next valuation takes place at the end of 1917. For the quinquennial period 1898-1902 the rate of dividend on the capital paid up or credited as paid up was 17½ per cent. per annum; for the period 1903-7, 20⅝; and for the period 1908-12, 15. For 1913 and 1914 15 per cent. was paid; and for 1915 a distribution of 15 per cent. has been declared, of which one-half was paid on July 1, 1915, and the balance is to be distributed on January 1, 1916 (on £1 per share, free of income tax). London and Midland Insurance Company, Limited.—*Directors:* B. B. van Praagh (Chairman), Sir S. Faire (Vice-Chairman), O. Gray, A. L. Chance, G. C. Cobb, L. Evans and F. Harper. *Secretary:* J. B. Harris. *Head and Registered Offices:* 213, Piccadilly, W.—The company was registered March 3, 1908, as the Midland Insurance Company, Limited. In September, 1910, the name was changed to the Midland and Textile Insurance Company, Limited, and in 1913 as above. At various times the company has taken over other businesses, and now transacts fire, personal accident, fidelity guarantee, employers' liability, burglary, plate glass and other general insurance business, but in 1914, on the outbreak of the war, it was decided to close up the foreign business, and only home business is now transacted, although the company owns the entire share capital of the London Mutual Fire Insurance Company of Canada. In connection with the writing down of the book value of certain assets, the capital was reduced and reorganised in 1913; and in 1914, on the closing up of the foreign business, it became necessary to raise further fresh capital, which was done by the issue of profit sharing bonds. The issued capital was formerly £191,186 in shares of £1, with £116,186 paid up, 41,186 shares being fully paid, and 150,000 having 10s. called. The reorganisation in 1913 involved the calling up of 6s. per share on the partly-paid shares; the division of each old share of £1 into two shares of 10s.—one preference and one ordinary (as regards the old partly-paid shares, the 10s. paid up was credited as 4s. on the new preference shares and as to 6s. on the ordinary), and the call of 6s. was credited to the new preference, while the sum of 5s. per share was then written off all the ordinary shares. The authorised capital is now £452,203 10s., £250,000 being in participating preference shares of 10s. and £202,203 10s. in ordinary shares of 5s.; of the preference capital, £95,555 10s. has been subscribed and called up, and of the ordinary capital £47,827 15s. has been subscribed, and £17,981 3s. paid up, 42,078 shares being fully paid and 149,233 having 1s. paid. The participating preference shares have a priority as to capital, rank first for 5 per cent. cumulative dividends and equally with the ordinary in surplus profits, after the latter have received 5 per cent., up to a total in all of 7 per cent. There are also—5 per cent. debentures of £5,000 each for £46,000, outstanding balance of £50,000, issued late in 1913, with interest payable January 1, April 1, July 1 and October 1, and the principal repayable at any time, at the option of the directors; and a loan of £2,500. In 1914-15 profit sharing bonds of £100 each for £50,000 were issued at par, entitled, through a trustee, to one fourth part of the future net profits, to be distributed amongst the bondholders pro rata; the bonds do not involve any capital liability, but the company has the right to repurchase them at par at any time up to 1924. The accounts are now made up annually to December 31, and submitted in May. No dividend has yet been paid. At the close of 1912 there was a debit to general revenue account of £3,904, which was extinguished in the reorganisation of capital, as well as £43,891 cost of businesses acquired, organisation and establishment account, and preliminary expenses; and at the close of 1913 there was a deficiency of £6,710, which was charged against the fire insurance fund, reducing it to £49,493. In 1914 some reorganisation of the business and of the revenue account took place, and after crediting revenue with £39,000, the amount received to December 31, 1914, on the profit-sharing bonds, there was a debit balance on revenue account of £3,885, subject to provision for unexpired risk, while on the same date "losses on closing of foreign and other accounts" of £60,803 figured among the assets. Reserve for outstanding claims, £12,340; reserve for outstanding liability on foreign business (now closed), £12,280. Voting power, one vote for each share. Director's qualification, £1,000 in shares. Transfer form, common; fee, 2s. 6d. Telegraphic address, Midinsura, London. Telephone number, 663 Regent.
